Epidemiological exercise on COVID 19

Batch D1(10th April 2020 onwards)

Teacher incharge: Dr J S Gothankar

Instructions

1. Students will share the ppt prepared
2. One exercise per student ,10 marks per exercise .
3. Prepare a powerpoint presentation not exceeding 10 slides
4. Quote references at the end in vacouver system

Sr. No.	Topic	Roll number
1	What are the strategies that a country can adopt to control the COVID pandemic. Discuss the strategy with respect to : Pros and cons,Time line for implementation of the strategy. Explain with the suitable example of the country/state which implemeted the strategy in best way	79
2.	How is covid 19 different from SARS and H1N1. Discuss with regard to origin of pandemic,index case,agent factors, reproduction rate,serial time ,mode of transmission, case fatality rate etc	80
3	Study of any state with regard to age and sex distribution,urban/rural distribution,comorbidity, presence of trigger factor for increase in number of cases etc(Report will be shared)	81
4	Describe Social and economic impact of the COVID 19 pandemic	82
5	Management of the COVID -19 case	83
6	Discuss in detail the Health system prepardness with regard to hospital beds,manpower and equipments	84
7	Success stories of some countries(South Korea, Japan etc.)	85
8	What are the longterm measures which you feel should be implemeted by government of India to tackle such a pandemic in the future	86
9	Write about the influenza pandemic of 1918 how differently the COVID -19 pandemic is managed at an international level	87
10	Comment on the epidemic curve of countries like China,south korea, Italy, spain,UK, USA and India	88
11	Role of herd immunity and testing methods for COVID 19	89
12	Do you think as on today India have sucessfully managed the pandemic , justify your answer	90
13	Dos and donts of the mask , provisions under epidemic disease act and disaster management act for control of COVID-19 infection	91

Bharati Vidyapeeth (DTU) Medical College, Pune

Department of Community Medicine

Report on participatory teaching through case presentations, Seminars and epidemiological exercises presentations by students in online teaching sessions during covid pandemic.

In teaching learning sessions of 6th Semester Morning posting, routinely each student present-

1. Clinical case OR clinicosocial case (presentation in house of patient residing in slum) OR
2. Seminar on national health programme
3. Is involved in Health education(HE) activity on selected topic in slum

Due to closure above teaching was modified as-

For cases, case studies were created and shared with students two days prior to the discussion along with reading material which included MUHS recommended you tube videos soft copies of reference book and printed journal.

Seminars--Student presented the case studies and seminar using PowerPoint presentation.

Questions based on reading material were asked to ensure they have read it.

Epidemiological Exercises ---Instead of HE activity, one epidemiological exercise on COVID was assigned to each student and reading material was suggested including MOHFW, ICMR, WHO websites. PowerPoint presentations were done by students.

Eg. of topics for exercise-

1. Success story of countries who controlled the pandemic
2. Social and economic impact of the pandemic
3. Role of herd immunity in control of COVID 19
4. Compare and contrast the influenza pandemic of 1918 with covid pandemic etc.

Participation was ensured by frequently asking questions.

Assessment --Students were assessed throughout the period of posting by assigning marks for presentation of Seminar, Case studies and covid exercises.

A term end MCQ test was conducted (10 marks) using google form and responses to MCQs were discussed immediately after conduction.

ONE-ON-ONE DEMONSTRATION

Bharati Vidyapeeth (Deemed to be University)
Dental College and Hospital, Sangli

PEER ASSISTED LEARNING

Peer-assisted learning (PAL) is a method of teaching in which students teach their often less-experienced peers. Whilst they gain more knowledge, peer tutors are able to convey information at a level that tutees can engage with. In the institute many departments to varying degrees employ this method where the students are asked to teach/demonstrate a short topic to their peers under the supervision of a teacher. This is especially useful in case of carving teeth from wax blocks, where repetitive demonstrations are often required.

BLENDLED LEARNING

Blended learning combines the benefits of face-to-face classroom and computer aided technology. The entire faculty in the institute at some point resort to blended learning. Use of learning management system like Google Classroom facilitates remote learning.

CASE BASED LEARNING

Based Learning is used in postgraduate and undergraduate programs to prepare the students to face real-life instances they may encounter in the future. The students are divided into small group on four- five, they were presented with a case with detailed history, clinical, radiographic and histopathologic images of the patient. The students are asked to diagnose the case and propose a treatment plan thus encouraging critical thinking in the presence of a facilitator.

CASE BASED LEARNING FEEDBACK REPORT

The case based learning session was held on 18th and 19th may 2021; 28 students participated they were divided in seven group. Each group was assigned one case and were asked to discuss, the clinical presentation, radiographic presentation, histopathologic features, discuss the differential diagnoses and propose a treatment plan. At end of the session the entire class was invited to give their feedback on the session. A link to google form was created which had 8 objective Likert scale questions and one open ended question forty nine students answered the questionnaire and the results were as follows.

Question	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
Case Based Learning session was very useful	31	16	2	0	0
Clinical cases given in the session were interesting	28	19	2	0	0
Case Based Learning session was very important in terms of development of critical thinking.	36	12	1	0	0
Case Based Learning model was useful in future application of knowledge	35	13	1	0	0
The session promoted meaningful learning than the didactic lecture	24	21	4	0	0
Case Based Learning session motivated you to learn clinical aspect of oral pathology	31	16	2	0	0
Group discussion during the case based session was very useful	23	23	3	0	0
Role of teacher was very important in case based learning session.	33	15	1	0	0

Suggestions received

1. CBL sessions should be arranged after each topic with more number of cases.
2. Quiz should be arranged as well

BHARATI VIDYAPEETH

**REPORT OF THE ICE BREAKING ACTIVITY CONDUCTED FOR
FIRST BDS-2020-21**

Date of Conduction: A- Batch 18/01/21, No. of students attended -33
B – Batch 20/01/21, No. of students attended -31
C – Batch 21/01/21 No. of students attended -33

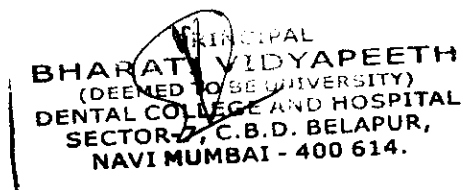

Activity Name: Ice breaking activity for team building

Purpose of the Activity: Make students compatible with peers and open up to teachers and friends without hesitation. Include everyone in day to day learning and form strong learning group. Reduce stress of entering a new course and form strong bond with the faculty and the Institute.

Details of activities conducted: Students were made to form small groups maintaining social distance, asked to give self introduction, hobbies, and why they chose BDS course.

Acting out a Scene: Each group has to choose a scenario for example,

1. How a doctor reacts in an emergency situation, how he/she should be acting and how he/she should not behave.
2. An emergency on a road with a cardiac arrest, how a doctor/common person should be acting responsibly and what should not be done during the scene.
3. Handling violence at the hospital against doctors.

PRINCIPAL
BHARATI VIDYAPEETH
(DEEMED TO BE UNIVERSITY)
DENTAL COLLEGE AND HOSPITAL
SECTOR-7, C.B.D. BELAPUR,
NAVI MUMBAI - 400 614.

4. Helping out an introvert student to gel with the group for studying together.
5. What are the responsible behaviors of a good student?
6. First day at dissection hall.
7. Types of students during online and offline lectures.

The students were given a time of 5 minutes to act the scene and other groups have to give evaluation on what was good in the act, what was the take home message and what could have been better.

Asking the students for help from Peers:

Each student was instructed to ask for the help required for them to understand or tackle difficulties in all the subjects from their batch mates. Whoever is willing can contact the student requiring help and students agreed to help out each other for further difficulties.

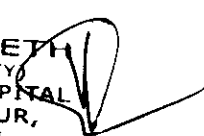

The activity ended with good team spirit and motivation in the students.

**REPORT OF THE MODEL COMPETITION ACTIVITY CONDUCTED FOR
FIRST BDS-2020-21**

Date of Conduction: 22-12-20

Activity Name: 3D- Model of Cell preparation - Competition

Number of students submitted: 83

Purpose of the Activity: Make students understand the components of the cell and bring out the artistic creativity. Increase the attention, curiosity and hands-on applicability of the Anatomical concepts.

Details of activities conducted: Students were asked to prepare the 3D model of cell and asked to submit when they attended offline session. Students had made beautiful models using various materials, the pictures of few has been attached along with the report.

Prize Distribution: One student model was selected based on the components, material used, durability and artistic creation. Book set of Inderbir Singh Anatomy textbooks were given as a prize for winner.

Winner – Ms.Sakshi Raajev Roll No:56

Subject - About Conducting a Quiz for third year BAMS students.

Respected Sir,

We the teachers from Department of Samhita and Siddhanta wish to conduct 2 quiz for third year BAMS students in the month of August 2020 and September 2020.

The Quiz will be based on the Nidan sthan and chikitsa sthan of Charak samhita. As third year students should be expertise in clinical diagnosis and Management of diseases in Ayurvedic aspects we wish to arrange this Quiz.

This quiz will be conducted in Third year class room. Dr Mrs Bhide and Dr. Mrs Yashashree Joshi will evaluate the students. It will be conducted in college without hampering their other lectures.

We will be thankful if you will allow us to conduct the quiz.

The details of the quiz will be declared later after getting list of participant students.

Thanks and Regards.

<https://drive.google.com/file/d/1inZW1FMUs2SCWgqx-ATA3qCnuwHL7XKU/view>

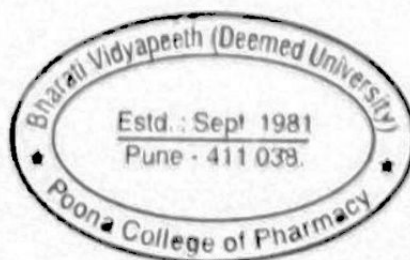

Innovative Practices: Flipped Class Room

The diabetes and complications of diabetes were presented as a pre-recorded session to the final year B.PharmSem VIII Students. The students were instructed to listen to the class and followed by which the quiz and discussion ensured the understanding of pathophysiology of diabetes. The link is as below:

Innovative Practices - Prescription Auditing

In the Final year B.PharmSem VIII Pharmacology IV Practicals, the students are asked to present a prescription of any patient and the prescription is audited and reviewed by the student. The clinical condition, correlating with the adverse effects, contra-indications and drug-drug interactions are reviewed during the discussion.

ACTIVITY REPORT

Name of Activity: Grooming session for B. Pharm, Pharm. D and M. Pharm students

Date / Period: 18.09.2021

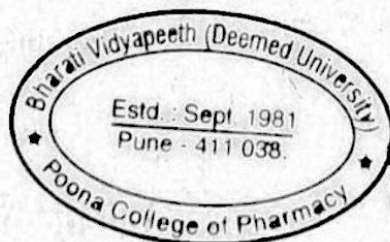

No. of Participants: 98

Class: Final Year B. Pharm, Pharm D, M. Pharm

Short Summary:

Training and Placement Cell Poona College of Pharmacy organized a virtual guest lecture on "Career in clinical research & Clinical data analysis" by **Mr. Peyush Rajput MD**, CEO Founder Kite AI Technology Pvt. Ltd Pune and **Ms. Gayatri Shardul** event organizer- Business Manager Operations Kite AI Technology Pune a key notes speakers in Healthcare and an IT professional with more than 8 years of experience in the industry.

A highly interactive session by our speakers guided students about various areas of clinical research, patient safety in clinical trials, regulations to conduct clinical trials, Pharmacovigilance she also suggested students about interview skills in clinical research. Then further lecture was continued by Mr. Peyush he enlightened areas of clinical data analysis and their importance in healthcare and pharmaceutical industry. He shared various information on SAS, R and Python. He cleared doubts of students on SAS, tabular data analysis and questions in students mind regarding interviews. This session motivated students to go and work in clinical research and Data analysis, focus on what interests them and to go after knowledge. Ms. Gayatri very well managed the virtual programme At the end of lecture speakers answered the various questions and doubts of the students. Session was well received by professors and students leaving them highly motivated.

WEBINAR on Careers in Clinical Research
in Association with
Poona College of Pharmacy

MMS ACADEMY

At MMS Academy, we believe in catering to the next generation of scientists and expanding learning beyond offices or classrooms. That's why we offer relevant courses and hands-on learning through our convenient global online platform. Created by subject matter experts and an award-winning, global CRO, MMS Academy empowers students around the world with the critical in-demand knowledge that they need to succeed in the pharmaceutical industry and beyond.

Special Thanks to **Dr. Mahadik Kakasaheb Ramoo**, Principal & Professor
 And **Dr. Vaibhav Shinde**, Assistant Professor for organising this Webinar

PURPOSE OF THE WEBINAR:

Awareness of career growth opportunities in the pharmaceutical industry.

What MMS Academy can offer students to reach their goals by enhancing their knowledge and skills in **Medical Writing**

Date: **20.09.2021**

Time: **3:00 pm – 4:30 pm**

Speakers of the Webinar:

Nandini Vijaisimha
 Director, HR & Administration

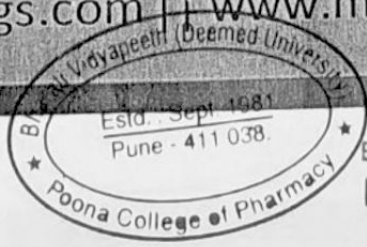

Susmita Sahu
 Senior Manager – I, Medical Writing

Sulakshana Nithyakanth
 Academic Relation Specialist

ACTIVITY REPORT

Activity No 5

Name of Activity: **Group Discussions of B Pharmacy students**

Date / Period: 19th to 20th Jan 2020

No. of Participants: 55

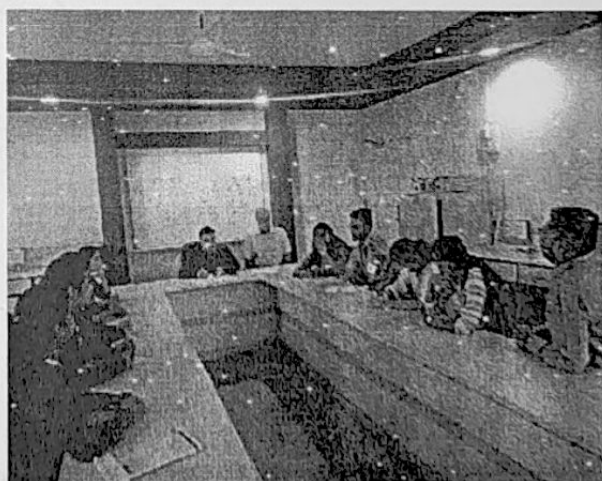

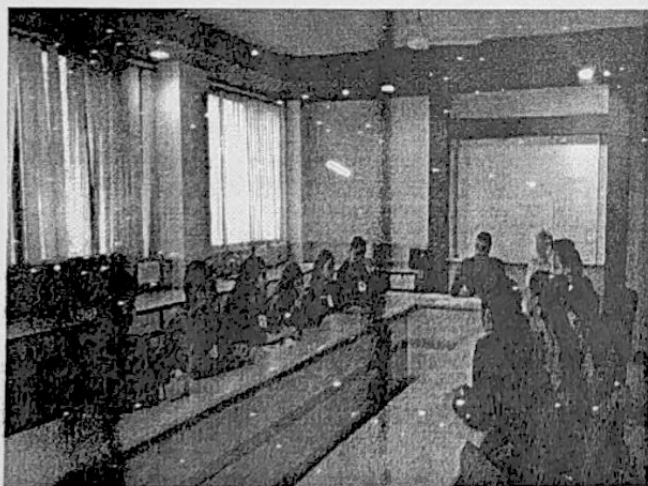

Class: IV B Pharma and Final year Pharm D students

Speaker: **Mr V. Chidgupkar**

Short Summary: The program was composed of group discussions and personal interviews. It was decided to implement such a program at the college level and make the students prepared for the interviews as Pharma students hardly find time to approach the private agencies to get themselves trained. **Mr V. Chidgupkar** having wide experience in this field was appointed. 55 students took the benefit of the **Mr V. Chidgupkar** and conducted group discussions on the topics such as 1) Use of online education in pharmacy 2) Pharmacy profession present status

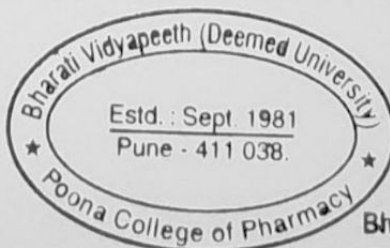

The students were divided into group of 12 and assessment was done on the basis of their communication skills, ability to support the colleague and endurance. He shared his experience with us and gave us valuable information which we must have while facing a group discussion and interview as well. A great discussion was carried on throughout the lecture and he personally noted our weaknesses and strengths while taking mock group discussions and made us realize them which would help students to face further group discussions confidently. The one to one personal interviews were also conducted to make the students understand the interview process.

