Alumni Association Activities 2020-21

Bharati Vidyapeeth (Deemed to be University) Medical College and Hospital, Sangli, has an active Alumni group which communicates through Facebook page.

The Alumni association is not yet registered and is in the process of Registration.

The Alumni interact with the students from time to time. There is a session in the beginning of each academic year where alumni guide the newly admitted students and share their experiences.

Report on the Guest lecture for Student Induction Programme

Name of the Event: Guest lecture on 'Road map to success'

Date of the event: 4th November, 2020

Location of the event: Online means (MS TEAMS)

“Success always comes with a price”

A guest lecture by Ms. Tripti Mishra was conducted on the topic “road map to success”. This was held on 4th of November, 2020 which was also the third day of the SIP that is the student induction programme.

The orator explained the freshers the meaning of success, what one should do to be successful in life and most importantly what one should follow to be disciplined in life. She said that success can be achieved when we try our best in all aspects of everything we do, even if that doesn't lead to big results. If we've done our best, we should feel proud of our efforts. She advised to stay realistic and concrete while setting goals, and that success does not come from setting abstract goals. Success is understanding the difference between need and want. Believing in oneself is a very important aspect of the roadmap to success. She said that if we believe we can, we will succeed. Self-belief doesn't come naturally to everyone, so keep telling yourself that we can achieve the goals in our plans. Success is also having the ability to balance work with passion. Work without passion creates undue stress and empty achievements. In fact we should focus on what excites us and what all we love doing.

Success is learning something new each day. Learning is something that never stops. A successful person never stops exploring new things and upgrades, keeps a connect with people and also focuses on his goals.

And lastly, she mentioned that success only comes when we overcome our fears. We don't have to let our fears hold us back from achieving our potential and reaching our goals. We can start by questioning our fear, improving our self-confidence, and ending self-destructive behaviours.

The guest lecture came to an end by our professor Mrs. A. Deshpande, expressing her gratitude towards the speaker.

Report on the Guest lecture for Student Induction Programme

Name of the Event: Guest lecture on 'Life on campus'

Date of the event: 4th November, 2020

Location of the event: Online means (MS TEAMS)

Written by: Kasturi Rana

"No, sky is not the limit. It is only the beginning"

A guest lecture by an alumni, Ms. Neeta kawade was conducted on the topic "life on campus". It was held on 4th of November, 2020, the third day of the SIP that is the student induction programme.

She begun, by sharing her views on life is on college campus. How we grow in this environment. A college is the place that allows students to dive deep into the ocean of new beginnings and possibilities. The college phase is one of the most interesting stages in life that gives us an opportunity to explore. She emphasised on, how quickly the teenage years end and the golden period in college create a strong foundation of knowledge.

She said that the experience of college will teach you one fundamental thing that, life is unpredictable. The experiences can be weird, they might be good or bad. She explained us that, college life prepares us for all uncertain. It is a beautiful and perfect blend of joy and hardships. We meet different people, interact with them, learn about their different cultures, and grow as a sensible human. One learns and understands how to talk to different people and judge their behaviour, thus helping us with important life skills.

She mentioned that, there will be moments in our college days that will hold a lot of sentimental value, and people do miss those years later. The most important aspect of our college life is friendship. Friends in college give us strength, and they are our knights in shining armour for all our life. The occasional adventure surges, planning road trips, and all the impulsive journeys—all of these things make more emotional when you are out of the institution.

The lecture came to an end with our professor in charge, expressed her gratitude towards the orator.

WEBINAR: IMPACT OF COVID ON THE HOSPITALITY INDUSTRY

Date: 31st Aug 2020, 11 am

No. of Participants: **56 (02 faculty)**

The hospitality industry has been greatly impacted by Covid 19 and the plans of Industry Exposure and Placements of the Hotel Management students have been put on hold.

To address the uncertainty surrounding Industry Exposure for **SY BSc (H&HA)** students who were scheduled to commence their Industry Exposure from 1st June 2020, the Training & Placement Cell of the institute organized a Webinar – **“Impact of Covid on the hospitality industry”** by Mr.Virender Choudhary.

Dr.S.A.Sangle, Training & Placement Officer with great pleasure and pride introduced Mr. Virender Choudhary General Manager, Ibis Pune Hinjewadi, and also as an alumni who has done the institute proud.

