INTRODUCTION

IMED conducted the Six Days Workshop on Vedmagic from 19/10/2020 to 24/10/2020. The guest speaker was Mrs. Sangita Sharad, life skills coach and trainer. It was an online event conducted live, via the Microsoft teams app.

OBJECTIVE

The webinar was focused on the topic of mental health and how to be more positive in life. The webinar was based on positive thinking and successful achievement of life goals. Focused mostly on students and their state of mind, it was a helpful workshop.

OVERVIEW

The event was a positivity inducing affair. Mrs. Sharad explained the concepts through various passages from the book, "The Magic", by Rhonda Byrne. It was riveting, filled with positive thinking and ways to make our lives. Mrs. Sharad explained various concepts of positive thinking through the writings of Rhonda Byrne. She explained the different ways to achieve success through various simple steps. Dr. Bharati and Dr. Baljit read various excerpts from the summary of the book shared by Mrs. Sharad. The main points discussed in the webinar were as follows.

- THE MAGIC- The book by Rhonda Byrne was at the centre of the webinar. Various examples were given from this book.
- POSITIVITY- The importance of positive thinking was stressed upon. It was deemed necessary for a healthy and happy life.
- MIND- The mind is a powerful place. What one feeds it can affect one in powerful ways. Mrs. Sharad explained the concept of conscious and subconscious mind.
- VED- The powerful texts that have been a part of Indian history were mentioned in context to the teachings they offer. The teachings of Bhagwat Geeta were mentioned too.

CONCLUSION

The event was successfully conducted. It was a great educational experience for the attendees. Various insights were shared that will help everyone to be more successful in

Curriculum Implementation Support Program – CISP-II
22nd, 23rd September 2020

Report

28th Sept 2020

The Curriculum Implementation Support Program – II (CISP-II) was organized at Bharati Vidyapeeth Deemed to be University Medical College, Pune, on 22nd, 23rd September 2020. In view of COVID 2019 pandemic, it was conducted as 'ONLINE' workshop, ie, our participants and resource persons were present in the WS hall, but the MCI Observer attended online.

Elaborate arrangements were made to enable continuous online interactive audiovisual access to the MCI observer throughout the 2 day workshop proceedings. To maintain physical distance between participants in view of the COVID Pandemic, the venue was shifted to the 1st floor Examination hall, with just 2 participants seated at each table.

It was organized under the aegis of MCI Regional Centre, Armed Forces Medical College, Pune, with online attendance of the MCI Observer Dr. Kalpana Kulkarni, Associate Professor, Pathology, BJ Medical College, Pune. Since we are in the same town, we would have loved to have her with us at the workshop venue, as the 'online' presence did put a little constraint to her contributions.

Although 30 faculty members across the departments had enrolled for the program, there had to be some changes due to the current volatile situation, including 3 replacements and 1 last minute dropout due to health reasons. Out of the 29 faculty members who could actually participate, 5 were from Preclinical, 11 from Para clinical, 7 from Medicine & allied and 6 from Surgery & allied. Representation across hierarchy of seniority was 8 Professors, 11 Associate Professors, 9 Assistant Professors and 1 Tutor (Post PG). All participants actively participated in the workshop, making the sessions fruitful and lively.

Workshop resources created by MCI and shared with us by the MCI Nodal center, GSMC, Mumbai and the MCI Regional Center, AFMC, Pune, helped us to convincingly get across to the participants the essence of various aspects of the new CBME Curriculum, generating confidence about the need and the feasibility of implementation of these changes.

As far as prior knowledge is concerned, the participants were a mixed batch, because 7 participants had not attended the Revised Basic Workshops conducted earlier. The pace and the focus of the WS sessions had to be adjusted to accommodate all.

Participants were greatly impressed by the tremendous work put in by the MCI committees and subcommittees to bring out such a well-defined Competency Based Curriculum, as evidenced in the 3 volumes of the revised

UG Curriculum giving subject wise details and rest of the modules, including the GMER 2019 and CISP-LRM documents to guide us in its implementation.

The logical sequence of sessions starting from Goal, roles and associated competencies expected of a graduate, through appropriate choice of T-L methods, assessment methods helped achieve these workshop objectives. The participants got 'hands on' experience through group / individual tasks linked with the sessions, taking them towards actual implementation of these concepts.

Fourteen members of the Curriculum Sub Committees (CSCs) formulated by the college for implementation of the new curriculum as per MCI directives were participants in this workshop. Walking them through the CISP including the Curricular Governance made them aware of the magnitude of work which lay ahead. During the last session, however, most participants expressed their belief that though huge, the task was definitely doable. They appreciated the opportunity of electives being offered to the students and came out with wonderful ideas for the electives to be offered. They have been provided a format for submitting more structured plans after thrashing it out in their own departments and arriving at a departmental consensus.

Participant Feedback about the entire workshop was very positive, although it was a little revision for the participants who had recently attended the revised basic WS. Good pretest score of these RBCW literates confirmed the effectiveness of the RBCWs conducted an year ago. Along with the quality of the interactive sessions and knowledgeable inputs from the resource persons to refine the hands on activities allocated to them, the participants also appreciated the elaborate arrangements made to conduct the workshop, ensuring all the necessary precautions mandated by the COVID Pandemic situation.

Many expressed the need to sensitize the entire faculty of the college about the curricular innovations to be brought in, in order to enable effective implementation.

ME faculty is all geared up to undertake more of these workshops and many faculty members are waiting to participate. All are awaiting signal from the MCI to schedule further sessions of the 'revised Basic WS and AETCOM'.

Report – 4th Revised Basic Workshop in Medical Education Technologies

Fourth Revised Basic Course Workshop in Medical Education Technologies, was conducted at Bharati Vidyapeeth Deemed to be University Medical College, Pune, on 15th to 17th March 2021, as per the NMC guidelines, under the aegis of NMC-RC, Armed Forces Medical College, Pune. Dr. Kalpana Kulkarni, Associate Professor, Department of Pathology, BJ Govt Medical College, Pune, attended as the NMC Observer for this workshop and enriched the sessions with her valuable contribution.

Twenty nine faculty members participated in this workshop, comprising of 11 Professors, 7 Associate Professors, 9 Assistant Professors and 2 Tutors, of which 4 participants were from Preclinical departments, 5 from Para-clinical Departments and 20 from Clinical departments. Two participants had to be replaced at the last minute because of health reasons of the earlier enrolled members, while one participant could not attend the workshop because of urgent administrative commitments due to resurgence of COVID.

Considering the need for ‘distancing’ in view of prevalent COVID situation, the workshop venue was shifted to a larger Hall instead of the ME Unit premises. The arrangement and observance of all the COVID precautions were appreciated by the participants and the NMC Observer. Despite care taken by all resource persons to ensure adequate font size in view of the shift to this deep hall, readability from the furthest table was a little problematic for some slides.

Over all feedback about the workshop given by the participants both verbally and in the semi structured proforma was good, with appreciation of interactive sessions, incorporation of ‘hands on’ activities in most sessions, as well as the logistic arrangements.

Participants also appreciated the in depth guidelines given by NMC for implementation of the CBME curriculum, in terms of the phase wise curriculum documents and various modules addressing the specific components of the curriculum.

Since many more faculty members are waiting to undergo this training, permission from NMC to organize further workshops is earnestly awaited.

First Clinical Faculty Meet

A clinical presentation was held under the aegis of clinical faculty meet by the Department of Periodontology at Bharati Vidyapeeth (Deemed to Be University) Dental College and Hospital, Sangli on 2nd February, 2021 at 10:30 am. Topic of the presentation was “Augmenting And Preserving The Zone of Attachment Case Series”. It was presented by Dr. Kunal Keshaw, Assistant Professor, Department of Periodontology, Bharati Vidyapeeth (Deemed to Be University) Dental College and Hospital, Sangli. It was a series of various case scenarios requiring gingival tissue and biotype augmentation along with its preservation around natural dentition, restorative interface, post orthodontic treatment cases and implants, putting an emphasis on interdisciplinary importance of periodontal well being.

It was well attended by almost all the head of departments and faculty members of every department of our dental hospital. Such clinico-pathological presentations and narratives will provide a greater paradigm for faculties to improvise case based treatment approaches as well as interdisciplinary collaborations, that will enhance the quality of continuing dental education and research.

Systematic Review and Meta-Analysis Faculty Development Program

The faculty development program on systematic review and meta-analysis (SRMA) was conducted as an exclusive four-day event on 21/01/21, 25/01/2021, 03/02/2021, and 05/02/2021.

The event schedule was as below:

Day	Session Timing	Topic	Resource Person
21/01/2021	9:00 - 10:30	Basic concepts in clinical dental research methods	Dr Ashwin Jawdekar
	10:45 - 12:30	Introduction to systematic reviews and Meta analysis	
25/01/2021	9:00 - 10:30	Protocol registration, Use of checklists in critical appraisal and writing of research papers - part 1	Dr Ashwin Jawdekar
	10:45 - 12:30	Use of checklists in critical appraisal and writing research papers - part 2	
03/02/2021	9:00 - 10:30	Critical appraisal presentations by delegates	Dr Ashwin Jawdekar
	10:45 - 12:30		
05/02/2021	9:00 - 10:30	Statistical considerations in SRMA	Dr Dheeraj Kalra
	10:45 - 12:30	Use of software for SRMA (hands on)	
	12:30 - 1:00	Q & A with resource person and certificate distribution	

The program was conducted in lecture hall no.1 of the Bharati Vidyapeeth (Deemed to be) University Dental College, Navi Mumbai. All safety protocols for Covid-19 were considered and followed throughout the event. A total of 36 participants registered for the program. On the first

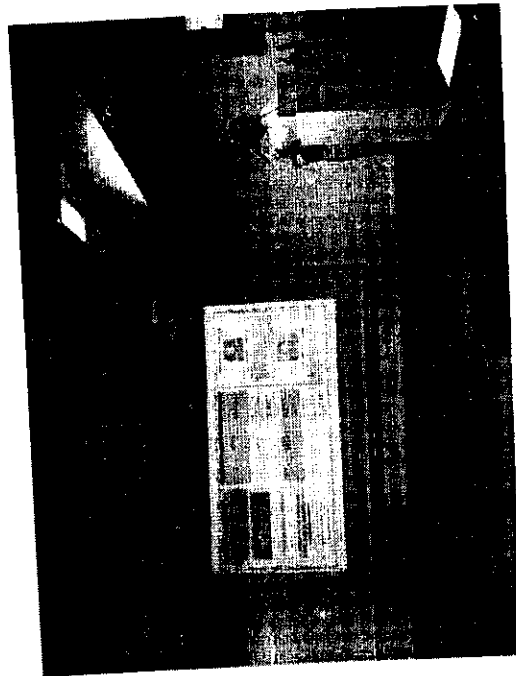

day, Dr. Karishma Desai, master of ceremony welcomed the participants and requested the Coordinator of the Scientific and CDE committee Dr Viraj Kharkar to share a few words.

Dr. Kharkar welcomed the attendees and elaborated on the need to update ourselves with the latest in evidence-based research, research methodologies, and scientific literature. He further requested Principal, Dr V Sreenivasan to kindly address the participants. Principal sir shared his views on evidence-based research and the applications of SRMAs, he further explained that fostering critical thinking and promoting research was one of the thoughts behind conducting the SRMA faculty development program. Following the inauguration and with the introduction of the resource persons, the event began.

From day 1 to day 4 the attendees actively participated in learning, critical thinking, and skill development. The first two days, Dr. Ashwin Jawdekar focused on exhaustively covering the basics of systematic reviews, their applications, and interpretations of various graphs and forest plots. On the second day, the postgraduate students volunteered critical appraisal of articles using checklists, and based on this activity, the participants were grouped into three for the critical appraisal exercise. On day 3, the articles were appraised by groups using the PRISMA checklist of systematic reviews for randomized controlled trials (RCT), the MOOSE checklist for systematic reviews for observational studies, and the CONSORT guidelines for RCTs. The participants presented critical appraisals for various articles with great enthusiasm. On Day 4, Dr Dheeraj Kalra conducted hands-on training for the use of software for the tabulation and interpretation of SRMA data. This was followed by a brainstorming session filled with questions and answers between the participants and resource persons. The event concluded with felicitation of the resource persons, participant certificate distribution, and group photo for the successful completion of the SRMA faculty development program.

Subject: Requesting contribution as Resource person in Webinar on Moving forward with new Normals

To: <phalakshi.manjrekar@hindujahospital.com>

Dear Madam,

Greetings from Bharati Vidyapeeth College of Nursing Pune.

COVID-19 Pandemic has affected all of us causing fundamental shift to the normal life of all around the globe. However, due to incredible resilience and determination nurses tried very quickly to adopt to new normal upskilling themselves. They worked diligently to protect, support and provide high quality care to their clients in need. Nursing leaders, instructors and educators had to consider these changes seriously and adjust to new modes of practice while ensuring that learning remains uninterrupted.

During this crisis there is increasing demand on the nurses that makes it difficult for the nurses to ensure selfcare; also, at the same time coping with new normal has become challenging. Being the spine of the health care system nurses are trying hard to adjust to the 'unstable new'. Some stress reactions might occur that need help to recharge body and mind of the health workers. Therefore, initiatives to be taken to focus on individual resilience and provide support to them and their family members.. Keeping this in view, the medical surgical nursing department of Bharati Vidyapeeth (DU) College of Nursing Pune has organised this webinar on "Moving Forward with new Normal".

We request your valuable contribution on this webinar on the topic : **Adopting to changes in clinical practice** :

Objectives for the webinar:

1. To be able to identify means to conducts and maintain a healthy environment that can help the nurses to bring out their best while adjusting to new normal.
2. Nurses and health care professionals should be able to understand the challenges to new normal in clinical nursing practice so as to incorporate them in preparation of future nurses.
3. To confer on suggestive measures to adjust with these challenges.

Subtopics and Resource persons :

1. Adopting to changes in teaching methods: Mr. Sunil Kalekar, Associate professor, Adhyapak B Ed College, Pune.
2. Adopting to the changes in clinical practice
National perspective : Dr. Phalakshi Manjrekar, Nursing Director, Hinduja Hospital
International perspective : Mrs. Bindu Varghese, nurse practitioner, UK.
3. Stress management and burnout : Mr. Vithoba Mahalkar

Remarks:

The CNE was organized by Department of Community Health Nursing of Bharati Vidyapeeth (Deemed to be University) College of Nursing, Pune on 06/01/2021 from 10am to 2pm. The Programme was started with address by Dr. Khushi Amar (Chairperson for this CNE) on the Theme. This was followed by the elaborative sessions by the above mentioned speakers on various aspects related to Affordable Health Care. The CNE was concluded on time with vote of thanks and overall remarks given by the MNC appointed Observer. The CNE was well appreciated by all the participants and also by Prof. Mrs. Shobhada Kale (MNC observer).

There was an initial hiccough while admitting the participants on the zoom platform due immediate rush of the participants to get in, which was sorted out immediately and we could identify all the registered participants and allowed them in to join the CNE.

It is always to have great pleasure to work with CNE section of MNC and we got all kinds of help and support in time from them. I extend my sincere thanks to CNE, MNC, Mumbai for their timely cooperation on behalf of Bharati Vidyapeeth (Deemed to be University), Pune & Bharati Vidyapeeth College of Nursing, Pune.

I also extend my heartfelt thanks to all the speakers, who have deliberated the sessions elaborately. I wish to thank all the participants who have joined the sessions and patiently heard all the sessions.

Hello Anita,

Thanks for extending the invite. It was a pleasure to interact with you this morning.

As discussed, please find my short bio and picture for your reference.

//

Amit Hirway is a Postgraduate Researcher at Athlone Institute of Technology (AIT), Ireland. He is currently pursuing his PhD in the field of immersive VR (Virtual Reality) at the TIME_x (Truly Immersive and Interactive Multimedia Experiences) lab in the Department of Computer and Software Engineering at AIT. Founded in 2014 by Dr Niall Murray who is also Amit's research supervisor, the lab conducts research on the design, development and QoE evaluation of Immersive and Interactive multimedia experiences with focus on multisensory media (olfaction, haptic etc), augmented and virtual reality as well as wearable sensor systems. Amit is an alumni of Bharati Vidyapeeth's College of Engineering (1999 batch) and has previously served as an Assistant Professor in Pune University from 2001 to 2006. Later, he worked for major telecom operators in Middle-Eastern, African and European geographies for around 12 years before starting his PhD in 2018. Amit loves to travel, read and cook in his spare time.

//

Kindly excuse me for not referring you as Ma'am since I am used to calling and being called by first name.

Vasumathi Sriganesh <vasu@qmed.ngo>
To: ANITA NAWALE <anitanawale@gmail.com>

Dear Dr Anita Nawale

I remember you very well as you were one of the early registrants for our courses.

I will be very happy to do the session. Will the students be only Masters or BSc Nursing too?

It would be great if I could get an honorarium of Rs 5000/- as it then goes to our Foundation to support our activities. But if the University has any other norms - I will be happy to accept whatever is given

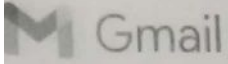

Do let me know the date and timing

 regards

Hello Dr Anita,

Thank you for the words of encouragement. I am glad the audience enjoyed my session.

As discussed over call, being an alumni of Bharati Vidyapeeth, I refuse to take remuneration for the session. Also, I wish to acknowledge the untiring contribution of the nursing community during the pandemic.

If there are any further opportunities for knowledge sharing, please do not hesitate to contact me.

Hope to stay in touch.

Second Session - Plagiarism

MR. AMIT HIRWAY

- Postgraduate Researcher at Athlone Institute of Technology (AIT), Ireland
- He is currently pursuing his PhD in the field of immersive VR (Virtual Reality) at the TIMeX (Truly Immersive and Interactive Multimedia Experiences) lab in the Department of Computer and Software Engineering at AIT.
- Alumni of Bharti Vidyapeeth's college of engineering (1999)

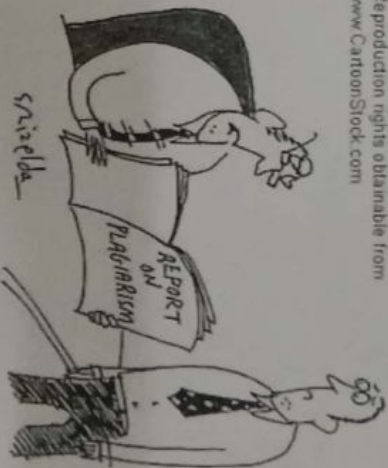

EXPERIENCE :

- Assistant professor in Pune University (2001-2006)
- worked for major telecom operators in Middle-Eastern, African and European geographies for around 12 years

WHAT IS PLAGIARISM?