ACTIVITY REPORT

Name of Activity: Placement Brochure Opening Programme

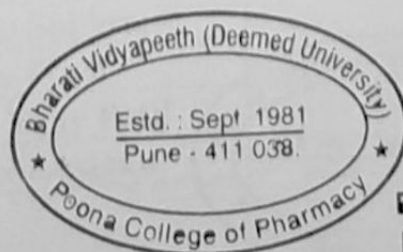

Date / Period: 24/12/2020

No. of Participants: 40

Short Summary:

The most awaited programme of Poona College of Pharmacy, i.e. the release of placement brochure, was held on 24th December 2020. The programme was initiated with a heartwarming welcome speech of Dr. Atmaram Pawar, Incharge Principal, Poona College of Pharmacy. He addressed students about the various placement activities that is held in the college. He encouraged students by addressing about late Patangrao Kadam and how his working ethics brought change and turned BVP into what it is today. Then Dr. Atmaram Pawar, welcomed our chief guest of the day honorable G. Jayakumar Registrar, Bharati Vidyapeeth, Pune. Dr. Sharvil Patil introduced the chief guest with his achievements and the contribution, years of experience and hardwork that he had put into Bharati Vidyapeeth to make it a successful organization and one of the best institutes in education. The guest was felicitated by Dr. Atmaram Pawar (In-charge Principal), Dr. Varsha Pokharkar (Vice Principal), Dr. Janhavi Rao (Vice Principal) and Dr. Vaibhav Shinde (Placement In-charge). The programme was further moved to the main event i.e. opening of the brochure by Chief guest G. Jaykumar. After the successful release of the brochure, a brief introduction of placement cell was given by Dr. Vaibhav Shinde. He gave the new outlook over placements that will be held in coming years and promised growth in placement activities at Poona College of Pharmacy.

The chief guest G. Jaykumar gave an awe-inspiring speech and enlightened everyone with his experiences showing how he worked for Bharati Vidyapeeth for last 20 years and encouraged students with his valuable words of wisdom about research and other sectors. The programme was concluded with vote of thanks by Dr. Prasanna Deshpande.

Incharge Principal
Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 038.

All the placement committee members and the students were pleased to be the part of the programme.

Contains Nonbinding Recommendations

**E6(R2) Good Clinical Practice: Integrated Addendum to ICH
E6(R1)
Guidance for Industry¹**

This guidance represents the current thinking of the Food and Drug Administration (FDA or Agency) on this topic. It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. To discuss an alternative approach, contact the FDA office responsible for this guidance as listed on the title page.

INTRODUCTION

Good Clinical Practice (GCP) is an international ethical and scientific quality standard for designing, conducting, recording and reporting trials that involve the participation of human subjects. Compliance with this standard provides public assurance that the rights, safety, and well-being of trial subjects are protected, consistent with the principles that have their origin in the Declaration of Helsinki, and that the clinical trial data are credible.

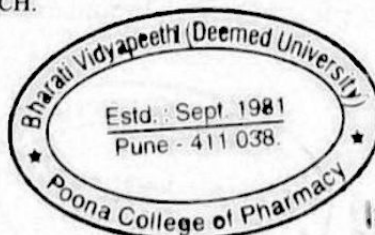

The objective of this ICH GCP guidance is to provide a unified standard for the European Union, Japan, and the United States to facilitate the mutual acceptance of clinical data by the regulatory authorities in these jurisdictions.

The guidance was developed with consideration of the current good clinical practices of the European Union, Japan, and the United States, as well as those of Australia, Canada, the Nordic countries, and the World Health Organization.

This guidance should be followed when generating clinical trial data that are intended to be submitted to regulatory authorities.

The principles established in this guidance may also be applied to other clinical investigations that may have an impact on the safety and well-being of human subjects.

¹ This guidance was developed within the Expert Working Group (Procedural) of the International Council for Harmonisation of Technical Requirements for Pharmaceuticals for Human Use (ICH) (formerly the International Conference on Harmonisation of Technical Requirements for Registration of Pharmaceuticals for Human Use) and has been subject to consultation by the regulatory parties, in accordance with the ICH process. This document has been endorsed by the ICH Management Committee at Step 4 of the ICH process, November 2016. At Step 4 of the process, the final draft is recommended for adoption to the regulatory bodies of the European Union, Japan, and the United States authorities represented at ICH.

I. GLOSSARY

1.1 Adverse Drug Reaction (ADR)

In the preapproval clinical experience with a new medicinal product or its new usages, particularly as the therapeutic dose(s) may not be established, all noxious and unintended responses to a medicinal product related to any dose should be considered adverse drug reactions. The phrase "responses to a medicinal product" means that a causal relationship between a medicinal product and an adverse event is at least a reasonable possibility, i.e., the relationship cannot be ruled out.

Regarding marketed medicinal products: A response to a drug which is noxious and unintended and which occurs at doses normally used in man for prophylaxis, diagnosis, or therapy of diseases or for modification of physiological function (see the ICH Guideline for Clinical Safety Data Management: Definitions and Standards for Expedited Reporting).

1.2 Adverse Event (AE)

Any untoward medical occurrence in a patient or clinical investigation subject administered a pharmaceutical product and which does not necessarily have a causal relationship with this treatment. An AE can therefore be any unfavorable and unintended sign (including an abnormal laboratory finding), symptom, or disease temporally associated with the use of a medicinal (investigational) product, whether or not related to the medicinal (investigational) product (see the ICH Guidance for Clinical Safety Data Management: Definitions and Standards for Expedited Reporting).

1.3 Amendment (to the protocol)

See Protocol Amendment.

1.4 Applicable Regulatory Requirement(s)

Any law(s) and regulation(s) addressing the conduct of clinical trials of investigational products.

1.5 Approval (in relation to institutional review boards (IRBs))

The affirmative decision of the IRB that the clinical trial has been reviewed and may be conducted at the institution site within the constraints set forth by the IRB, the institution, good clinical practice (GCP), and the applicable regulatory requirements.

1.6 Audit

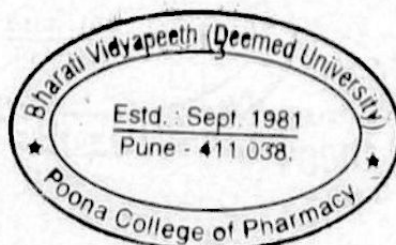

A systematic and independent examination of trial-related activities and documents to determine whether the evaluated trial-related activities were conducted, and the data were recorded, analyzed, and accurately reported according to the protocol, sponsor's standard operating procedures (SOPs), good clinical practice (GCP), and the applicable regulatory requirement(s).

1.7 Audit Certificate

A declaration of confirmation by the auditor that an audit has taken place.

1.8 Audit Report

A written evaluation by the sponsor's auditor of the results of the audit.

Incharge Principal
Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 008.

1.9 Audit Trail

Documentation that allows reconstruction of the course of events.

1.10 Blinding/Masking

A procedure in which one or more parties to the trial are kept unaware of the treatment assignment(s). Single-blinding usually refers to the subject(s) being unaware, and double-blinding usually refers to the subject(s), investigator(s), monitor, and, in some cases, data analyst(s) being unaware of the treatment assignment(s).

1.11 Case Report Form (CRF)

A printed, optical, or electronic document designed to record all of the protocol required information to be reported to the sponsor on each trial subject.

1.12 Clinical Trial/Study

Any investigation in human subjects intended to discover or verify the clinical, pharmacological and/or other pharmacodynamic effects of an investigational product(s), and/or to identify any adverse reactions to an investigational product(s), and/or to study absorption, distribution, metabolism, and excretion of an investigational product(s) with the object of ascertaining its safety and/or efficacy. The terms clinical trial and clinical study are synonymous.

1.13 Clinical Trial/Study Report

A written description of a trial/study of any therapeutic, prophylactic, or diagnostic agent conducted in human subjects, in which the clinical and statistical description, presentations, and analyses are fully integrated into a single report (see the ICH Guidance for Structure and Content of Clinical Study Reports).

1.14 Comparator (Product)

An investigational or marketed product (i.e., active control), or placebo, used as a reference in a clinical trial.

1.15 Compliance (in relation to trials)

Adherence to all the trial-related requirements, good clinical practice (GCP) requirements, and the applicable regulatory requirements.

1.16 Confidentiality

Prevention of disclosure, to other than authorized individuals, of a sponsor's proprietary information or of a subject's identity.

1.17 Contract

A written, dated, and signed agreement between two or more involved parties that sets out any arrangements on delegation and distribution of tasks and obligations and, if appropriate, on financial matters. The protocol may serve as the basis of a contract.

1.18 Coordinating Committee

A committee that a sponsor may organize to coordinate the conduct of a multicenter trial.

Contains Nonbinding Recommendations

1.19 Coordinating Investigator

An investigator assigned the responsibility for the coordination of investigators at different centers participating in a multicenter trial.

1.20 Contract Research Organization (CRO)

A person or an organization (commercial, academic, or other) contracted by the sponsor to perform one or more of a sponsor's trial-related duties and functions.

1.21 Direct Access

Permission to examine, analyze, verify, and reproduce any records and reports that are important to evaluation of a clinical trial. Any party (e.g., domestic and foreign regulatory authorities, sponsor's monitors, and auditors) with direct access should take all reasonable precautions within the constraints of the applicable regulatory requirement(s) to maintain the confidentiality of subjects' identities and sponsor's proprietary information.

1.22 Documentation

All records, in any form (including, but not limited to, written, electronic, magnetic, and optical records, and scans, x-rays, and electrocardiograms) that describe or record the methods, conduct, and/or results of a trial, the factors affecting a trial, and the actions taken.

1.23 Essential Documents

Documents that individually and collectively permit evaluation of the conduct of a study and the quality of the data produced (see section 8. "Essential Documents for the Conduct of a Clinical Trial").

1.24 Good Clinical Practice (GCP)

A standard for the design, conduct, performance, monitoring, auditing, recording, analyses, and reporting of clinical trials that provides assurance that the data and reported results are credible and accurate, and that the rights, integrity, and confidentiality of trial subjects are protected.

1.25 Independent Data Monitoring Committee (IDMC) (Data and Safety Monitoring Board, Monitoring Committee, Data Monitoring Committee)

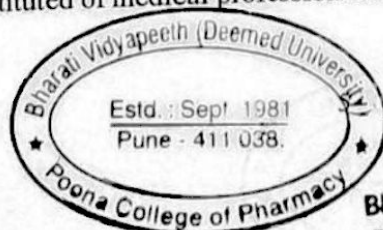

An independent data monitoring committee that may be established by the sponsor to assess at intervals the progress of a clinical trial, the safety data, and the critical efficacy endpoints, and to recommend to the sponsor whether to continue, modify, or stop a trial.

1.26 Impartial Witness

A person, who is independent of the trial, who cannot be unfairly influenced by people involved with the trial, who attends the informed consent process if the subject or the subject's legally acceptable representative cannot read, and who reads the informed consent form and any other written information supplied to the subject.

1.27 Independent Ethics Committee (IEC)

An independent body (a review board or a committee, institutional, regional, national, or supranational), constituted of medical professionals and non-medical members, whose

Incharge Principal
Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 038.

Contains Nonbinding Recommendations

responsibility it is to ensure the protection of the rights, safety and well-being of human subjects involved in a trial and to provide public assurance of that protection, by, among other things, reviewing and approving/providing favorable opinion on the trial protocol, the suitability of the investigator(s), facilities, and the methods and material to be used in obtaining and documenting informed consent of the trial subjects.

The legal status, composition, function, operations and regulatory requirements pertaining to Independent Ethics Committees may differ among countries, but should allow the Independent Ethics Committee to act in agreement with GCP as described in this guidance.

1.28 Informed Consent

A process by which a subject voluntarily confirms his or her willingness to participate in a particular trial, after having been informed of all aspects of the trial that are relevant to the subject's decision to participate. Informed consent is documented by means of a written, signed, and dated informed consent form.

1.29 Inspection

The act by a regulatory authority(ies) of conducting an official review of documents, facilities, records, and any other resources that are deemed by the authority(ies) to be related to the clinical trial and that may be located at the site of the trial, at the sponsor's and/or contract research organization's (CROs) facilities, or at other establishments deemed appropriate by the regulatory authority(ies).

1.30 Institution (medical)

Any public or private entity or agency or medical or dental facility where clinical trials are conducted.

1.31 Institutional Review Board (IRB)

An independent body constituted of medical, scientific, and nonscientific members, whose responsibility is to ensure the protection of the rights, safety and well-being of human subjects involved in a trial by, among other things, reviewing, approving, and providing continuing review of trial protocols and amendments and of the methods and material to be used in obtaining and documenting informed consent of the trial subjects.

1.32 Interim Clinical Trial/Study Report

A report of intermediate results and their evaluation based on analyses performed during the course of a trial.

1.33 Investigational Product

A pharmaceutical form of an active ingredient or placebo being tested or used as a reference in a clinical trial, including a product with a marketing authorization when used or assembled (formulated or packaged) in a way different from the approved form, or when used for an unapproved indication, or when used to gain further information about an approved use.

1.34 Investigator

A person responsible for the conduct of the clinical trial at a trial site. If a trial is conducted by a

Contains Nonbinding Recommendations

team of individuals at a trial site, the investigator is the responsible leader of the team and may be called the principal investigator. (See also Subinvestigator.)

1.35 Investigator/Institution

An expression meaning "the investigator and/or institution, where required by the applicable regulatory requirements."

1.36 Investigator's Brochure

A compilation of the clinical and nonclinical data on the investigational product(s) that is relevant to the study of the investigational product(s) in human subjects (see section 7. "Investigator's Brochure").

1.37 Legally Acceptable Representative

An individual or juridical or other body authorized under applicable law to consent, on behalf of a prospective subject, to the subject's participation in the clinical trial.

1.38 Monitoring

The act of overseeing the progress of a clinical trial, and of ensuring that it is conducted, recorded, and reported in accordance with the protocol, standard operating procedures (SOPs), GCP, and the applicable regulatory requirement(s).

1.39 Monitoring Report

A written report from the monitor to the sponsor after each site visit and/or other trial-related communication according to the sponsor's SOPs.

1.40 Multicenter Trial

A clinical trial conducted according to a single protocol but at more than one site, and therefore, carried out by more than one investigator.

1.41 Nonclinical Study

Biomedical studies not performed on human subjects.

1.42 Opinion (in relation to Independent Ethics Committee)

The judgment and/or the advice provided by an Independent Ethics Committee (IEC).

1.43 Original Medical Record

See Source Documents.

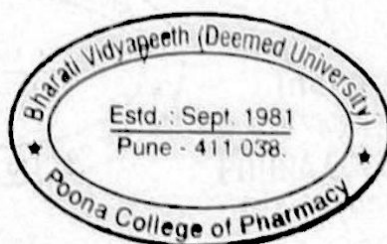

1.44 Protocol

A document that describes the objective(s), design, methodology, statistical considerations, and organization of a trial. The protocol usually also gives the background and rationale for the trial, but these could be provided in other protocol referenced documents. Throughout the ICH GCP Guidance, the term protocol refers to protocol and protocol amendments.