Mr.Virender Choudhary expressed his immense pleasure to be addressing the students of his almamater and recalled the wonderful times spent at the institute and the support and guidance received from the teachers.

He shared his professional journey of working in the hospitality industry for the last 12 years and his association for nearly 10 years with Accor in India with a versatile exposure of working with its brands & hotels (Ibis, Formulae One) in cities like Pune, Ahmedabad and Nashik; along with short stint at Accor India corporate office as National Operations Manager supervising the operations of 10 budget segment hotels in 7 cities.

He appreciated the strong foundation laid by the teachers of the institute and his belief in Accor values & culture which has been the reason for the success till date.

Coming to the topic he discussed his company's deep commitment to preventing the spread of COVID-19 – by partnering with top experts, investing in research, new standards of safety, enhanced protocols and procedures which will address the new reality.

He informed about the launch of the ALLSAFE label, which represents some of the most stringent cleaning standards & operational procedures in the hospitality industry developed with and vetted by Bureau Veritas, a world leader in testing, inspections and certification.

He started with discussing the general measures undertaken at the hotel:

- Physical distancing
- Hand hygiene, including proper hand washing & hand sanitizer stations
- Mandatory screening for all guests and employees, which may include a temperature check
- Face coverings mandated for all employees and guests in all indoor public spaces
- Increased cleaning & disinfecting frequency, with continued use of EPA-registered disinfecting chemicals, proven effective in preventing the transmission of COVID-19

- COVID-19 awareness, education & training
- Formal cleaning & disinfecting audit program

Mr. Choudhary discussed in detail the specific measures adopted during Arrival, Welcome & Check in, and during Check out. Department specific measures adopted by Housekeeping, F&B (particularly restaurants, in room dining and kitchen) were discussed.

He discussed the challenges faced by the hotel during the initial days of lockdown when delivery of vegetables, fruits and other requirements were affected, staff having to stay at the hotel and many more overwhelming situations and how they all together overcame it.

He pointed out that though the industry has been badly hit, but his hotel has already surpassed the annual target by catering to the guests of Vande Bharat Mission.

He agreed that that returning to normalcy will take time, may be another year...most hotels may not take interns since there is no business and are worried about the safety of the interns. Even if hotels do take interns the numbers will be greatly reduced.

He suggested that students should engage themselves with online courses, access online material relevant to hotel operations until hotels are ready to welcome interns. He also suggested working with restaurants as an alternative.

The session was followed by Question and Answer session. Mr.Virender Choudhary very patiently answered all the queries and offered valuable career guidance to the students.

Date: **24th August 2020, 11 am**

No. of Participants: **61**

The students of Class of SYBSc (H&HA) were unable to proceed for Industry Exposure due to Covid 19 pandemic. Hence the Training & Placement Cell of the institute organized a webinar titled - **Glimpse in the World of Hotels** on 24th August 2020 decided to familiarise them with the hospitality industry, careers in hospitality industry as well as hotel operations.

The session was conducted by Ms.Lovina Bhagchandani , Operations Manager , and Ex Marketing Manager at Le Meridien, Pune.

Ms.Lovina Bhagchandani, an alumni of the institute (1998-2002) started the session by introducing her journey in hospitality beginning with F&B Service at Grand Hyatt Mumbai and her transition to Sales & Marketing and her current role as Operations Manager with a luxury travel company.

She introduced the students to the hospitality industry at large and discussed the operations of various operational departments of the hotel – Kitchen, F&B Service, Housekeeping & Front Office. By sharing real life experiences, she highlighted the need for interdepartmental co-operation and coordination as the key to success. She said that the mandatory internship would help them exactly understand what she said.

She wished that the students would be able to be on the scene and get hands on experience of the challenging, fast paced operations in a hotel and how it would benefit them.

She discussed the expectations recruiters have from hotel management students and listed the essential qualities to be a successful hotelier such as good interpersonal skills, strong communication skills, good manners, flexibility, customer orientation and positive attitude.

She stressed on strong communication skills and gave credit to her good communication skills which enabled her to grow in position and also make the move to Sales & Marketing and eventually opening up several opportunities in the hospitality industry.

She recalled her active participation in organizing various events and activities at the institute which enhanced her confidence and organizational skills.