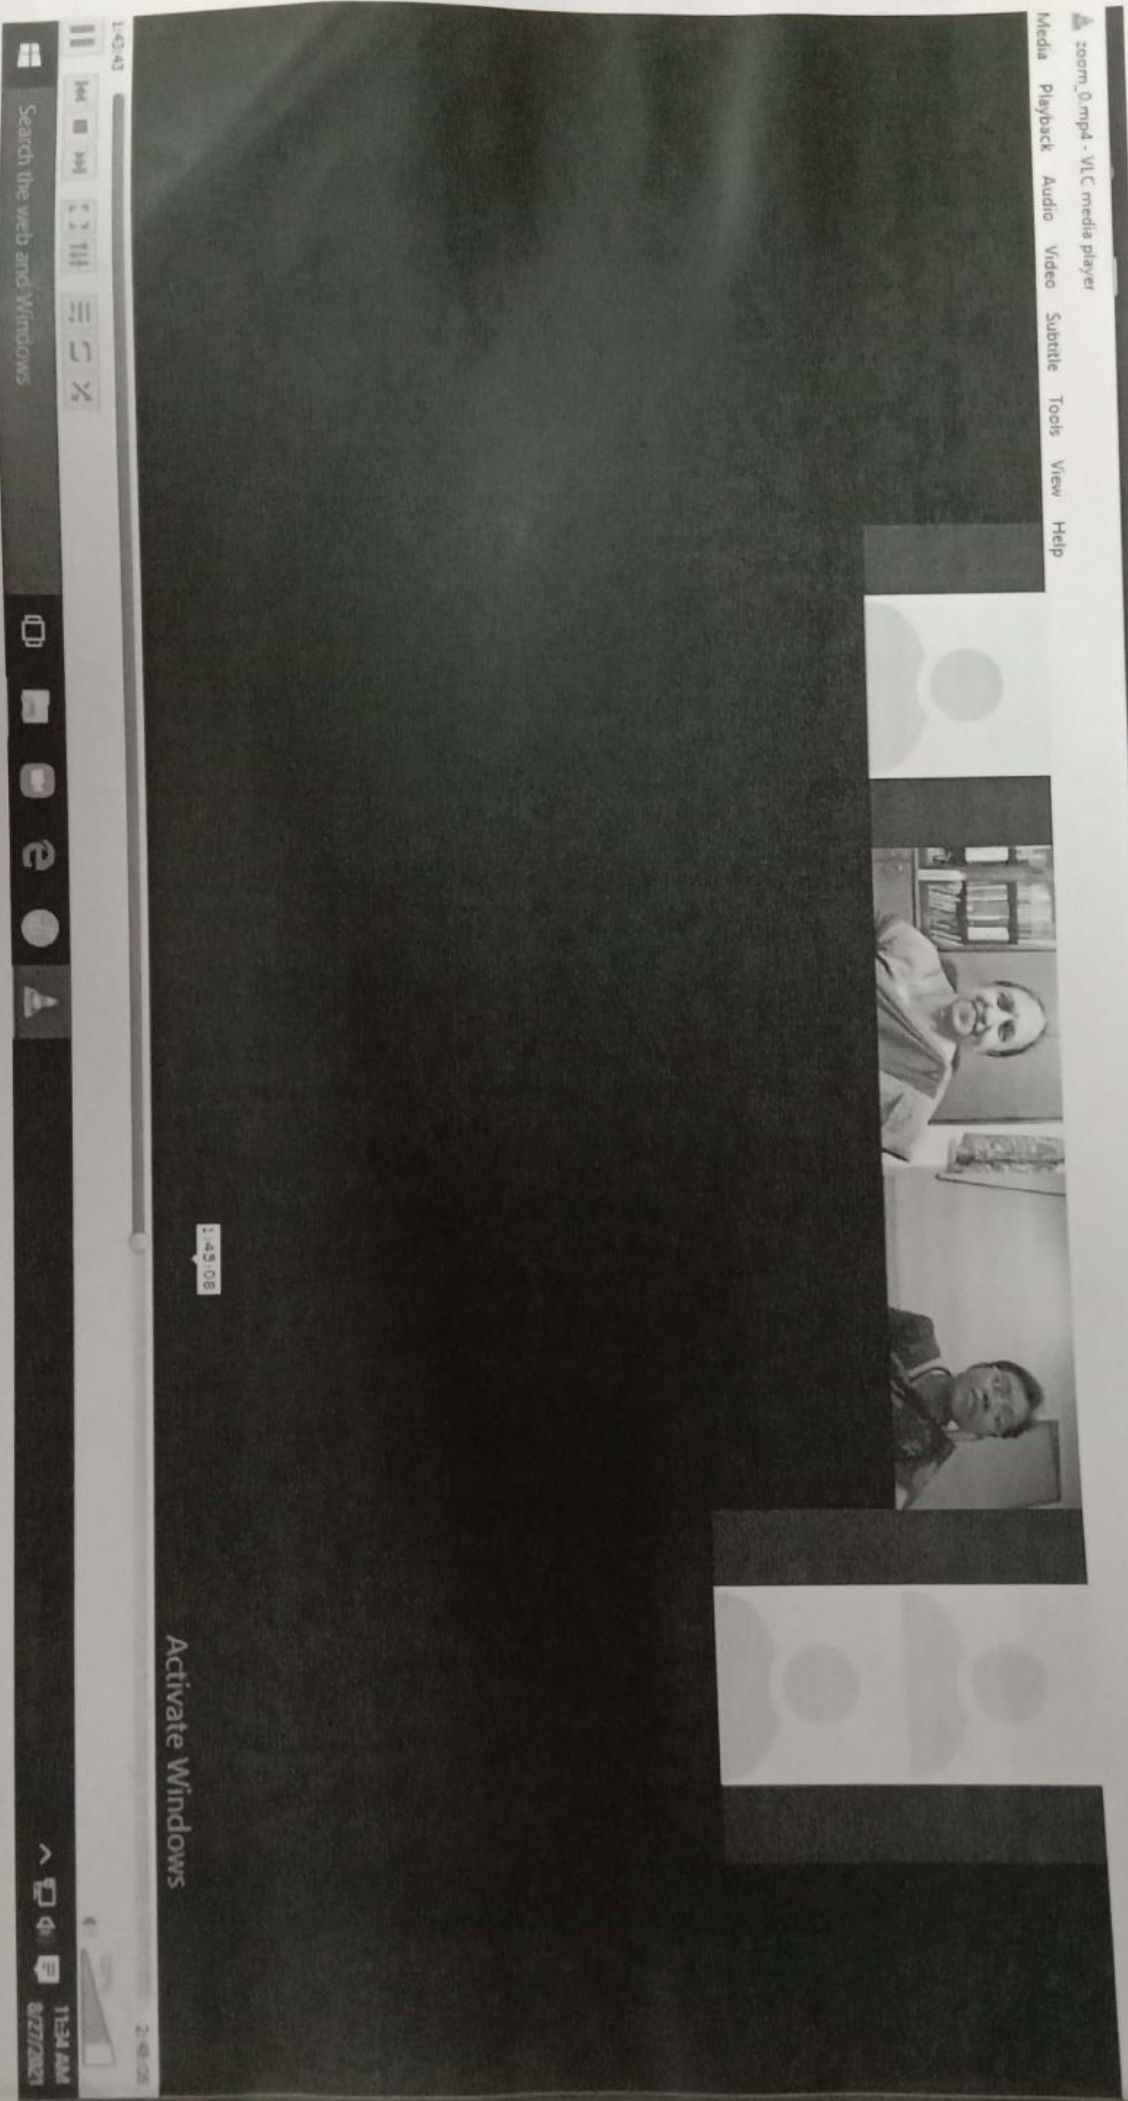

- Plagiarism involves using another author's words, work or ideas without giving the author credit. It is, essentially, stealing ideas and presenting them as though they are your own.
- Origin is in the Latin language, meaning to *kidnap*
- Scholars view plagiarism as a very serious offence, but its importance can sometimes be underestimated or dismissed.

Amit loves to travel, read and cook in his spare time.

Vasumathi Sriganesh, BSc MLIS

Mrs. Vasumathi Sriganesh is a librarian by training, and has worked in two medical libraries in the 1990s.

She set up QMed Knowledge Foundation in 2007 – a TRUST registered with the Charity Commissioner Mumbai. The Foundation's programs help everyone in the health science professions to:

- Search online and save all results correctly, and
- Cite and reference correctly

QMed has conducted over 240 workshops and delivered over 455 lectures on these topics.

QMed has also created four Online courses – Information Resources & Literature Searching, Introduction to Referencing, Mastering PubMed, and Reference Management with Mendeley. In addition to many individuals, AIIMS Bhubaneswar, RMRC Bhubaneswar, SMVMCH – Pondicherry and three institutions of the Manipal group, have taken access to these courses.

She has also assisted authors of systematic reviews for in-depth literature searching and referencing.

For Mrs. Vasumathi's work, she has been recognized and accepted as:

- A Speaker – by the MUHS and MMC
- A Trainer – by International bodies in India – FAIMER, MECOR and "The Union"
- A Member – by The Academy of Health Professions Education, India

She was presented an International Award in 2013, at the Annual Conference of the Medical Library Association of the USA

- 2.1 Clinical trials to be conducted in accordance with ethical principles that have their origin in the DoH & consistent with GCP & regulatory requirement(s).
- 2.2 Foreseeable risks & inconveniences to be weighed against the anticipated benefit for the individual trial subject & society.
- 2.3 The rights, safety, & well-being of the trial subjects are the most important considerations & should prevail over interests of science & society.
- 2.4 The available non-clinical and clinical information on an investigational product should be adequate to support the proposed trial.
- 2.5 Clinical trials should be scientifically sound, & described in a clear, detailed protocol.
- 2.6 A trial should be conducted in compliance with the protocol that has received prior IRB/IEC approval/favorable opinion.
- 2.7 The medical care given to, & medical decisions made on behalf of, subjects should always be the responsibility of a qualified physician.
- 2.8 Each individual involved in conducting a trial should be qualified by education, training, & experience to perform his/her respective task(s).
- 2.9 Freely given informed consent should be obtained from every subject prior to clinical trial participation.
- 2.10 All trial information should be recorded, handled, and stored in a way that allows its accurate reporting, interpretation & verification. (This principle applies to all records referenced in this guideline, irrespective of the type of media used.)
- 2.11 Confidentiality of records that could identify subjects should be protected.
- 2.12 Investigational products should be manufactured, handled, and stored in accordance with applicable good manufacturing practice (GMP). They should be used in accordance with the approved protocol.
- 2.13 Systems with procedures that assure quality of every aspect of trial should be implemented. (Aspects of the trial that are essential to ensure human subject protection and reliability of trial results should be the focus of such systems.)

- Time:** 10.00 am to 12:00 pm and 5.00 to 7.00 pm
- Topic:** "Upskilling Teachers For Guidance & Counselling" and "Introspection to improve work culture"
- Expert:** Mr. Rohan Keshav Bhalerao
- Qualification:** Masters in Counseling Psychology from University of Mumbai, Kalina, Mumbai
- Beneficiaries:** 34 (Faculty, First Year & Second Year MSc Nursing Students)

**About the details of programme:**

The seminar was organized under guidance & counselling committee, after identifying the need of training for faculty in guidance & counselling students. Since teachers are involved in regular counselling of students in academic, clinical, curricular, cocurricular and other activities of students, it's important to refresh their knowledge and updated the practice skills of them. MSc students are included in the seminar, because as part of the syllabus guidance and counselling topic is inculcated. Two sessions were planned; one was conducted on 31<sup>st</sup> August 2019 at Seminar room and second on 02<sup>nd</sup> January 2021 via online platform. The second session was delayed due to busy academic schedule and lockdown. Both the session were informative and interactive.

**Expert:** Dr. Nilesh Joshi and Dr. Rahul Venugopal  
**Qualification:** Professor of peridontology, Senior research fellow NIMHANS  
**Beneficiaries:** All teaching faculty from college of nursing Navi Mumbai

**About the details of Programme:**

The lecture was organized under Internal quality assurance initiative, after identifying the need of encouraging and motivating faculty for research publications. Since teachers are involved in regular research activity of students in academic year and their personal research work too, it's important to update their knowledge and to learn new techniques, fields and get oriented about the faulty publishers and should be aware of all standard journals and publications in research study. Session were organized by IQAC cell under the chair of Principal, Prof. Vaishali Jadhav, IQAC Coordinator Mrs. Sudersha P. Lal, Asst. Prof, HOD CHN Dep through online virtual mode on ZOOM on 31<sup>st</sup> May 2021 at 10 am. It was scheduled in total two sessions on different topics:

All faculty from college of nursing, Navi Mumbai have participated. The speaker in first session stressed upon clear directions on how to publish in journals like SCOPUS what are the standards which need to be followed. Second session was very interactive where many doubts were answered regarding selection of standard journals ,manuscript writing, rejections, then acceptance and speaker also highlighted few faulty journals which can cause harm to your research work and misuse the work.. Programme ended with open discussion. It was very informative and interactive session appreciated by all the participants.

At the end Principal Prof. Vaishali Jadhav encouraged all faculty members to publish articles and research work in scopus journals.

Both the speakers have appreciated the interest and efforts for organizing such FDP and encouraged for publications in standard journals.

## POONA COLLEGE OF PHARMACY, PUNE

Poona College of Pharmacy, Pune, (PCP) is a constituent unit of Bharati Vidyapeeth (Deemed to be) University and was established in 1981. PCP is ranked 22<sup>nd</sup> in India by NIRF 2020, reaccredited in the 3<sup>rd</sup> cycle by NBA for a period of 6 years and certified with ISO 2009: 2015 Certification. PCP is a pioneering institute in Pharmacy education in Maharashtra State. And offers B.Pharm., Pharm.D., B.Pharm. Practice (UG), M.Pharm. in 7 streams, Pharm.D. PB (PG) and Ph.D. courses.

“Social Transformation Through Dynamic Education” was the singular vision of Dr. Patangrao Kadam, Founder Chancellor, Bharati Vidyapeeth, Pune. It is his foresight and dynamic leadership which is responsible for the tremendous progress achieved by Bharati Vidyapeeth in various spheres including educational, socio economic and cultural. Today Bharati Vidyapeeth is one of the leading educational institutions in the country, imparting education from the primary to the post graduate and doctoral levels. NAAC has accorded our University the most coveted “A+” grade.

AICTE has granted us the status of Quality Improvement Cell (Q.I.P.) for teaching fraternity to register themselves for M.Pharm. And Ph.D. Programmes. Every year college organizes two weeks Quality Improvement Programme in various subjects and conducts three QIPs every year. Due to the COVID 19 pandemic, this year all QIPs was conducted ONLINE.

## **AICTE sponsored Quality Improvement Program (QIP) on "Exploring Indigenous knowledge for Modern Lifestyle Disorders"**

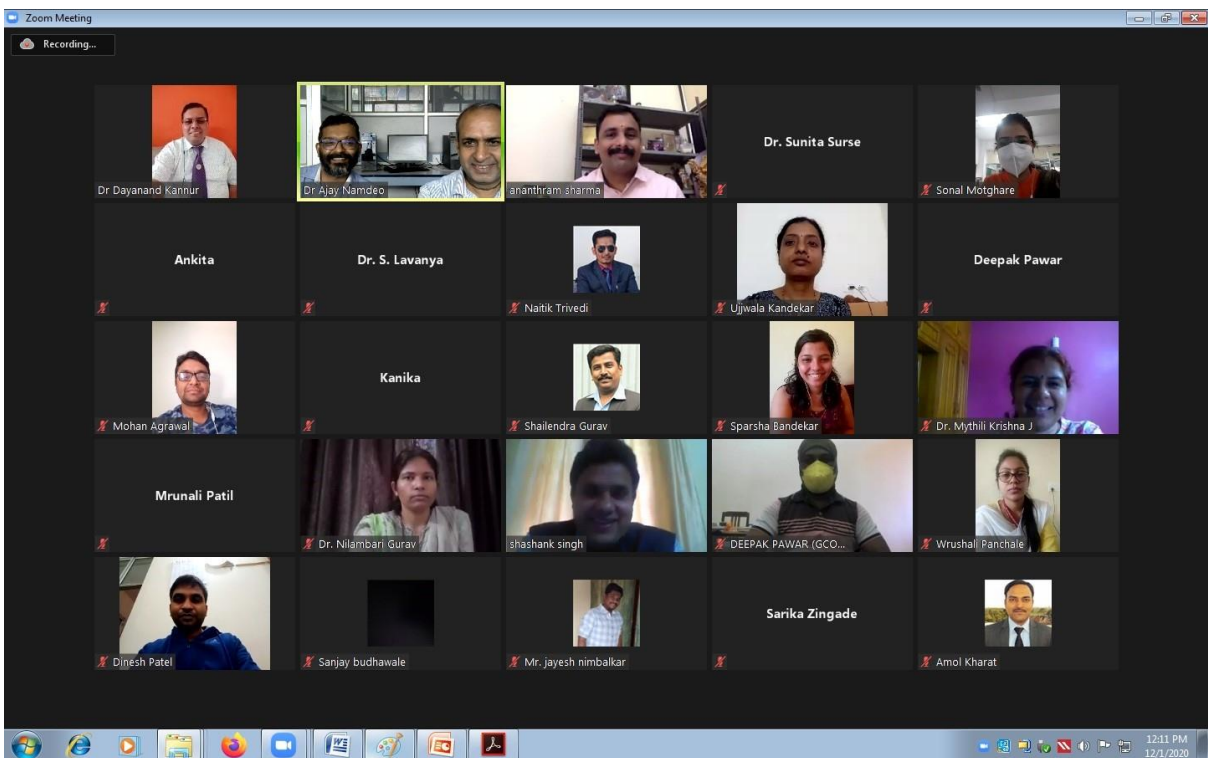

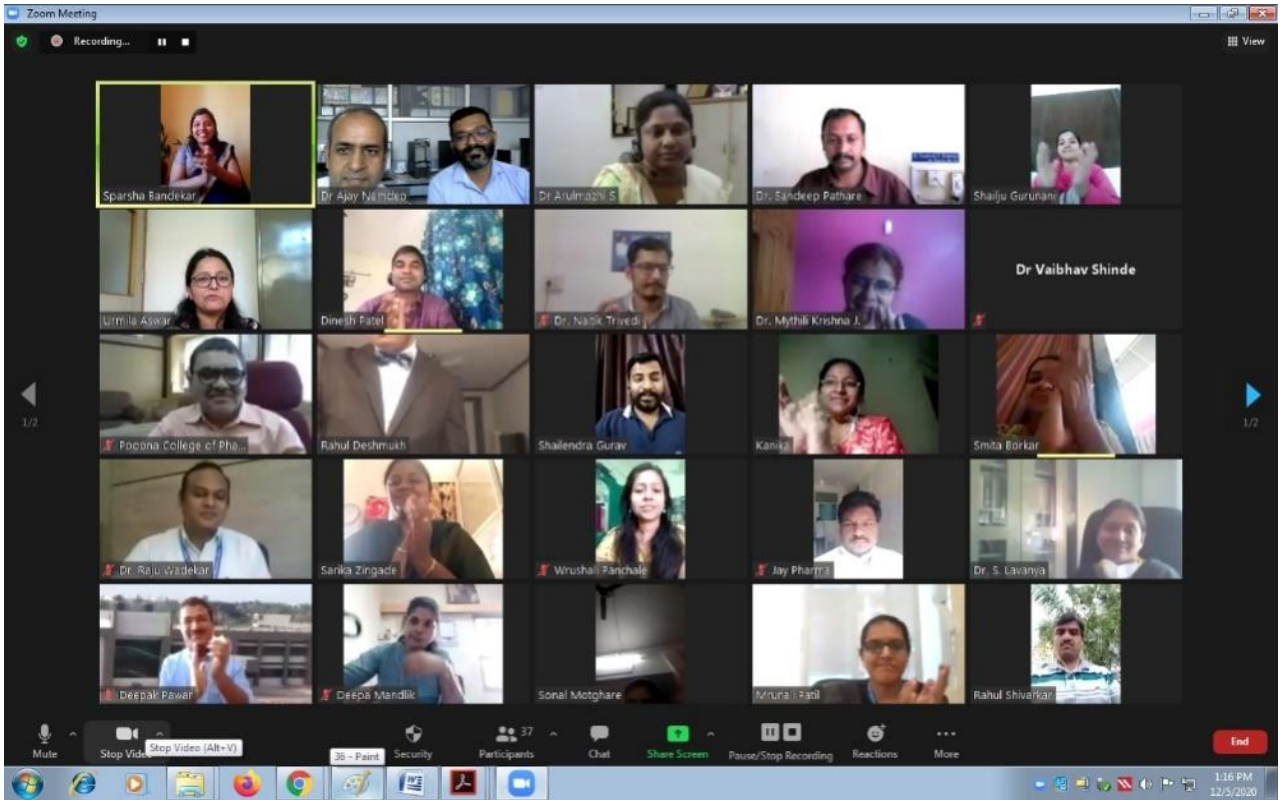

Keeping with the rich tradition of Bharati Vidyapeeth Deemed University and Poona College of Pharmacy, this year the Quality Improvement Program (QIP) on "Exploring Indigenous knowledge for Modern Lifestyle Disorders" was organized from 23rd Nov. to 5th Dec. 2020. In view of COVID-19 it was two weeks AICTE sponsored Faculty development programme by online mode. The QIP was organized with the point of view to explore the opportunities for the expansion of knowledge and understanding at the interface between science and indigenous knowledge for healthy and happy society. It was coordinated by Dr. A. G. Namdeo, Associate Professor and HOD, Pharmacognosy Department. Prof. Dr. A. P. Pawar, I/c Principal, Poona College of Pharmacy presented a welcome address during the inauguration of QIP. Prof. Dr. Shailendra Saraf, Vice-President, Pharmacy Council of India (PCI) was the Chief Guest of the event and he delivered the inaugural address. The key note lecture was delivered the Guest of Honour, by Prof. Dr. Rama Jayasundar, Head MRI and NMR, All India Institute of Medical Sciences (AIIMS), New Dehli on Ayurveda and lifestyle disorders.

Poona College of Pharmacy wishes to create and promote a network of an interactive, integrative, and interdisciplinary platform of indigenous knowledge for understanding health in a holistic manner.

During two weeks programme various planetary lectures based on various themes such as Ayurveda, obesity, dental care, yoga, nutrition, spiritual and mental health, ethnopharmacology and neuropathy were conducted. The eminent personalities from academia and industry from India as well as abroad delivered their talk. Four scientists listed in top 2% world scientists by Stanford University also shared their expertise. The planetary sessions of Dr. S. L. Bodhankar HOD Pharmacology Department, Poona college of Pharmacy; Dr. Jai Prakash Indian Pharmacopoeia Commission; Dr. Swapnil Sinha, Bioaptagen; Dr. Kishore Patwardhan, BHU Varanasi; Dr. Sanjay Jachak, NIPER; Dr. Supriya Bhalerao, IRSHA; Dr. Zulfikar Ali Bhat, Kashmir University; Dr. Sanjay Gyanee, Alchemy Chemicals; Dr. Vaibhavi Joshipura, Bangalore; Dr. Neetinakumar Patil; Dr. Neelam Balekar; Dr. Ananth Ram Sharma Pathology and Medicine; Dr. Satya Laxmi, Director, National Institute of Naturopathy (NIN) Pune; Dr. Nirmal Awasthi, Traditional Healer, Chhatisgarh

and Dr. Girish Tillu, Pune University were conducted. Our alumnus, Dr. Rahul Deshmukh (USA) was the chief guest for Valedictory function. He shared his expertise in traditional knowledge. Along with these sessions, demonstrations of Flash Chromatography, HPLC, HPTLC, Mass spectroscopy, IR spectroscopy, Microwave assisted extraction and Rota evaporator was given. The virtual industrial visit to GoVigyan Kendra, Nagpur for Panchagavya manufacturing and Cow protection was also arranged. 30 faculties from all over the India and 06 faculties from Poona College of Pharmacy were attended the QIP. The QIP was concluded with vote of thanks by the coordinator.

## **Dr. Rama Jayasundar**

**Professor and Head,**

**Department of NMR & MRI,**

**All India Institute of Medical Sciences**

**(AIIMS), New Delhi, India**

She has a unique and unusual career trajectory. A PhD from University of Cambridge, UK, she is trained in physics and Nuclear Magnetic Resonance (NMR). While pioneering biomedical NMR work in India, she enrolled for the 5 1/2 years undergraduate medical degree as a full time student at the age of 41. Despite securing admission for MBBS, she opted for a medical degree in Ayurveda (BAMS - Bachelor of Ayurvedic Medicine and Surgery). She now has this unique academic combination as an NMR physicist and a professionally trained ayurvedic doctor.

As an NMR physicist with specialisation in biomedical MR, Dr. Rama Jayasundar has wide experience in experimental, clinical and high resolution MR systems. Her areas of specialisation are clinical spectroscopy and imaging, low cost Radiofrequency (RF) coil designing & building, and RF pulse sequence programming. Her indigenously developed low-cost RF coils for clinical MR scanners cost less than 5% of that of the manufacturer's. She has won many awards and has many publications in international journals to her credit. Her current research interests harness her distinctive training in physics, experimental MR, ayurveda and modern medicine for innovative research in ayurveda.

Over 150 publications in reputed national, international journals and proceedings, over 300 presentations in national, international conferences, and nearly 100 keynote lectures.

| <b>Date:</b> 31/05/2021                         | <b>Participants:</b> Teaching and nonteaching staff of college |
| <b>Guest:</b> Mrs Poddar Madam, Mr Rajesh Bokil | <b>Number of participants:</b> 57                              |
| <b>Time:</b> 3:00pm to 4:30 pm                  | <b>Host –</b> BVDU Poona College of Pharmacy, Pune             |

One hour training session had been arranged at Bharati Vidyapeeth (Deemed to be University) Poona College of Pharmacy on 05.02.2020. For this, event Mrs Poddar Madam, Postmaster, Ex-Servicemen Colony Post Office, addressed the session. She highlighted various post office schemes used for public welfare such as Postal Insurance, Sukanya Samriddhi Yojana, Various Saving postal Schemes, Postal IPO, etc.

