#### "YOGA AT HOME-YOGA WITH FAMILY"

Yoga is a mind and body practice with historical origins in ancient Indian philosophy. The word yoga is derived from the Sanskrit word 'Yuj' which means to join or unite. Yoga is believed to have evolved during the period of Golden age.

Yoga is a 5000 year old tradition from India that combines physical, mental and spiritual pursuits to achieve harmony of the body and mind. On December 11 in 2014, the United Nation General Assembly declared 21<sup>st</sup> June as the International Day of Yoga. The declaration came at the behest of the Hon'ble Prime Minister of India Shri Narendra Modi during his address to UN General assembly on September 27, 2014.

In India, Prime Minister Shri Narendra Modi inaugurated the first International Day of Yoga on 21<sup>st</sup> June 2015. The event was recognized and celebrated across 170 countries including USA, China and Canada.

### **Diabates Screening Camp**

**Introduction :** Diabates is a chronic , metabolic disease characterized by elevated levels of blood glucose (or blood sugar) which leads over time to serious damage to the heart , blood , vessels , eyes , kidneys and nerves .

There are few different types of diabetes :

- <u>Type 1 diabetes</u> is an autoimmune disease. The immune system attacks and destroys cells in the pancreas, where insulin is made. It's unclear what causes this attack. About 10 % of people with diabetes have this type.
- <u>Type 2 diabetes</u> occurs when your body becomes resistant to insulin , and sugar builds up in your blood.
- <u>Pre-diabetes</u> occurs when your blood sugar is higher then normal ,but it's not high enough for a diagnosis of Type 2 diabetes .
- <u>Gestational diabetes</u> is high blood sugar during pregnancy. Insulin blocking hormones produced by the placenta cause this type of diabetes.

The COVID-19 pandemic has resulted in a global shutdown, work, employment, businesses and the economic climate have been severely affected. It has generated stress among people from all sections of society. It is widely perceived that elderly or those affected by diabetes, hypertension and other cardiovascular diseases (CVD's) are prone to COVID-19. Due to social distancing norms, the availability of Yoga trainers has become restricted. Taneesha Joshi Volunteer of NSS prepared videos on "My life my Yoga" and "Importance of Yoga during COVID-19 pandemic" and shared it in various social media groups. Yoga practice is actively sought to achieve reduced anxiety and stress so as to improve sleep and to positively impact immunity. The beauty of yoga is that you don't have to be a yogi or yogini to reap the benefits. Whether you are young or old, overweight or fit, yoga has the power to calm the mind and strengthen the body. She uploaded these yoga videos on YouTube and other media platforms to reach maximum people and encourage this ageold tradition. It helps people in various ways and must be practiced daily.

Venue- Instagram Live

The students of 3<sup>rd</sup> year BDS, presented a live session on the most talked about topic in the medical world, "Black Fungus vs White Fungus vs Yellow Fungus"

Just as India was recovering from the devasting second wave, with roof-hitting daily cases and deaths, the doctors began reporting a rash of cases involving these rare fungi among the recovering and recovered individuals.We considered it our moral responsibility to conduct an informative and engaging session for our audience about these fungi.

Through this live session, We not only educated the audience but also urged them to take necessary steps to pass on this information to others.

# **TREE PLANTATION**

Deforestation has resulted in mass destruction of biodiversity. A lot of medicinal plants are nearing extinction and some other species are being wiped off the face of earth even before we discover their potential. Total 30 students participated enthusiastically.

A tree plantation drive was conducted at the Herbal garden of College of Ayurveda, BVU by the NSS unit of our college in association with the Dravyaguna department to commemorate the 150<sup>th</sup> Birthday of Mohandas Karamchand Gandhi, the father of our nation.

The event started of with the introduction of vermin composting, its procedure and its importance by Mr. Girish Belhekar.

The following points were highlighted by him:

1. The Vermicomposting unit should be in a cool moist and shady site.

2. Cow dung and chopped dried leafy material are mixed in the proportion of 3:1 and are kept for partial decomposition for 15 to 20 days.

3. A layer of 15 to 20 cm of chopped dried leaves /grass should be kept as bedding material at the bottom of the bed.

Beds of partially decomposed material of size 6x2x2 ft. should be made.