Description:

The welcome address of the webinar on "Model View Controller (MVC)" given by respected Dr. S. B. Sawant Sir, Director AKIMSS. The webinar session inaugurated by Dr. A. B. Nadaf sir HOD, AKIMSS. The preamble given by Dr. M. K. Patil, MCA Coordinator, AKIMSS.

Dr. M. K. Patil started the session by giving the basic overview of MVC architecture and its applications.

The expert Mr. Rajesh Vhadlure explained the concept of Model View Controller (MVC) in detail. In his session he highlighted following points:

1) Concept of MVC

ASP.NET MVC is a new web application framework from Microsoft. MVC stands for Model-View-Controller. ASP.NET MVC is an open source web development framework from Microsoft that provides a Model View Controller architecture. ASP.net MVC offers an alternative to ASP.net web forms for building web applications. It is a part of the .Net platform for building, deploying and running web apps. You can develop web apps and website with the help of HTML, CSS, jQuery, Javascript, etc

2) Architecture of MVC

Model - The Model represents a set of classes that describe the business logic i.e. business model as well as data access operations i.e. data model. It also defines business rules for data means how the data can be changed and manipulated.

View - The View represents the UI components like CSS, jQuery, html etc. It is only responsible for displaying the data that is received from the controller as the result. This also transforms the model(s) into UI.

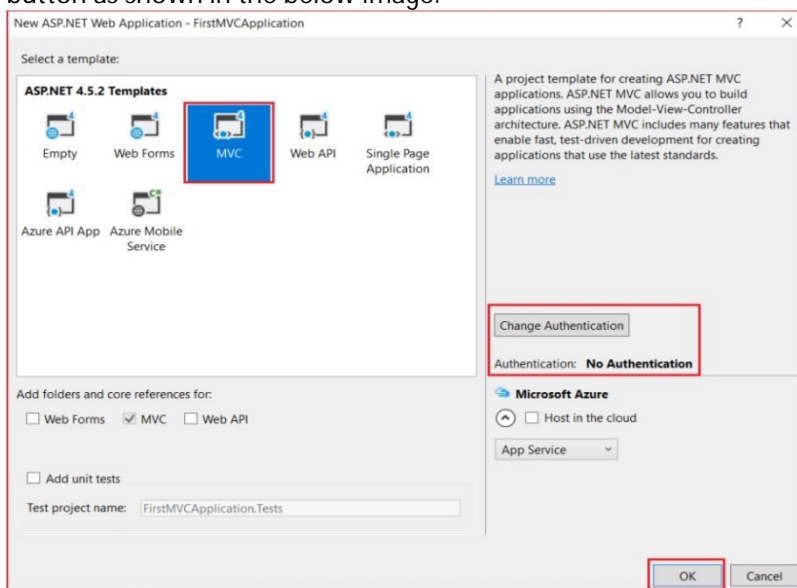

Controller - The Controller is responsible to process incoming requests. It receives input from users via the View, then processes the user's data with the help of Model and passes the results back to the View. Typically, it acts as the coordinator between the View and the Model.

3) Applications of MVC

- Faster development process: MVC supports rapid and parallel development. If an MVC model is used to develop any particular web application then it ...
- Ability to provide multiple views:
- Support for asynchronous technique:
- The modification does not affect the entire model:
- MVC model returns the data without formatting:

4) Practical Demonstration – use of MVC

ASP.NET Web Application for selecting the Project Templates. From this window select the MVC project template. Then Change the Authentication type to No Authentication. Finally, click on the OK button as shown in the below image.

5) Drawbacks of MVC

- Sometimes it becomes complex architecture to debug and understand as compared to the ASP.NET.
- If you are developing parallel MVC application, then sometimes it becomes difficult to coordination between other developers. Because all developers have to in the same page.

6) Question Answer Session

In Q & A session, most of the students clarified their doubts and satisfied with the given solutions. The expert told about recent developments in MVC based architecture compared with Java Developments.

Dr. M. K. Patil proposed vote of thanks.

Mr. Rajesh Setia led a session on 'Creating Entrepreneurs' (Founder, CEO and Director of Testspan India Private Limited). He discussed the importance of comprehending the dedication and hardships that come with beginning a business.