The second speaker for this session was addressed by Mr Rajesh Bokil, who serves as a postman at Ex-Servicemen Colony Post Office. He emphasized Postal Bank Services. He discussed the doorstep step service of saving a bank account. He included IPPB allows you to enjoy banking facilities at your home with Doorstep banking services. Now you won't have to leave the comfort of your home for your routine banking transactions. He added in his speech that their vast network of post offices and postal employees would make banking accessible to the remotest corners of the nation. You can open a bank account, transfer funds, deposit and withdraw cash, recharge or pay bills and accomplish much more with our Doorstep banking services at nominal charges. (No charge for new account opening at your doorstep.) You can also access your Aadhaar linked accounts held with other banks. He concluded his talk with the benefits of the postal services.

Dr.Atmaram Pawar, Incharge Principal of College, assured them about college involvement in the postal schemes and gave thanks.

The following teaching and non-teaching staff members were present for this session -

### **Program Overview**

Medication safety in clinical practice is crucial. With the growing reliance on medication therapy as the primary intervention for most illnesses, patients receiving medication interventions are exposed to potential harm and benefits. Harm from medications can arise from unintended consequences as well as a medication error. The “rights” of medication administration include right patient, right drug, right time, right route, right dose, and right documentation.

Medication Safety includes the implementation of starting, taking, adding, reviewing, and stopping a medication. Reporting, disseminating information, the establishment of guidelines and education improvises medication safety. Medication Safety can be assessed effectively during prescribing, transcribing, dispensing, and administering medication.

This QIP is relevant to the academicians who get to know about medication-related problems and the factors contributing to them, benefits of a multidisciplinary approach to medication safety. Parameters regarding calculation errors, monitoring, ways to make medication use safer discussed.

### **OBJECTIVE:**

The QIP focussed on medication safety practices and principles, medication safety in various fields of diseases, medication error, pharmacovigilance and demonstration on database software and medical devices. This QIP was useful to all academicians who got to know about medication related problems and multidisciplinary approach to medication safety.

Dr. Rahul Somani was the special invitee for the program. Dr. Somani spoke on the role of social

media in pharmacovigilance and its current Indian scenario. He focussed on drug safety and medication safety risks with medicine concerning adverse drug reactions, medication errors, lack of efficacy, and underuse of medicines. Dr. Somani emphasized the fact that Indians use social media for health-related information. He also portrayed that companies utilize social media in patient engagement for marketing purposes for

recruitment and retention within clinical trials. He also mentioned that up to 90% of ADRs are not reported due to lack of knowledge, insecurity, workload, and managing patient. Dr. Somani also told the delegates to download NCC-PvPI on smartphones to promote instant reporting of ADR. The use of text mining with automation as a powerful tool to report ADR to regulatory authority was also portrayed.

Dr. Somani concluded by saying that social media and health networking websites use has been increasing in health care professionals as it removes geographic and physical access barriers. The talk was very simple but highly effective and appreciated by all. Dr. Saili Masal welcomed the QIP Coordinator, delegates and assured that this QIP will be beneficial for all as it has an amalgamation of topics related to medication safety delivered by doctors, pharmacists, professors, and pharmacovigilance officers. A virtual video of the clinical pharmacy department of Poona College of Pharmacy, BVDU was shown. The program was concluded by giving the vote of thanks by Dr. Prasanna Deshpande.

The delegates were also given demonstration on medical device use, databases for drug and poison information and pharmacokinetic modelling.

#### **ABSTRACT OF KEY TALKS:**

##### **DAY 1 (1.2.2021)**

##### **Dr. AJIT SINGH**

**Co-founder & CEO, CliMed Research solution**

**National Director of Research, at WYHF**

**Title: Clinical registries and drug safety monitoring**

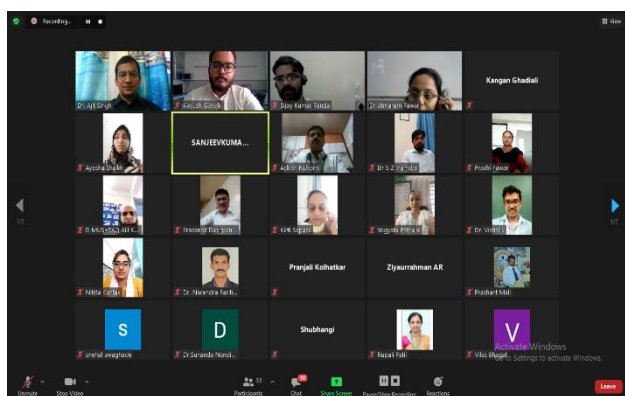

##### **Brief profile**

Dr. Ajit Singh is the co-founder and chief executive officer of Climed Research Solutions, Gurugram, national director of Research of World Youth Heart Federation, India, and Principal-Investigator in Manipal Heart Failure Registry (MHFR). He has completed his Doctor of Pharmacy (Pharm D) from Manipal College of Pharmaceutical Sciences and Ph.D. from Department of Cardiology, Kasturba Medical College, Manipal. Dr. Singh has experience as a site coordinator for a phase 3 clinical trial, as an investigator of a global heart failure clinical study, and research associate at Manipal center for clinical research and the department of cardiology, KMC. He's a recipient of several grants and awards that includes "Young Achievers award 2019" for research by the institute of scholars, TMA Pai scholarship for a full-time Ph.D. at Manipal Academy of Higher Education. He has published 28 papers and 13 abstracts. He is an associate editor in journals including the Asian Journal of Pharmaceutical Research and reviewer in 13 journals including BMJ Case reports. Dr. Singh is an active member of the European Society of Cardiology, ISPOR, and American College of Cardiology.

## Abstract:

Clinical registry referred as collection, organization and display of healthcare information related to any particular disease, exposure and/or condition. Registry study is another form of registries where data collection and analysis are strictly bound to study protocol and objectives.

Clinical registries follow observational method and mainly used to analysis the trends or pattern in treatment and outcomes. Registries are generally used in clinical research, cost effectiveness, population surveillance, and benchmarking and drugs/device surveillance. Drug safety monitoring and clinical registries goes simultaneously in post market phase of drug

development. Registries can be used in different domain in post-marketing phase like a) assessment and reporting of drug-related problem, b) analyzing cost-effectiveness and, c) therapeutic evidenced-based guidelines preparation.

Dr. Singh explained the types of registry, purpose and uses of a registry study, clinical research and clinical efficacy. Dr. Singh claims that registry studies are the need of the hour. He also mentioned the agencies

responsible for the drug safety monitoring. He concluded by stating the correlation between drug development process, drug safety monitoring and clinical registries.

## DAY2 (2.2.2021)

### Dr. KANAV KHERA (Gold Medallist)

PhD, M-Pharm (Pharmacy Practice), MBA (Health Care)

**Assistant Professor-Selection Grade, Department of Pharmacy Practice, Manipal College of Pharmaceutical sciences**

Manipal Academy of Higher Education (MAHE)

Manipal Karnataka, 576104

**Title: "Adverse events following immunization- prevention, reporting and management a special focus on COVID 19 Pandemic"**

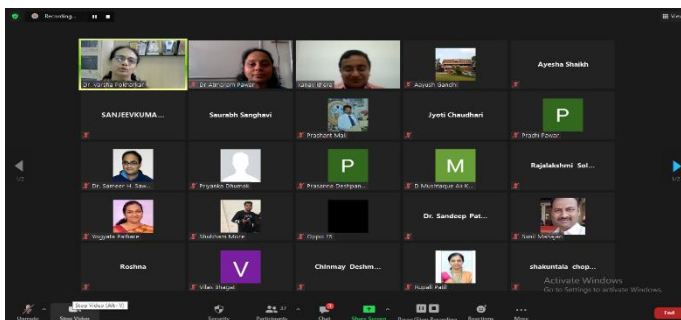

Dr. Kanav Khera is a Gold Medallist in Bachelor of Pharmacy from Lovely Institute of Technology, Punjab in the year 2006. Dr. Kanav khera is a Ph.D. in Pharmacy Practice from MCOPS, Manipal University and currently working as a Assistant Professor at Manipal College of Pharmaceutical Science. He is providing Clinical services and training to students, Pharmacists, nurses and Doctors since the last 10 years in Kasturba Hospital, Manipal as a part of Academic curriculum and research. Dr. Kanav Khera has been awarded as “Award of Excellence in Clinical Pharmacy” in 2019. Dr. Kanav Khera has also received grants from Manipal Centre of Infections and Diseases for Genotypic Profiling and Docking Studies using Gyr A gene obtained from Fluoroquinolone resistance Urinary isolates of E.coli in Jan 2020. He also applied for a Patent which is under process for “Use of NFC-Enabled Cards to record and store allergy essential medical information among children in day care settings”. Dr. Kanav Khera has a total of 34 Publication in various journals for various department of pharmacology and Pharmacotherapeutics which include National and International Journal as well.

## Brief Profile

### Abstract:

COVID-19 vaccines have limited safety data. Therefore, it is important to monitor the safety of these

vaccines when administered to a large population. A robust AEFI surveillance system would enable us to monitor adverse events and better understand the safety profile of the vaccines. During COVID-19 vaccinations, AEFIs must be rapidly detected and promptly responded to or else

it can undermine confidence in the vaccine and immunization programme. All AEFIs should be reported as per the National AEFI Guidelines.

Dr. Khera started the session by explaining phases of vaccine development, types of vaccination,

COVID 19 vaccine development.

Vaccine safety surveillance includes strategies for passive, active, stimulated passive and sentinel surveillance. Sir explained the prevention of AEFI by managing and treating immediate adverse reactions,

preventing programmatic errors, screening for contraindication and having separate reconstitution syringes. Reporting and recording in state and district authorities of serious and severe AEFIs are

mandatory. Sir also mentioned the AEFI operational activities like notification, reporting, investigation, management, and causality assessment. Dr. Khera concluded by stating that judicious and critical review of safety data and its communication is integral for a successful vaccination programme.

#### **DAY 2 (2.2.2021)**

**Prof. BIJOY KUMAR PANDA**

**B.Pharm, M.Pharm, Ph.D (persuing)**

Assistant Professor, Department of Clinical Pharmacy, Poona College of Pharmacy, BVDU

**Title: Evidence Based Medicine (EBM) and its role in medication safety**

#### **Brief profile:**

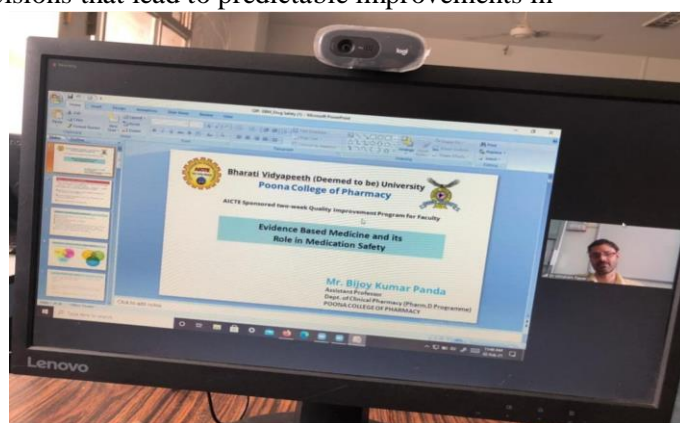

Prof. Bijoy kumar panda is currently working as an Assistant Professor in Department of Clinical Practice. Prof. Panda has a total of **30** International research articles and systematic reviews and **10** National publications in various peer reviewed journals. He has authored to 50 oral and paper presentation in various National and International Conference. Secured awards for best scientific research presentation in various international conferences. Co-author of text book “Community Pharmacist- For New Age Pharmacist” and a book chapter. He is a chief Editor - “Pharmawiz”, official newsletter of Dept. of Clinical Pharmacy, PCP

#### **Abstract and event report:**

EBM is the conscientious, explicit, judicious and reasonable use of information that revolves around clinical judgement, patient’s value and preferences and relevant scientific evidence. Using an evidence-based process results in prescribing decisions that lead to predictable improvements in patient care. EBM involves asking, acquiring, appraising, applying and auditing.

Prof. Panda mentioned the problems with drug therapy which included overuse, underuse, and inappropriate use of medicines and limitation of the FDA drug approval process. Panda explained the importance of forming background and foreground question. He also

explained the PICO (patient/problem/population, intervention, comparison, outcome) format of forming a clinical questions. Prof. Panda explained in a very easy method on ways to evaluate literature and critically evaluate and appraise the information. Randomized controlled trials and

systematic reviews provide more unbiased information. Barriers and advantages of evidence based information were also discussed. Sir concluded the talk by stating that EBM leads to predictable.

## DAY 2(2.2.2021)

### Dr. Dipak D. Bharambe

**Pharm.D, B.Pharm, Post Graduate Diploma in Pharmacovigilance and Clinical Research**

**Clinical Pharmacologist – Medical Services, Sahyadri Hospital Ltd, Pune.**

**Title:medication optimization and therapy management**

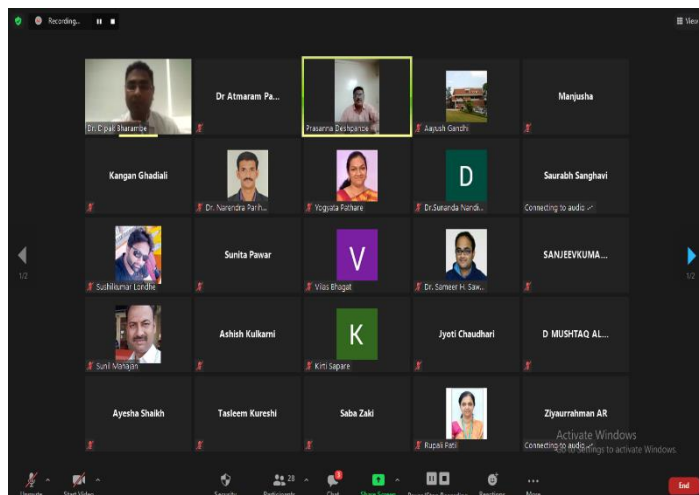

**services.**

Dr. Deepak D Bharambe has done his Bachelors of Pharmacy from SND College of Pharmacy, Yeola, Doctor of Pharmacy from RIPER, Jawaharlal Nehru Technological University Anantapur, and PG Diploma in Pharmacovigilance & Clinical Research from Innovative Centre for Bioscience, Bangalore. He has worked as a clinical pharmacist in Aditya Birla Memorial Hospital, Pune, Senior Pharmacologist in Fortis Hospital, Mulund & Senior Executive Clinical Pharmacist in Dr LH Hiranandani Hospital, Powai. He is currently working as a clinical pharmacologist in Sahyadri Hospitals Ltd. Pune.He has 2 publications and has been part of two dissertations. He is an active member of ISPOR, a Diabetes educator under NDEP organized by DMDEA and IADE, and ACPI (Association of Community Pharmacist of India). Dr. Bharambe is actively engaged in developing and maintaining Drug Formulary System and Antibiotic Policy, anticipating, preventing, and investigating medication error of all types, monitoring adverse reactions, preventing drug interactions, and coordinating with healthcare providers on drug usage and safety.

### Brief Profile

#### Abstract and event Report

Pharmaceutical care is responsible for the provision of drug therapy to achieve definite outcomes that improve a patient's quality of life. A pharmacist should be a caregiver, communicator, decision-maker, teacher, lifelong learner, leader, and manager. Dr. Dipak explained a pharmacist's role in ensuring appropriate therapy and outcomes, dispensing medication and devices, health promotion, and disease prevention. Patient centered pharmaceutical care should comprise of collect, assess, plan,

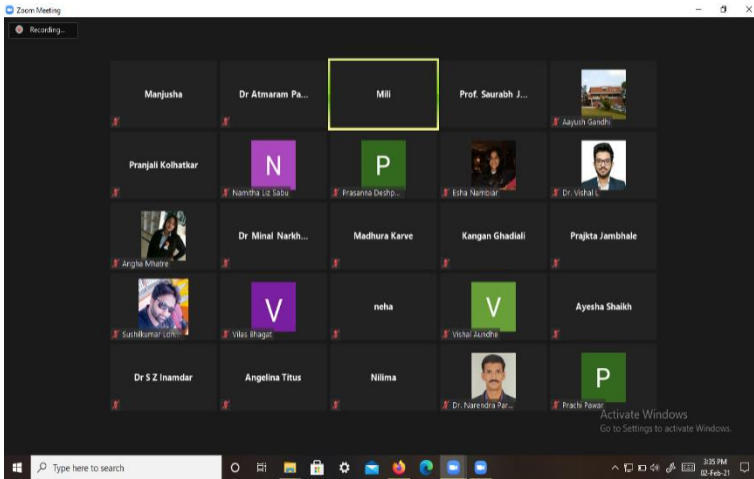

implement, follow up, monitor, and evaluate. Dr. Bhirambe concluded by explaining the importance of assessing needs and identifying drug problems, developing a care plan, implementing, monitoring and reviewing the care plan.

### **Micromedex Demonstration**

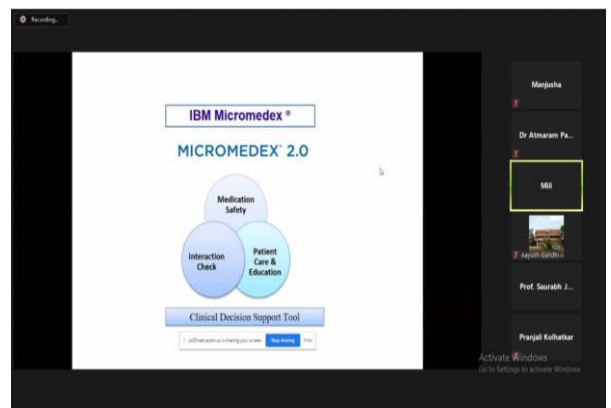

**Demonstrator: MILI TAOSE**

### **Abstract and event report**

IBM Micromedex solutions have been a leading global medical resource for the last 50 years. Micromedex is a pioneer in evidence-based drug and disease insights, toxicology information and patient-friendly education materials, and more – all at the point of care. Using the search tab, one can create own query for drug and disease information. Latest news,

support and training services formed the highlight of the session. Micromedex contains various options for drug monographs, drug interactions, drug compatibility, drug comparison, patient counselling and patient care notes. IBM Micromedex also contains Poisonsdex and Diseasedex for highest quality evidence based information to support disease management and treatment decisions. It also contained calculators like dosing tools, antidote dosing and normograms and clinical calculators. Micromedex thus provides comprehensive unbiased, evidence based and peer reviewed which is updated on daily basis.

### **DAY3 (3.2.2021)**

**Dr. K. P. ARUN**

**M.Pharm, Ph.D. (MBA)**

**Assistant Professor, Department of Pharmacy Practice, JSS College of Pharmacy, Ooty**

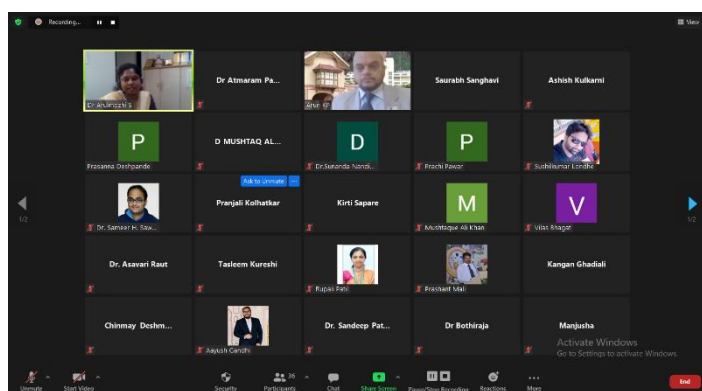

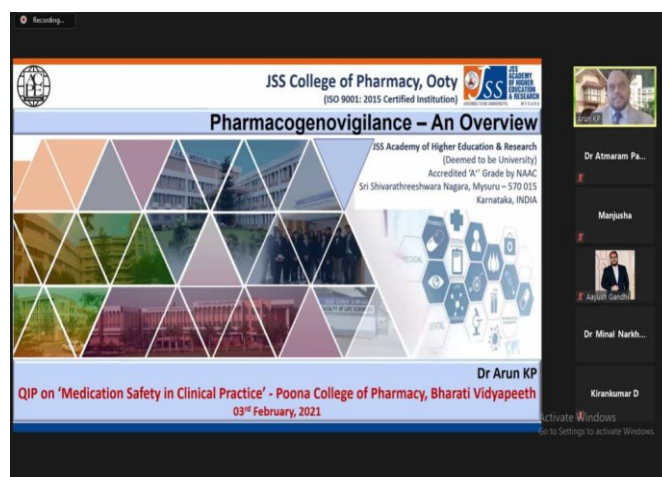

**Title of the talk: Pharmacogenomics and drug safety**

## Brief profile

Dr. Arun K.P has a total 25 years of teaching experience and currently working as an Assistant Professor at JSS College of Pharmacy. He has completed his B.Pharm from JSS College of Pharmacy and M.Pharm from University College of Pharmacy, later pursuing Ph.D. in Pharmacy from JSS College of Pharmacy Mysore. Dr. Arun has also done two PG diploma in Management and Marketing Management and currently pursuing MBA from Indira Gandhi National Open University New Delhi. Dr. Arun Has guided 11 Mpharm Students, 13 Pharm.D students and 8 Ph.D Studnets. Dr Arun has also published his work in 4 International Journals and 23 National Journals. Arun has received Best Poster Award at National Symposium on Therapeutic Drug Monitoring 2011. Dr. Arun is a Lifetime Member of Indian Pharmaceutical Association and Reviewer for National and International Peer Reviewed Journals.

## Abstract and event report

Pharmacogenomics is a science that studies the impact of an individual's genetic make-up not only on the responses to medications, but also on their tolerability. It is one of the major components of precision medicine that aims to treat every patient individually by selecting the drugs and doses best suit them. The key objectives of using functional polymorphism on the genome are: (a) to identify the non-responders to certain medicines; (b) to individualize the dosage regimen of certain drugs; (c) to identify the individual patients who are highly prone to adverse drug reactions (ADRs). This presentation focuses on exploring the concepts of the third objective listed above.