5. Each bed should contain 1.5 to 2 quintal of raw material and the number of beds can be increased as per raw material availability and requirement.

6. RED EARTHWORMS (1500 to 2000) should be released on the upper layer of the bed.

7. Beds should be sprinkled with water with the help of a can after the release of the earthworms.

8. Beds should be sprinkled with water (daily) to keep them moist and should be covered with wet gunny bags or polythene sheets to retain moisture.

9. Bed should be turned once after 30 days for maintaining aeration and for proper decomposition.

10

10. Compost gets ready in 45 to 50 days.

11. The finished product is 3/4<sup>th</sup> of the raw material used.

Vermicomposting is an efficient method of utilising waste products or by products and obtaining fodder of high nutritional value. It is non-polluting and does not harm the surrounding environment.

This was followed by the plantation of medicinal herbs at the Herbal Garden. Approximately 100 plants belonging to 30 different species were planted.

## **<u>REPORT</u>: "VAN MAHOTSAV 2020"**

## DATE:- 1<sup>st</sup> July 2020 - 7<sup>th</sup> July 2020

Van Mahotsav is an annual tree-planting movement which was started by *Kulapati Dr. K.M. Munshi*, the Union Minister for Agriculture and Food, in the year 1950 to create enthusiasm among masses for forest conservation and planting trees. The name Van Mahotsav means "*Festival of Forests*". It is now a week-long festival, celebrated from 1 July to 7 July i.e in the first week of July. It has gained significant national importance, and every year millions of saplings are planted across India in observation of Van Mahotsav week.

Van Mahotsav helps to raise the awareness for importance of trees among people, and highlights the need for planting and tending of trees as one of the best ways to prevent global warming and reduce pollution. Tree planting during Van Mahotsav serves various purposes, such as providing alternative fuel, increasing production of food resources, providing food for cattle, offering shade, reducing drought and helping to prevent soil erosion, etc.

In an earnest attempt to lend a green touch to the environment and sensitize the citizens about their role in conserving it, NSS UNIT of BHARATI VIDYAPEETH (DEEMED TO BE) UNIVERSITY COLLEGE OF ENGINEERING, PUNE celebrated "VAN MAHOTSAV WEEK" from 1<sup>st</sup> July to 7<sup>th</sup> July 2020 under the guidance of NSS program officer *DR*. *AMOL KADAM*.

Owing to the COVID-19 pandemic as the government has restricted any mass gatherings or public celebrations, this year NSS volunteers celebrated "VAN MAHOTSAV" by planting saplings at their home and nearby places. Different types of medicinal plants like Neem, Aloe Vera,

Basil, Giloy etc were also planted by the NSS volunteers. They were very inquisitive and enjoyed doing this activity. Around 40 trees were planted by the NSS volunteers and they also motivated their friends and families to plant as many trees as possible. NSS volunteers also promised that they will take care of the planted saplings.

Glimpses of celebration of "VAN MAHOTSAV 2020".

The constant felling of trees in India has been a problem for a long time, and Van Mahotsav is important in creating awareness of the issue. For every tree falling, ten new saplings should be planted to make up for its loss. Van Mahotsav helps spread awareness about the harm caused by the cutting down of trees, and it is expected that *every citizen of India must plant a sapling in the Van Mahotsav week*.

## **NOTICE**

This is to inform all the volunteers, students and staff of the institute that world environment day will be celebrated on 5th June 2020. The World Environment Day has a focus on the ecosystem restoration and its theme is "Reimagine. Recreate. Restore." Ecosystem restoration means preventing, halting and reversing this damage – to go from exploiting nature to healing it.

Due to Covid-19 Pandemic we urge you to do what is possible in way of at least planting a sapling in your surroundings following the Covid-19 Protocols.

## World Environment Day (Tree Plantation) :- 5th June 2020

Since 1974, World Environment Day has been celebrated every year on 5 June, engaging governments, businesses and citizens in an effort to address pressing environmental issues.

## THE THEME

For too long, we have been exploiting and destroying our planet's ecosystems. Every three seconds, the world loses enough forest to cover a football pitch and over the last century we have destroyed half of our wetlands. As much as 50 per cent of our coral reefs have already been lost and up to 90 per cent of coral reefs could be lost by 2050, even if global warming is limited to an increase of 1.5°C.