The decision to start a business is a big one. For a variety of reasons, entrepreneurship is quite appealing. If it's past time for one to make a change, this might be the finest decision one ever make. Entrepreneurs frequently underestimate the amount of time, resources, and energy required to establish and build a company. By starting a business, one may secure their personal assets.

In addition he also said, "Learn what it means and determine if you're still eager to pursue it."

Ms. Priyanka Khanna (Market Insight Specialist at GFK NIELSEN INDIA) led a session on 'Preparing for job interview'. She demonstrated how establishing an excellent LinkedIn profile is just as essential as producing a resume/CV when it comes to preparing for a job interview. Understanding the job description, preparing in advance about the organisation, the position they provide, and recognising the abilities necessary for the job were the first topics discussed. She also emphasised two other aspects of cracking an interview, namely, being well-versed in the topics, areas that we want to discuss with the interviewer, and describing achievements or curricular activities in the resume as it can be useful in showcasing the social skills that we possess.

				<ul style="list-style-type: none"> ❖ When we change the company, the domains should be same or key skill areas should be same ❖ We should focus on our skills and should get into the domain we are good at.
--	--	--	--	--

Bharati vidyapeeth university organized a guest talk with the alumni so that BBA students can get to know about the corporate world and know what to do after our BBA. So as a guest we had 1 alumni who discussed his personal experience in the corporate world. Firstly, he started with his introduction.

1. Tushar Jindal sir introduced himself as Senior Consultant (AIIMS | | Empyrean Io- Govt. & PSU's Business.

At the time of pandemic, it is very difficult to find reputed jobs in any field so how can we find a job at this point of time? (question asked by Aditi Gupta)

So, the reply that came from the alumni was that when we start our career it's not about the reputed jobs because we need to start our career in the domains, we are good at. It totally depends on what we want to achieve. We need to look at the opportunities and the organizations which are suitable for us at this time as there are many job opportunities to grab. We don't have to restrict ourselves to LinkedIn, we need to look for job different portals and broaden our search options. We should not restrict ourselves to bigger brands, we should work in start-ups as well.

1. How easy or difficult is it to switch to industries in the future for example from life insurance company to FMCG? (question asked by Dhruv)

Aparna Maewah

Govt *Aditi*

Here Tushar shared his experience where he switched from the hospitality industry to real estate industry where he was in the marketing domain. Then after completing his MBA in 2018. He got a placement in MSME Ministry on a deputation job for a year. When he was working in that company, he got an opportunity to work in an IT company to do marketing for the IT company. When we change the industry the most important thing is skills. Because the company will focus on our performance as we will need different sets of skills for different sets of industries. Then Rupal shared her experience that is very kept in the media domain so she got placed in life link movies with the help of the college she faced problems in the organization so she shifted to the education sector where she started as BDM and HR both. They both entered in their desired fields but they worked in the same domains as their skills were suitable for that domain they are currently working for. So they suggested that we should work in a domain for which skills are suitable. It's not that we cannot change our domains, we can change it but we need to groom ourselves from time to time.

2. How difficult is it to change the domain? If I start my job in the marketing profile would it be difficult to switch to a finance profile later? (question asked by Ayush Pratap Singh)

So, alumni answered that it is difficult but not impossible to switch the domains. When we want to change the domain, we have to try and change the domain within the company then we will get a better opportunity. And if we try to change it with a new company then the chances are 4% to 5% only. It is easier in the company to switch the domains as our boss knows that we are performing the task in the company for a long time and we are performing well over there. then we can ask the manager or the boss to switch the domains as we cannot see any growth in the graph in this domain. And if you are good at your job then the company cannot afford to lose a good employee at this time. If we want to switch the domain then we need to do our homework and should have all the knowledge about the skills required and the domain as well. And then in the future we would be at an advantage because the company looks for the candidates who have experience in multiple fields. For any domain our Excel and PowerPoint should be perfect.

Aparna Maewah

Gayatri
Anshu

After the question-and-answer round Tushar told a story and then told how they hire candidates and what are the expectations of the employer when they hire the candidate in the organization. Then sir said that theoretical knowledge that we learn in college is not enough. We need to have practical knowledge as well which we get from the experience we gain from the different companies. The session was quite an informative session, by the alumni. Students enjoyed learning about various tips about the corporate world and skills. By thanking the alumni we ended the session.