The clinical outcomes of the medications therapy including ADRs, their frequency and severity shall be attributed to three mechanisms, viz. genetic polymorphism of drug metabolizing enzymes and or drug transporter protein that changes the plasma concentration and thereby the pharmacokinetic characteristics in an individual patient; secondly, through the genetic polymorphisms of the genes encoding the drug targets; thirdly, the polymorphisms of the genes involved in unexpected drug effects. By considering the several common genetic

polymorphisms associated with drug responses and or ADRs, increased availability of pharmacogenetic tests, the US FDA included pharmacogenomic data on several drug labels.

Thus, combining the two disciplines viz. 'Pharmacovigilance' and 'Pharmacogenomics' has given birth to a new branch of science 'Pharmacogenovigilance' that informs and guides ADR monitoring by pharmacogenomic analyses. This leads to the identification and stratification of sub-populations in which the ADRs are more likely to occur. Such distinguishing may enable pharmaceutical companies to market medications for the low-risk groups. However, the implementation of such programs has many challenges and limitations that have to be addressed for sustainability.

### Day 3 (3.2.2021)

**Dr. ARJUN MARUTI KHADTARE**

**B.Pharm, M.Pharm (Pharmacology)**

**Retired Joint Commissioner, Food & Drugs Administration,  
(M.S.),**

**Title: Role of community pharmacist in control of fake drugs**

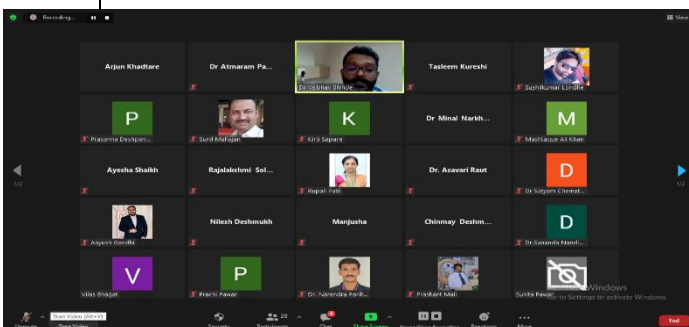

**Brief Profile**

Dr. Arjun is a Retired Joint Commissioner Food & Drug Administration (M.S), he has completed his B pharm from the Government College of Pharmacy, Karad and M Pharm from BVP, Poona College of Pharmacy, Pune, affiliated to Pune University. Dr. Khadtare has been a lecturer in Poona College of Pharmacy, Drug Inspector FDA, Maharashtra at Mumbai, Nagpur, Sangli, Solapur, and Pune. Assistant Commissioner FDA, Maharashtra at Latur, Satara, Pune and Joint Commissioner in FDA, Maharashtra. He has various training in the field of Information Technology, Good Manufacturing and Testing, Website Development, Financial Management, etc. He is also the co-author of the book "Forensic Pharmacy", since 1990

### Abstract and event report

A counterfeit drug is a pharmaceutical product that is produced and sold with the intent to deceptively represent its origin, authenticity or effectiveness, which may contain inappropriate quantities of active ingredients. Dr. Khadtare

explained the concept of misbranded, adulterated and spurious drugs. Dr. Khadtare exemplified ways to recognize counterfeit drugs which included laboratory testing, visual inspection of the package which included to check to tamper of security seal, unusual fonts of varied colour and size, batch no., expiry date and manufacturing address on the secondary

package being same as that on primary package. Visual inspection of dosage form included checking for difference in morphology, excessive powder, cracks or chips in tablet, crystals on walls of container etc. Sir also explained the role of Mobile Authentication Service using short message service which identified fake drug products in cell phone users. Radio frequency identity detection with electronic product code (EPC) for electronic tracking, tracing and authenticating of pharmaceuticals was also discussed. Dr. Khadtare concluded by explaining the role of pharmacist in handling counterfeit drugs some of which were purchasing drugs only from a licensed dealer under cash/credit card memo and not from unauthorised persons or online pharmacies.

### **DAY 3(3.3.2021)**

**Dr. RESHMA R SHAIKH**

**Bachelor In Homeopathic Medicine and Surgery, Post Graduate in Hospital & Health Care Management**

**Currently working with Breach Candy Hospital Trust, Mumbai as Quality Manager and Patient Safety Officer**

**Title: Safety of high alert medication**

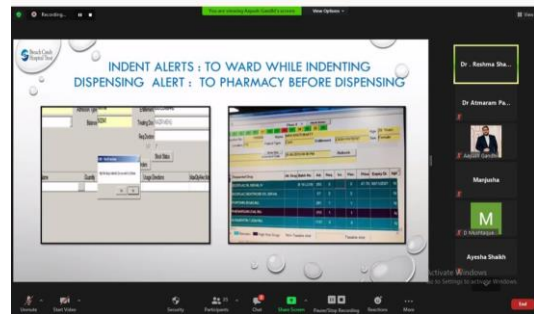

#### **Brief Profile**

Dr. Reshma R Shaikh has done her Bachelor in Homeopathic Medicine and Surgery from Pune University, PG Diploma in Hospital & Health Care Management from Mumbai University, and M. Philosophy in Health Care Management from BITS Pilani. She is currently working with Breach Candy Hospital Trust, Mumbai as a Quality & Patient Safety Officer and coordinator with successful 3 cycles of NABH Blood bank accreditation from 2014 till date. Dr. Shaikh has more than 16 years of experience in the fields of quality and patient safety, risk management, and hospital infection control. She has also coordinated with various committees like the Patient Safety Committee, Ethics Committee, Infection Control Committee, Drugs & Therapeutic Committee, and Laboratory Quality Committee for the overall improvement of work processes in the hospital. She is a co-author with INICC publications.

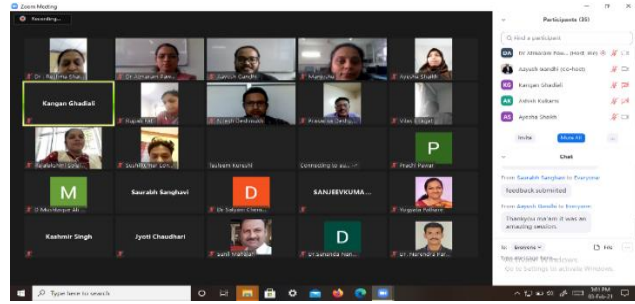

She is a Gold Winner for Best Practices for Facility Safety at the 8th International Patient safety conference in Sept'2019, winner of the 2 Asian Patient Safety Awards 2016 and 2017 at the International Congress on Patient Safety. She has successfully implemented several quality initiatives that include Patient Fall prevention for which she received an award Asian patient Safety Award 2016. Surgical Safety challenges implementation, Online incident reporting and difficulty airway management.

**Abstractand event report**

High alert medications are drugs that bear a heightened risk of causing significant patient harm when they are used. Adrenergic agonists and antagonists, anaesthetics, antiarrhythmics, chemotherapy, oral hypoglycaemics, narcotics and neuromuscular blocking agents are high alert medications. The safety of high alert medications can improve by the following steps such as a)Independent double checks from Indenting till bedside Administration by 2 different nurses is one of the safety measures.B)Stored and kept in a locked cabinet c) Separated from other medications and stored separately d) Labeled with High Alert Medication / LASA / e)**High Risk Medications** RED coloured Label

Dr. Reshma Shaik specified the patient safety goals which included identifying correct patients and

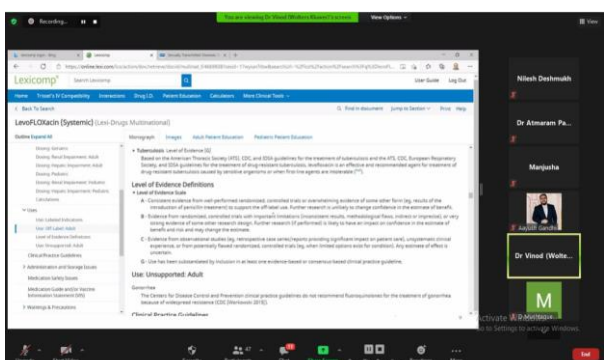

reducing the risk of healthcare associated infections. Mam also explained the storage of these drugs and categories of drug-drug interactions with them. She concluded by clarifying the medication error online incident.form..

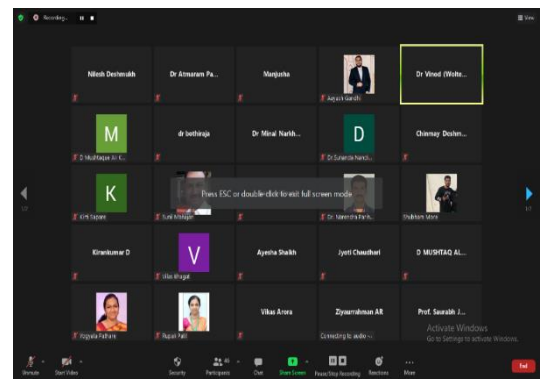

## DAY 3 (3.2.2021) LEXICOM DEMONSTRATION

Dr. I VINOD

Lexicomp is a premier drug information service for pharmacy practice providing un biased and pharma free in depth information. Lexicomp updates its contents and reference based information on daily basis.

It helps in making medication decision and provides clear, concise point of care drug information which include dosing, administration, interaction, screening, warning and precaution. Lexicomp was demonstrated

in a vey basic manner to the delegates which included

searching for any drug query, its dose, indication, adverse effects, drug interaction, drug compatibility, patient counselling and education. Clinical practice guidelines and new drug reviews formed the highlight of the session.

#### DAY 4 (4.2.2021)

**Dr. Medha Deepak Bargaje**

**M.B.B.S, M.D Respiratory Medicine**

**Professor, Department of Pulmonary Medicine, Bharati Medical College, Pune**

**Title: Drug related problems in covid patients**

#### **Brief profile**

Dr. Medha Bargaje is currently working as the Professor of the Department of Pulmonary Medicine at Bharathi Vidyapeeth's Medical College, Pune. She has done MBBS and her MD in Pulmonary Medicine from B.J. Medical College, Pune. She was the Nodal officer for RNTCP DOTS center in Department Of Pulmonary Medicine at Bharati Hospital since 2007 and also has received a National level DOTS PLUS Training at Ahmedabad Gujarat by Central TB Division, Delhi. Since 2005, she has been involved in the functioning of (Gail – APRRDC) Air pollution related respiratory diseases center in the Department Of Pulmonary Medicine at Bharati Hospital. Dr. M Bargaje is widely acclaimed in providing the best patient care through detailed counselling. She is a dedicated professor and ensures the understanding of her students. She has a Total of 10 Major Publications and 2 Ongoing projects on Whole Genome sequencing of Mycobacterium Tuberculosis in drug resistant AFB culture isolates- Pilot study.

---

#### **Abstract and event Report**

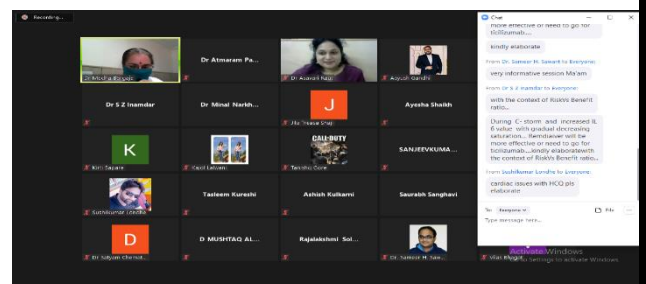

The spectrum of medical therapies to treat coronavirus disease 2019 (COVID-19) is growing and evolving rapidly, including both drugs approved by U.S. Food and Drug Administration (FDA) and drugs made available under FDA emergency use authorization (EUA). The COVID-19 pandemic has prompted worldwide interest in the repurposing of drugs such as remdesivir and dexamethasone

Dr. Bhargaje explicated the use of drugs like

azithromycin, hydroxychloroquine, doxycycline, ivermectin, remdesivir, tocilizumab and steroids. She also clarified the management of COVID patients which included, symptomatic treatment, use of anticoagulants, steroids and artificial oxygen. She mainly explained the drug related problems through various cases.

#### DAY 4 (4.2.2021)

---

**Dr. UDAY VENKAT MATETI**

**Ph.D, Pharm.D (P.B)**

**Assistant Professor in Department of Pharmacy Practice, NGSM Institute of Pharmaceutical Sciences**

**Title: Medication therapy management.**

**Brief profile**

Dr. Uday Venkat Mateti is currently working as an Assistant Professor in the Department of Pharmacy Practice, NGSM Institute of Pharmaceutical Sciences, Nitte (Deemed to be University), Mangaluru, Karnataka. He is the Faculty Advisor of ISPOR Nitte (Deemed to be University) Student Chapter. He has contributed 6 book chapters for the text books “Fundamentals of Pharmaceutical Care”, “Evolving Pharmacy Profession - Education, Research and Beyond”, and “A Concise Textbook of Drug Regulatory Affairs” as well as had over 60 publications in the reputed national and international journals. He has been awarded the prestigious travel grants from International Society for Pharmacoeconomics and Outcomes Research (2012 and 2013), USA, and International Society for Pharmacoepidemiology (2016 and 2017), Canada; Multinational Association of Supportive Care in Cancer (2016). Dr. Mateti’s specialized areas are: patient-reported outcomes, pharmacoeconomic modeling, patient safety, EBM, MTM, and pharmaceutical care.

**Abstract and event report**

Medication therapy management is required to promote safe and effective medication use and to

achieve best therapeutic outcomes. Medication therapy management is needed due to polypharmacy, medication adherence and errors, drug related problems and lack of knowledge attitude practice. Medication therapy management is essential in wellness screening ,weight

management, targeted medication intervention program, high alert and high cost medications. Sir also specified the patients who require MTM which included patients having more than five chronic medications, at least one chronic disease and who are prescribed high risk medications. Sir stated that medication therapy management consists of medication therapy review, personal medication record, medication related action plan, intervention, documentation and follow up. Dr. Mateti concluded by

mentioning requirements for MTM services some of which were computer software and hardware, patient supplies, support staff etc.

#### DAY 4 (4.2.2021)

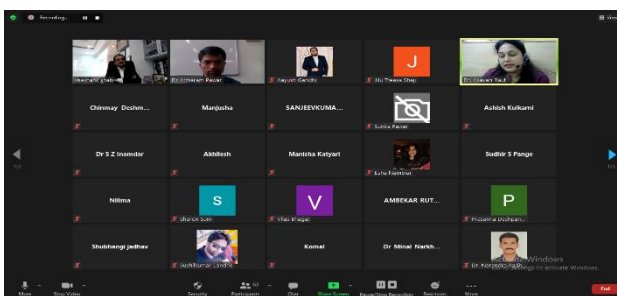

**Dr. A Subhashchandra shah MBBS, MS, FAIS, FICS, Honorary FIAGES, Honorary FMAS, Honorary FMBS, Honorary FALS, Diploma as Visiting professor, IRCAD, France. Title: Physiology of Obesity and its role in pharmacotherapy**

#### Brief profile

Dr Shashank Shah is the founder Director at Laparo-Obeso Centre (Pune, India): - A centre for Comprehensive treatment for Obesity and related metabolic diseases and Training centre for Laparoscopic & Bariatric Surgery. Dr Shashank Shah has performed more than 40,000 General, Laparoscopic & Bariatric procedures. He is a Post-graduate teacher for Diplomate of National Board (DNB) For General Surgery at Poona hospital and research centre and Founder Member of Association of Minimal Access Surgeons of India (AMASI). Dr. Shashank Shah worked as a consultant and surgeon at various renowned hospitals- K.E.M Hospital, Poona Hospital, Ruby Hall Clinic, Wockhardt Hospital, L. H. Hiranandani Hospital, Fortis Hospital, Hinduja healthcare, Lilavati Hospital and many more. He has total of 19 Publications in Laparoscopy department and 5 chapters regarding surgery, bariatric and medicine.

#### Abstract and event Report

Dr. Shah explained the physiology of obesity and the role of hormones like leptin and ghrelin. He also

specified the types of laproscopic surgeries done like sleeve gastrectomy, vertical and horizontal resection of stomach for weight loss and removal of tumours. Sir also explained the role of body mass index in predicting whether to choose diet, exercise, lifestyle modifications

or pharmacotherapy or bariatric surgery. He also mentioned that bariatric surgery is mostly done for weight loss, fatty liver, joint pain and breathlessness. Dr. shah correlated obesity with PCOD, diabetes, non-alcoholic steatohepatitis and hypertension. He stated the drugs used to treat obesity. Sir also explained the role of antidiabetic drugs like metformin, SGLT2 inhibitors in aiding weight loss. He concluded by saying that drugs available for

weight loss are not available in surplus, are expensive, have CNS side effects and weight gain.

---

#### **DAY 4 (4.2.2021)**

**Dr. Megha Bargaje & Team (CIPLA)**

#### **RESPIRATORY DEVICE DEMONSTRATION**

Respiratory devices like rotahaler, metered-dose inhaler, breathometer or peak flow meter and zero stat Vi spacer was demonstrated in a very abridged manner. Rotahaler consisted of a mouthpiece, caphole, fin and base. After inserting rotacap, the patient was told to exhale forcefully. Mouthpiece was kept between teeth and lips. The patient was advised to take a deep breath from mouth and asked to hold breath for at least 10 seconds or more. After each dose administered, the patient was advised to rinse mouth, gargle to avoid residual steroids causing oral candidiasis

A metered dose inhaler contained a dose counter, cap, mouthpiece and canister. When the dose counter reading is 40, it starts to change its colour from green to red, and when its 0, no medication is left. The patient was advised to remove mouthpiece and canister, shake the inhaler and leave 2 puffs. Patient was told to breath in slowly hold

breath till 10 seconds. When expiratory flow of patient is not synchronized, spacer is used which comprises of inhalation chamber, lock, mouthpiece cap and mouthpiece.

#### **DAY 5 (5.2.2021)**

**Dr. Avinash Bhondwe**

**Dean, IMA College of General Practitioners**

**Practicing Family physician in Pune for 36 years**

**Title: Role of pharmacist in medication safety**

**Brief profile**

Dr. Avinash Bhondwe is Practising as Family physician in Pune for 36 years. Dr. Avinash is a Panel Consultant as physician on Various Hospitals. He is authored more than 3000 articles in almost all Marathi newspapers and magazines as weekly columns , write-ups and articles , 10 books on health awareness . He was a President of IMA Maharashtra State. And Dean, IMA College of General Practitioners. He has awarded Corona warrior award from Mahatma Gandhi Trust, Nepal.

**Abstract**

Dr Bhondwe started the session by mentioning that the general responsibilities of a pharmacist should be to provide drug information and coordinating pharmaceutical needs. He also explained the errors of omission and commission with respect to drug interaction and irrational drug use. He mentioned that as a member of healthcare team, a pharmacist should evaluate medication appropriateness and engage in screening diseases. Dr Bhondre also emphasised the role of community pharmacist in advising patient and role of a hospital pharmacist on checking dispensing machines, patient dose charts. He concluded by discussing ethical issues like confidentiality and being professional.

## DAY 5

**Syed Mohsin Khadri**

**B.Pharm, M.Pharm**

**Pharmacist I, Pharmacy Department SKMC Pharmacy**

**Title of the talk: Medication safety in renal transplant services**

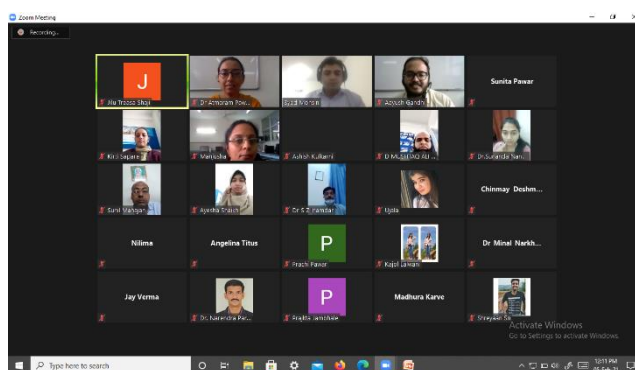

### Brief profile

Mr Syed Mohsin Khadri has done his Bachelors and Masters of Pharmacy from Rajiv Gandhi University of Health Sciences (RGUHS). He has been a drug information pharmacist in a drug information centre in Karnataka State Pharmacy Council, Bangalore. He has worked as a clinical pharmacist in Infectious Disease Unit, Rashid Hospital and in a pharmacy department, Dubai Health Authority. He is currently working as a pharmacist in SKMC Pharmacy. Mr Khadri is involved in reporting and documentation of medication error, providing dose medication administration aids, Inventory management, patient counselling and providing drug information to physicians, fellow healthcare professionals and patients.

### Abstract

Mr. Khadri explained the background of renal transplant, significance of medication safety in renal transplant, types of errors in transplant patients and steps to avoid medication errors. He emphasised on the typical transplant process which included patient assessment, activation, surgery and discharge. Mr. Khadri believed medication errors happen due to underreporting, ineffective medication reconciliation and weak institutional policies.

Commonest medication error in transplant patients occur due to incorrect dose and discontinuation of drug. He also explained the fact that most common errors are seen with immunosuppressants due to various dosage forms and brands. Mr Syed illustrated that discharge medication reconciliation and providing dose administration aids to patient can reduce medication error in renal transplant patients.

## DAY 5 (5.2.2021)

**Dr. MANJULA DEVI**

**B.Pharm, M.Pharm, Ph.D**

**Associate Professor; College of Pharmacy, Sri Ramakrishna Institute of Paramedical Sciences, Coimbatore**

**Title: Critical care drugs and medication safety: role of clinical pharmacist**

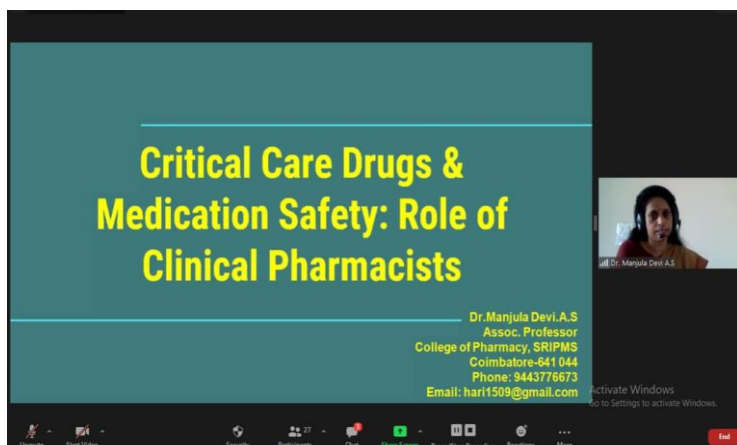

### Brief Profile

Dr. Manjula Devi A.S is currently working as Associate Professor in the Department of Pharmacy Practice, College of Pharmacy, Sri Ramakrishna Institute of Paramedical Sciences, Coimbatore. She has completed B.Pharm, M.Pharm and Ph.D from College of Pharmacy SRIPMS, Coimbatore, affiliated to the TamilNadu Dr.MGR Medical University, Chennai. She is the First rank holder in both B.Pharm and M.Pharm and she is the recipient of The “Ellappa Rangammal Gold Medal award” for academic excellence. She is also the recipient of “The Tamil Nadu Pharmaceutical Sciences welfare trust scholarship award” for guided projects in M.Pharm and Pharm.D consecutively for 7 years. She has 24 years of experience in teaching and guided 75 projects for M.Pharm and Pharm.D. She had been actively engaged in medication error monitoring of Sri Ramakrishna hospital. She has 48 research publications to her credit in various national and international journals; presented more than 50 papers and served as resource person during various conferences, including nursing education programs on safe medication practices, IPA certificate course on Best Practice in Pharmacy Management and PCI sponsored Continuing Education of Pharmacists. She is a life member of All India Pharmacy Teachers Association and The Indian Pharmacist’s Association.