Ecosystem restoration means preventing, halting and reversing this damage – to go from exploiting nature to healing it. This World Environment Day will kick off the UN Decade on Ecosystem Restoration, a global mission to revive billions of hectares, from forests to farmlands, from the top of mountains to the depth of the sea.

Only with healthy ecosystems can we enhance people's livelihoods, counteract climate change and stop the collapse of biodiversity.

## THE COMMUNITY

Above all, World Environment Day offers a global platform for inspiring positive change. It pushes for individuals to think about the way they consume; for businesses to develop greener models; for farmers and manufacturers to produce more sustainably; for governments to invest in repairing the environment; for educators to inspire students to take action; and for youth to build a greener future.

Everybody living on this planet, in this moment in time can be a part of #GenerationRestoration

## THE HOST

Every World Environment Day is hosted by a different country in which official celebrations take place.

World Environmental Day was celebrated on 5th of June 2020 in our institute. The theme for the year was tree plantation. A Sapling was planted by the hands of Dr. L.S. Chirmulay, Principal of institute. Around 17 students from the NSS unit participated in the tree plantation online by planting a tree in their vicinity while others pledged to spread the awareness through online portal.

### NSS DAY

D

On September 24, 1969, the then Union Education Minister Dr. V.K.R.V. Rao, launched the NSS programme in 37 universities covering all States and simultaneously requested the Chief Ministers of States for their cooperation and help. It was appropriate that the programme was started during the Gandhi Centenary. Year as it was Gandhi Ji who inspired the Indian youth to participate in the movement for India's independence and the social upliftment of the downtrodden masses of our nation.

The cardinal principle of the programme is that it is organised by the students themselves and both students and teachers through their combined participation in social service, get a sense of involvement in the tasks of national development. Besides, the students, particularly, obtain work experience which might help them to find avenues of self-employment or employment in any organisation at the end of their university career.

NSS volunteers of BVDU IHMCT Pune Celebrated NSS day on 24<sup>th</sup> Sept 2020 by distributing food among homeless people. Volunteers distributed food to the people in the areas near Dhankawadi and Shankar maharajah math. Volunteers followed all precautionary measures for COVID-19 such as social distancing, proper mask usage and hand hygiene.

# Distribution of masks, soaps and sanitizers

Masks should be used as part of a comprehensive strategy of measures to suppress transmission and save lives; the use of a mask alone is not sufficient to provide an adequate level of protection against COVID-19.

If COVID-19 is spreading in our community, stay safe by taking some simple precautions, such as physical distancing, wearing a mask, keeping rooms well ventilated, avoiding crowds, cleaning your hands, and coughing into a bent elbow or tissue. Check local advice where you live and work. Do it all!

Make wearing a mask a normal part of being around other people. The appropriate use, storage and cleaning or disposal of masks are essential to make them as effective as possible.

Here are the basics of how to wear a mask:

- Clean your hands before you put your mask on, as well as before and after you take it off, and after you touch it at any time.
- Make sure it covers both your nose, mouth and chin.
- When you take off a mask, store it in a clean plastic bag, and every day either wash it if it's a fabric mask, or dispose of a medical mask in a trash bin.
- Don't use masks with valves.

In Covid – 19 times NSS volunteers of BVDU IHMCT Pune made face masks for underprivileged people. Students distributed masks, soaps and sanitizers to frontline workers and underprivileged people in the months of June and July throughout the state of Maharashtra. Volunteers taught importance of hygiene and hand washing to people. Volunteers distributed masks near their homes while following social distancing. A Total of <u>250 Masks</u> were distributed.

## 1. CORONA VIRUS AWARENESS CAMPAIGN

Corona virus disease (COVID 19) is a new strain that was discovered in 2019 and has not been previously identified in humans. It was 1<sup>st</sup> reported in India on 30<sup>th</sup> January 2020, originating from China. It is a respiratory illness that can spread from person to person. This coronavirus outbreak is declared as a pandemic by the World Health Organization. It has already spread among the people all over the world and caused several deaths.

