Training Report: RFID set up at Library

The institute library has purchased RFID automation system through Origin Technology, Bangalore. The setup is consisting of circulation module, hand held reader, RFID reader, gate security system and drop box. On March 9, 2018 the complete system was installed, and satisfactory demo was given. Every library staff member was trained to operate circulation module.

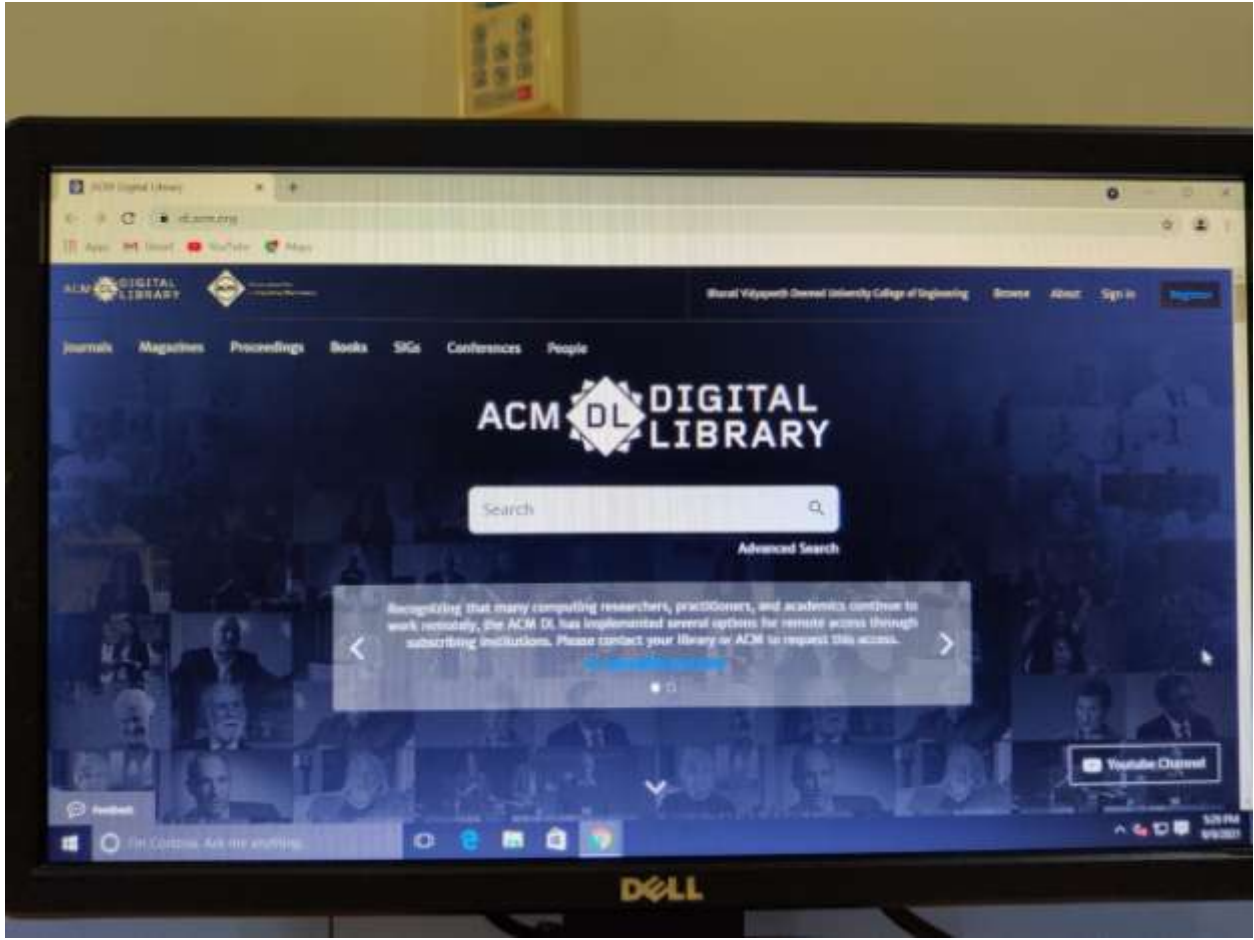

The circulation module is integrated with students/faculty database, library rules & text book database. It can be used for issue and return. All books of library are tagged with RFID tags.

The hand held reader is useful for stock verification and book search. The Gate security system gives alert for unauthenticate usage of books. The drop box is integrated with access control card and useful for book return.