### Abstract

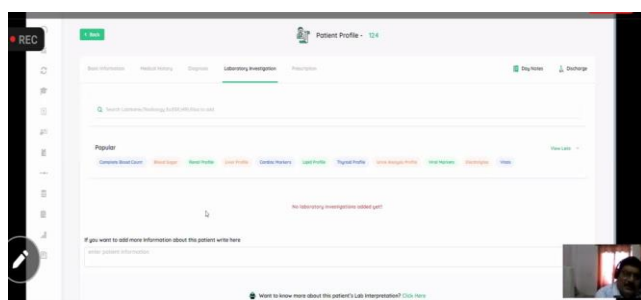

Dr. Manjula mentioned the top 5 high risk medications which were insulin, opiates, inj. Potassium chloride, IV

Anticoagulants, NaCl soln above 0.9%. She keenly explained the risk reduction strategies which included developing and updating unit specific high alert medication list, labelling and storing high medication separately and finding out root cause of errors. Professional skills to be acquired include critical thinking and problem-solving skills, calculating and management skills, communication and teaching skills. Dr. Manjula also focussed on

monitoring parameters of IV medication administration which included diluent, dilution (strength, flow rate and dosing rate). She concluded by saying that clinical pharmacist should be a care giver, leader, researcher, life long learner, communicator and decision maker.

## CLINIREX DEMONSTRATION:

Clinirex software contained options like patient database, presentation, information, interaction, calculators and reports. It mainly included options to create patient profile, reason for admission, physiological information, allergies, laboratory investigations, medication history and prescription

order. It also included options to fill in patient's social and family history, medication and medical history.

## DAY 6 (6.2.2021)

**Dr. RAJ VAIDYA**

**M.Pharm**

**Chief Pharmacist & Partner, since 1989 at family owned Community**

**Pharmacy – “Hindu Pharmacy” at Panaji – Goa – India.**

**Title: Medication safety and patient**

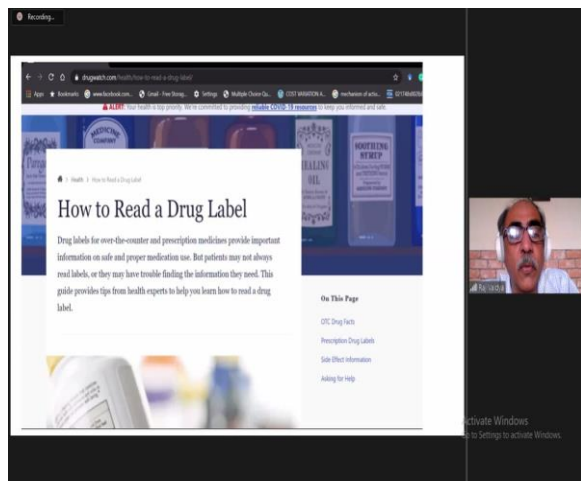

## Brief profile

Dr. Vaidya is a Chief Pharmacist and Partner at Hindu Pharmacy, Panaji from June 1989 till date.

He has obtained his Ph.D in Pharmacy from Goa College of Pharmacy. He has been a highly ambitious man and was the Vice President for the Goa State Pharmacy Council, 2013-18. He was also the Vice President and Chairman of the Indian Pharmaceutical Association in the Community Pharmacy Division from 2006-12. Dr. Vaidya is the chairman of the Institutional Review Board, Sangath (a Mental Health NGO) and is actively involved in writing for newspapers and professional journals on various topics on health and pharmacy. Dr.

Vaidya is a highly ambitious man and the recipient of the Young Achiever's Award by the Indian Pharmaceutical Association for the year 2005, Hero for Health award for South East Asia, by FIP (2006), IPA fellowship award and Fr.tong Memorial Centenary Award (for contribution to public health), by Voluntary Health Association of India (2015).

## Abstract

Dr. Vaidya stated that prolonged hospitalization and death in hospitals is related to ADR and medication errors. Challenges which lead to medication errors included drug interaction, sound alike look alike drugs, various brands and FDCs in market and irrational prescribing. Dr. Vaidya keenly explained the relevance of purpose, directions and warning in label of prescription & OTC medicines. He then explained that labels in USA consisted of drug facts, uses, warnings, directions, other information, inactive ingredients, questions or comments. Dr Vaidya also

revealed the importance of patient packed inserts. He concluded the session by portraying the sustainable development goals, some of which included gender equality, clean water and sanitation, good health and well being, no poverty and climate action.

**DAY 6 (6.2.2021)**

**Dr. GANDHALI DESHPANDE**

**B.Pharm. M.Pharm, Ph.D in Pharmacology**

**Head of Medical Affairs (Medical Communications, Digital solutions and Medical Educational support)**

**Title: Medication safety practices and principles**

### **Brief profile**

Dr. Gandhali Deshpande is presently working with the leading multinational organization CIMS Medica providing drug information, clinical-decision support tool, educational content and marketing services to Healthcare professionals, Pharmaceutical companies and Patients. Dr. Gandhali obtained her PhD in Pharmacology from SNTD Women's University, Mumbai India, in 2009. She has also had a patent on her name as - Compounds for the treatment of cervical cancer associated with human papillomavirus Publication No. WO/2012/176163 was published on Dec. 27. She has a total 11 Published Articles in various Journals and Presented a total of 10 Poster presentation. Dr. Gandhali was awarded for the best employee for significant contribution in the ongoing Merck oncology program (Sep 2011).

### Abstract and event report

Dr. Deshpande mentioned that upto 5.7 million medical errors occur annually. Drug complications were the most common type of outcome attributed to negligence, accounting for 19% of these preventable adverse events. Causes of medical errors like communication barrier, SALA drugs, knowledge and execution based errors, usage of abbreviations and illegible handwriting were discussed. Approaches to solve these errors included closed loop communication, computerized physician order entry system and bar code medication administration. Dr. Gandhali also explained the common errors which included illegible handwriting, inaccurate dosage calculation and equipment failure. According to her errors occur when actions are intended but not performed, which can be knowledge/rule based errors and action/memory based errors. She concluded by saying that medication safety can be enhanced by developing, providing, implementing, convening, communicating, promoting and supporting pharmacovigilance and other public health programmes.

### DAY 6 (6.2.2021)

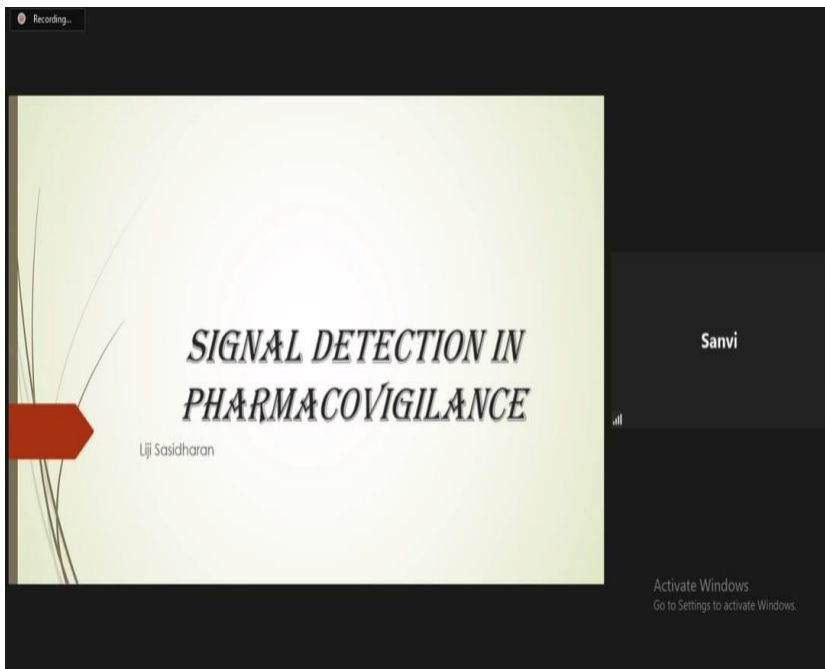

**LIJI SASHIDHRAN**

**M.Pharm**

**Title: SIGNAL DETECTION IN PHARMACOVIGILANCE**

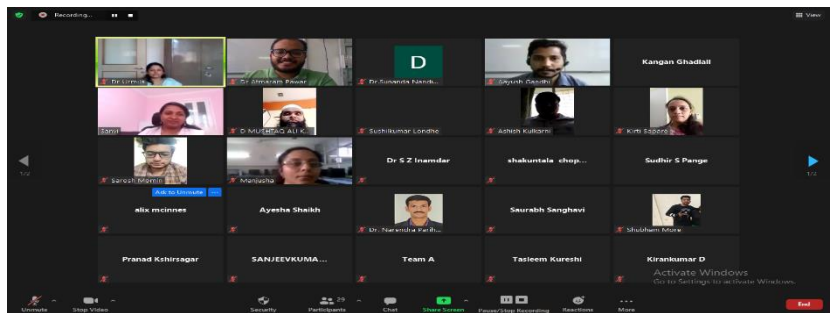

**Brief profile:**

Liji had done various jobs as – Senior Researcher Excellence Data Res. Pvt. Ltd.), Hyderabad, India; Senior Healthcare Professional Assessor in Pharmacovigilance department, Satyam BPO Ltd. Hyderabad, India Safety Officer, Omnicare Clinical Research, Bangalore, India ; Safety Specialist, PPD global, Cambridge, UK ; Safety Specialist, PPD global, Cambridge, UK ; Senior Pharmacovigilance Officer, Chiltern, UK. She is been working in pharmaceutical healthcare and Research more than a decade.

Liji explained the definition of pharmacovigilance, adverse event and adverse reaction and its relation with each other. She explained the concept of signal management and how it maintains safety profile of a company's pharmaceutical and biological products. She also explained the importance of individual case safety reports and the data sources of signals. Signal detection methods comprised of qualitative detection which included manual review of individual case reports and

quantitative detection based on observed/expected ratio. She even mentioned the frequency of data review, signal prioritization being the crucial part and signal evaluation. Mam concluded by saying that signal detection and its assessment plays a vital role in patients receiving safe and low risk drugs.

## DAY 6 (6.2.2021)

### Dr. Abhilasha

Pediatric hematologist oncologist

KLE Hospital Belagavi

Associate Professor ,Incharge division of pediatric oncology ,Department of pediatrics JNMC

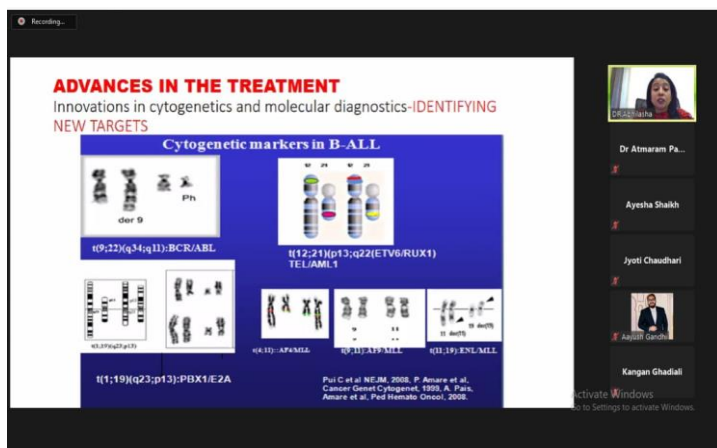

**Title of the talk: Non- infectious chemotherapy associated acute**

**toxicities during treatment of childhood Acute Lymphoblastic Leukemia.**

### Brief profile

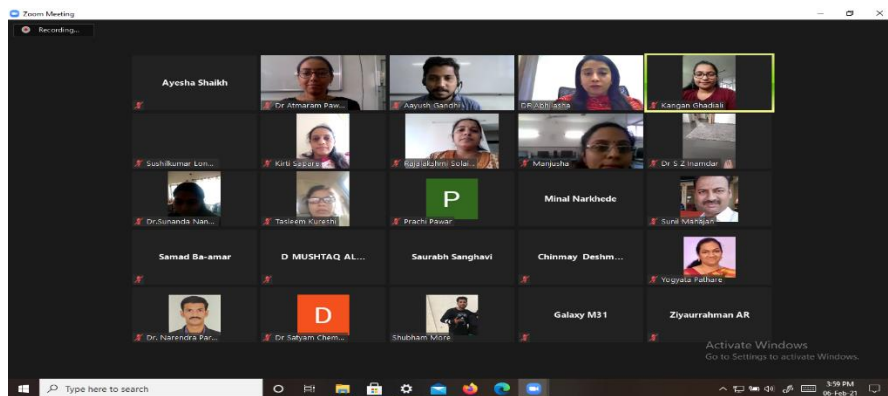

Dr Abhilasha is currently working as pediatric haematologist oncologist in KLE hospital, Belgavi. She is a member of IAP, IAP-PHO, IPHOG,SIOP , ASCO. Dr. Abhilasha Has publications in reputed journals, presented papers at national and state conference. She has Contributed chapters on pediatric oncology in pediatric textbooks and Presented fellowship research project as oral paper at SIOP.

### Abstract

Leukemias is the commonest malignancy comprising 33% of paediatric malignancies, in which ALL, AML and CML comprise of 75%, 20% and 5% respectively. Dr. Abhilasha mentioned the advances in treatment that were identifying cytogenetic markers in B-ALL, and development of drugs like tyrosine kinase inhibitors, serine threonine kinase inhibitors from this advancement. The recent advancement

in immunotherapy included CAR T-cell therapy (Chimeric antigen receptor T cells). ALL treatment comprised of induction, consolidation, interim maintenance, delayed intensification and maintenance treatment. Mam also explained the usage of vincristine and prednisolone in induction, cyclophosphamide & cytarabine in consolidation and methotrexate in maintenance treatment.

## DAY 8 (8.2.2021)

**Dr. Sonal shekar**

**M.Pharm, Ph.D**

**Assistant Professor-Selection Grade, Department of Pharmacy Practice, Manipal College of Pharmaceutical Sciences,**

**Title: Where we stand in patient-centered approach to medication safety**

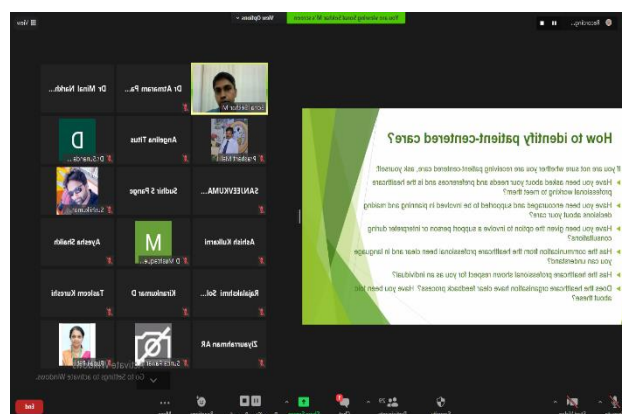

### **Brief profile**

Dr. Sonal Shekar is currently working as an Assistant Professor, Department of Pharmacy Practice, Manipal. He has 64 publications in national and international journals to his credit (Including in Journals like BMJ Global Health, Antibiotics, Medical Hypotheses, Journal of American College Nutrition, Expert opinion on pharmacotherapy, Nutrition etc.) with Scopus-index 9. He has written 8 book chapters in the area of Nutrition and Clinical Toxicology in Elsevier (Academic Press) and Taylor & Francis (CRC Press) published books. He had received Pharmabridge fellowship from FIP,

Netherlands for clinical pharmacy training in Canada. Moreover, he has received research grant from Manipal-McGill Centre for infectious diseases for Vitamin D research in diabetic foot infection, in addition to Seed Grant and Intramural Funding (IMF) from MAHE. He is also a co-investigator in two funded projects by ICMR-North East Seed grant and Pfizer Global Medical grant. He has also received travel grants from various funding agencies like DST, DBT, ICMR, CICS, Tata Trust and ISPE for presenting his research works in International conferences. He has visited various countries like Malaysia, Thailand, UAE, Japan, Australia, Canada, Italy, Netherland and Czech Republic to present his research work. He was awarded best poster in Manipal Cardiology Update-2016& 2018, TAHCON-2016 and Publon Reviewer award etc

### Abstract

Maximizing drug safety is a potential and growing demand for high-quality patient care. Similarly, patient-centeredness has been recognized as a key to high-quality healthcare as well as high-quality drug development. From the pharma industry perspective, they are proactively looking for more patient centric in respect to drug design, patient recruitment for clinical trials, and disseminating study results, especially safety data. Patient-centered care comprises a rational and ethical frame-work to improve patients' health-related outcomes concerning drug safety. A patient-centered

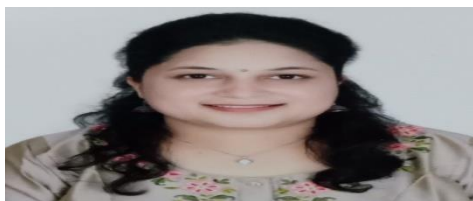

approach to evaluate interventions for medication safety should include patient-reported measures. Assessment of interventions to improve medication safety should incorporate both health-system oriented and patient-reported and patient-centered measurement concepts. Such concept can enhance the intervention's impact, which evaluates for the patient and helps design more effective interventions to improve positive outcomes. This is particularly relevant to medication safety, where interventions need to be meaningful and personalized for most effective to meet patients' requirements. Patient-centered care in medication management is an evolving area that can contribute significantly to the safe use of drugs at the clinical level. There is a high focus on the research that could measure patient-centered medication safety effectively and efficiently. This includes new data collection methods without patient or system burden and incorporates health-system-centered measures to evaluate and improve the interventions.

Dr. Shekar discussed various aspects like patient centred care, medication safety, patientcentered medication safety measures, patient's voice in pharmacovigilance and antimicrobial stewardship. Sir explained the importance of drug burden index (DBI) that measures the burden of anticholinergic and sedative medication in older adults. Patient centered care (PCC) is about treating a person receiving health care with dignity and respect and involving them in all decisions about their health. He illustrated that patient centred medication

safety can be increased by solving patients concern about medication safety, quality of life and by including discussion of patient goals, preferences etc. He concluded by role of antimicrobial stewardship in PCC.

---

**DAY 8 (8.2.2021)**

**Dr. Asawari Raut**

**BPharm , MPharm , Ph.D**

**HOD, Associate Professor, Department of Clinical**

**Pharmacy Title: Medication safety in rheumatology- exploring role of clinical pharmacist**

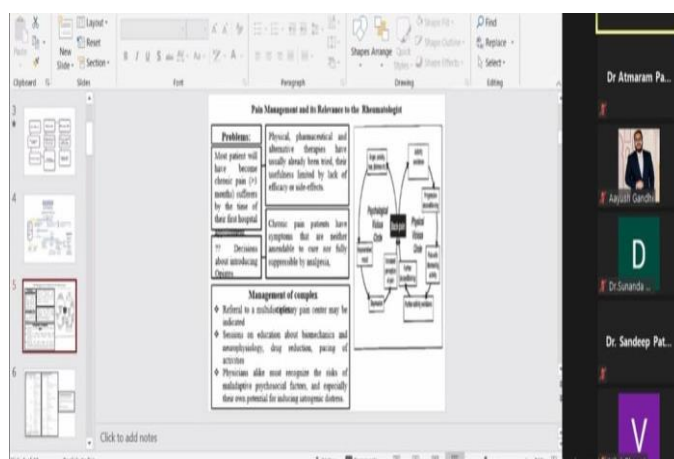

### **Brief profile**

Dr. Asawari Raut is currently working as HOD, Associate Professor, Department of Clinical Pharmacy, Poona College of Pharmacy, Pune. She has done her M.Pharm in Pharmacy Practice from KLE University's College of Pharmacy, Belgaum. She has 16 years of teaching experience. Her interest of research areas are toxicovigilance, drug utilization evaluation and adherence and disease activity scores. She has published more than 34 research papers in various peer reviewed international and national journals. She has Secured awards for best scientific research presentation in various international conferences, including prestigious Dr. U.K.Sheth award for best paper at American College of Clinical Pharmacology She has coordinated seminars and QIP for the organization.

---

The treatment of Rheumatoid Arthritis includes the old approach such as NSAIDs/steroids are considered 1<sup>st</sup> line and DMARDs considered toxic whereas the newer approach include emphasis on limiting joint destruction such as Methotrexate, combination therapy and biologics. Dr. Raut keenly explained the problems and management of pain in rheumatology. She firstly focussed on hydroxychloroquine with respect to dose, monitoring adverse effects and drug interactions.

She even explained the methotrexate intolerance and development of modified MISS. Disease modifying anti-rheumatic drugs (DMARDs) being the important class of drug was explained which comprised of TNF inhibitors, interleukin inhibitors, CD-20 blockers, T- cell activation inhibitor and Janus kinase inhibitor. Monitoring parameters for each drug formed the highlight of the event. At the end, comparative safety and tolerability of

diclofenac and aceclofenac was discussed which stated that aceclofenac is a better choice for pain management and diclofenac was associated with more adverse effects.