1.45 Protocol Amendment

A written description of a change(s) to or formal clarification of a protocol.

Incharge Principal
Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 038.

Contains Nonbinding Recommendations

1.46 Quality Assurance (QA)

All those planned and systematic actions that are established to ensure that the trial is performed and the data are generated, documented (recorded), and reported in compliance with GCP and the applicable regulatory requirement(s).

1.47 Quality Control (QC)

The operational techniques and activities undertaken within the quality assurance system to verify that the requirements for quality of the trial-related activities have been fulfilled.

1.48 Randomization

The process of assigning trial subjects to treatment or control groups using an element of chance to determine the assignments in order to reduce bias.

1.49 Regulatory Authorities

Bodies having the power to regulate. In the ICH GCP guidance, the expression "Regulatory Authorities" includes the authorities that review submitted clinical data and those that conduct inspections (see 1.29). These bodies are sometimes referred to as competent authorities.

1.50 Serious Adverse Event (SAE) or Serious Adverse Drug Reaction (Serious ADR)

Any untoward medical occurrence that at any dose:

- Results in death,
- Is life-threatening,
- Requires inpatient hospitalization or prolongation of existing hospitalization,
- Results in persistent or significant disability/incapacity, or
- Is a congenital anomaly/birth defect.

(See the ICH guidance for Clinical Safety Data Management: Definitions and Standards for Expedited Reporting.)

1.51 Source Data

All information in original records and certified copies of original records of clinical findings, observations, or other activities in a clinical trial necessary for the reconstruction and evaluation of the trial. Source data are contained in source documents (original records or certified copies).

1.52 Source Document

Original documents, data, and records (e.g., hospital records, clinical and office charts, laboratory notes, memoranda, subjects' diaries or evaluation checklists, pharmacy dispensing records, recorded data from automated instruments, copies or transcriptions certified after verification as being accurate copies, microfiches, photographic negatives, microfilm or magnetic media, x-rays, subject files, and records kept at the pharmacy, at the laboratories and at medico-technical departments involved in the clinical trial).

1.53 Sponsor

An individual, company, institution, or organization that takes responsibility for the initiation,

Contains Nonbinding Recommendations

management, and/or financing of a clinical trial.

1.54 Sponsor-Investigator

An individual who both initiates and conducts, alone or with others, a clinical trial, and under whose immediate direction the investigational product is administered to, dispensed to, or used by a subject. The term does not include any person other than an individual (e.g., it does not include a corporation or an agency). The obligations of a sponsor-investigator include both those of a sponsor and those of an investigator.

1.55 Standard Operating Procedures (SOPs)

Detailed, written instructions to achieve uniformity of the performance of a specific function.

1.56 Subinvestigator

Any individual member of the clinical trial team designated and supervised by the investigator at a trial site to perform critical trial-related procedures and/or to make important trial-related decisions (e.g., associates, residents, research fellows). See also Investigator.

1.57 Subject/Trial Subject

An individual who participates in a clinical trial, either as a recipient of the investigational product(s) or as a control.

1.58 Subject Identification Code

A unique identifier assigned by the investigator to each trial subject to protect the subject's identity and used in lieu of the subject's name when the investigator reports adverse events and/or other trial-related data.

1.59 Trial Site

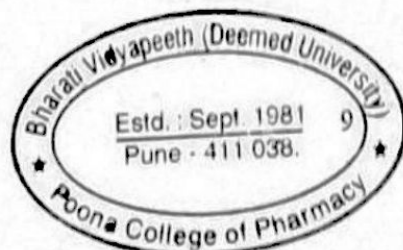

The location(s) where trial-related activities are actually conducted.

1.60 Unexpected Adverse Drug Reaction

An adverse reaction, the nature or severity of which is not consistent with the applicable product information (e.g., Investigator's Brochure for an unapproved investigational product or package insert/summary of product characteristics for an approved product). (See the ICH Guidance for Clinical Safety Data Management: Definitions and Standards for Expedited Reporting.)

1.61 Vulnerable Subjects

Individuals whose willingness to volunteer in a clinical trial may be unduly influenced by the expectation, whether justified or not, of benefits associated with participation, or of a retaliatory response from senior members of a hierarchy in case of refusal to participate. Examples are members of a group with a hierarchical structure, such as medical, pharmacy, dental, and nursing students, subordinate hospital and laboratory personnel, employees of the pharmaceutical industry, members of the armed forces, and persons kept in detention. Other vulnerable subjects include patients with incurable diseases, persons in nursing homes, unemployed or impoverished persons, patients in emergency situations, ethnic minority groups, homeless persons, nomads, refugees, minors, and those incapable of giving consent.

Incharge Principal
Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 008.

Contains Nonbinding Recommendations

1.62 Well-being (of the trial subjects)

The physical and mental integrity of the subjects participating in a clinical trial.

ADDENDUM

1.63 Certified Copy

A copy (irrespective of the type of media used) of the original record that has been verified (i.e., by a dated signature or by generation through a validated process) to have the same information, including data that describe the context, content, and structure, as the original.

1.64 Monitoring Plan

A document that describes the strategy, methods, responsibilities, and requirements for monitoring the trial.

1.65 Validation of Computerized Systems

A process of establishing and documenting that the specified requirements of a computerized system can be consistently fulfilled from design until decommissioning of the system or transition to a new system. The approach to validation should be based on a risk assessment that takes into consideration the intended use of the system and the potential of the system to affect human subject protection and reliability of trial results.

A total of 117 employees were interviewed and examined by the Pharm D Students and staff. The details of oral examination findings along with demography, medical and social history were filled in a systematically designed oral cancer screening proforma. The screening revealed high incidences of stains, calculus, carries and crowding. Eleven individuals were suspected with leukoplakia, four with tobacco pouch keratosis, three with oral submucosa fibrosis and one with asymptomatic lichen planus. Further, the potential candidates for oral lesions were sent for clinical/diagnostic screenings performed by a team of dental practitioner. Saliva samples were taken from 8 individuals with leukoplakia, 3 individuals with oral sub mucosa fibrosis and one individual with asymptomatic lichen planus for further lesion analysis. About 108 potential candidates were screened clinically and were provided with medical advice.

REPORT OF ORAL CANCER SCREENING CAMP

16 JANUARY 2020

The Department of Pharmacy Practice with Pharm.D students and in collaboration with oral medicine, oral pathology and public dentistry department from Bharati Vidyapeeth University Dental College conducted an "Oral Cancer Screening Camp" for Pune Municipal Transport Depot employees. The programme was organized on the occasion of "Dr. Patangrao Kadam Saheb's Jayanti".

The objective of the camp and need for screening the employees of the depot was narrated by the programme coordinator Dr. Asawari Raut. She highlighted the benefits of oral screening and how the camp would be beneficial for preventing the incidence of oral cancer in future. Mr. Chandrakant Varpe, the depot manager encouraged the employees to participate and take further advice and needed medical care from the camp.

**TRENDS OF POISONING IN RURAL AREA AND PROFESSIONAL
CHALLENGES IN MANAGEMENT OF POISONING- A QUALITATIVE
STUDY**

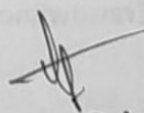

Exposure To Pesticides And Related Health Effects In Farmers Of Maharashtra :

Pesticides are poisons and, unfortunately, they can harm more than just the "pests" at which they are targeted. Synthetic pesticides have been popular with farmers in India, because of their ready availability, easy application, efficacy, and economic returns. But they also have huge environmental and health costs. After India's Green Revolution started, the consumption of pesticides in India has increased several hundred folds, from 154 MT in 1954 to 57,000 MT in 2016-2017. Hazard of using pesticides is the degree of danger involved in using a pesticide under a given set of conditions. Pesticide use is extensive in Maharashtra specially in vegetable and fruit farming.

The villages with exclusive grape and vegetable farming, Tasgao, Manerajouri, Yedgao and Gunjalwadi were selected. An extensive study was conducted on commercial pesticide sprayers and farmers to understand the pattern of pesticide use, its handling, dilution, spraying details and storage. A systematic questionnaire which consists of demographic details of farmers along with type of farming, choice of pesticide and his level of awareness regarding pesticide use was designed. Face to face interviews were conducted of the farmers and pesticide sprayers involved in farming from 5 years and above. Availability of pesticides consultation centre in the village and if they receive any consultations from them was also enquired. A brief information on any health side effects of pesticide exposure was collected by the same questionnaire.

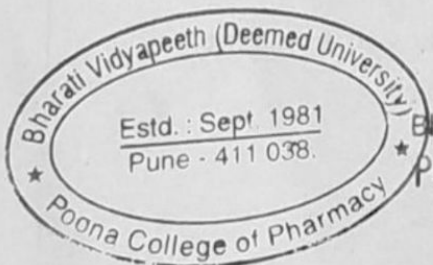

Multiple visits were made and a total of 350 farmers were enrolled in the study. The most common finding the mode of information for pesticide choice is the shopkeeper. No authentic information the farmers ever sought from the agriculture or other official resources. There is awareness regarding biopesticides but the use is restricted due to cost and non popularity amongst users.

Incharge Principal
Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 088.

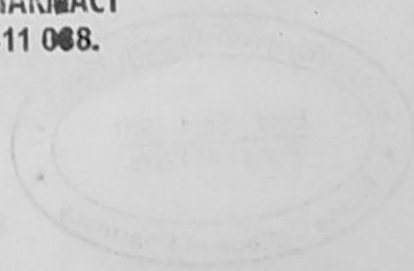

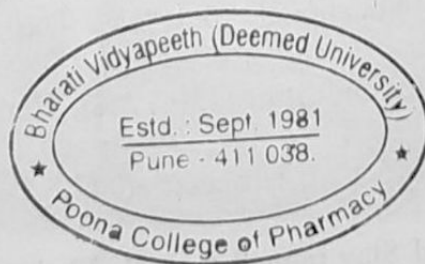

The interview also focussed on adverse health effects and any signs of pesticides poisoning present in farmers, pesticides sprayers. Clinical details such as BMI, Blood pressure, Disease history and Family history were collected.

Incharge Principal

Pesticides are handled without proper protective measures, which increases the risk of occupational pesticides and their absorption in the body through skin, lungs, and ingestion. Field studies are required to assess the risk of occupational pesticide hazards. Therefore, this analytical study was carried out for quantification of pesticide level in farmers.

Serum cholinesterase (SChE) activity is considered as a biomarker and is also taken as an exposure index to assess the low level, chronic residue exposures among sprayers. Serum Cholinesterase measurement can be the exposure index to assess low level chronic residue exposures among sprayers. Blood samples were collected from 73 volunteers of commercial sprayers and were estimated with SChE levels by using Ellman's method in pathology laboratory. Further, the blood samples were analysed for metabolite concentrations and body burden of pesticide using Liquid Chromatography couple to Mass Spectrometry (LC-MS-MS) and Gas Chromatography coupled to Mass Spectrometry (GC-MS-MS) methods.

Prevalence of Poisoning in Rural Areas of Maharashtra:

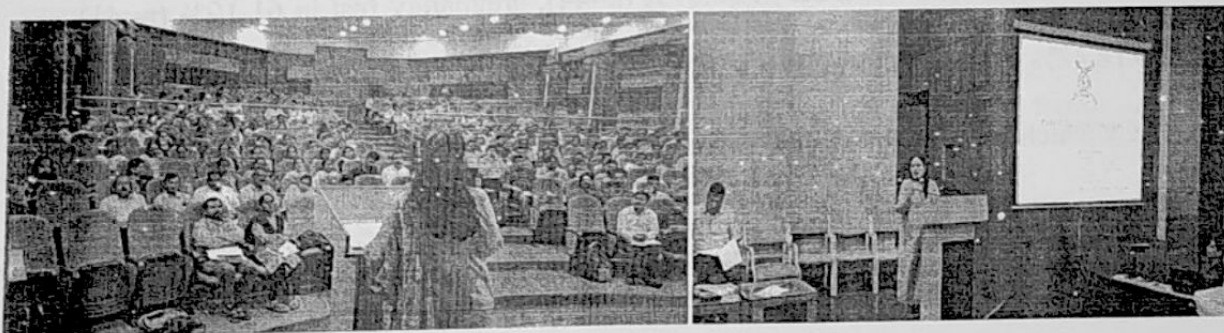

Retrospective data was collected from 2015-2019. A total of 386 cases of poisoning were obtained from the medical record department of the rural hospital, out of which 218 (56.47%) were male and 168 (43.52%) were female. The age of patients ranged from 0-83 years. The reason for poisoning was primarily Accidental (48.96%) than Intentional (42.22%) and Unknown (8.80%) and Route of exposure was predominantly Bite/Sting (50.77%) followed by Ingestion (48.70%) and Inhalational (0.51%). The agents responsible were categorized as Animal Bites and Stings (50.77%), Household and Agricultural Products (41.45%), Drugs (5.8%), Unspecified (1.55%) and, Miscellaneous (0.51 %). Length of Hospital Stay ranged from 1-33 days with an average duration of stay of

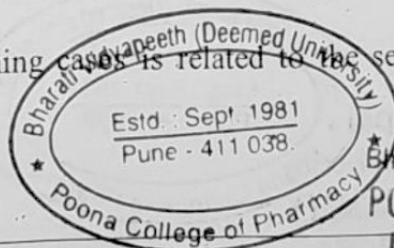

Incharge Principal
Bharati Vidyapeeth (Deemed University)
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 008.

5.74 days. Mortality reported was 3.63% and symptoms improved in most (94.81%) cases but 1.55% were DAMA (Discharged against Medical Advice). Descriptive information, including age, gender, type and route of exposure, length of hospital stay, and outcome of the poisoned patients, **Physician's Perspective Regarding Management Of Poisoning Cases :**

The survey was completed by a total of 67 respondents. Two separate survey forms were provided to the respondents: Pattern of poisoning in rural areas of Pune district and Facilities at PHC. The response rate for the former was 100% whereas the response rate for the second form was 71.64%. Qualitative analysis of the interview data provided an exploration of the doctor's experiences and perceptions about treating poisoning patients. Four key themes have been established from the study and are discussed here with the help of relevant quotes from the interview. 1. Practice environment From the point of view of service delivery, PHCs maybe of two types depending on the delivery case load – Type A and Type B. Type A PHC: PHC with a delivery load of less than 20 deliveries per month, Type B PHC: PHC with a delivery load of 20 or more deliveries per month. Twenty five percent (n=17) of all respondents served in Type A PHCs and fifteen percent (n=10) worked at Type B PHCs. The bed occupancy rate was 60 % in 15 PHCs. The majority of the respondents were PHC officers from the north region of Pune district (n=25), followed by the west (n=13), south (n=12) and east (n=9).

Frequency of poisoning shows the most common poisonings encountered by the sample respondents. The frequency of poisoning cases is related to the season. Snake bites occur

Incharge Principal
Bharati Vidyapeeth (Deemed University)
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 088.

more commonly in the winter and the monsoon season. As these PHCs are mainly located in rural areas, animal bites and stings were the most commonly encountered poisoning cases followed by pesticides and alcohol poisoning. Poisoning with household items and medicines were also reported by the sample respondents. The majority of the respondents (n=45) encountered around 1-5 poisoning cases per month at their PHCs. Seven respondents claimed that they get around 6- 10 poisoning cases per month at their PHCs, four respondents answered that they encounter more than 10 cases per month while 11 of them provided no answer to this survey question.