The NSS unit of BharatiVidyapeeth Deemed to be University, IMED, Pune took a step forward to spread awareness about this major issue or disease affecting our lives and causing deaths. Till now there is no particular medicine for this illness but all we can do is to take various precautions to get over this disease. We conducted various activities to spread awareness about COVID 19. These activities are mentioned below:

### **ACTIVITY: AWARENESS IDEAS**

Date: 4<sup>th</sup> - 11<sup>th</sup> April 2020

For spreading awareness at larger level, NSS Unit of IMED conducted an activity in which all the volunteers were asked give or present their ideas and show their skills and creativity. The no. of ideas for spreading awareness were:

- Writing Poems, Jingles, Songs
- Individual or group audio or video messages, small skits.
- Designs, Paintings, Posters, Collage etc.

Volunteers sent various handmade and digital posters, video and audio messages, collage, songs, Poetries etc. to spread awareness. Each volunteer actively participated in this activity. Volunteers were given a time period of 1 week and were told to submit their piece of art on or before 11<sup>th</sup> April 2020.

### **ACTIVITY: TRAINING PROGRAMS**

There are various initiatives taken by government authorities and officials to spread more and more awareness among people. One of the initiatives taken by government authorities was providing training programs through the various links for the volunteers. Volunteers were told to complete those training programs. The links contain information about

- Health Education and precautionary measure related to COVID-19
- Discharge of covid patient
- COVID-19 Myths & facts
- Making face Mask at Home

About 50 volunteers go through the link, red the document, watched the videos and completed the training. This training program was helpful for volunteers to know what they should do to fight with the current pandemic. It also helped them to spread the important information to other people too.

Another initiative taken by Government of India was developing an application named ArogyaSetu App. This app was developed to pass the accurate and appropriate information to the people about COVID 19. The application helps us to know the current situation and it tells us the chances of a person to catch the disease through his/her health status. Volunteers were told to download ArogyaSetu App and get themselves registered on it. About 100 volunteers downloaded the app. This app was useful for the volunteers in knowing the updates. They also shared this message to download this app to others too.

## **ACTIVITY: ONLINE WORKSHOP**

#### Date: 14th April 2020

National Service Scheme Maharashtra State and UNICEF organized an online workshop for the NSS Directors, Coordinators, Programme Officers and Volunteers on awareness about COVID 19. The workshop was scheduled live on YouTube app on 14<sup>th</sup> March 2020 at 3 pm and continued till 5 pm. all the volunteers were asked to attend the online workshop as per schedule. About 30

Some of the initiatives were taken by the volunteers on their own. Such initiatives were as follows:

- Taking care and providing food to street dogs
- Food distribution to people
- Small videos with children passing awareness about COVID19

Volunteers are utilizing this time doing such creative activities and making other people aware about taking the precautions.

Instead of purchasing masks from outside, some volunteers took initiative to prepare masks at home. They also encouraged their families and other families to make their own homemade masks.

Some small videos were also forwarded to volunteers of how to make masks at home. This helped them to take this initiative.

#### **ACTIVITY: COVID-19 AWARENESS**

BHARATI VIDYAPEETH (DEEMED TO BE UNIVERSITY) INSTITUTE OF MANAGEMENT AND ENTREPRENEURSHIP DEVELOPMENT, PUNE NATIONAL SERVICE SCHEME WORLD ENVIRONMENT DAY 5<sup>th</sup> June 2020

#### **RAKSHA BANDHAN ACTIVITY**

NSS unit of IMED, Bharati Vidyapeeth (deemed to be) university organized RakshaBandhan activity under which different events were there. This activity was conducted on 3<sup>rd</sup> of August 2020.

The activity was organized by HarshikaBhushan with the help of 20 volunteers and Dr. Vijay Phalke (NSS program officer) through online mode because of the pandemic situation. Like every year some of the volunteers went out (by keeping up with all the safety measures) to tie rakhi to Policemen and security guards to share love and happiness and also express our gratitude for protecting us. We also celebrated VRIKSHA BANDHAN, mainly to celebrate our surroundings (plants and tress) by tying rakhi to them. The volunteers also worshipped them and took pledge to always protect them. All the volunteers actively took part in these activities and celebrated RakshaBandhan in a different way this year. We are indebted to our nature. It has given us so much, therefore it becomes our prime duty to give back something. We can set an example by tying rakhi's to plants or trees and taking an oath to never cut them unnecessarily. A plea to grow saplings at regular intervals of time and become saviors of our nature. All that's important is the consideration and tribute you share for our nature.

