Dr AV Raichurkar,Dr GC Gawade	Lecture Demonstration on Electrophoresis	You Tube	17 March, 2021
-------------------------------	--	----------	----------------

https://www.youtube.com/watch?v=d_CG-oCBwhM

The screenshot displays a YouTube video player interface. The main video is titled "Dr A.V.Raichurkar and Dr G. C.Gawade ,BVTUMC, Pune -43 Lecture demonstration on Electrophoresis". The video content shows a sign that reads "ELECTROPHORESIS" with a list: "Hemoglobin" and "Protein". The video player interface includes a progress bar at 0:40 / 11:30, a play button, and a volume icon. Below the video, there are 73 views and a date of Mar 17, 2021. To the right of the video, there is a list of recommended videos, including "Introduction of Microbiology basic lab instruments", "Netflix 'Squid Game' Behind the Scenes", "Operating an HPLC: Part 1", "A Day in The Life Of Sundar Pichai (Google's CEO)", and "One of the Greatest Speeches Ever | Steve Jobs". The Windows taskbar is visible at the bottom of the screenshot, showing various application icons and the system clock at 2:30 PM on 07-Oct-21.

Question 1
Not yet answered
Marked out of 1.00

All of the following are disadvantages of composite restorations except

Select one

- a. Recurrent caries
- b. Greater localized occlusal wear
- c. More time in placement
- d. Technique sensitivity

Question 2
Not yet answered
Marked out of 1.00

Caries involving only proximal surface of an anterior tooth

Select one

- a. Class III
- b. Undemined
- c. Class II
- d. Arrested

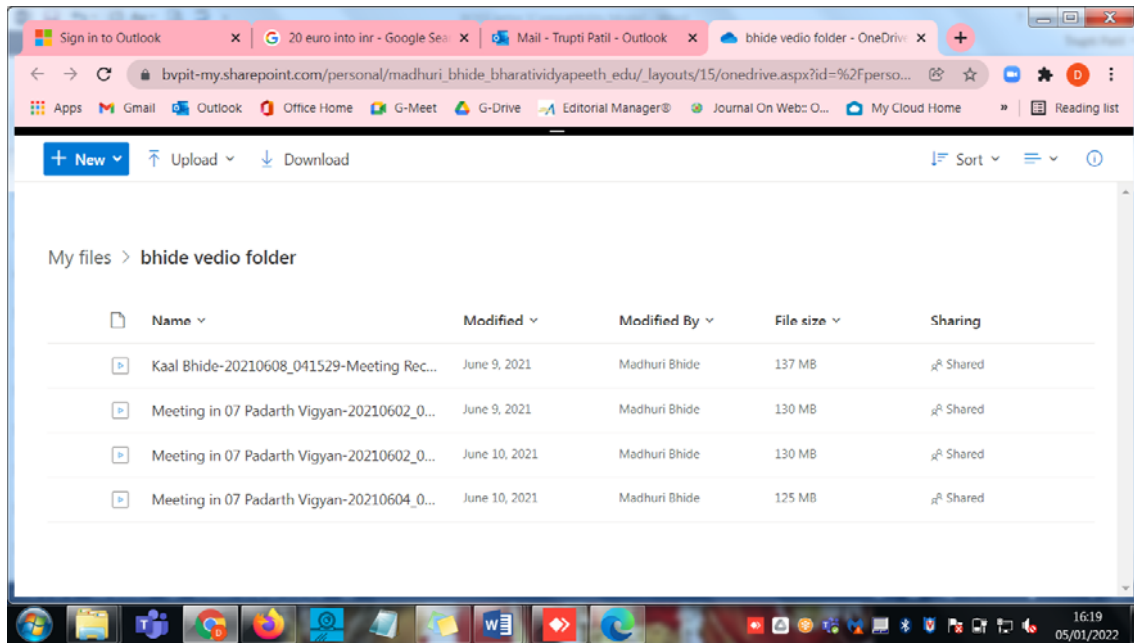

Question 3
Not yet answered
Marked out of 1.00

Cavosurface angle for amalgam cavity should be

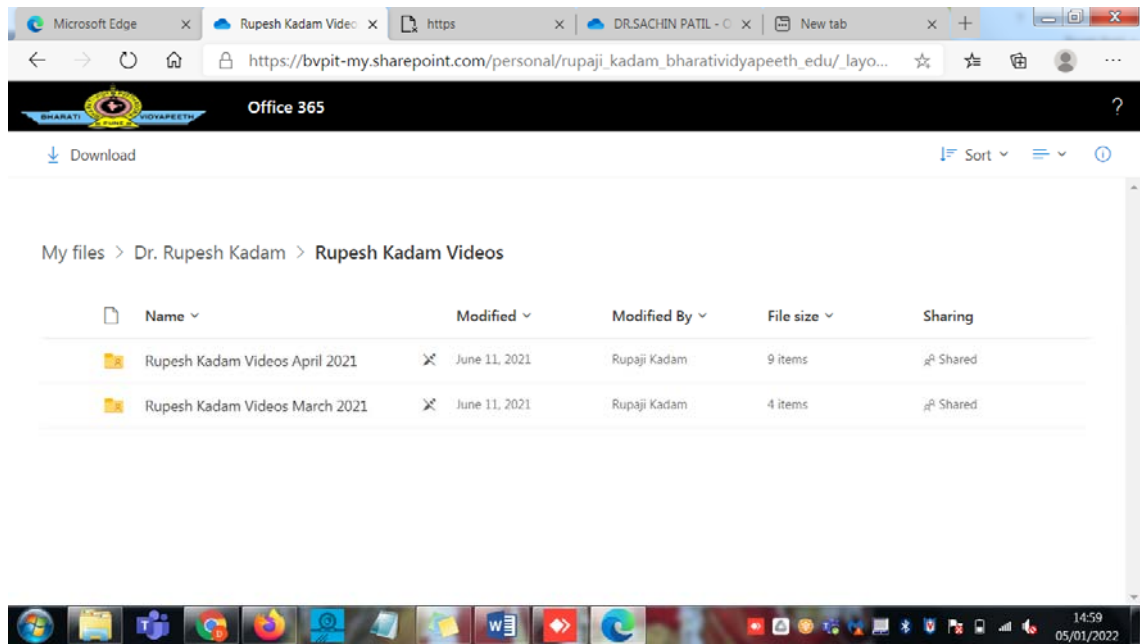

Select one

- a. 45 degree
- b. 90 degree
- c. 15-20 degree

WELCOME TO IGET

In India's recent journey of sustainable economic growth, the geospatial information has emerged as an effective enabler to support good governance, sustainable development goals and empowerment of its citizens. In India's evolving geospatial ecosystem, the current focus is on improving the publicness in the provision of geospatial data and information through institutional strengthening for enhancing the performance of organizations. In this context, developing technical capacity at the individual level, remains the

NF-Data Structures using Python

1 Basics of Python

Objectives

- Installing and using python interpreter
- Declaring and using python variable
- Understanding and using python operators
- Making use of python selection and iterative statements
- Making use string and handling string functions

1.1 Introduction

Python is a popular programming language. It was created by Guido van Rossum, and released in 1991. It is object-oriented, high-level programming language with dynamic semantics. Python code execution is carried by an interpreter. Python's simple, easy to learn syntax emphasizes readability and therefore reduces the cost of program maintenance. Python supports modules and packages, which encourages program modularity and code reuse. The Python interpreter and the extensive standard library are available in source or binary form without charge for all major platforms, and can be freely distributed. Python support various kind of programs which includes