Availability of resources shows the various resources available in the PHCs. Assured availability of services includes providing the patients with OPD (Outpatient department), IPD (Inpatient department) and emergency medical services. 70.15% (n=47) of the respondents claimed that they provide OPD services at their PHC, 67.16% (n=45) of the PHCs provide IPD services and 68.66% (n=46) provide emergency medical services. Emergency laboratory services mentioned in our survey questionnaire are urine test, stool test, blood grouping, blood test, bleeding time (BT), clotting time (CT), blood sugar level (BSL), pregnancy test, ECG and measurement of Serum cholinesterase levels. Urine test, stool test and blood test services were provided by 59.70% (n=40) of the PHCs. Test for determining the blood group was provided in 62.69% (n=42) of the PHCs. BT & CT services were available in 49.25% (n=33), BSL in 65.67% (n=44), pregnancy test in 61.19% (n=41) and, ECG in 16.42% (n=11) of the PHCs. Fifty eight percent (n=39) of the respondents worked at PHCs which had transport. Twenty eight respondents did not provide any answers regarding the availability or non-availability of transport facilities in the practice setting. On being questioned regarding the availability of antidotes for the management of poisoning cases in the PHC, majority of the respondents (n=30) claimed that it is not available

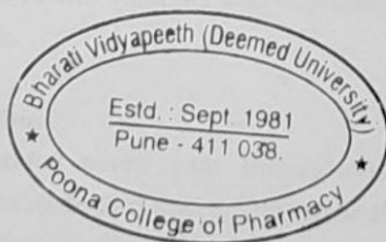

Incharge Principal *
Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Pune - 411 038.

regularly. Sixteen respondents answered yes while the remaining did not provide any answer for this question.

Another group of issues described by the doctors regarding poisoning cases revolve around the knowledge and training of the hospital staffs. The doctors also explained how a significant shortage of human and other resources in rural hospital setting will not help the professional growth of rural hospital physicians. **Lack of trained staff** at the PHC was also reported by most of the respondents.

The physicians stressed on the **importance of continuing professional education** for understanding the recent advances in the management of poisoning cases. On being given provided with various options for continuing education regarding handling of poisoning cases, majority of the respondents preferred workshop followed by lecture/online lecture, conference, modules, certificate programs and, newsletters. Some physicians were in support of online mode of education.

Cultural Report 2020-2021

1. Yoga Day Celebration

The International Day of Yoga 2020 was celebrated on 21st June 2020 by all the faculty members and students of Poona College of Pharmacy at home.

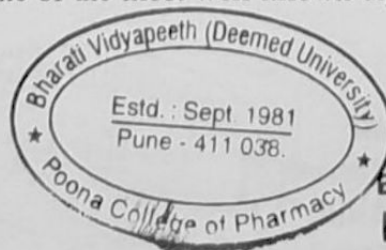

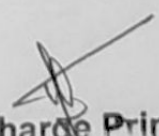

2. Farewell program for B. Pharm

Farewell to Final Year B Pharm students was organized online on Zoom Platform on 16th August 2020 at 11.00 am.

3. Teachers Day Celebration

Teachers' day is celebrated every year throughout the country on 5th September. Students express their gratitude and appreciation for their teachers on this day. This day is dedicated to Dr. Sarvepalli Radhakrishnan –second President of India. The great academic philosopher, and one of the most well known diplomats, scholar, president of

Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 088.

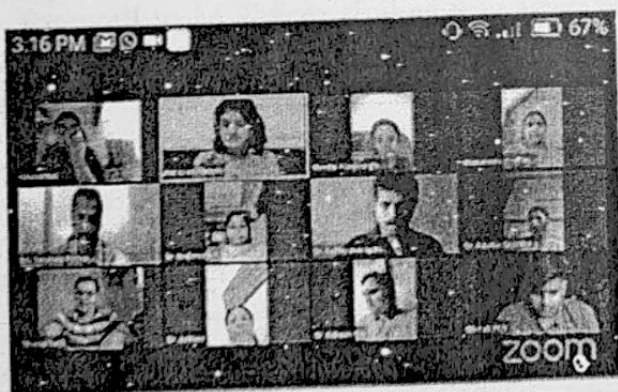

India and above all a teacher. As a tribute to this great teacher, his birthday has been observed as teachers' day.

Students of Bharati Vidyapeeth (Deemed to be) University, Poona College of Pharmacy, celebrated Teachers Day on 5th September 2020 by organizing a function for teachers at 3.00-4.30 pm online on ZOOM platform. The online lectures were conducted by the students on B. Pharm and Pharm D classes on MS Teams platform from 10.00 to 12.15 pm. To honor the retired teachers students used #ourteachersourheroes on Instagram.

Time- Table

Date- 5th Sept 2020

Batch	Lecture 1 (10am)	Lecture 2 (11:15am)

4. **Elocution Competition IPA** - Ms. Kangan Ghadiali of Pharm D won first prize (PG Section) in online Elocution Competition conducted by IPA, Pune branch on World Pharmacist Day on 25th Sept 2020.

5. **Elocution Competition PCP-**

On the occasion of World Pharmacist Day, online Elocution Competition was organized on 25th Sept 2020 on the topic Electronic Health Records: Boon or Bane for a Pharmacist?

Winner – Ms. Sonali Apte

6. **Gandhi Jayanti ADVITIYA 2020**

On the occasion of Gandhi Jayanti Drawing Competition and Mini-Tale competition was organized online on 2nd OCT 2020.

1. **Drawing Competition** – Theme – Patriotism in Action

Winners- 1.

2 Rishabh Tathed

3 Shivani Horne

2. **Mini-Tale competition** Theme – My Kind of Freedom

Winners- 1. Jayashree More

2 Manasi Jadhav

3 Dikshika Chennalath

7. **Farewell to M Pharm**

Farewell to M Pharm student was arranged online on Zoom platform on 4th Oct 2020 at 4.00-5.00 pm.

8. **Blogethon** – A blog writing competition was organized on 24th Dec 2020 online. The videos were posted on social media and e-certificates were distributed to winners and participants.

	Name of the student	Topic
Winner	Ms. Niraja Soman	Rescued animals, Animal love
Runner up	Ms. Khujith Rajeuni	Women safety in India

9. **Savitribai Phule Elocution Competition-** An elocution competition in Marathi was organized on 3rd Jan 2021 on Smt Savitribai Phule.

Winners- 1. Ms. Karishma Kedari

2. Ms. Asmita Sawant

3. Ms. Shruti Joshi

Incharge Principal
Bharati Vidyapeeth Deemed University
POONA COLLEGE OF PHARMACY
Erandwane, Pune - 411 088.

10. **Dr. Patangraoji Kadam National Elocution Competition 2021 (IMED)** – Ms. Bhavika Sharma (TY Pharm D.) won first prize with 10000/- cash, memento and certificate in National Elocution competition organized by IMED on 9th Jan 2021.

11. **Smrutigandh-** A lecture of Mr. Vasant Rao Mane was organized on the occasion of 77th birth anniversary of Hon. Dr. Patangraoji Kadam on 9th Jan 2021. All the teaching and non-teaching faculty members were present for the lecture and all the students attended the same lecture online on zoom platform.

The poster is titled "स्मृतिगंध" (Smrutigandh) and features a portrait of Dr. Patangraoji Kadam. It includes the following text:

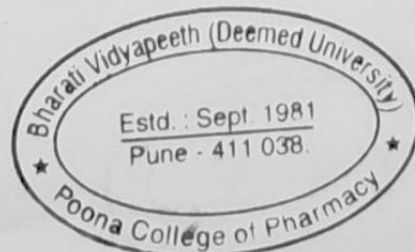

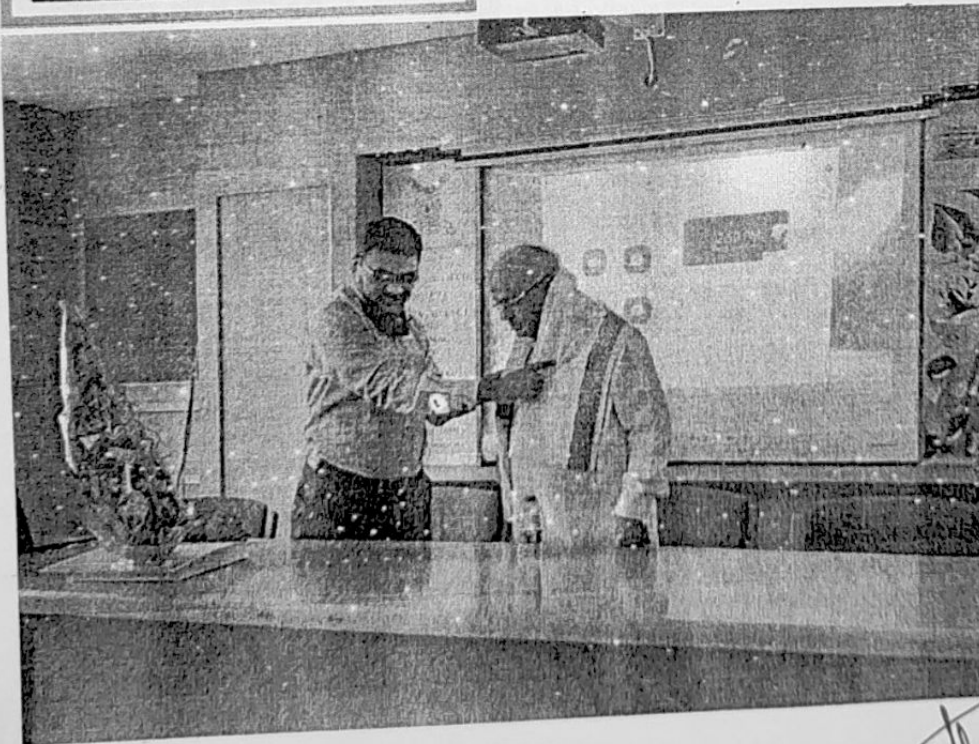

आदरणीय डॉ. पतंगरावजी कदम
संस्थापक: भारती विद्यापीठ विश्वविद्यालय
यांच्या ७७ व्या जयंतीनिमित्त

प्रमुख वक्ते: श्री वसंतराव माने

कोविड नंतरच बदलेल जग

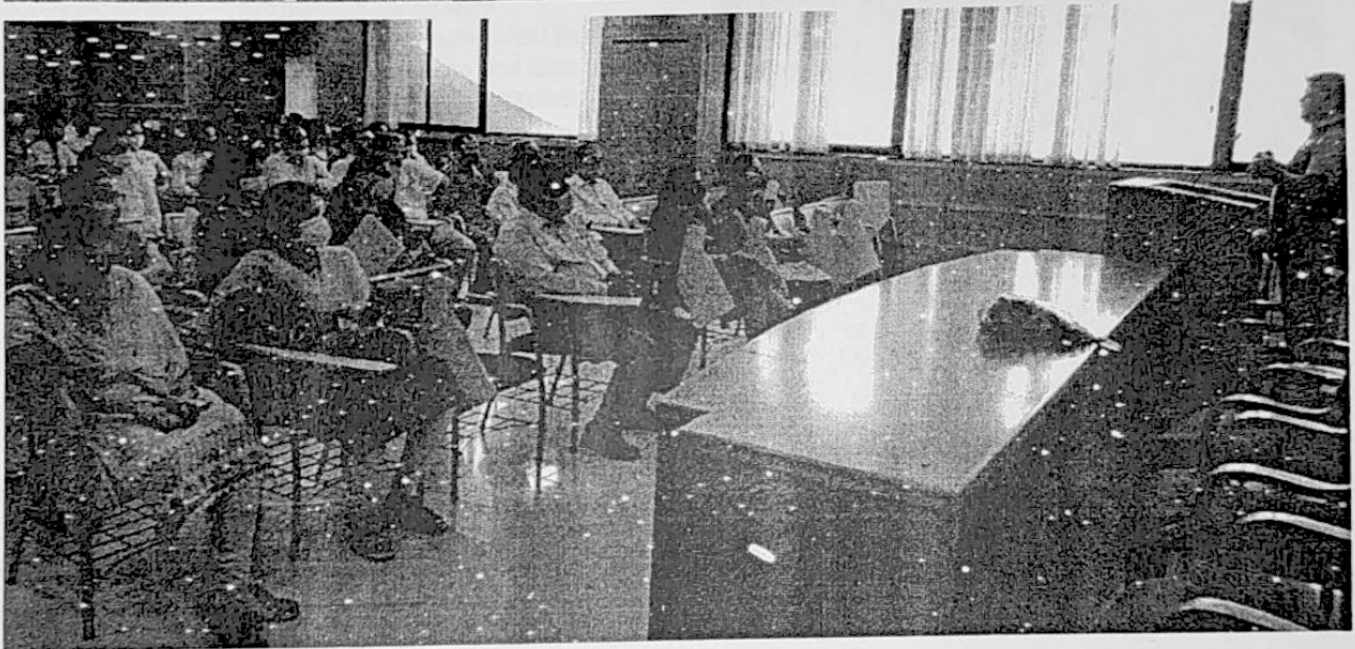

माणस कस सुखीत यावरुं होत प्रकृतीपट्टावर
आपली वेडान वाटवत करणार हे जग एक विलस
अनारक प्रसन्न राखत उभा होत एक डोळू जो
दिवसत नव्हता आसतही नव्हता आपली प्रोळखीया ही
नव्हता जिविताच्या या अडकण्यात मारता हा नवीन
जग मर्यादा येवून परतून कोणी विचार केला नव्हता
की मोकळा उवासा वेगळी आवडत होईल जीवत राठो
हीच जेणे प्रयोगिकता बनली होती आश्रिताम आश्रिताम
सगळी धनसंपत्तीच्या जोरावर जगाचा मुळत हेवणाच्या
उदात्त देशांना शुद्धता आपला जीव मुळत देवून जगाचा
लागत होत

पूर्वीच्या काळात दमून आणून माल्या भागसाच्या
आतावर गुलाबा खडा द्यायचे इतक्याच पाठी द्यायचे
पण ते कोरता माला आणी गुलाबा खडाची जगाचा
संमितीकरण ने ऐतली जी वतन मज गावला मुदती
मिळावी वरतून मोलाबाय करे मागण मागायची तिव
मूल जाला पूनी तरुण लोकांचा जटवडात होत ना
बेडवाजा होता ना वरात होती ना लसत होत ना
गाजावता होत नुसतिया चार माणस नंतरा उतरी
आणी शुभसंभाल आतधान आणी मतपणा आसी होती
मोठी आपजेच्या मागण आपल्याच मागणाची हावरत
होती लोकडाडान पडेपे आसतधून प्रवाकडे मावल्या
लोकपासून आतरी मागण पण जरा व्यक्तच रावत

16. **Azadi ka' Amrut Mahotsav** - A lecture on 'Gandhiji che Bharatachya Swatantryatil Yogdan' by Mr. Sandeep Barve, Gandhibhavan Pune was organized at Bharati Vidyapeeth University, Poona College of Pharmacy on the occasion of 'Azadi ka Amrut Mahotsav' at 11.00 am on 12th March 2021. The guest was welcomed by I/C Principal, Dr. A. P. Pawar and Vice Principal Dr. V. B. Pokharkar. ACTIVITY REPORT

Name of Activity: Guest Lecture

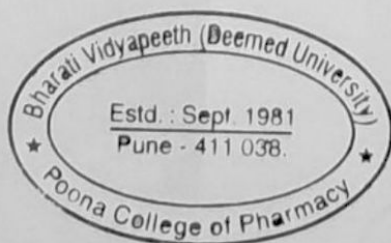

Date / Period: 04 Aug 2019

No. of Participants: 18

Class: Second year Bachelor of Pharmacy Practice (B.Pharm.Pr)

Dr. Shashikant More, Clinical Pharmacy Manager, Aster Aadhar Multi Specialty Hospital, Kolhapur delivered a talk on “**Radiopharmaceuticals – Handling and Packaging, Clinical Usage, and Role of pharmacist**”. A radiopharmaceutical is a preparation intended for in-vivo use that contains a radionuclide in the form of a simple salt or a complex. A radiopharmaceutical can be used for either diagnostic or therapeutic purposes depending on its specific physicochemical and radiation properties. The characteristic of radioactive decay is what makes radioisotopes useful in their medical applications. The total dose in therapeutic applications may be calculated on the basis of effective half-life of the isotope, concentration of the isotope and the type and energy of radiation emitted. Nuclear pharmacists, once known as radiopharmacists, specialize in preparing, dispensing and distributing radiopharmaceuticals or radioactive drugs.