This activity highlighted the feeling of patriotism amongst us. As sisters pray for the longevity of the lifespan of their brothers through a sacred thread, similarly the rakhis were tied to the real protectors of our nation. One of the volunteers also tied rakhi to her pet dog. This was a great gesture of love. These animals a gift by god to us. It's our responsibility to protect and feed them. A new custom can be set to tie a knot on their legs, hands or on their neck like a pendant. The sole meaning of this festival is not just tying a rakhi but love and commitment. All of us came forward and joined hands to celebrate this festival

#### NO SMOKING AWARENESS CAMPAIGN

NSS Unit of IMED ,BharatiVidyapeeth (Deemed to be) University has organized a "No Smoking Awareness Campaign" under which different activities has been performed by volunteers. This activity has been conducted on 7<sup>th</sup> August 2020.

The activity has been organised by Arjun Kakkar with the help of 26 volunteers and the mentors including Dr. Vijay Phalke(NSS Programme Officer), Dr.PramodKadam(Faculty) and Mr.NetajiJadhav(Sports head) in online mode due to COVID-19 pandemic situation.

The volunteers were supposed to make posters, slogans and an elocution competition also been held in which the volunteers had done a fantastic job. A video has also been made and uploaded on the official YouTube page of NSS IMED which can be seen through the link <u>https://www.youtube.com/watch?v=R01eK070V10</u>. It involved some key facts and survey data regarding smoking and its consequences represented in statistical and tabular form.

Some videos, images and posters to highlight the smoking habits and promote no-smoking. During Covid-19, a lockdown had imposed in the nation during which supply of cigarettes was affected which resulted into black marketing and selling of cigarettes at a 4-5 times higher price. Certain rumors and facts were spreaded. Former one said that the chemicals present in cigarettes and tobacco were helpful to fight corona virus. Truth is smoking resulted in lung and breathing problems which likely worsen the condition of covid patients might resulting into death.

Thus it can't be said that smoking is completely wrong but it isn't right either. With all the campaigns we will always try to keep the public aware of the smoking situation or problem and maintain a balance between necessity and addiction.

ONE DAY. YOUR LUNGS /ILL QUIT BEFORE You DO! DON'T NAK NO TO SMOKING Smoking SAY AN ASH OF YOURSELF 4.C

# SPREAD LOVE WITH GRANDPARENTS

The NSS Unit of IMED ,BharatiVidyapeeth (Deemed to be) University has organized an activity "Spread Love With Grandparents" under which various activities has been performed by volunteers. This activity has been conducted on 14th August 2020.

The activity has been organised by Sakshishree along with 27 volunteers. The volunteers were supposed to send a picture with their grandparents and write a memory related to that picture and also to spend a good quality time with their old ones. This activity has not only brought the volunteers closer to their grandparents but it also drove them to the memory lane and let the grandparents feel their importance in the life of their grandchildren.

The main moto for organizing the activity was to let our grandparents feel their importance as in today's generation we are usually so much busy in our own stuffs that we hardly get time to spend a good quality moment with our old ones. Our grandparents are the pillar of our house. But somehow they feel isolated and alone because of us. So giving time to them is very much important. Hence this activity has helped in bringing back the happiness in the face of our grandparents.

Every year we the NSS volunteers of IMED visits old age home and we devote our 5-6 hours with the old people there in order to make them feel happy and do not feel alone or isolated. But due to this pandemic situation when we are not at our college and are residing at our home towns so it was difficult to visit OLD AGE HOME. But we have not stopped our moto to spread love with grandparents and we organised this activity virtually.

This activity has proved to be the best one as it was very much appreciated not only by volunteers but also by our faculty members and the grand parents. This activity has helped us to bring happiness in our grandparents face and we would love to organise this activity every year.

In this pandemic Online Pledge is a creative idea. During this Covid-19 pandemic, people persisted to use Tobacco knowing the hazards of it or what it might lead to. During the preparation, a survey was conducted which answered question like why Tobacco is not completely banned and why people still use it. It was mainly because tobacco business is a great source of government income, it facilitates employment and avoid establishment of black market. Tobacco is not fit for health but it helps the country's economy. It is true that Tobacco causes various health issues and likely to increase the probability of beinga victim of covid-19. Even after some states have Banned the use of Tobacco Products such as Jharkhand, Madhya Pradesh, Kerala, Rajasthan.