---

**DAY 8 (8.2.2021)**

**Ms. Gauri Godbole**

**B. Pharm Master in Clinical Pharmacy AdvPracPharm (II)  
Geriatric Medicine BCGP CDP FSHP**

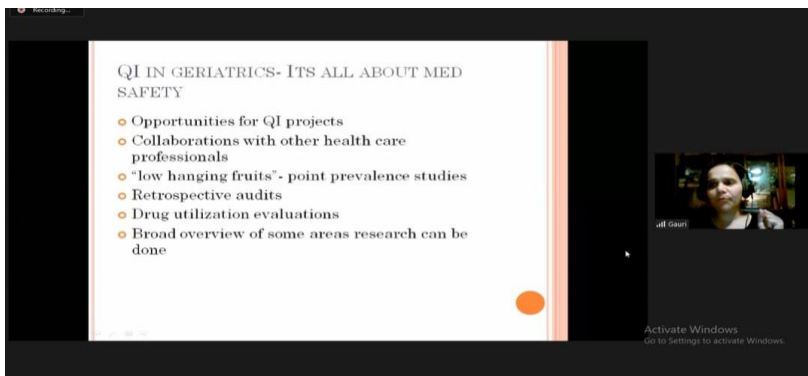

**Team leader pharmacist, Aged care and mental health,  
Gosford hospital, NSW, Australia**

**Title of the talk: Medication therapy management in  
geriatrics**

### **Brief profile**

Dr. Gauri Godbole is currently working as a Team Leader, Aged Care and Mental Health Units, Senior Clinical Pharmacist, Central Coast Local Health District (CCLHD), NSW. Ms. Gauri has completed her B.Pharm from University of Pune and Master of Clinical Pharmacy from University of South Australia, Adelaide. She is a Board Certified Geriatric Pharmacist. Ms. Gauri has contributed to various in-house guidelines and policies at CCLHD and also a reviewer for Journal of Pharmacy Practice and Research (JPPR)- Geriatrics Therapeutic Section. She is also awarded as –2017 SHPA NSW branch Early Career Pharmacist award; CCLHD Research Symposium 2018. Category: Supporting our People (Runner-up) “Geri-Grabs” – A Collaborative Pharmacy In-Service Initiative for Improved Patient Outcomes; Selected for inaugural SHPA Leadership Enrichment and Advancement in Pharmacy (L.E.A.P) Program 2019.

### **Abstract**

**Dr.** Gauri’s talk comprised of medication therapy management in geriatrics, pharmacokinetic and pharmacodynamic changes, drug selection principles and comprehensive geriatric assessment. Geriatrics is associated with multi-morbidity, polypharmacy, altered body function,

increased susceptibility to ADR and drug interaction, cognitive decline and impaired functional capacity. Mam mainly focussed on drug selection principles which included polypharmacy, ADR, drug interaction and deprescribing. She even introduced a new term, “hyperpolypharmacy” which is prescribing more than 10 drugs. She emphasised on the principle to treat the cause rather than the symptom and deprescribing which minimised non-adherence and poor medication outcomes. Mam also explained the deprescribing cycle, barriers to deprescribing, pharmacists role in deprescribing and use of dose administration aids. She concluded by mentioning the SAIL tool to assist quality use of medicines which are simple prescribing, reduced adverse effects, improved indication and preparing list.

**DAY 8**

**Dr. Suneel .C. Mundkur**

**MBBS,DCH,DNB,MNAMS,MBA-HCS**

**Professor of peadiatrics, K.M.C,Manipal**

**Adviser-Quality Implementation, Manipal Academy of Higher education, Manipal**

**Title: Medication safety in children**

### **Brief profile**

Dr. Suneel Mundkur is currently working as the Professor of Pediatrics at the KMC Manipal for the last 20 years. He is a NABH Principal Assessor and lead Auditor for ISO 9001 &14001. He is a member of Indian Academy of Paediatrics (IAP), IAP Paediatric Infectious Disease Chapter, 2007 and **IAP Paediatric**

Dr. Suneel mainly emphasised on importance of paediatric pharmacotherapy, paediatric vs adult pharmacotherapy, problems with paediatric pharmacotherapy and general considerations. According to him, pharmacokinetics, pharmaceutics and pharmacodynamics are the determinants of effective therapy. Issues with drug safety profile included dose, preparations, non compliance due to polypharmacy, cost and increased frequency of administration. Sir also gave general considerations like dose

calculation, usage of drugs when indicated, avoiding multiple drugs, proper advice to parents, contraindications and medication history taking should be known.

## **DAY 9**

**Dr. Atmaram pawar**

**B.Pharm, M.Pharm, Ph.D**

**Presently serving as Principal (I/C) and Professor of Pharmaceutics at Poona College of Pharmacy (PCP) Pune, a Grant-in Aid institute of Govt. Of Maharashtra**

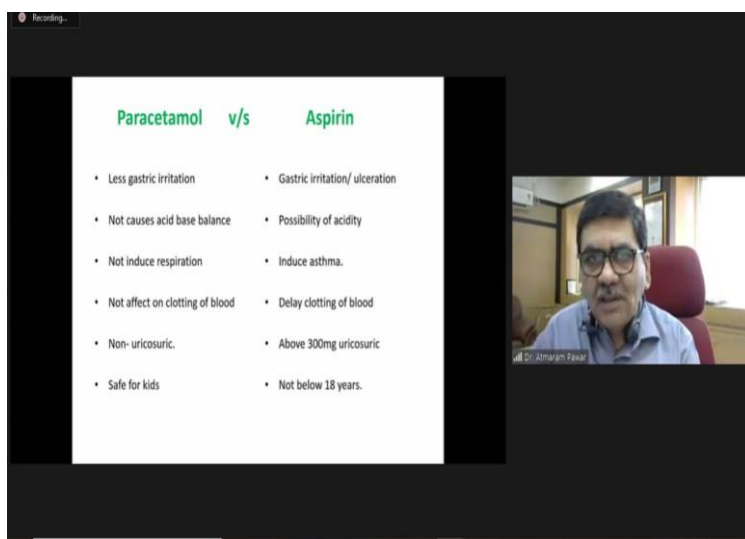

### **Title of the talk: OTC medication safety**

- Dr. A P Pawar has done his M.Pharm and Ph.D. in Pharmaceutics. He has a teaching experience of more than 28 years. His research areas include Particle engineering, Novel Drug Delivery Systems, Pharmacy Practice. He has around 70 international publications and 28 national publications to his

name. Dr. Pawar has published 03 books in Indian languages, published more than 70 articles in leading newspapers and engaged 26 public meetings, participated in 03 TV panel discussions and delivered more than 300 invited lectures including symposium speeches. Sir is a recipient of 11 prestigious awards that includes a international award – Healthcare Leadership award by World Health & wellness congress Feb 2020, 4 national awards viz. Best Teacher Award of 54th IPC Trust 2005, Prof. BM Mithal national Award 2007, APTI's Teacher for the Year Award 2015, IPA Fellowship Award 2018 and in house awards like Outstanding Teacher 2011 & Best Researcher Award 2015 of Bharati vidyapeeth University.

### Abstract

Dr. Atmaram Pawar firstly clarified the difference between prescription and OTC dispensing with respect to schedules, prescriber, drugs included and labelling conditions. Dr. Pawar explained the most commonly used OTC, aspirin's ADR, patient counselling. Paracetamol was also discussed in aspect of its different indications and dosage forms. A questionable thought occurred as to whether Indians read the package inserts which are provided with medicines. Side effects, efficacy, dose, drug interaction of expectorants, antacids, oral pills and potency enhancers were also discussed. Overall the session was insightful claiming that OTC medicines require proper patient counselling and it should be our responsibility to read the package inserts before consuming any OTC medicines.

**DAY 9(9.2.2021)**

**Dr. (Mrs) Priti Pravin Dhande**

**M.B.B.S, M.D.**

**Professor, Dept. of Pharmacology; &**

**Head, Clinical Pharmacy & Pharmacovigilance dept**

**Title: Medication reconciliation: a step to ensure medication**

**safety**

### Brief profile

Dr. (Mrs) Priti Pravin Dhande has done her M.B.B.S from A.C.P.M. Meidcal College, Dhule and completed her M.D from B.J Medical College, Pune. She has a total of 16.9 years of experience in UG teaching after her M.D. She has a total Teaching experience of 18.9 years and currently she is a recognized

Post Graduate Teacher for MD Pharmacology at BVDU Medical College since April 2009. She has around 28 research publications, 3 review articles and 2 case reports to her name.

### **Abstract**

Most common error is omission of a regularly used medicine. Medication reconciliation is a process of comparing a patient's medication orders to all of medication that patient has been taking which avoids omission, duplication, dosing errors and drug interactions. Medication reconciliation is needed at admission/initiation of treatment, transfer to another unit/ward/hospital and during discharge and is the responsibility of physician, nursing staff, clinical pharmacists and patient. Dr. Preeti mentioned the challenges like lack of standardized process and focus on completing a form rather than intervention. She concluded by saying that an accurate and complete medication history is crucial for effective medication reconciliation.

## Abstract

### MEDICATION ERRORS: A SAFETY CONCERN AND MEASURES TO PREVENT THEM

Dr. Pawar started the session by mentioning that purpose of drug therapy is to achieve therapeutic outcome with minimal patient risk. Medication error is any preventable event that leads to inappropriate medication use or patient harm. Medical errors ranked 6<sup>th</sup> as the cause of mortality worldwide. Mam also explained the nine categories and four outcomes of medication errors which included no error, error & no harm, error & harm and error & death. She even mentioned the factors influencing medication

errors with respect to health care professional, patients, work environment and computerized information systems. Mam explained the approaches to reduce medication errors which were legible prescriptions, minimal use of abbreviations, avoidance of verbal orders, computerized physician order entry systems, patient monitoring, electronic surveillance and bar code readers. Mam also stated the transcribing and administration errors as a major cause of medication errors. Dr. Pawar concluded by mentioning the ways to detect medication error in practice some of which were patient chart review, ADR trigger tools and direct observation.

## DAY 9

**Dr. PRASANNA DESHPANDE**

**Pharm.D, Assistant Professor, Department of Clinical Pharmacy,  
Poona College of Pharmacy, BVDU**

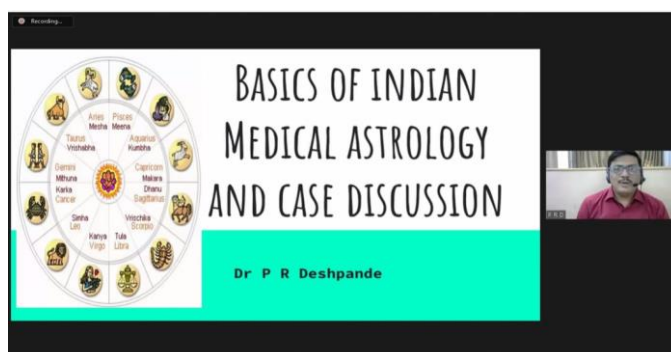

**Title: Basics of Indian medical astrology**

### Brief profile

**Dr. Prasanna Deshpandae** is working as an Assistant Professor in Department of Clinical Pharmacy since 8 years. He has published 20 National and International Papers and one book chapter.

### Abstract and event Report

**Dr. Deshpande** mentioned the 12 horoscopes, 9 planets and 27 stars in vedic astrology. He also mentioned the various body parts associated with each house in kundli. He stated the relevance of malefics and benefics and planetary lordship. To correlate health conditions with each nakshatra was explained by him in a very simplified manner which included remembering one's zodiac sign, nakshatra, planets associated with 6<sup>th</sup>, 8<sup>th</sup> & 12<sup>th</sup> houses, house of malefics and afflictions.

**DAY 10 (10.2.2021)**

**Dr. Surulivel Rajan M. Pharm, PhD**

Associate Professor  
Department of Pharmacy practice,  
Manipal College of Pharmaceutical Sciences,  
Manipal, Karnataka

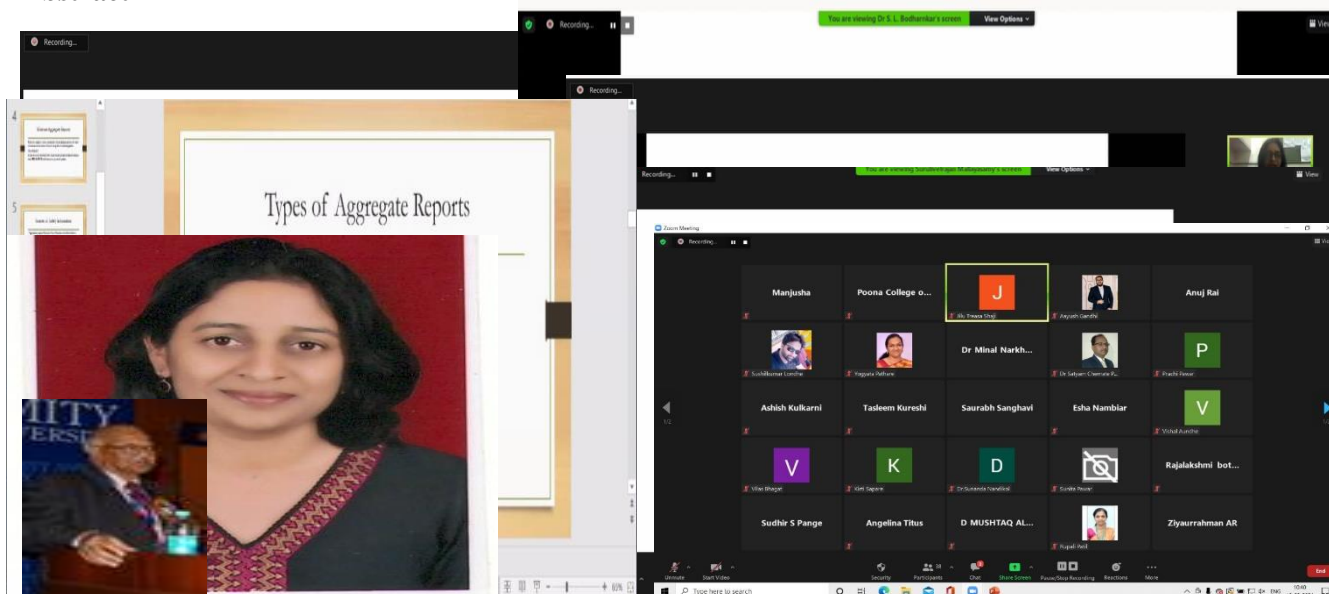

**Title of the talk: Pharmacokinetic modelling for safe drug therapy**

**Brief Profile**

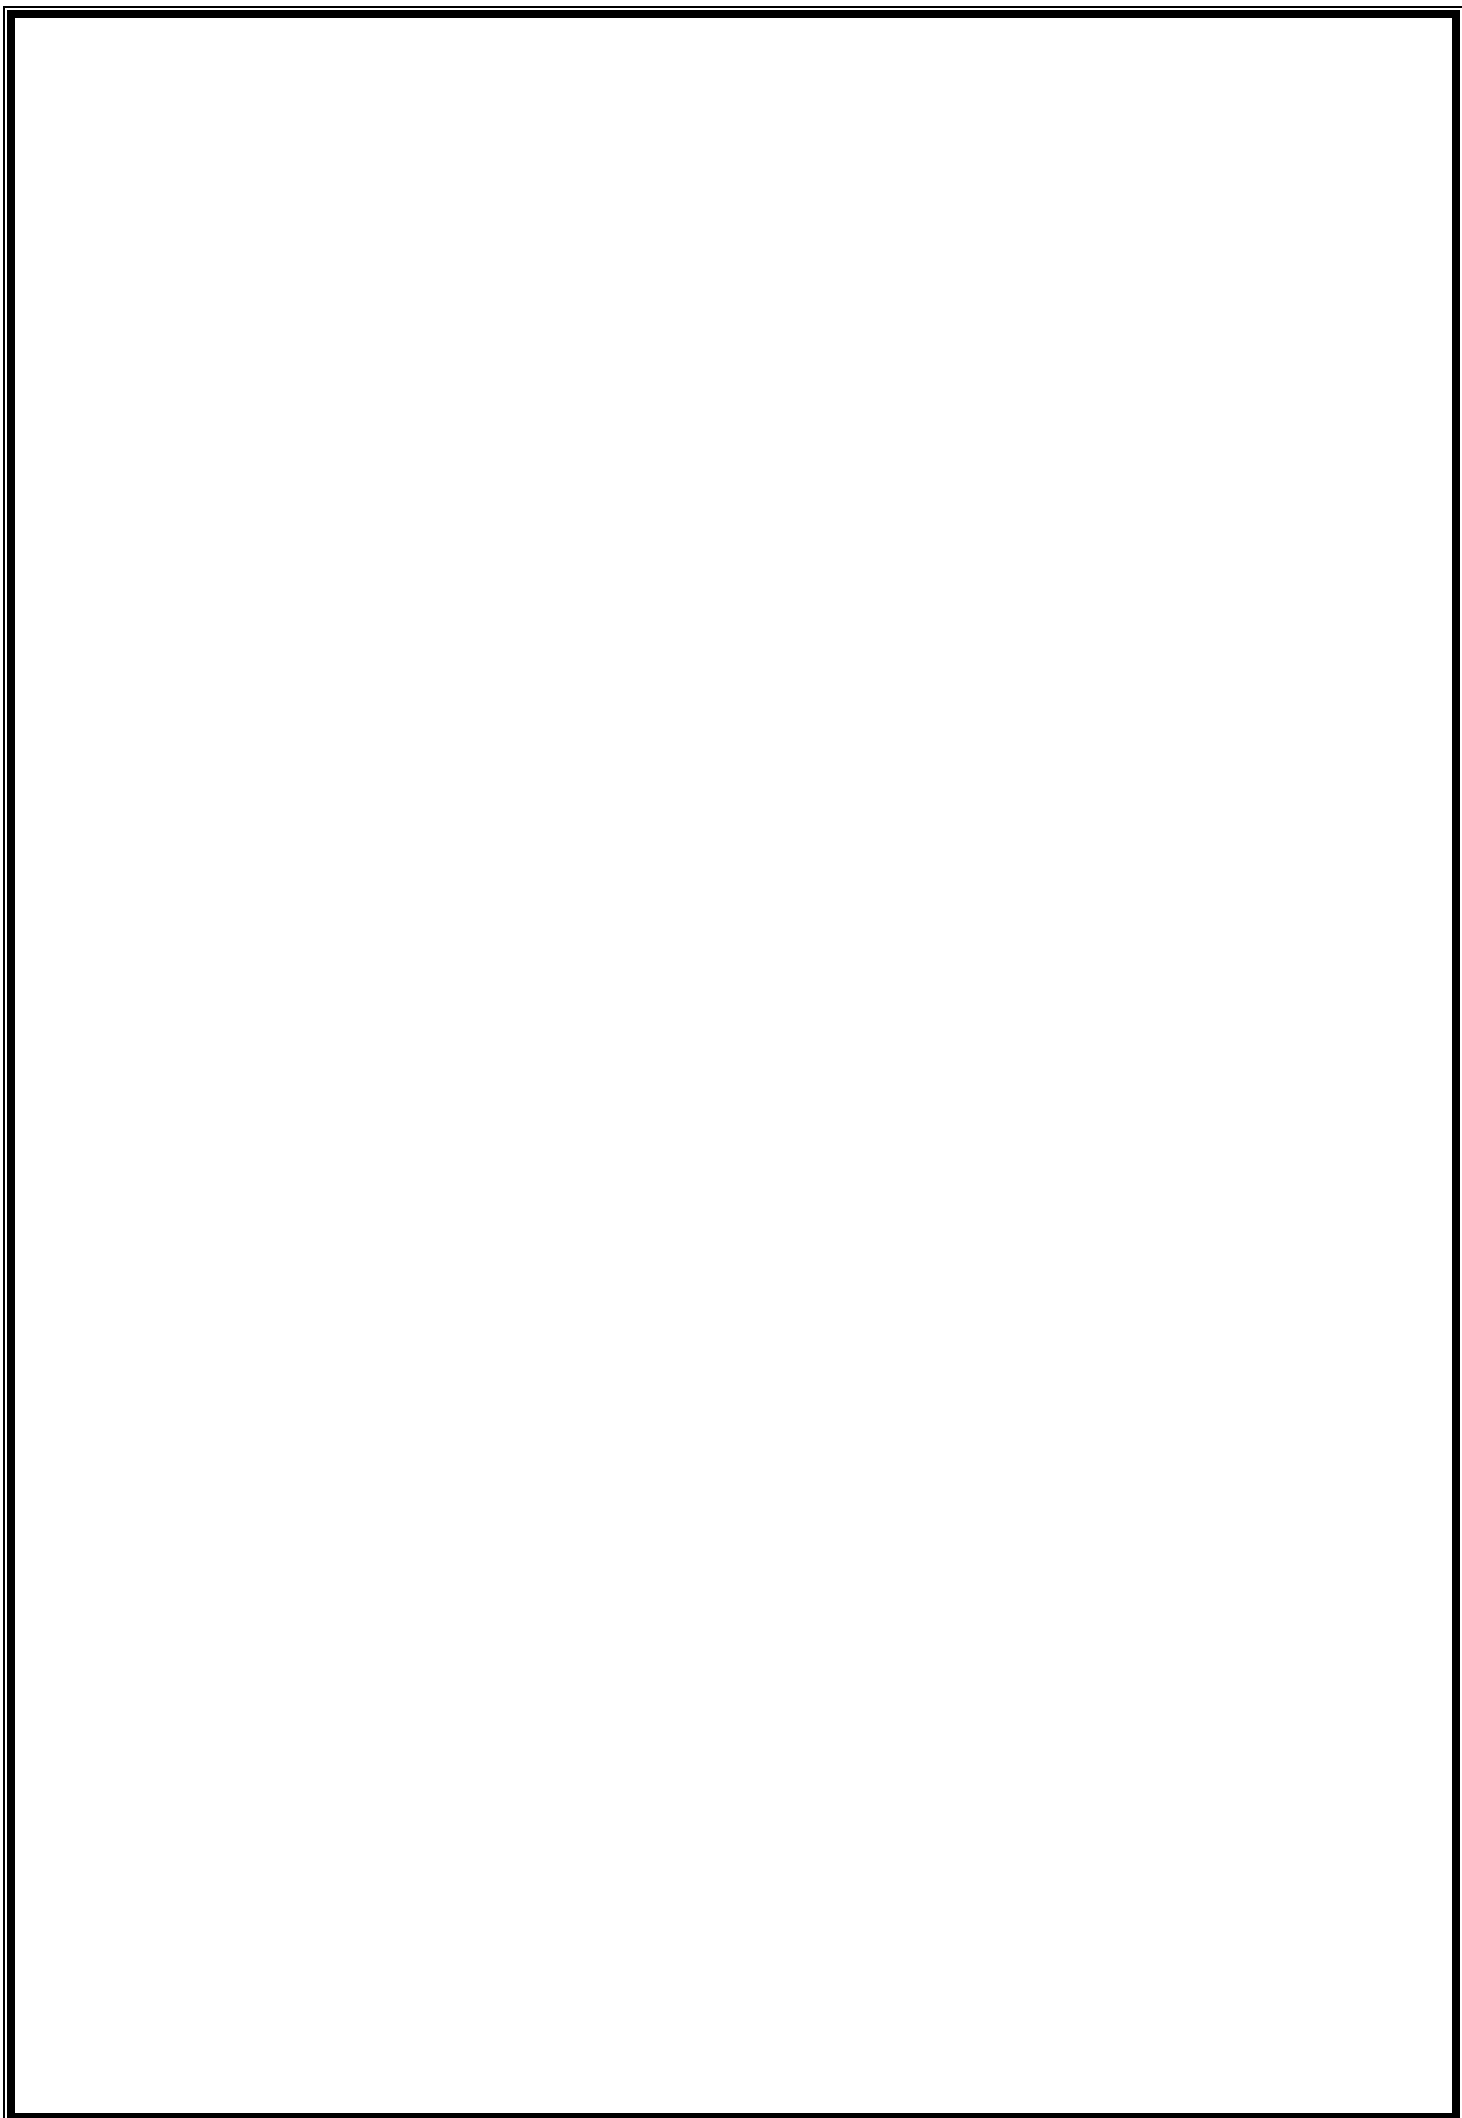

Dr. Rajan has obtained his doctorate degree in Population Pharmacokinetics from Manipal University. He has 17 years of teaching experience at pharmacy practice departments. He is currently the associate professor at Manipal College, Karnataka and has received the Best Post Doctoral Researcher Award at ACCP Annual Symposium 2018.