He said that there is also a growing need for nuclear pharmacists who can focus on providing better radiopharmaceutical care to patients but still unrecognized in India. The pharmacist's role in managing radioactive substances is very important in various aspects of formulation, quality control, patient safety, and counseling. The pharmacist in radio and nuclear pharmacy may be the most appropriate position to counsel and educate patients by the education and experience. Unawareness of patients on application and use of radio pharmaceuticals lead to total failure of procedure. Patients are benefited by providing proper counseling on use of radiopharmaceutical and application procedure, precautions, it's risk and benefits. As a result, patient assures and actively participates in procedures. He said that due to unique applications, use and strict regulatory guideline, a pharmaceutical care plan must be devised in formulation, dispensing and use of radiopharmaceuticals and a pharmacist role is important. He provided an overview on SOP, regulatory compliance and quality aspects of radiopharmaceuticals usage.

ACTIVITY REPORT

Name of Activity: Guest Lecture

Date / Period: 24 Aug 2019

No. of Participants: 17

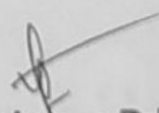

Class: Second year Bachelor of Pharmacy Practice (B.Pharm.Pr)

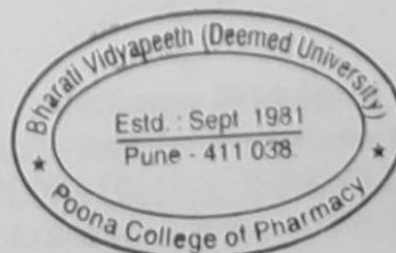

Short Summary: Dr. Shashikant More, Clinical Pharmacy Manager, Aster Aadhar Multi Specialty Hospital, Kolhapur delivered a talk on “**Applications of IT and Computers in Pharmacy Practice**” to the students. Using technology in pharmacy is very useful for the pharmaceutical profession. It improves the pharmacists work. It gives them more time to help the customers and using the computers reduce the time, expenditure and the manpower required for any kind of work. Using the computers are useful for the patient profile monitoring, the drug interactions, medication, the database management, the material management, the drug information services, patient counseling, billing & purchasing.

The bar codes on the bottles and the containers allow the pharmacies to record the drugs and the compounds which they have on hand and the quantities of them, they help to confirm that the right product has been delivered, stored, retrieved and dispensed to the customers. The computers can help run the business operations efficiently. They make it easier to handle the routine business tasks such as recording, tracking and paying the vendor bills. The computers provide the prices for the medications as possible substitutes automatically update the prices, the scans prices from the bar codes.

The computers are useful for locating the items by various means (the brand name, the product code, the category, the generic name, the supplier, etc), they give updates of prices and other product information. Computer databases for information about medicines, and medical treatment in general, are used within pharmacies. These database systems allow pharmacy staff to find out information about any potential conflicts or health-care problems in a prescribed treatment, as well as information about the details of any particular medicine the pharmacist needs to know more about.

ACTIVITY REPORT

Name of Activity: Pharma Video Clip Contest

Date / Period: 10-16 Sep 2019

No. of Participants: 80

Class: M.Pharm

Short Summary:

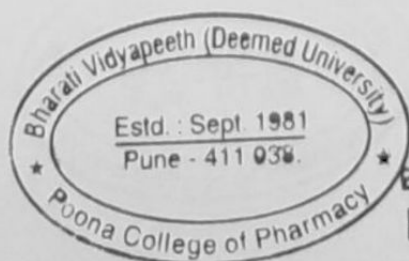

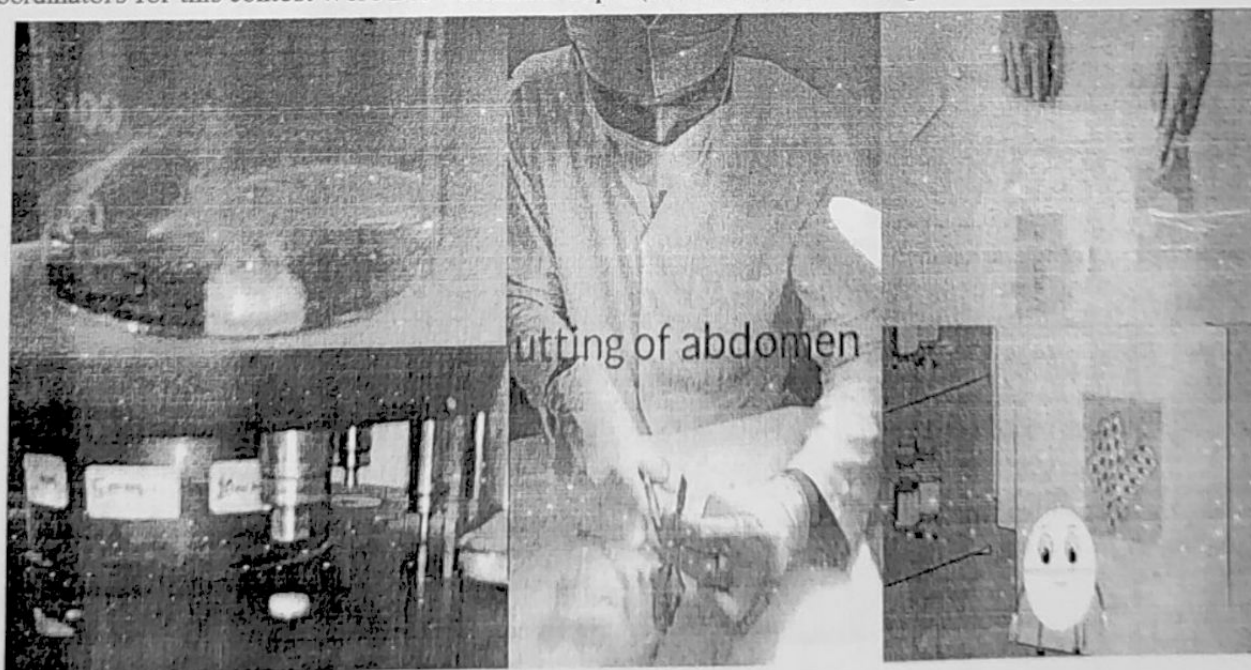

Indian Society for Technical Education (ISTE) Student's Chapter had organized the Pharma Video Clip Contest for M.Pharm Students. Experimental or animation based video clips on departmental topics were screened by Mrs. Preeti Tamane (QAT and DRA departments) Dr. Vividha Dhapte, Dr. Kavita Gajbhiye (Pharmaceutics department), Dr. Urmila Aswar (Pharmacology and Pharmacognosy departments) and Dr. R. G. Kulkarni (Pharmaceutical Chemistry department). Post departmental screening, the video clips made by students were assessed for the final rounds; 1 clip from pharmaceutics department, 2 from Drug Regulatory Affairs (DRA), 3 from Pharmacology and 3 from Pharmaceutical Chemistry departments were evaluated based on the originality, quality of Video & Audio, creativity, usefulness, team work and content of the clip. Vice Principal, Prof. Varsha Pokharkar and Exam In Charge, Dr. Janhavi Rao selected the best videos. The result of this contest was as follows:

1st - 'Effervescent Tablets' by Shamli Kamble, Amrita Honakeri and Poonam Tharkude (Pharmaceutics Dept.)

1st - 'Rat Dissection Procedure' by Asif Ali (Pharmacology Dept.)

2nd - 'Enzyme Inhibition' by Gritika Kanojia (Pharmaceutical Chemistry Dept.)

Coordinators for this contest were Dr. Vividha Dhapte (ISTE Student's Chapter In Charge)

ACTIVITY REPORT

Name of Activity: PCP Logo contest 2021

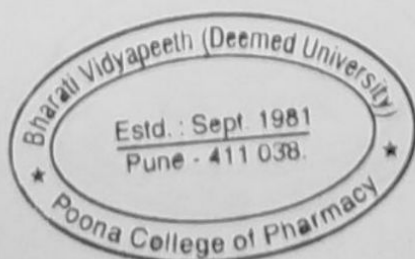

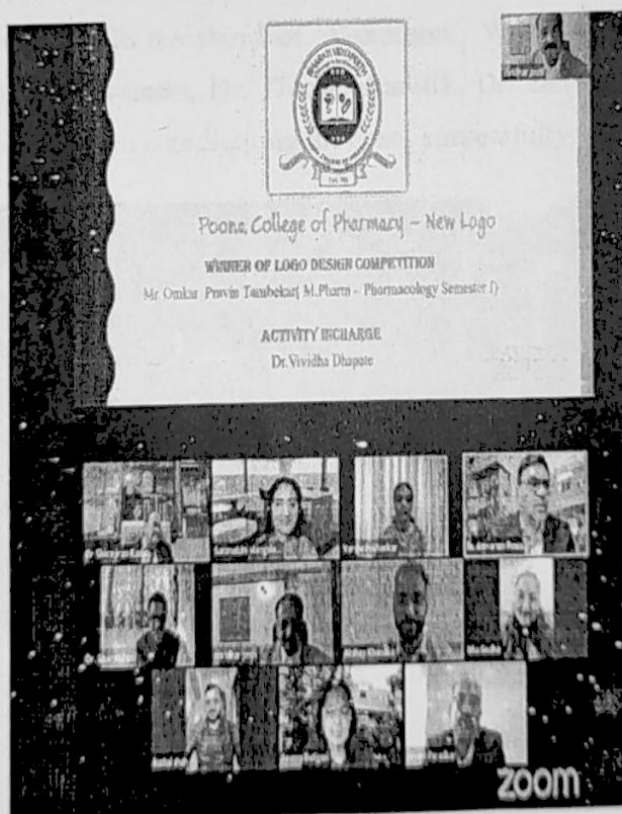

Date / Period: 20 June to 4 July 2021

No. of Participants: 30

Class: Alumni, Students, and Faculty of PCP

Short Summary:

PCP Logo contest 2021 was organized by SKiILD PCP and ISTE Student's Chapter during 20 June to 4 July 2021 on the occasion of 40th PCP Foundation Day celebrations. The very intention of this event was to give visual identity of PCP. 30 entries were screened based on creativity, originality, artistic merit, image resolution and visual impact. Based on Faculty feedback, one best logo was selected and released during online 40th PCP Foundation Day celebrations in the August presence of Prof. Anant Paradkar [Director, Center for Pharmaceutical Engineering Science, University of Bradford, UK], Seema Betigeri [Executive Director, Oncology Global Regulatory Affairs, Merck, New Jersey, USA], Shridhar Joshi [CEO, J. B. Chemicals] and Hon Chancellor-Prof. Dr. Shivajirao-Kadam. The winning logo was designed by Omkar Pravin Tambekar (M. Pharm - Pharmacology I student). The event was coordinated by Dr. Vividha Dhapte.

ACTIVITY REPORT

Name of Activity: REPORT ON MUSICAL FEST FOR FIGHTING DEPRESSION AND SUICIDE IN YOUTHS

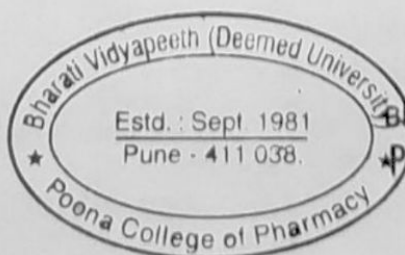

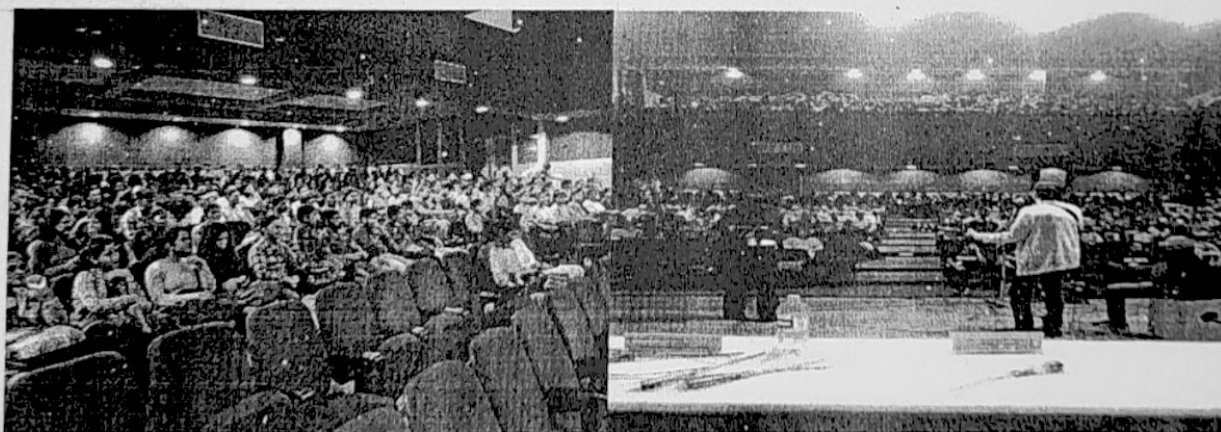

Date / Period: 30 July 2019

No. of Participants: 250

Class: B.Pharm and PharmD

Short Summary:

ISTE Student's Chapter 2019-20 organized a musical fest 'Yaathon' for promoting good health and well being in young generation by fighting depression and suicidal in association with PERIF (Promoting Eduhealth Restore India Forum). Mr. Abhishek Kamble and Ms. Priti Alexander of HOPE Events discussed with the students the 6 signs / red flags of depression along with 4 things to look out for. They also discussed with students the solutions to overcome the depression and like negative tendencies. A 24 by 7 helpline number was shared – 9881020211 with the students. All the students enjoyed the musical fest, group singing and activities with the Band of 'Yaathon'. Welcome address was given by Dr. Vividha Dhapte. Dr. Mugdha Suryawanshi, Dr. Deepa Mandlik, Dr. Deepti Khanwilkar, Dr. Sandeep Pathare and Dr. Ajay Namdeo helped in coordinating the event successfully.

PHARMA MODEL MAKING COMPETITION

On
20th February 2019

This competition was held for all the students of B. Pharm, M.Pharm, Pharm D, Pharm D (PB) and PhD. The event was inaugurated by Vice Principal Dr. V. B. Pokharkar and Dr. A. P. Pawar. The event was organized by Dr. Vividha Dhapte [ISTE Faculty In-Charge] and Mr. Vaibhav Mehta (ISTE Student's Chapter Co-ordinator).

Event Judges: **Dr. Vividha Dhapte** and **Dr. Deepali Bansode**

Total no. of models: **17**; Total no. of participants: **51**

TOPICS:

- Pharmaceutical Innovations
- Advanced Drug Delivery Systems
- Biotechnological applications

RULES FOR THE COMPETITION ARE AS FOLLOWS:

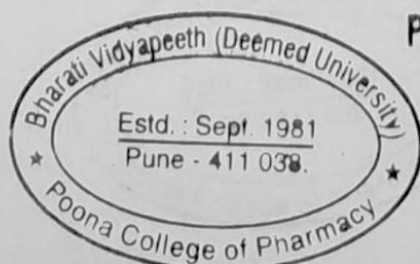

- Each team can have 2-3 participants.
- Use of hazardous and toxic materials is strictly prohibited.
- Presentation time provided for each model will be 5 minutes.

The scientific models were judged based on the following parameters-

- Theme of the model: 10 marks
- Presentation skills: 10 marks
- Model construction: 10 marks
- Defense (Questions by Judges): 10 marks
- Applicability of the model: 10 marks

Total: 50 marks

Ref. No: BVUCOE/2020-21/480

Date: - 30/10/2020

FRESHMAN INDUCTION PROGRAM

I congratulate you for selecting BV(DU) College of Engineering as your preferred destination for Engineering Education. We are committed for excellence through quality education and our objective is to make Employable Engineers. Transforming young generations who have just passed the 12th into a matured professional Engineer is a big challenge for the educational institutes, with a limited span of four years.