Over 25 states and union territories, including Maharashtra, Gujarat, Uttar Pradesh, Assam and Delhi, have banned the use of smokeless tobacco productsand spitting in public places in view of COVID-19, official sources in the Union health ministry said. It came into light that around Rs 38000 crores was collected in 2018-2019 in the form of taxes from tobaaco industry. Around 4.5 crore people are involved in tobacco business. In India, road safety is the most neglected subject. We as commuters don't follow appropriate road safety rules. When it comes to road safety, we are careless. And, that's where problem arises, this initiative has been started to change this dark side.

The black giant helmet structure serves as a warning to those who don't adhere to traffic rules Talking about the initiative that has been divided into three phases in the city.Next time you head out on a two-wheeler without wearing a helmet, stop and think again! A motorcycle crash can result in deadly head injuries that can often be fatal.

So what exactly happens during an impact injury to the head. Doctors say, when your head hits the pavement or the ground your brain is moves forward, hitting up against the bones inside the skull. It gets deformed and tears nerve fibers. The torn ones cannot heal. When you lose a brain cell, there is no replacement for it. That's where permanent damage occurs. Here is the glimpse of the activity. 14 students have sent their photos, 11 students have sent synopsis and 11 students were involved making a role play video.

#### WATER CONSERVATION ACTIVTY

NSS Unit of IMED, Bharati Vidyapeeth (Deemed to be) University has organized a "Awareness of Water Conservation" under which different activities were performed by volunteers. This activity was conducted on 30th August 2020. The activity was been organized by Sonali Bhushan (me) with the help of 27 volunteers and the mentor Dr. Vijay Phalke (NSS Program Officer) in online mode due to COVID 19 pandemic situation.

As we are promoting "#Cutting Paani Campaign ", the volunteers were supposed to perform 3 activities.

• Activity 1- After school life we are not in a habit to write and due to this pandemic, the creativity is hidden. So, all were requested to write A Blog on topic 'A drop of water is a drop of life' or can make drawings.

• Activity 2- To promote #Cutting Paani Campaign you all were requested to click a picture with a glass of water filled and marked at the halfway point and to put the same on Insta story so that there will be awareness among other people too.

Also, they were asked to tag NSS Official page @imed.nss and to use hashtags: - #cuttingpaanicampaign #waterconservation #savetodayforbettertomorrow

Lastly, to submit the screenshots of the stories here at group itself before 6pm.

Activity 3- To create awareness I made two videos

1) Rain Water Harvesting

2) Cutting Paani Campaign (With 10 Volunteers)

The topic of "Cutting Paani Campaign" was taken because there is lot of rainfall in India but still there is scarcity of water and if we won't start conserving it now then in future there is a chance of fight for a single drop of water.

Cutting Paani Campaign says 'Jitni Pyaas Utna Paani' which means if a person is not much thirsty the he/she should first take half glass of water only so that another half glass is not wasted.

While serving guest also I would like to suggest to serve either in small glass or half a glass and after they drink that much water ask them if they want another glass so in this way water will not be wasted.

Total 30 students and Dr. Vijay SS. Phalke volunteered in the activity and made it a success.

# FIT INDIA CAMPAIGN

Fit India movement is a nation-wide movement that encourages people to stay healthy and fit by devoting time in physical activity and sports every day.

It was launched by Prime Minister of India Narendra Modi at Indira Gandhi Stadium in New Delhi on 29 August 2019 (National Sports Day).

This campaign aims to increase the health and living standard of the people.

Every year, the NSS team of IMED organizes this campaign by performing various games and activities like football, basketball, volleyball, kabaddi, etc. This year due to Covid-19 and lockdown the activity was performed from different geographical locations by every participant in their hometown in a safe manner.

The campaign took place from 2nd September,  $2020 - 2^{nd}$  October, 2020. The total of 85 individuals participated in this campaign including 73 students and 13 faculty members.

The campaign was divided into two shifts :-

Morning - 5.30 am - 7.30 am

Minimum 30 minutes of walk or jog daily resulting in average of 10,000 foot steps travelled.

Evening - 4.30 pm - 7.30 pm

Performing yoga, plank, skipping, push ups, playing any indoor game, etc.