He has undertaken an international fellowship from National Prescribing Services, Australia and he has received the Pharma bridge scholarship to attend clinical pharmacy training at Michigan University Health System Hospital, United States. He has also conducted Pharmacometrics workshops in India since 2011 as a part of Population Approach Group

**Abstract**

Dr. Rajan explained various types of models like physical, conceptual and mathematical. Objectives of the model were to facilitate understanding unnecessary components, to aid in decision making by stimulating "what if" scenarios and to explain, control and predict events on basis of past observations. Sir also made us realize the fact that models should be judged by retrodiction, prediction and understanding. Pharmacokinetic

Chief Coordinator QIP Cell

**Prof Dr Varsha Pokharkar**  
Vice Principal

**Prof Dr Janhavi Rao**  
Vice Principal

**Ms Preeti Tamane**  
Program Co ordinator

## **PROGRAM OVERVIEW**

The aim of this QIP was to explore and understand aspects of quality in both; academic as well as industry set ups.

From academic perspective the program gave an opportunity to participants to learn facets such ISO certification and various accreditation procedures for academic institutes. Talks on creative thinking, evidence-based analysis, computer aided formulation development, strategies for suitable drug candidate selection for formulation development, will aid to improve research outcomes.

Quality of research majorly depends on the tools and techniques used for the same. Keeping this in mind, we arranged demonstrations and talks on the most used software in pharmaceutical research, which include Schrodinger, Graph Pad Prism, BioVia and Design Expert.

IP and patents are an integral part of research and its way to commercialization. This topic too was addressed in the program.

Especially since this was a forum for faculty, unique topics like industry academic liaising and how to develop students with global competence were interesting and relevant.

From the industry perspective, we had stalwarts from various fields who covered a variety of topics which included corporate quality assurance, operational excellence, supply chain management, sterility assurance, good documentation practices, significance of effective quality management systems, change management, good laboratory practices, quality aspects in data management, quality of analytical techniques and the like. Basically, we had a galaxy of speakers from the industry who shared their real time experiences and examples with us.

Since the program was conducted online and not in person, we invited speakers from not only different parts of India but also from USA, Germany and Singapore.

## INAUGURAL FUNCTION

The Inaugural function was conducted ONLINE via ZOOM platform on Monday, 7<sup>th</sup> December 2020, 11.00 a.m. onwards.

Inauguration was done by Hon. Dr. Rajendra B Kakde, Adviser I, AICTE, Gvt. of India; in the presence of Prof Shyam Khante (Key Note Speaker), Principal Dr. A. P. Pawar and Vice Principals Dr. Mrs. V. B. Pokharkar and Dr. Mrs. J. R. Rao. All the teaching staff, M. Pharm and Ph.D. students and 30 program delegates were present for the function.

## **SPEAKER PROFILES AND LECTURE ABSTRACTS**

### **Dr. Vaibhav Shinde**

**Profile:** Dr. Vaibhav Shinde is currently Assistant Professor at Poona College of Pharmacy, Pune. He has completed Diploma in IPR and Patent. His research areas include herbal drug standardization, natural product drug discovery and development. He has 25 international publications and 11 national publications to his credit.

#### **Abstract: Total Quality Management & Historical Aspects**

Importance of total quality management in pharmaceutical industry. Different philosophies related to TQM given by stalwart personalities like Dr. Joseph Juran. Implementation of TQM system leads to elevate the standard of pharmaceutical industry.

## **Mr. Satish Joshi**

**Profile:** Mr. Satish Joshi is Former Associate Director, Global Regulatory Affairs at Merck & Co, New Jersey. He completed his M. Pharm in Pharmaceutics from Nagpur University and M.S in Industrial Pharmacy, St John's University, New York.

### **Abstract: My Experiences in Industry from India and USA**

The talk focused on what is actually implied by regulatory aspects in industry, the important documentation required for drug product filing and the importance of product testing in industry. Aspects about product development and importance of validation. Differences between in the Indian pharma industry and US pharma industry.

## **Dr. Subhash Pandey**

**Profile:** Dr. Subhash Pandey has completed his M Pharm, PhD in Pharmaceutics and J.DYSc. He has total of 29 years of experience in pharmaceutical industry. He is responsible for bringing about automation in pharmaceutical industry and work flow development. He is awarded with illustrious Alumni Life Time Award by University of Sagar, Long Service award at Lupin and Glenmark Pharmaceuticals Ltd.

### **Abstract: Effective Management of Quality Systems**

The lecture described the responsibilities of QA personnel. Risk based analysis in Pharma industry leads to monitor the risk during the product life cycle and further. Corrective and Preventive Action (CAPA) is important to eliminate the risks in the industry. It is necessary to have root cause analysis approach to have a good process. The same can also be implemented in the academics.

## **Mr. Padmnabh Joglekar**

**Profile:** Mr. Padmnabh Joglekar is Associate Director Biometrics, Syneos Health, Pune. He has completed his B Pharm and has a Post Graduate Diploma in Clinical Research. His key expertise includes clinical data management, study start up, discrepancy management, vendor data reconciliation and training

### **Abstract: Quality Aspects in Data Management**

Aspects of management of clinical data were discussed. QA QC of data management was discussed. Different certification courses giving idea about the clinical data management like SAS. Regulatory aspects involved in the clinical data management were highlighted.

## **Dr. Varsha Pokharkar**

**Profile:** Dr. Varsha Pokharkar is currently Vice Principal and Head, department of Pharmaceutics at Poona College of Pharmacy, Pune. She was ranked among top 2% of global scientists in her field in the Stanford and Mendeley study. She has over 28 years of experience in the academics and research. She has more than 100 publications, 3 book chapters and 11 patents to her credit and has delivered more than 45 guest lectures.

### **Abstract: Creative thinking for Problem Solving**

The lecture was a very interactive and involved aspects of difference between creativity, invention and innovation. Creative problem involves balance in teaching and learning for problem solving. The gaps in the teaching and learning methods can be addressed through logical questions.

## **Dr. Pradeep Deshmukh**

**Profile:** Currently, he is a consultant and mentor, Pacific Toxicology Consulting, Pune. He has done his PhD in Zoology- Toxicology at Haffkine University, Parel Mumbai. He has over 32 years of experience in the pharma industry. He has expertise in GLP, AAALAC, preclinical toxicology, ISO 17025, quality standards and training.

### **Abstract: Principles of Good Laboratory Practices**

What is GLP? The main resources of the GLP. Their rules, characteristics and important documents and quality assurance. Also, what is drug discovery and which parameters are important for the development for the drug discovery.

## **Dr. C Bothiraja**

**Profile:** He is Professor, Dept. of Pharmaceutics, Poona College of Pharmacy, Pune. He has 18 years of teaching experience. He has filed 1 patent with 36 published research papers in international journals with a cumulative impact factor of 145.56 and h-index of 18. He has delivered 52 invited lectures at various universities.

### **Abstract: Selection of Drug Candidates For Formulation Development**

The lecture addressed various aspects of what is meant by the solubility with the different values of the solubility, pH values of body liquids, different permeability aspects, BCS classification with which drug belong from which classification. Physico-chemical properties of drugs and how they play an important role in selecting the right type of formulation to be developed for the drug.

## **Mr. Sudhir Goudar**

**Profile:** Sudhir is a proficient pharmaceutical professional with over 30 years of experience in managing Quality operations at known Pharma companies. He has worked in Quality, Production, Technology transfer and External supply management functions. He has work experience with companies such as GlaxoSmithKline, Accenture, Strides Arcolab and Cipla. Presently he is working with Novartis Pharmaceuticals in Singapore providing Compliance oversight to Novartis sites in the APAC region.

### **Abstract: Good Documentation practices**

Good documentation practices are an integral part of the pharmaceutical manufacturing operations. Various aspects and requirements of good documentation were covered during the talk with real time examples. The various attributes of good documentation very highlighted and discussed in detail.

## **Dr Sathiyarayanan L**

**Profile:** Dr Sathiyarayanan L is Director, Centre for Food testing Laboratory and Associate Professor, Pharmaceutical Chemistry at Poona College of Pharmacy, Pune. Dr. Sathiyarayanan Published over 65 research papers in international and national journals and presented around 60 papers in various conferences. His area of interest is natural product research including herbal drug standardization, herb-drug interaction studies and exploring role of natural products in neuroprotection. He is Recipient of various research projects worth of around 1 crore rupees from various funding agencies including UGC, DST, AYUSH and AICTE. He received ‘Career award for young teacher’ from the AICTE, New Delhi., The Best Researcher Award from Bharati Vidyapeeth Deemed University, IASTAM Baidyanath award.

### **Abstract: Accreditation Procedures for Academic Institutes**

The talk explained how the innovation and best practices can be carried out at an institutional level. Different Accreditation bodies which inspect the institutes in aspects of quality. NBA accreditation and NAAC including various stages of documentation and submission process.

## **Dr Natasha Shanker**

**Profile:** Dr. Natasha Shanker presently is Senior Team Lead, Janssen Supply Chain, Johnson & Johnson Pvt Ltd. She has pursued her Masters in Biotechnology from IIT Bombay and PhD in Biological Chemistry from Binghamton University. Dr. Natasha Shanker has 12+ years of experience in managing teams across Pharmaceutical Industry and also 9.5 years of exhaustive experience in Biosimilar industry, ranging across R&D, Quality Control & Quality Assurance. Previously Dr. Natasha Shanker was working with Dr. Reddy's Laboratories as a post-doctoral fellow, Principal scientist, associate director in analytical development. Dr. Natasha's area of interest include Biotechnology, Protein Chemistry, Biochemistry, Biosimilars and many more.

### **Abstract: Quality Aspects of Analytical Techniques**

The talk highlighted how quality control is an important element in the Pharmaceutical industry. Different types of Quality Guidelines under the heading of ICH. The various analytical methods used to determine the quality of the product including HPLC, HPTLC, Liquid Chromatography, etc. Analytical method life cycle and its significance was also discussed.

## **Dr. Kapil Juvale**

**Profile:** Dr. Kapil Juvale is an Assistant Professor at Shobhaben Pratapbhai Patel School of Pharmacy & Technology Management, SVKM's NMIMS, Mumbai. He pursued his M. Pharm in Pharmaceutical Chemistry at SGRS College of Pharmacy, Pune and Ph.D in Medicinal Chemistry From University of Bonn, Germany and also Post doc from IIT Gandhinagar. He was Research and Teaching Assistant, Pharmacy Institute, University of Bonn, Germany. He has 1 Patent and 20 International publications and Received 3 International & 3 National Research projects/Grants. He Kapil has received Teaching Excellence Award from SVKM's NMIMS, Mumbai and Visiting Scientist Award 2019 from Indian National Science Academy (INSA).

### **Abstract: Techniques of In-Vitro Biological Evaluation In Early Stage Drug Discovery**

The lecture addressed the importance of Drug discovery and development in order to develop a good pharmaceutical product. Bioassays and how they are carried out to give results about the products safety and efficacy using analytical techniques were discussed. The basic difference between Biochemical Assays and Cell Based Assays was pointed out.

## **Dr. Sandip Pawar**

**Profile:** Dr. Sandip is UGC-Assistant Professor at University Institute of Pharmaceutical Sciences, Punjab University, Chandigarh. Dr. Sandip has pursued his MTech in Pharmaceutical Technology at NIPER, IPR in WIPO world academy, PhD in Bioprocess Technology from ICT and Post Doctorate from University of British Columbia. Dr. Sandip has 2 Patents, 13 Publications and 9 invited talks/Int. conference/oral presentations. His research area is Pharmaceutical Biotechnology, Biocatalysis for chemo-enzymatic synthesis of pharmaceutical intermediates, Drug Delivery Systems, Recombinant DNA technology, Cell culture, Monoclonal antibodies and Therapeutic Proteins.

### **Abstract: Recent Trends in Pharmaceutical Biotechnology**

Scope and importance of biotechnology is wide as compared to other streams. Biotech field involves most of the formulations in pharmaceutical industry like biologics, vaccines, etc. There is a big contribution of biologics or biotechnology to nation to be a largest Pharmaceuticals supplier to the world. Various vaccines and biotechnology research is going on large scale in India.

## **Dr. Dinesh Dua**

**Profile:** Dr Dinesh Dua is serving as Executive Director on Board Nectar Lifesciences Limited & Chairman, CII North India Committee on Lifesciences. He has 41 years of corporate experience in Life sciences, Chemicals; Specialty, Fine, Petrochemicals, Paints & consumer products. He has completed B.V.SC, Pharmacology & Medicine at Chaudhary Charan Singh Haryana Agriculture University. MBA at IIT Ahmedabad.

### **Abstract: New Horizons in Quality Management Systems Academic & Industry Perspective**

A quality management system (QMS) is a set of policies, processes and procedures required for planning and execution (production/development/service) in the core business area of an organization. This topic was elaborated and explained in dept through various examples in the talk.

## Dr Prasad Thakurdesai

**Profile:** Dr Prasad Thakurdesai is serving as Chief Scientific Officer, Indus Biotech Private Limited, Pune. He has 29 years of Professional experience, including 17 years in reputed educational and research institutions of Pharmaceutical Science. He has completed M.Pharm in Pharmacology & PhD in Pharmaceutical Sciences from Nagpur University. He has more than 100 peer-reviewed international journal publications, 59 international conference presentation. He has Guided 32 M.Pharm & 4 PhD Research Scholars. His research interest are efficacy studies in animal models of diseases, toxicology and safety studies, pharmacokinetics, clinical studies, standardization, authentication, formulation, stability and international regulatory affairs.

### **Abstract: Scientific Thinking and Evidence Based Analysis**

Scientific thinking refers to both thinking about the content of science and the set of reasoning processes that permeate the field of science induction, deduction, experimental design, causal reasoning, concept formation, hypothesis testing, and so on. When conducting research about your customers, patients or products it's usually impossible, or at least impractical, to collect data from all of the people or items that you are interested in. Instead, we take a sample (or subset) of the population of interest and learn what we can from that sample about the population. Methods to draw conclusion should always refer back to your hypothesis.

## Dr Venkat Yeturu

**Profile:** Dr Venkat Yeturu is serving as Vice President at CuraTeQ Biologics, Hyderabad. He has Overall 24+ years of experience in various analytical aspects of proteins and therapeutic proteins. He has completed PhD in Biochemistry and molecular biology at Indian Institute of Science. He has experienced professional in Biosimilar Development. Lead teams in CMC, analytical development, quality control and drug product manufacturing.

### **Abstract: Quality Aspects of Biologics**

Biologic drugs are highly complex molecules produced by living cells through a multistep manufacturing process. The key characteristics of these molecules, known as critical quality attributes (CQAs), can vary based on post-translational modifications that occur in the cellular environment or during the manufacturing process and hence suitable and orthogonal QC tests are very essential.

## Dr Nilesh Deshmukh

**Profile:** Dr Nilesh Deshmukh is serving as Assistant Professor, Dept of Quality Assurance Techniques, at Poona College of Pharmacy, Pune. He has More than 3 years of Industrial experience in formulation development by Quality by design (QbD). He has completed M.Pharm in Quality Assurance & PhD in Quality by design at Poona college of Pharmacy, Pune.

### **Abstract: Applications of QbD software in formulation development**

The pharmaceutical Quality by Design (QbD) is a systematic approach to development that begins with predefined objectives and emphasizes product and process understanding and process control, based on sound science and quality risk management. The important components of product development by QbD are target product profile (TPP), target product quality profile (TPQP), design and development of product, developing the manufacturing process, identifying the CQA, assessment and management of the risks involved in the process, establishment of design space, and defining a control strategy for a product to stay within the design space. Demonstration of QbD software (STAT graphics centurion): Statgraphics Centurion is a statistical statistics package that performs and explains in plain language, both basic and highly advanced statistical functions. It is designed to serve those whose profession requires analysis of data for business intelligence, predictive analytics, Six Sigma and other sophisticated statistical protocols.

## **Dr. Chandir Ramani**

**Profile:** Dr. Chadir Ramani completed his M.Pharm from Nagpur University, Ph.D from Kakatiya University and LLB from Nagpur University. He has over 23 years of Industrial Pharmaceutical Development experience. Dr. Chandir Ramani has expertise in development of Conventional and Novel Drug Delivery for NCE and ANDA Generic formulations. He has worked in number reputed pharmaceutical companies like Suven Life Science Limited, Norbrook Laboratories Ltd, Cadila Pharmaceuticals, GSK, Sun Pharma. He is currently working as Head of Development and Operations at Althera Pharmaceuticals Limited, USA.

### **Abstract: Quality Aspects in product development of multi layered tablets**

Tablet manufacturing process generally includes dispensing of API and excipient, sieving/screening, size reduction, blending, granulation, compression, coating, packaging dispatch in market. Multilayer tablet is new era for the successful development of controlled release formulation along with various features to provide a way of successful drug delivery system. Conventional dosage forms produce wide ranging fluctuation in drug concentration in the blood stream and tissues with undesirable toxicity and poor efficiency. The primary objective of sustained release drug delivery is to ensure safety and to improve efficacy of drugs as well as patient compliance.

## **Dr. Satish Upadhyay**

**Profile:** Dr. Satish Upadhyay completed his education from Banaras Hindu University. He has over 27 years of experience in areas of formulation and process development. He has worked with reputed pharmaceutical companies like Sentiss Pharma, Mylan Laboratories Ltd, Dabur India. His work experience is related to ANDAs, NDAs, DESI and CE marked products. He is currently working as Senior Vice President at Mankind Research Centre.

### **Abstract: QMS- A pharmaceutical industry perspective**

ICH Q10 is a model for a pharmaceutical quality system that can be implemented throughout the different stages of a product lifecycle. Implementation of ICH Q10 throughout the product lifecycle should facilitate innovation and continual improvement and strengthen the link between pharmaceutical development and manufacturing activities. Different quality aspects applied by industry are Quality risk management, Quality by design, Corrective action and preventive actions, Six Sigma, Total quality management.

## Mr. Samiran Das

**Profile:** Mr. Samiran Das has completed BE in Mechanical from IIT, Delhi. He has over 30 years of experience in foods, beverages, chemicals & pharmaceutical sectors. He has worked at various reputed pharma companies like Dr Reddy's, PepsiCo India, D1-BP Fuel Crops India Limited, General Mills (India), Unilever, India. He has experience in sectors such as green-field and large-scale projects with technology transfers, assessing and executing sourcing network for global optimisation / competitive advantage, driving sustainable growth through 'Green' and 'Performance with Purpose' initiatives. Mr. Samiran Das is currently working as industry lead at Life Sciences Practice at Qwixpert Consulting, Gurgaon.

### **Abstract: Operational Excellence**

India is the largest provider of generic drugs globally. Indian pharmaceutical sector supplies over 50% of global demand for various vaccines, 40% of generic demand in the US and 25% of all medicine in the UK. India has an important position in the global pharmaceuticals sector. India manufactures 60 per cent of the world's vaccines and accounts for 60-80 per cent of the United Nations' annual vaccine procurement. Several Indian companies have also helped over the years to produce and distribute vaccines to the world. A shift towards patient-centric quality care, enhanced use of technology in delivering care, and higher share of India in medical tourism are some of the dominant trends which the Indian healthcare sector.

## **Ms. Ivy Louis**

**Profile:** Ms Ivy Louis is Founder at Vienni Training and Consulting LLP and Eduoriens Skill Development LLP, Bengaluru. She has completed M. Pharm from Bangalore University and MBA from Annamalai University. She has over 3 decades of work experience in pharmaceuticals operations like Quality Assurance, establishing service verticals for Aseptic processing of API and formulations. Proficient in manufacturing and quality operations. Specialities includes Crucial understanding of regulatory requirements for nonsterile & sterile API's, drug substance, drug product manufacturing, documentation.

### **Abstract: Aseptic processing and sterility assurance**

Aseptic processing is a processing technique wherein commercially pharmaceutical products are packaged into previously sterilized containers under sterile conditions to produce shelf-stable products that do not need refrigeration. To ensure commercial sterility, aseptic processing facilities are required to maintain proper documentation of production operations, showing that commercially sterile conditions were achieved and maintained in all areas of the facility. Sterility assurance is paramount for the provision of a safe product to the end user. The sterility test is mandatory for all sterile medicinal products and remains an important criterion for product release by demonstrating that the finished product is sterile, i.e. entirely free from living organisms of all types. Sterility Assurance is key, and represents the sum of many contributing aspects that provide a high level of confidence that microbial and pyrogen contamination has been excluded in the final drug product.