These four years are full of academics, submissions, oral & theory examinations, tech fests and many other things. To be a skilled professional along with being a technocrat, the students are required to acquire certain other skills. These skills help to climb the ladder of success. BV(DU) College of Engineering has taken initiative to make the students acquainted with the skills required for being a successful professional.

The intensive induction program for the freshers namely "**FRESHMAN INDUCTION PROGRAM**" is organized by the institute during 4th Nov. to 7th Nov. 2020 which will start with the **Principal's address to all the students of B. Tech - First year Engineering**. The address will be delivered using virtual platform - **Microsoft Teams**.

You have already been communicated about your institutional email id and registered mobile number. To attend the induction programme, login to **Microsoft Teams** using email id and password provided earlier.

PFB the details of groups for attending the induction programme.

Group A : B. Tech – Computer Engineering, Computer Sci. and Engineering, Computer Sci. and Bus. Systems.

Group B: B. Tech – Civil, Electrical, Chemical and Mechanical, IT Engineering,

Group C: B. Tech – Electronics and Communication Engineering, Electronics & Telecommunication, Robotics and Automation

Join the respective groups as per the stream of Engineering admitted for AY 2020-21 using links below:

Group A: <https://diz.ae/e6RP3>

Group B: <https://diz.ae/S20Wt>

Group C: <https://diz.ae/TOuyw>

The virtual sessions for the Induction Program will cover the aspects related to placements, trainings, interpersonal skills which will explore the holistic outlook of students.

P.T.O

The detailed schedule of the programme is as following:

Wednesday, 4 th Nov. 2020				
SN	Group	Principal's Address by Dr. Anand Bhalerao, Dean and Principal	Information about Training and Placement Dept.	
1	A	10.30 am to 12 noon	12.15 pm to 1 pm	
2	B	12.15 pm to 1.45 pm	2 pm to 2.45 pm	
3	C	2 pm to 3.30 pm	3.45 pm to 4.30 pm	

Thursday, 5 th Nov. 2020				
SN	Time	Information about Library system	MCQ based Online assessments of aptitude skills	Information about respective departments
1	10.30 am to 11.30 am	Group A	Group C	Civil - https://diz.ae/Rnk1I Electrical- https://diz.ae/bRCwI Chemical - https://diz.ae/zfYDX Mechanical- https://diz.ae/aapzE IT - https://diz.ae/uxQz
2	12 noon to 1 pm	Group B	Group A	E&C - https://diz.ae/i9pehI E&TC - https://diz.ae/6jSB5 RA - https://diz.ae/gxm1s
3	1.30 pm to 2.30 pm	Group C	Group B	CE, CSE, CSBS- https://diz.ae/e6RP3

Friday, 6 th Nov. 2020				
SN	Time	Session on "What is your Tag? {Personality development – branding yourself}" by Mr. Geroge Gini	Session on " Critical Thinking – a tool for Engineers of tomorrow " by Ms. Batul Balasinorwalla	Session on " identify skills in yourself " by Ms. Madhavi Kale
1	10.30 am to 11.30 am	Group A	Group C	Group B
2	12 noon to 1 pm	Group B	Group A	Group C
3	1.30 pm to 2.30 pm	Group C	Group B	Group A

Saturday, 7 th Nov. 2020				
SN	Time	Session on "How to prioritize your work " by Mr. Geroge Gini	Session on " An analytical perspective towards Engineering – exploring case studies " by Ms. Batul Balasinorwalla	Session on " Extend your limit – out-of-box thinking " by Ms. Madhavi Kale
1	10.30 am to 11.30 am	Group A	Group C	Group B
2	12 noon to 1 pm	Group B	Group A	Group C
3	1.30 pm to 2.30 pm	Group C	Group B	Group A

You are therefore requested to make a note of the program and attend as per schedule. I am sure this program will guide you for your career planning and help in making yourself employable.

Webex_Meeting.ics;

Hello Prof. Chaudhary,

We had a ML lecture today (18th Sep.) as scheduled.

Based on the students' feedback, I have scheduled one more lecture tomorrow (19th Sep.) at 6 PM.

Details of the meeting (URL and meeting info) have already been informed to the students in today's webex session chat.

Still, it would help if you could share it with students again.

TCS ML lectures for BVUCOE
Hosted by sangameshwar patil

Saturday, Sep 19, 2020 6:00 pm | 1 hour 30 minutes | (UTC+05:30) Chennai, Kolkata, Mumbai, New Delhi

Date: 11/09/2020 08:38 PM

Subject: Re: Regarding ML Sessions (Guest lectures).

Dear Sarthak,

Thank you for your email and feedback about the lectures / my teaching and the paper.

I understand that not all students are equally motivated towards studies. So, even if there are a few good, interested students in a class, a teacher enjoys teaching.

So, I am OK with your classmates. I guess only one or two students created trouble by unmuting when there was lot of noise. Teaching online has its own challenges. No issues.

I am happy to see your enthusiasm and keenness to learn. I am not very active on social media. If you can ask

queries during the lecture, that's the best way of interaction. Occasionally, email is also OK if you have any specific queries. I will be happy to help.

Thanks & Regards
Sangameshwar Patil

Subject: Regarding ML Sessions (Guest lectures).

"External email. Open with Caution"

Dear Sir,

I am Sarthak Pol from Bharati Vidyapeeth University, 3rd year. This is regarding your guest lectures and related stuff, they are really awesome thanks to be so supportive but due to some bad responses from other students, I thought to write you regarding the same.

I am a ML and Data enthusiast currently going through statistics and strengthening my mathematical skills. I have experienced in python have also developed some basic ML projects like heart disease predictor.

I have also read your research paper on "Event timeline generation from history textbooks" it was great and very informative.

This is to let you know that your lectures help me a lot to get my basics strong but due to some bad behaviour of other students I was thinking that I am not getting too much inputs, as ML is not about 5-6 lectures. It would be great if you could share your handle (like LinkedIn, Facebook, whatsapp etc.) where I can ask and discuss questions regarding the same.

I have already sent you a connection request on your linkedin handle and here's mine <https://www.linkedin.com/in/711sarthak> it would be really helpful if you can connect. Or can connect on whatsapp (+919522784626).

Yours Sincerely,
Sarthak Pol

Appreciations if any

45 responses

- I can choose machine learning as mainstream carrer.
- It was pretty helpful and informative.
- Quite an informative session.
- The session was descriptive and anyone of no prior knowledge can easily understand the concepts.
- Lecture was taught in very interesting manner.
- It was a very informative lecture. Teacher made the learning fun by making the lecture interactive. And got to know many new things.
- It wasn't boring like our regular machine learning class and sir was full of enthusiasm
- It was quite an informative session. Very interactive and nicely timed and ordered. Did get a lot to explore and read about during this 2 hour session. Would love to have more sessions on the subject so I could elaborate mv understanding on the subject

Suggestions if any

Suggestions if any

45 responses

- It could be have been a bit more interesting, I feel.
- no suggestion
- Conduct it often if possible.
- You are fabulous
- No such suggestions. Everything was good.
- Organising such lectures more often.
- The series of similar type of sessions in ML will help us a lot , as this session is lot better than a normal lecture .
-
- Might introduce some kind of quiz to increase the participation.

Report

Seminar on “Opportunities in Chemical Engineering” by Ms Divya Saini, Product Development Manager, Umicore Autocat, Pune on 23rd November 2020

A seminar on “Opportunities in Chemical Engineering” was organized by online mode in Chemical Department on 23rd November 2020. Ms Divya Saini, Product Development Manager, Umicore Autocat, Pune was the expert for the seminar. She elaborated about chemical engineering opportunities in various field. She said that Chemical engineers work with ground-breaking technologies to enhance the quality of people's lives in areas such as environmental protection, the management of resources, and controlling health and safety. She said that, in the current scenario, chemical engineering is significant as there is a global shift towards renewable resources such as hydroelectric and solar. These fields require innovation and development to make sure that these resources can meet our energy needs. The major responsibility of the chemical engineers is to apply the principles of physics, chemistry, mathematics and biology to solve the problems that involve the production or use of chemicals, drugs, food and many other products. The design equipment and processes for large-scale manufacturing and direct facility operations. She explained about her work in catalytic area and motivated to students by giving various examples. Dr. Kavita Kulkarni gave vote of thanks.

Subject: Invitation for deliver expert lecture

Dear Divya
Greetings of the Day !
As per telephonic conversation ,we are obliged for accepting invitation to deliver expert lecture for first year students
Details are herewith
Day - Monday
Date - 23/11/2020
Time - 1 pm to 2 pm
Link for the lecture is shared on whats app
Thank you once again for accepting the invitation

Thanks and Regards
Dr. Kavita Kulkarni
Associate Professor
Department of Chemical Engineering
Bharati Vidyapeeth (Deemed to be University) College of Engineering, Pune

**BHARATI VIDYAPEETH (DEEMED TO BE UNIVERSITY)

IIChE STUDENTS CHAPTER

Report

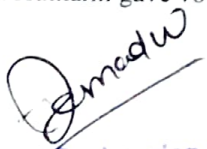

**Seminar on Refinery and petrochemical complex configuration" by Mr Alok Kumar,
Senior process Manager, Engineers India Ltd. on 19th September 2020**

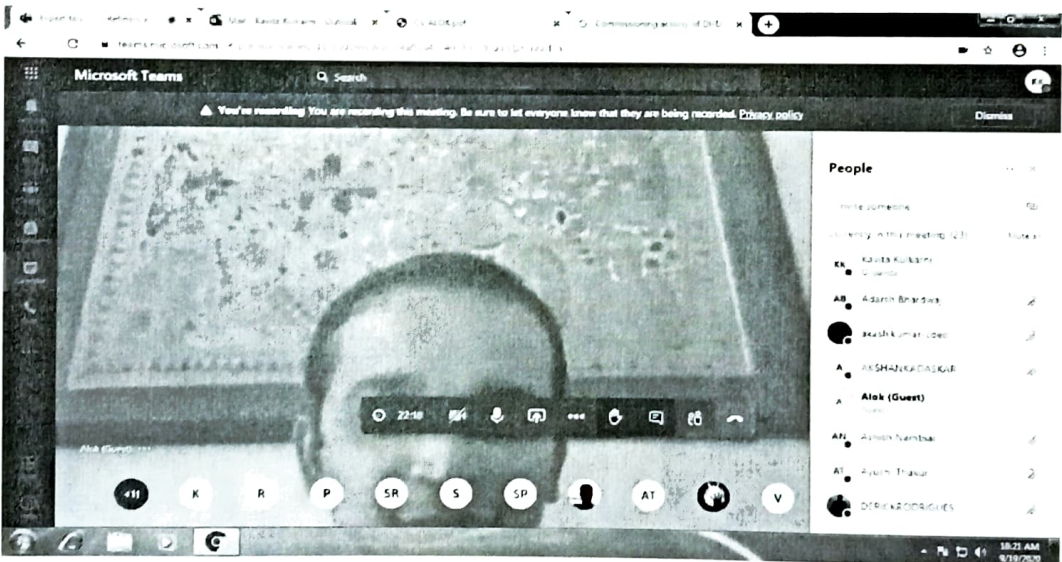

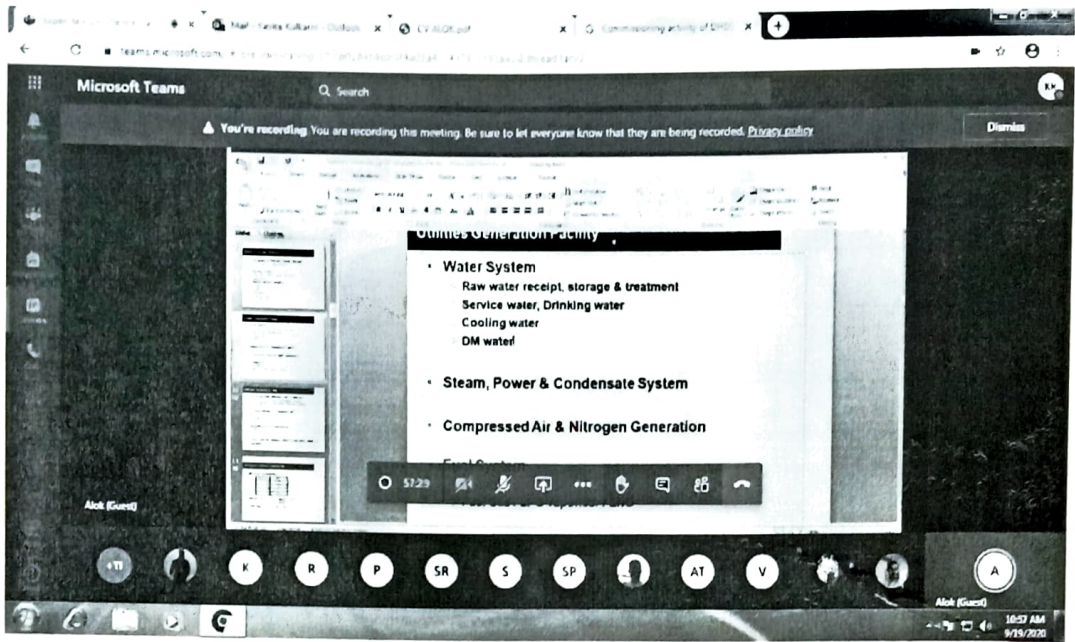

A seminar on "Refinery and petrochemical complex configuration" was organized by online mode in Chemical Department on 19th September 2020 Mr Alok Kumar, Senior process Manager, Engineers India Ltd. was the expert for the seminar. The refining industry has been undergoing evolution triggered by internal competition and the pursuit of higher gross refinery margin. He explained the two factors have been shaping the complexity of today's refining industry with respect to

1. The dynamics of the downstream market
2. Advances in refining processes/configurations.

He said that the combination of process units the refinery and has its own configuration. The more units a refinery has, the better its ability to run lower-quality (cheaper) crude grades, and to make a high proportion of light (higher-value) products such as diesel and gasoline. He also elaborated about flare system. He said that refinery flare systems are primarily intended to contain and dispose of vapor releases, but must also be capable of handling liquids which may be released to them as a result of unit upsets, equipment failures, emergencies or disoperation's. Liquids may also collect in the system due to condensation of heavy, hot vapors or steam if they are released into the system. The flare itself is intended only to burn vapors, so any liquids released into the flare header system must be separated from the flare vapor and separately handled. He illustrated opportunities in petroleum field. Dr. Kavita Kulkarni gave vote of thanks.