A seminar was conducted by **Arjun jain** on Fitness and its health benefits to spread awareness among the viewers. The campaign was regulated by taking the screenshot of the workout done by participants and posting it in the common NSS group.

The result of this campaign was great as the participants managed to make a huge impact on their families and surrounding as well, as the later ones too contributed in this campaign by doing certain physical activity.

It is requested by everyone to give atleast 30 minutes in a day towards fitness and physical activity for better health regime.

Planting more and more trees is a need of this hour. As trees grow, they help stop climate change by removing carbon dioxide from the air, storing carbon in the trees and soil, and releasing oxygen into the atmosphere. As every year, this year too IMED celebrated International Ozone Day by planting saplings. All the IMED Teaching and non teaching staff took active part in this activity. The activity was inaugurated by Director IMED, Dr. Sachin S. Vernekar. About 35 saplings were planted in the campus.

## SATARK BHARAT SAMRIDDH BHARAT

The NSS unit of IMED conducted the SATARK BHARAT SAMRIDDH BHARAT Activityon 28<sup>th</sup> October under the Vigilance Awareness Week.

Vigilance Awareness week is observed every year as a part of the multi pronged approach of the Commission, to encourage stakeholders to collectively participate in the prevention of and fight against Corruption. This is observed every year during the week in which the birthday of Sardar Vallabhbhai Patel (31st October) falls. The Commission also aims to raise public awareness, regarding the existence causes and gravity of and the threat posed by the Commission.

The Vigilance Awareness Week-2020 was observed this year from 27th October, 2020 to 2nd November, 2020 on the theme "Satark Bharat, Samriddh Bharat (Vigilant India, Prosperous India)".

Corruption is the abuse of entrusted power for private gain. Corruption erodes trust, weakens democracy, hampers economic development and further exacerbates inequality, poverty, social division and the environmental crisis. Exposing corruption and holding the corrupt to account can only happen if we understand the way corruption works and the systems that enable it.

The NSS unit of IMED made an awareness video which illustrated how corruption works and why each citizen of our country needs to fight for its eradication.

#### **HUMAN RIGHTS**

The NSS Unit of IMED conducted the Human Rights Awareness Activity on 29<sup>th</sup> October 2020 under the Vigilence Awareness Week.

As we all know, Human rights are moral principles or norms that describe certain standards of human behavior and are regularly protected in municipal and international law. They are an important means of protection for us all, especially those who may face abuse, neglect, and isolation. Most importantly, these rights give us power and enable us to speak up and to challenge poor treatment from others.

So, we encouraged students-to-be-selected, to come up with their perceptions about Human Rights. A total eight of them were asked to make a video of themselves speaking about Human Rights for 1 minute. The deadline mentioned to them was 5 P.M. While this was the main task for them to be selected, their active/ inactive participation was also assessed through WhatsApp Group from 29th of October to 1st November, 2020, where they were asked to introduce themselves, give suggestions for the activity that could have been carried out for the selection process and also, acknowledge important notices and messages.

#### ECONOMY UPLIFTMENT ACTIVITY

In the aftermath of corona pandemic, people have reduced using cash and are mostly focusing on contactless payments. Under the theme of 'Economic uplifting activity,' we could reach out to local businesses in rural as well as towns and make them aware of cashless payments. People in backward areas are still apprehensive about cashless payments, we could gain their trust by pointing out the charms such as no trouble of depositing in the bank account, or getting infected by the coronavirus, or ease of doing business, or risk of theft.

After explaining, in case they have a smartphone we could link their accounts with UPI and teach them how to use UPI for day-to-day usage. We could inform them about QR codes and print one for them and even teach them how they could accept payment with one.

There could be instances where some people don't even have bank accounts. We could make them aware about Pradhanmantri Jan Dhan Yojana bank account which does not require any minimum balance and provides a RUPAY debit card along with some insurance covers. If eligible for any other benefits, the government can directly transfer benefits to the specific

person without the interference of any middlemen.

In the same activity we told the vendors how they can grow their business and the factors that can help them to increase their sales. We told them the other employment and business oppotunities they have and can get through govt. assisting policies.

Main focus of our activity is how we can go with LOCAL FOR VOCAL & help of small vendors.