**Expert Talk on "Thermodynamic power cycles" by Mr Arunabh Sahai, Scientist,
Haldor Topsoe India Pvt. Ltd. on 7th June 2021**

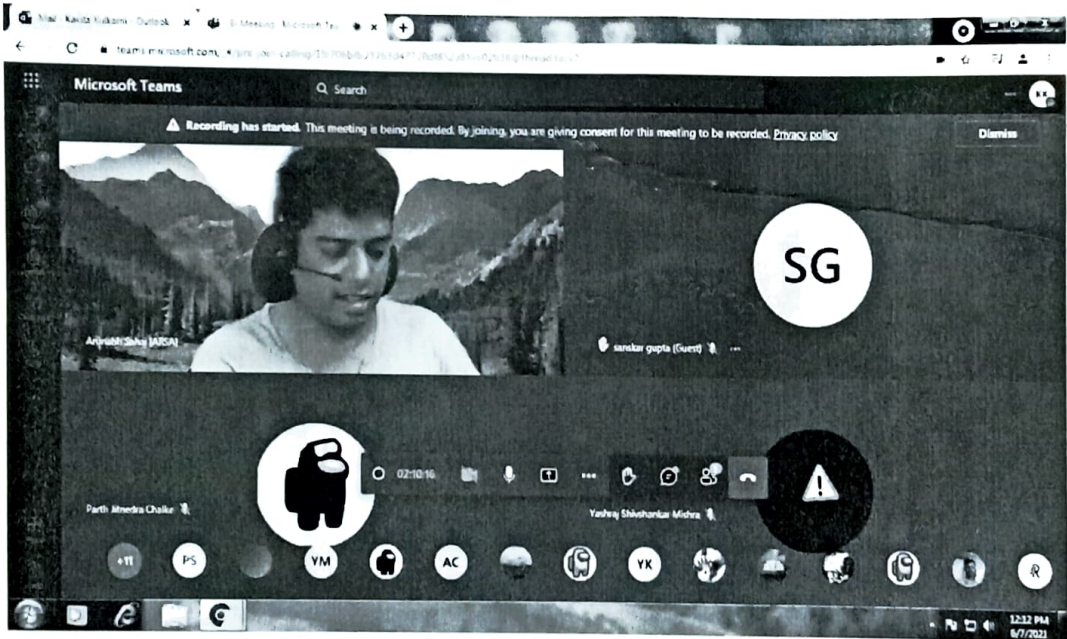

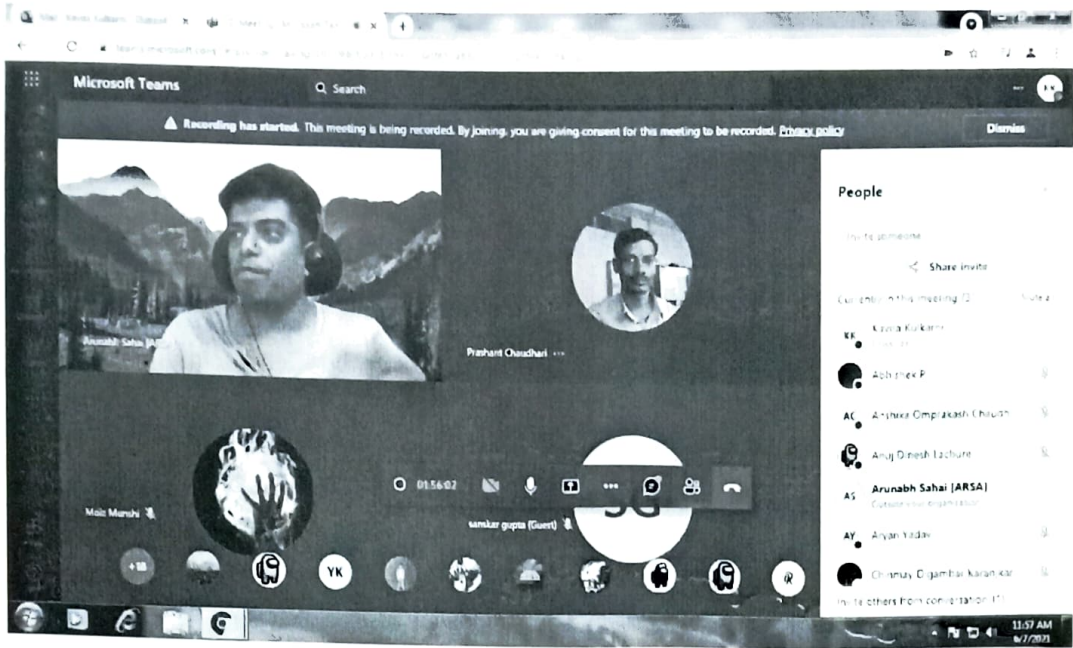

Expert Talk on "Thermodynamic power cycles" was organized by online mode in Chemical Department on 7th June 2021. Mr Arunabh Sahai, Scientist, Haldor Topsoe India Pvt. Ltd. delivered the expert talk. He is Scientist in Global R&D department of Haldor Topsoe developing Clean / Blue Hydrogen solutions. He has one International patent already published in April 2020 and five other patents filed as Inventor / Co-Inventor during his recent tenure in R&D. Arunabh Sahai is alumnus of college passed in 2006.

He elaborated about thermodynamic power cycles. He illustrated about power cycle, which consists of a series of repeating thermodynamic processes along a closed process path, while heat is converted into mechanical work. The most widespread working medium is water. The power cycle involves the water's change of phase from a liquid state into superheated steam. He also illustrated about Carnot cycle, Rankine cycle and its working.

He guided students about job opportunities in this pandemic situation.

12 th and 14 th March 2021	International Management Fest / Expressions Cultural Program	Dr. Pravin Mane, Dr.Pramod Pawar, Anuradha Yesugude/Mrs.Sonali Khurjekar/Mrs Bharati Jadhav/MsSweta Jogalekar/ DrNetaji
6 th April to 10 th April 2021	Practical Exams (IInd & III rd year)	All Faculty Members
12 th April to 19 th April 2021	End Term Online Examination (IInd and IIIrd Year)	Dr. Ingawale , Mr. R Mahadik and Exam Dept
20 th April 2021	Last teaching Day (IInd & III rd year)	Program Heads
20 th April to 26 th April 2021	Academic Audit and Moderation	Incharge ALL PD's/PC/Faculty coordinators
21 st April 2021	Submission of overall academic report for the term and Marks for submission to HO	Program Director/ Faculty Class Coordinator
26 th April 2021	Foundation Day of BVDU	All Teaching and non teaching staff/ Students
03 rd May 2021 onwards	University Examination (IInd & III rd year)	Exam department
5 th May 2021	Faculty Development Program(FDP)	Dr.Pramod Pawar and Dr.Sachin Ayarekar
10 th May 2021	Foundation Day of Bharati Vidyapeeth	All Teaching and non teaching staff/ Students
27 th May 2021	Last Teaching Day (All Ist year)	-
08 th June 2021	University Examination (All Ist year)	Exam department
15 th June 2021	Summer Training Joining	CRC Department
1 st July 2021	Reopening of Next Academic Year (2021-20) for I year(New Batch)	All Teaching and non teaching staff/ Students

15 st July 2021	Reopening of Next Academic Year (2021-20) for III year	All Teaching and non teaching staff/ Students
01 st Sept 2021	Reopening of Next Academic Year (2021-20) for IInd year and IIIrd year.	All Teaching and non teaching staff/ Students

- The Management and IT forum activities, Mentor-Mentee program, CES & Soft skills be focused and conducted as planned and communicated.
- All the members of teaching and non teaching staff shall participate in the flag hosting function/program organized on Republic day, Independence Day, Bharati Vidyapeeth (Deemed to be University) Foundation Day & Bharati Vidyapeeth Foundation Day.
- **Due to some exigencies dates may be changed, which will be communicated if changed.**
- **Department meetings to be held on last Friday of each month (4 to 5 PM)**
- **Institutional Committees will meet on Third Friday of each Month (4 to 5 PM).**
- **IQAC will meet on Second Friday of Each Month (4 to 5 PM).**

Case Study on MBO

Siemens of Germany which was into manufacture of mobile phones to gas turbine generators to light bulbs, has always had great engineers bent on making products of highest quality.

But in recent years, the company realized that competing with U.S. based brands like General Electric and Sweden's Nokia requires more quality. It also calls for speed to market, relentless innovation and ruthless attention to costs.

Between 1996-1998, profits sank by two-thirds and the company shares fell even faster. CEO, Heinrich von Pierer ensured the Management that he and his team will revive Siemens to its original position. Help Mr. Heinrich in achieving the goal by using MBO technique.

Solution by the CEO

MBO-Step1: design a specific goal of strengthening the overall business to be in better financial shape within next three years.

MBO-Step2: Managers developed an action plan which included –

- Cutting down time required to develop and produce new products
- Selling or closing poor performing units
- Setting tough profit targets for managers and relating pay to performance.
- Converting account practices to report results according to US accounting standards.

Managers developed action plans for employees in their own business units.

MBO-Step3: progress was reviewed periodically_(quarterly meetings) where all 14 business units reported their progress directly to Heinrich von Pierer.

Managers were asked to explain if their goals were not achieved, the reasons for that and the action plan to overcome the shortcoming.

MBO-Step 4: at the end of each year, performance appraisal as carried out for each unit and the organization as a whole. Managers who met their goals were rewarded and those who failed consistently were asked to leave the company with the poorest performers exiting first.

Outcome:

- Siemens dramatically improved its speed and financial performance.
- The mobile phone which took 13 hours to produce now could be made in 5 minutes.
- Many BU transformed from money losers to profit makers.
- Stock performance improved drastically upwards.
- Company was on track to be listed on US stock exchange.
- Thus, MBO system helped the company to achieve the goals deemed critical by top management.

SUBJECT : MANAGEMENT CONCEPTS AND APPLICATIONS				Dr Bharati Jadhav										
SUBJECT COURSE: MBA SEM I														
SEMESTER TOTAL HRS: 45														
REVISED ON : MAY 2020														
1) To understand the basic Management Concepts and S				4) To familiar with the Functional areas of management.										
2) To study the Principles and Functions of Management				5) To study the Leadership styles in the organization.										
3) To learn the Applications of Principles of Management				6) To expose to the Recent trends in management.

7- Tier counseling system

7-Tier Counseling system in practice to maintain high level of motivation among the students comprising of Pre-Admission Counseling, Post- Admission Counseling , Counseling through PEDC, Counseling through mentoring, Counseling through profiling, Pre Summer training counseling and Post Summer Training counseling.

7-Tier Counseling system is imbibed to maintain high level of motivation among the students .It comprises of following stages:

Stage 1: Pre-Admission Counseling: Students are walked through the merits of the institute and course which they are opting for. This gives them a wide horizon to think over and accordingly make up their minds before they opt for a certain course.

Stage 2: Post- Admission Counseling: This is done after the students have been admitted in respective courses. For MBA/ BBA / BCA a detailed orientation program is planned for four-five days. Activities scheduled during orientation program include: BVIMR – the journey, Rule and regulations of the institute, Ice breaking sessions, Training program on EBSCO, Prowess etc. Profiling is done at this stage. The students are interviewed by a panel of experts / faculty and they are then given feedback on their areas of strengths and weaknesses.

Stage 3: Counseling through PEDC: Class sessions taken by class coordinators to guide and build entrepreneurial skills, confidence. Self-motivation in students.

Stage 4: Counseling through mentoring: Students at IMED are allotted mentor in the ratio of 1: 20. The mentor acts as a guide, counselor and advises the students for any problem in question.

Stage 5: Counseling through profiling: The students are interviewed by a panel of experts / faculty and they are then given feedback on their areas of strengths and weaknesses.

Stage 6: Pre Summer training counseling: The students are counseled about the norms (Dos/ don'ts) of summer training . A kit is provided to each one of them carrying details on summer training. A suggestive list of burgeoning areas of research is also suggested.

Stage 7: Post Summer Training counseling: Once the students are back from training, the mentors allotted guide them for the right direction for research outputs.

Dr. Sachin S.Vernekar
Director IMED

Bharati Vidyapeeth Deemed University
Institute of Management and Entrepreneurship Development, Pune

5-Tier feedback systems

IMED ensures that feedback is collected on all domains and accordingly utilized for well being and development of everyone .The various feedback systems installed are : Open loop feedback system , Fortnightly academic progress report , CR report , Student Teacher Assessment Report (STAR) and Open sessions with Director .

IMED has holistic performance appraisal systems in place. Following systems for feedback have been installed:

Open loop feedback system: There is an open loop feedback system of getting direct feedback from the students in a structured format and through direct discussion with the Director on various issues relating to classroom inputs as well as other efforts put in by the faculty and institute for their overall development. These outcomes of these feedbacks are conveyed to the faculty members to take corrective action to improve their teaching inputs by the head of the institution confidentially.

Class representative Report: This report is submitted by the respective class representative on 1st of every month. This carries feedback on teaching inputs, subject coverage etc being given by faculty members. Fortnightly Academic Progress Report: This report is a feedback of class co-ordinators on all issues in question and is submitted once in a fortnight. These reports are discussed in Local Academic Body meetings.

Student Teacher Assessment Report (STAR): A detailed report on teaching skills of faculty members. This report is submitted once in a semester for every faculty. Accordingly the results are analyzed and feedback is given to faculty on the same. Self appraisal form: A form filled in by all faculty for themselves at the end of the year. It carries remarks by the Head of the Department and the Head of the institution on performance of respective faculty.

Dr. Sachin S.Vernekar
Director IMED

To,
 All Faculty Members (Full time and Visiting)
 Institute of Management and Entrepreneurship Development
 Pune.

Subject: Continuous Evaluation System (CES)

Dear Sir/Madam,

In accordance with resolution passed in the academic council meeting, following is the Continuous Evaluation System (CES) to be followed by all the faculty members of all programs.

Breakup of CES marks (40) For MBA –II year, MCA(I,II,III year) , BBA (I,II,III year) and BCA (I,II,III year) programs:

Sr. No.	Criteria / Parameter	Marks	
01.	Class Participation / Attendance	05	
02.	Internal Written Examination	Mid-term	12.5
		End –term	12.5
03.	a) Two Class Test: (5 Marks) b) MOOCs: (5 Marks) (Certificate IMED, LMS /any recognized university / SWAYAM / EdX on each subject.) OR Presentation/Project: 2.5 marks Case Study/Lab work: 2.5 marks	10	
	Total	40	

Breakup of CES marks (50) for MBA(CBCS - 2020), MBA(HR) (CBCS – 2020, Open courses for MBA,MBA-HR 2nd year:

Sr. No.	Criteria / Parameter	Marks	
01.	Class Participation / Attendance	10	
02.	Internal Written Examination	Mid-term	15
		End –term	15

03.	a) Two Class Tests : 5 marks b) MOOCs: 5 marks (Certificate from IMED, LMS / any recognized university / SWAYAM/ EdX on each subject.) OR Presentation/Project: 2.5 marks Case Study/Lab work: 2.5 marks	10
	Total	50

Breakup for subjects with IE: 100 marks

Sr. No.	Criteria / Parameter	Marks	
01.	Class Participation / Attendance	10	
02.	Internal Written Examination	Mid-term	30
		End –term	30
03.	MOOCs: 10 marks (Certificate from IMED, LMS / any recognized university / SWAYAM/ EdX on each subject.) Class Tests: 05 marks Assignments: 05 marks Presentation/Project: 05 marks Case Study/Lab work: 05 marks	30	
	Total	100	

Guidelines for CES:

- Students with class participation above 75% only be allowed for tests and examinations.
- The Teaching pedagogy should include Case Study method, Presentations, Role Play, Projects, Lab Work, MOOC's, Simulations and Management Games etc.
- Question paper must be application based.
- Class tests should be descriptive and include Case Studies.
- Research based Mini Projects to be given to students.
- MOOCs should be from IMED- LMS or from any recognized university / SWAYAM
- There will be academic audit of all the departments under all Institutes based on the above CES Plan at the end of every semester as instructed by Hon'ble Vice Chancellor.

- The concerned subject teachers will be responsible / accountable for any lapses.

Dr Sachin Vernekar,
Dean-FMS, BV(DU), Pune

Institute of Management and Entrepreneurship Development had organised a guest lecture on "Communication in the corporate world" for the students of MBA 2ND year on 10 Sep'2019. The speaker for the lecture was "Mr. Gautam Sambhare", who is currently working as a director of Renaissance Strategic Consultants Pvt. Ltd.,pune from the last one year. Apart from this, he has a rich experience in various wealth advising firms such as ASK Wealth Advisors Pvt. Ltd., ICICI Ltd etc.

In his lecture Mr. Sambhare discussed on the topic of communication and its importance in the present era of globalization and how it enhances the smooth conduct of business. When it come to defining the word communication, he said, " communication is the continuous process of willingness to learn and adapt to the environment", in the reference to which he

explained the importance of practical learning of communication in the academics rather than the traditional, theoretical learning of communication. As he believes in learning through practical Approach, the lecture involved many activities such as extempore, debate, etc. These activities were conducted to know the students proficiency in english language, the framework of content that they present in a given specific time. In the extempore activity students were given limited time of 3-5min to speak on the given topic and all the other remaining students were told to evaluate the speaker, this is because communication involves both the process i.e. speaking and listening. On the similar lines, the activity of debate was conducted, where in which, two teams of 3 students each were formed and a topic was given to speak, for and against.

The 2 hour lecture was a fun ride with some essential intakes to improve and enhance the communication on many aspects and activities such as extempore and debate provided the students a platform to speak and learn effective communication techniques.

BE&CG Guest Lecture
80:20 Teaching Curriculum

Lecture-1

Topic: Corporate Governance

Speaker: Dr. Elizabeth Philip

Date: June 2nd, 2021 (Wednesday)

Ms. Philip started her discussion with the emphasis on subject 'Business Ethics' and called it an oxymoron. She explained that working with a business perspective of events, would ideally involve selling and obtaining profits on goods/services. However, adding the term Ethics to it, would mean considering it from a morale and human level too, which hence complicates the idea of creating business growth.

Hence, she expressed, that the term 'Corporate Governance' is usually added to it so that, it helps the business/firm to have a set of rules and regulations which would help in running the business with respective sides, taking care of ethics and profits both.

She elaborated that there is a difference in understanding Business Ethics from the 'ownership' and 'management' bodies of a business. The owners maybe the ones who would lay down these essential rules to be followed but the management is the top level of a firm from where the implementation of the Corporate Governance is initiated.

She made the audience understand that a low-level employee/ team manager would only follow the rules once he/she sees the people at an authoritative level following them at their best. Similar case applies to Business Ethics & Corporate Governance. An employee would religiously follow the rules laid down for him, balancing his skills & ethics, only and only when organizations have their leaders and people in the top level of management following them as well. Ma'am explained that this 'leading with example' style helps in not just good inter-departmental relations but also impacts an individual's self-conscience.

She went ahead explaining in brief about the kind of situations when one lets go of their ethically understanding and ends up making to the news headlines as an example of Corporate 'scams'. By giving example of ICICI Bank, Satyam Computer Services and Enron Scandal, she made the students review and go back to real-life examples when companies and employees kept their individual greed ahead of the required business ethics and in some of these cases even became a cause of these companies to shut down.

Dr. Philip then concluded with explaining that even though it might not sound relatable at the first go, still, Business Ethics with the help of right Corporate Governance only help with the growth and development of a firm.

REPORT OF GUEST LECTURE ON HRM

Subject: HRM

Topic: Employee Relationship Management

Resource Person: Dr. Shulgna Sarkar

Organized by: Dr. Sonali Khurjekar

Date: 12th June 2021 and 15th June 2021

Dr. Shulgna Sarkar, Deputy Chief Manager- NLC India Ltd. delivered a talk on “Employee Relationship Management” on 12th and 15th June 2021 at Institute of Management and Entrepreneurship Development, Pune for all the students of MBA – first year.

Dr. Sarkar has a professional career experience of 17 years, where her work prominently has been in the field of HR which includes manpower assistance, performance management, employee engagement and much more. The session was organized under the 80:20 series which highlighted the employee relationship management practices followed across the globe. The session preceded with a warm welcome and was attended by more than 100 students over virtual platform.

Dr. Sarkar made this an interactive session as she began by asking questions and taking opinion of the students on what they understand by “Employee Relationship Management”. She highlighted the challenges and opportunities pre-post covid-19 and explained through case studies how employee relations can make or break the workplace environment. She explained how the HRM today is concerned not only with policies and administration but also in the wellbeing of their employees.

She quoted a few multinational companies & how they incorporate policies & strategies to retain their employees with the new HR practices. Employee relationship management helps the HRM identify and strategize policies to accommodate wellbeing of all the employees. This helps the HMR to closely observe and understand the traits of their employees. This segment also highlighted the importance of having diversity at workplace.

This session was well received by all the attendees. The last segment of the session was a Q&A round where questions about changing welfare facilities, rights of LGBTQ at corporate etc were answered. The session finally concluded with a vote of thanks and warm regards.

IIT Bombay

Letter of Appreciation

To,
Prof. Suvarna Patil,
Bharati Vidyapeeth Deemed to be University, Institute of Management and Rural Development
Administration, Sangli

Date: 01/04/2021

This is to express thanks and appreciation to Prof. Suvarna Patil, for spreading awareness and holding Software Training workshops as a Student Development Program at Bharati Vidyapeeth Deemed to be University, Institute of Management and Rural Development Administration, Sangli on Python 3.4.3 and trained 28 students.

You are making an outstanding contribution of using ICT based teaching and learning methodology for students of your college. Your contributions to the implementation of Spoken Tutorial Project are significant and have played a part in it becoming fastest growing NMEICT Project. Your excellent skills and courteous personality has helped tremendously in spreading awareness of Spoken Tutorial IIT Bombay.

I would like to personally thank you for contributing to the software training and awareness events in your Institute.

This work was done in association with the Spoken Tutorial IIT Bombay. As part of the National Mission on Education through ICT, funded by MOE, Govt. Of India.

I am sure that we will continue to get your continued support for making India IT literate and spreading project existence in state of Maharashtra.

Yours Sincerely,
For and On behalf of
Spoken Tutorials,
Indian Institute of Technology Bombay

Shyama Iyer.

Mrs. Shyama Iyer
National Coordinator
Spoken Tutorial Project, IIT Bombay

The institute organised Student Development Program with an online course on Python in Collaboration with IIT Bombay during the month of May 2021. Total 28 students of the course of MCA enrolled and completed the course. The students received participation certificate and course completion certificate. Event coordinator Dr. Suvarna Patil has received an appreciation letter from IIT Bombay for her efforts for organizing this Student Development Program. The institute congratulates her and the students for the success of the program.

16. Webinar on Beginner's Guide to Share Market

Bharati Vidyapeeth (Deemed to be University), Pune.

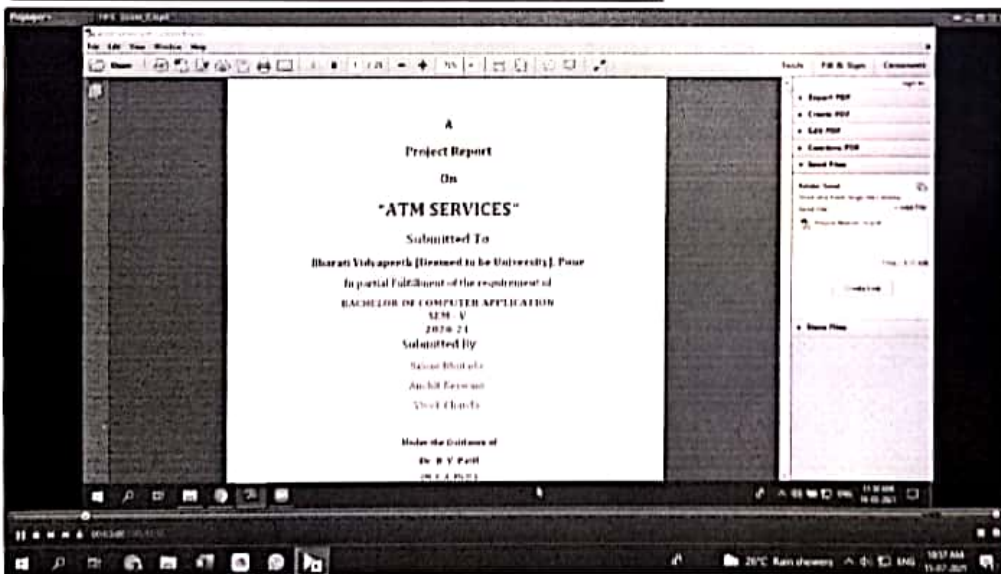

Institute of Management, Kolhapur.

Criteria 2.3.1- Student Centric Method

Problem Solving

Problem Solving

Experiential Learning

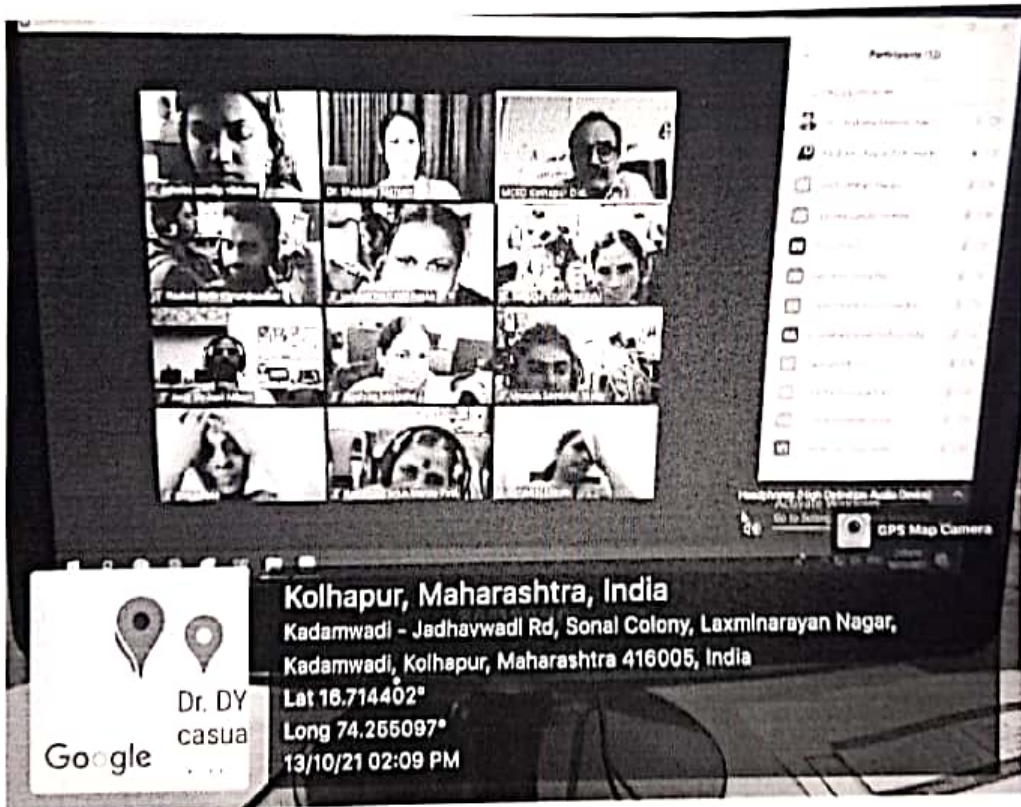

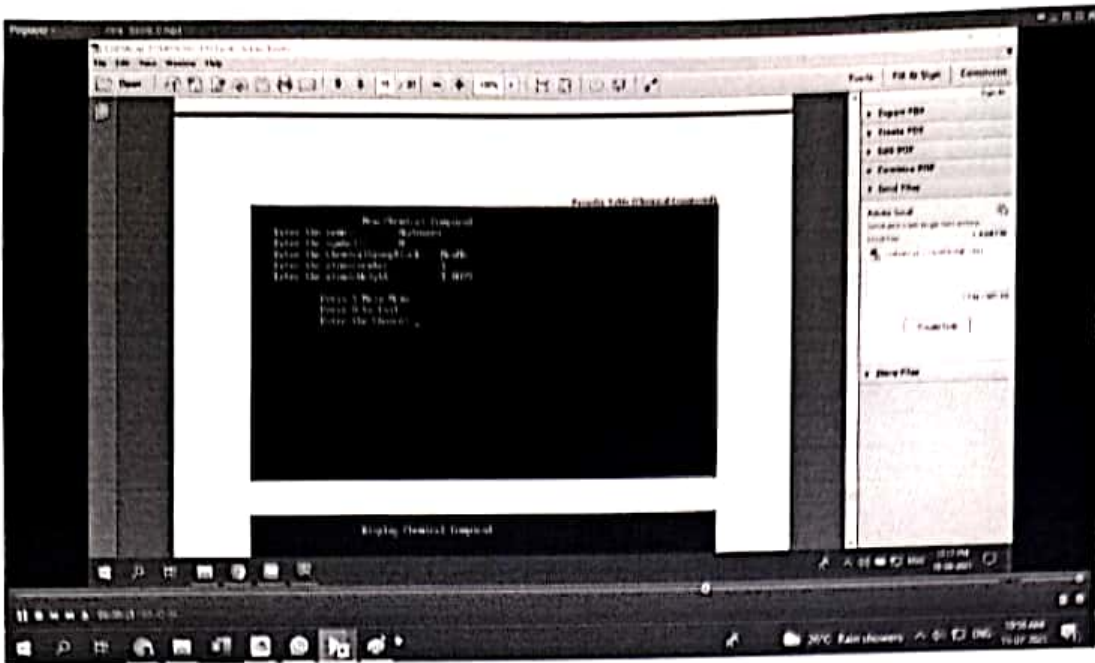

Participative Learning

Participative Learning

Experiential Learning

Participative Learning

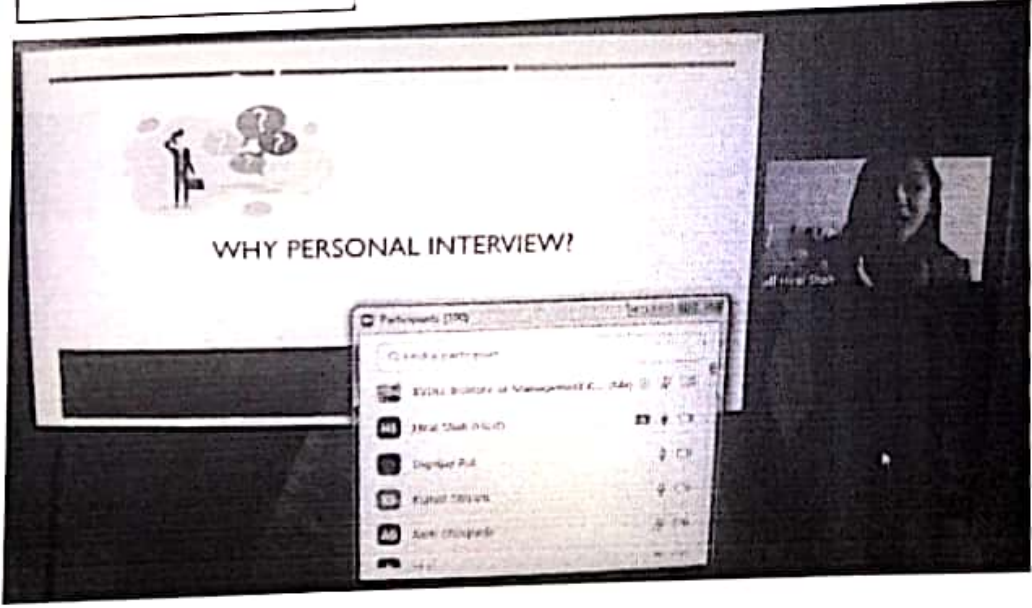

Participative Learning

Participative Learning

Problem Solving

2.3.1

Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences

Courses of the university are defined highlighting learning objectives and outcomes as well as program objective and outcome. This provides a comprehensive understanding to the student right at the beginning of the course as to what should be the primary focus. It also helps them in self-evaluating their performance at the conclusion of the course. Feedback of the Course and teachers, given by students at the end of each semester provides an opportunity to identify any lacunae which can then be addressed.

Teachers make classes as interactive as possible and encourage innovative thought and novel interpretations. Audio- Visual methodology, Language Lab, Google Classroom, Industrial Visits, Field Work and Projects are some of the means used by departments to boost student participation. Students are encouraged to reflect and analyse by eliciting responses to the subject under discussion. Such as:

- case study presentation
- Virtual –online trading(Stock Exchange)
- Virtual Survey Case method etc
- Programme developing, Language or code development etc
- Upload relevant supporting document

https://drive.google.com/drive/folders/1GGEldWJIRKU_PEuPotenD8TfPI5T2qAe?usp=sharing