## Mr. Gopal Joshi

**Profile:** Mr Joshi is serving as Senior Vice President, CQA Troikaa Pharmaceuticals, Ahmedabad. He completed M. Pharm in Medicinal Chemistry from Dr. Hari Sigh Gour University. He has 25+years of experience in Quality and production operations including implementation of Corporate Policy at plant. His Previous assignment include VP Quality- at Torrent Pharmaceuticals Ltd., General Manager-Central QA at Torrent Pharmaceutical Ltd., J. B. Chemicals and Pharmaceutical Limited, Manager-QMS and R&D QA at Dr. Reddy's Laboratories Ltd, Assistant Manager at GSK Ltd. He Successfully faced audit by regulatory agencies like US FDA, EU, ANVISA, PICS & ROW. Area of Expertise: Technology transfer, Production planning and control system, QMS, Utility service qualification. Exposure to various dosage forms Solid dosage forms, Semi-solid dosage forms, Oral liquids, Topical lotions, and Parenteral preparation.

### **Abstract: GMP expectations in Quality Culture**

Validation is an essential part of GMP. It is an element of the quality assurance programme associated with a particular product or process. It is by design and validation that a manufacturer can establish confidence that the manufactured products will consistently meet their product specifications. There are two basic approaches to validation — one based on evidence obtained through testing (prospective and concurrent validation), and one based on the analysis of accumulated (historical) data (retrospective validation). GMP makes sure that a company follows a set of rules and regulations, producing something that meets all the necessary quality requirements. GMP also controls the quality of food, diagnostics, ingredients in drugs and food, pharmaceutical products and devices used in medicine. GMP must meet to assure that the products are of high quality and do not pose any risk to the consumer or public.

## Dr. Urmila Aswar

**Profile:** Dr. Urmila Aswar serving as Associate professor, Department of Pharmacology Poona College of Pharmacy. He completed M. Pharm, PhD in pharmaceutical science with specialization in pharmacology from pharmaceutical science, Nagpur and BVU's Poona college of Pharmacy. Her previous assignments include Associate Professor, NIPER, Guwahati, Sinhgad Institute of Pharmacy, Pune, Asst Manager, Scientific affairs, Indus Biotech Pvt Ltd. Research area includes Central Nervous System: Antimigraine, Antiparkinsonian, Anxiolytics, Cardiovascular-Antihypertensive, Cardiomyopathy, Cardioprotective; Antidiabetics and diabetic complications; Sport Physiology- Anabolic and androgenic; Male and female reproductive system.

### **Abstract: Application of Graph pad software**

The null hypothesis can be tested using statistical analysis and is often written as  $H_0$ . Researchers use a significance test to determine the likelihood that the results supporting the  $H_0$  are not due to chance. Hypothesis testing is used to assess the plausibility of a hypothesis by using sample data. The test provides evidence concerning the plausibility of the hypothesis, given the data. Statistical analysts test a hypothesis by measuring and examining a random sample of the population being analyzed.

## Mr. Sameer Agarwal

**Profile:** Mr Agarwal is serving as CEO & Managing Partner at CSA Healthcare GmbH, Germany. His previous assignments include Ranbaxy Labs Limited, Dabur Pharma (Thailand) Co., Ltd, Fresenius Kabi Asia Pacific Ltd., Sintetica SA. He completed his M. Pharm from Banaras Hindu University, Varanasi and MBA from Indira Gandhi National Open University, New Delhi. His area of interest includes strategy formulation & implementation, new market development, portfolio management, business planning & launches. His experience includes in leading organizations in pharmaceuticals & biologicals: oncology, biosimilars, critical care, anti-infectives, anaesthesia & pain management. Also experienced in medical devices, herbal healthcare products, and active pharma ingredients.

### **Abstract: Business strategy, portfolio management and quality aspects**

It is important to understand the way people comprehend, communicate and make decisions across different types of cross-cultural backgrounds. Although it may be difficult to interpret certain statements and behaviors, there must be a significant emphasis placed on the concept of acceptance and open mindedness. Alongside establishing effective communication within the workplace, expressing interest in aspects of an employee's life outside of the office can create a strong relationship. Target's strategy is to offer an assortment that is tailored to this group's needs, at low price, and differentiated and augmented by a broad selection of private label goods, especially in the discretionary apparel and home categories. Portfolio management minimizes the risks involved in investing and also increases the chance of making profits. Portfolio managers understand the client's financial needs and suggest the best and unique investment policy for them with minimum risks involved.

## Mr. Manish Bhatkar

**Profile:** Mr. Manish Bhatkar completed his M. Pharm (pharmacology) from Nagpur University. He is Founder & CEO in RedLotus Pharmtech Private Limited, Mumbai. He has worked in number of pharmaceutical companies such as Dr. Reddy's Laboratories Ltd, Zydus Cadila, Lupin Limited, Fresenius Kabi Oncology Ltd (Formerly Dabur Pharma Ltd), Ranbaxy Laboratories Ltd. Pharmaceutical Manufacturing and Quality Assurance, Pharmaceutical Product and Process Development, Pharmaceutical Projects and Technology Transfers, Technical Consulting (Pharmaceutical Facilities, Validation & GMP Compliance Projects), Conducting and handling GMP and Quality Systems Audit are areas of his expertise.

### **Abstract: Quality aspects in process development**

ICH Q8 guideline is related to Pharmaceutical Process Development. Pharmaceutical development is the identification and evaluation of processes need to convert an active pharmaceutical ingredient into a drug product suitable for its intended purpose. QbD approach in process development helps to improve the quality of product, to minimise risk related to product. QTPP, CQA's, Control strategy and Design Space are the elements of QbD. The information and knowledge gained from pharmaceutical development studies and manufacturing experience provide scientific understanding to support the establishment of the design space, specifications, and manufacturing controls. Lifecycle consider all phases in the life of a product from the initial development through marketing until the product's discontinuation (ICH Q8).

## **Dr Ramkumar Dubey**

**Profile:** Dr. Ramkumar Dubey completed M. Pharm (Quality Assurance Techniques) at Poona College of Pharmacy and PhD in Pharmaceutical Science at Birla Institute of Technology. He is currently working as Assistant Manager (Global Drug Regulatory Affairs) at Laurus Labs Limited. He has more than 6 years of industrial experience in industries such as Laurus Labs Limited, SUN PHARMA, Centaur Pharma. Global drug regulatory affairs and formulation and analytical R&D, Implementation and documentations of CMC regulatory strategy are areas of his expertise. He has more than 10 research publications. He is a Coauthor of the Book “Current Good Manufacturing Practices for Pharmaceuticals”.

### **Abstract: How to Develop Pharma Students for Global Competence Within the Academic Capacity**

Soft skills are important to develop pharma students for Global competence. Road map is required from drug discovery to customers. Academic and Industrial collaboration is required to improve research work. Time, money and success rate are important parameters consider in drug development. ICH quality modules are considered to develop pharma industry. Indian Pharma Industry is mainly involved in developing and manufacturing of generic products.

## **Ms. Bharti Khanna**

**Profile:** Ms Bharati Khanna completed her M. Pharm from DIPSAR, Delhi and MBA in marketing from institute of marketing & management. Currently she is working as Director of Amarant Lifesciences Pvt. Ltd, New Delhi. She has more than 25 years of experience in R&D, Global regulatory affairs, GMP & Compliance, Project Management and Pharma Manufacturing Functions. She has work in Women's Indian chamber of commerce and industry, Anregen Healthcare Pvt.Ltd, Pharmalex. Her areas of expertise are Research and Development Operations, Global Regulatory Affairs, Gap analysis, Project Management, Compliance, Life-cycle Management, Technical audits, Audits, e Audits, Change control Management.

### **Abstract: Change Control Management**

Change control is a systematic approach to managing all changes made to a product or system. The purpose is to ensure that no unnecessary changes are made, that all changes are documented, that services are not unnecessarily disrupted and that resources are used efficiently. Change control within Quality management system (QMS) is a process either formal or informal used to ensure that changes to a product or system are introduced in a controlled and coordinated manner. The goals of a change control procedure usually include minimal disruption to services, reduction in back-out activities, and cost-effective utilization of resources involved in implementing change. Change control is describe in six steps such as – Plan / Scope, Assess / Analyse, Review / Approval, Build / Test, Implement, Close. Regulatory approval is required for change control.

## Dr Ravindra Purohit

**Profile:** Dr. Ravindra Purohit completed his M. Pharm. from Nagpur University and his Ph.D. from Amravati university. He is Founder and Director of RN Pharma Consultancy and Director of Vamsi Pharma Private Limited. First among the few scientist from India to have filed Nasal spray products and get product registration in USA. He has over 30 years of working experience in Pharmaceutical Industry and academics. He has worked in a no. of reputed pharmaceutical companies like Lupin Ltd., Cadila Healthcare Ltd., (Zydus group), Micro Labs Ltd., Midas Care Pharmaceuticals Ltd, in India. ### **Abstract: Industry -Academic Liaising**

By exploring the current challenges facing both *industry* and *academia*, and the potential advantages to both as a result of collaboration for new research work. For new product and NCE development available options to industries are either invest millions of money and lot of time to develop new product and take a risk of failure or financial losses or Develop the proof of concept at academic institutes at very low costs and take a further development to industry. India dominates the generic drug market, it accounts for 20 per cent of global exports in terms of volume, making the country the largest provider of generic medicines globally. Based on paragraph IV Indian pharmaceutical companies develop generic products. Teachers plays important role in industry-academic liasing. Lack of patience is one of the main reasons behind the demoralization. There are various opportunities to academic institutes to work with pharma industry but primary need is trying to fulfil expectations of industries by academic institutes.

### **Abstract: Patents and IP in research**

Intellectual property rights (IPR) can be interpreted as a cluster of legally recognized rights that are associated with creations of the mind which includes inventions, literary, artistic works, symbols, names, images, and designs used in commerce. All forms of Intellectual Property Rights (IPR) are important to technology companies. Products risk being devalued, commoditized, or even directly copied without ongoing technical innovation and the strategic protection of that innovation with IPR. Patent includes Patentable and Non-patentable work. The key to sustainable competitive advantage is through consistent and proactive use of innovation and associated IPR for business advantage over a long period of time. Novelty, Non-obviousness and Industrial applicability are conditions for Patentability. Industrial Patent, Utility Patent and Plant Patent are main three types of patent.

### **Abstract: Supply Chain Management**

Supply chain management (SCM) in the pharmaceutical industry can transform the organization to make better use of assets and resources, to generate profits, to enhance shareholder value, and to positively respond to customer demand. Supply chain is a set of processes, information, and resources which transfers raw materials, and components to finished products or services and delivers them to the customers. Supply chain design involves Efficient supply chain and Responsive supply chain. Supply chain strategies Effectiveness and Efficiencies, Balancing between efficiency and effectiveness of product. Reverse logistics is the set of activities that is conducted after the sale of a product to recapture value and end the product's lifecycle, involves returning a product to the manufacturer or distributor or forwarding it on for servicing, refurbishment or recycling.

## **Dr. Ajay Namdeo**

**Profile:** Dr. Ajay Namdeo has completed M. Pharm (Pharmacognosy) from Dr. Hari Singh Gour University, Sagar. PhD on Bioreactor management from Devi Ahilya University, Indore. MBA marketing and M.Sc. in Total Quality Management (TQM). Currently working as Associate Professor, Dept of Pharmacognosy, Poona college of Pharmacy. He has more than a decade of experience in teaching. Medicinal Plant Biotechnology is the core areas of his research having 37 Internationals publications and 30 National Publications. Having authored a reference book on "Medicinal Plant Biotechnology" and three book chapter and contributed in Monograph in American Herbal Pharmacopoeia.

### **Abstract: ISO 9001 Certification for Academic Institutes**

Colleges and Educational Institutes need ISO Certification in accordance with ISO 9001:2008 necessities. Management system involves what the organization does to manage its processes or activities in order that its product or services meets organizations objectives such as satisfying learners' requirements, balancing requirements from other stockholders, complying to regulations and meeting educational activities. ISO 9001 focus on Customer Satisfaction whereas ISO 21001 focus on satisfaction of learners and other beneficiaries such as government, labor market and guardians. Context of organization, Planning, Leadership, Sources and Performance evaluation are requirements of ISO 21001.

## Dr. Vinod L. Gaikwad

**Profile:** Dr. Vinod L. Gaikwad has completed M. Pharm (Pharmaceutics) & PhD (Pharmaceutical Sciences) on computer aided formulation development from Bharati Vidyapeeth College of Pharmacy, Kolhapur. He has 12 years of experience in research and academics. Computer Aided Formulation Development, Quantitative Structure Property, QbD and DOE, Formulation Development, Novel Drug Delivery Systems, Nanotechnology, Particle Engineering and Solubility Enhancement Techniques, Regulatory Affairs, Patents are core areas of his research. He has 2 Patents, 30 research Publications in national/international journals, 1 book and 2 chapters (Elsevier, Bentham Science).

### **Abstract: Computational Modelling for desired formulation quality attributes**

Computational tools are widely used in formulation design. Computational design also aids the selection of excipient, conduction of preliminary studies, in the design of various formulations, prediction of toxicity, stability and in vivo performance of formulations. QSAR, QSPR, Molecular dynamics and modelling, FEM, DEM, CFD and PBPK all are computational tools. Computational modelling involves various advantages and disadvantages. Software available for QSAR and QSPR are VEGA Platform, Chemoinformatic, TerraQSAR, DEMETRA.

## **Dr. Pralhad Wangikar**

**Profile:** He is the founder, PRADO Preclinical Research And Development Organization, Pune. He had recipient of merit scholarship during UG and PG and IVRI-SRF during doctoral studies. He has 1 patent, 2 book chapter and 15 research articles. He receives the best thesis award for 2003- 2004 (UPCAR) and also receives the Young Scientist Award: Symposium and XIX annual conference of IAVP 2002.

### **Abstract: Quality Management System in Quality Research Management**

What is quality? And their types. What is the contract and how to do the contract research management? There are different criteria for the selection of the contract research. QMS is important in every area. QMS in research criteria. Product realization and data management. For QMS resource management is important.

## **Mr. Vikram Shukla**

**Profile:** Mr Shukla is Vice President at Pfizer, Vishakhapatnam. He has MSc (Micro), gold medalist from Haffkins Institute. 15+ years of experience in the pharma industry. He has done more than 50 regulatory inspections such as USFDA and MHRA. He is on Board of Directors for PDA Inc. (Parental Drug Association) Indian Chapter.

### **Abstract: Quality Aspects of Inspection**

The talk highlighted India drug Industry. There are some drug shortages due to quality issues which affects the drug industry. History of aseptic manufacturing in that non- destructive sterility testing, bioluminance. Industrial trend in evaluation of candidates.

## Mr. M Gopi Reddy

**Profile:** Mr Reddy is Head – corporate quality, Syngene international ltd., Bangalore. He completed his M. Phram (Pharmaceutical Chemistry) and MBA from Nagpur University. He has overall 25+ experience in managing quality operations and faced various regulatory operations like USFDA, MHR, MCC etc. His specialty as quality head played an industrial role in handling various green field project from up to commercialization. Proven track record of facing various regulatory audits.

### Program Snapshot:

## **SUMMARY**

The most pragmatic interpretation of quality would be something being suitable for its intended purpose, thus satisfying customer expectations. The 21st century demands value addition and value creation in all aspects, thus making quality not a one-time job; but a continuous improvement process.

With respect to academics, quality involves attributes of the teaching learning process, quality of academic research in terms of authenticity of data and its alignment with industry and market needs. In the industry quality management involves not just the quality of pharmaceutical products, but also aspects of product life cycle management, risk management and implementation of current good practices to all operations.

The aim of this QIP is to explore and understand aspects of quality in both; academic as well as industry set ups. This program gave an opportunity to participants to learn facets such as quality in teaching methodologies, quality in research, quality in publications and the like. From the industry perspective, quality of aspects of specialty pharmaceuticals, continuous improvement, risk management and regulatory compliance will be discussed. The program has thus helped to widen the horizons of pharmacy teachers with respect to quality and its implications in academic as well as industry settings.

## Bharati Vidyapeeth (Deemed to be University), Pune

Date: June 12, 2020

**Subject:** Microsoft Teams training at Rajiv Gandhi Institute of IT and BT, Pune (scheduled on June 15-17, 2020)

Dear Sir/Madam,

Some constituent units are already using Microsoft Teams to conduct online sessions. University has designed a framework around the same to support other related teaching-learning activities along with online sessions. Through it individual institutes can setup a hierarchical access control (Director, Class Coordinators, Subject Teachers and Students) on communications conducted through Microsoft Teams. Management of Teams and members also can be simplified as institute has to manage and students has to access only one Team per class.

Requirements of online study material, online session, access to recorded session, access to supportive e-resources, online test, online submission of assignments, online query solving and academic feedback can be class-wise managed through this framework.

Teachers from Rajiv Gandhi Institute of IT and BT, Pune has successfully setup the system for their institute on their own following the framework guidelines.

A demonstration and training about the same is arranged at Rajiv Gandhi Institute of IT and BT, Pune for all constituent units from Dhankawadi and Kothrud Campus as per following schedule.

| Date                          | Time                   | Constituent Unit                                                                                                                                                                                                                |

You should depute your representatives (minimum two) for the same. They will be trained on the framework and provided practical training to setup similar system in their respective institutes.

Detailed training resources about Microsoft Teams are provided by Microsoft. Participants can access them using their “@bharativedyapeeth.edu” e-mail ID as per the following:

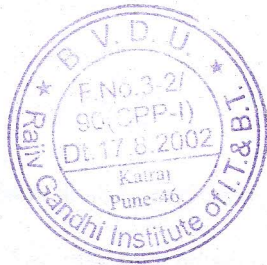

- Login to Microsoft Office 365 using “@bharativedyapeeth.edu” e-mail ID.
- Click on “Teams” icon to open “Microsoft Teams”.
- Click on “Help” icon and then “Training” menu to access the training resources.

These resources will help the participants to come prepared for the training.

### About the FDP

Innovative approaches in management helps an organization grasp an opportunity and use it to create and introduce new ideas, processes, or products industriously. Creativity is the basis of innovation management; it gives companies an edge in penetrating markets faster and provides a better connection to developing markets, which can lead to bigger opportunities, Innovation management includes a set of tools that allow managers to cooperate with a common understanding of processes and goals. This faculty development programme is an organizational management activity that is used to set priorities, focus energy and resources, strengthen operations, ensure that employees and other stakeholders are working toward common goals, such as communication between industry and institution to assess and adjust the organization's

#### **FDP report on “Internet of Things for Futuristic Smart Systems”**

Department of Electronics and Telecommunications of Bharati Vidyapeeth(Deemed to be University) College of Engineering-Pune had organized 1 Week faculty development program on“Internet of Things for Futuristic Smart Systems” during 17<sup>th</sup> May 2021 to 21<sup>st</sup> May 2021. Keeping in mind the ongoing pandemic and large number of registered participants (1328) from all across India, mode of conduction of this FDP was online through Microsoft Teams.

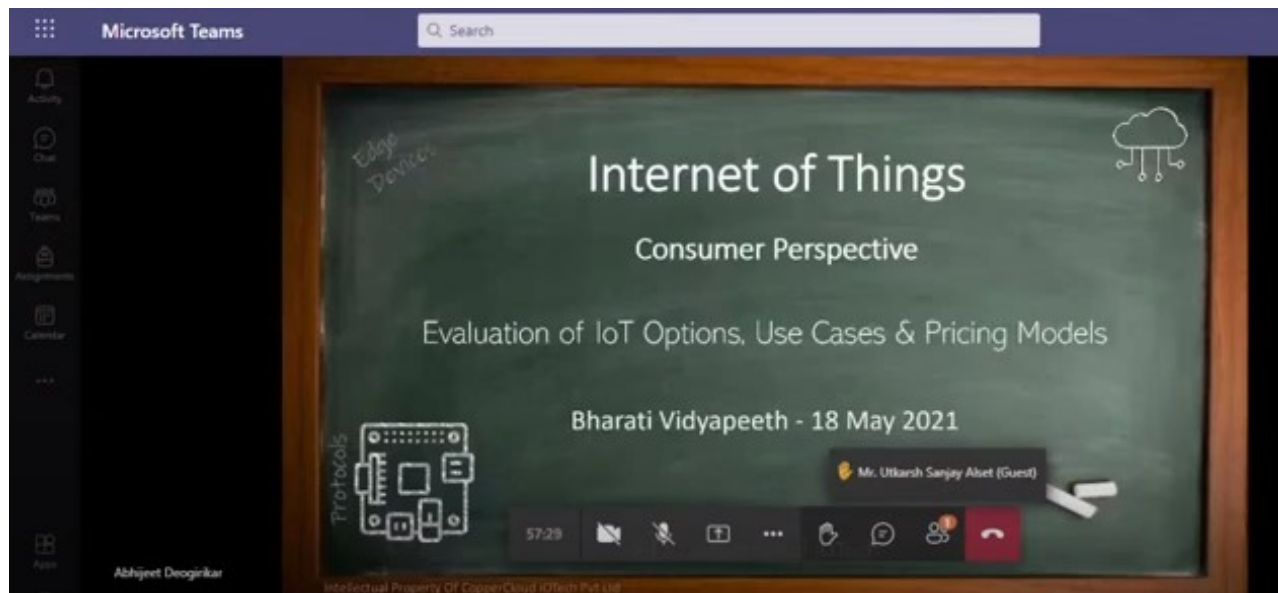

The Internet of Things (IoT) has evolved from the convergence of wireless technologies, and the Internet, by connecting “things” in the real world such as home appliances, industrial equipment, surveillance cameras, monitoring sensors, and actuators. This FDP aims to make the participants realize the importance of IoT and its applications in various fields as well as to demonstrate some demo projects on specific applications. This course also gave an introduction to IoT, so that participants can learn to build their own IoT products for various applications, and it also enabled them to convert their product ideas into a working prototype. The IoT will foster the development of a number of applications that make use of the potentially enormous amount and variety of data generated by such objects to provide new services to citizens, companies, and public administration. As this FDP targets any enthusiast the essential data however in deep like “what is IoT?”, the scope, benefits, and effects of IoT on numerous digital technology and devices. Many of our participants confirmed through their feedback that lectures in the areas created interest among the faculty members to pursue research which will lead to new market opportunities for communication, healthcare, energy, lighting and agriculture.

Following are details of day-wise sessions conducted by experts in the field.

## **About the Department**

The Department of Mechanical Engineering was established in 1987 and is offering B. Tech. in Mechanical Engineering and M. Tech. in CAD/CAM. The department has qualified and experienced staff and well-equipped laboratories with the state-of-the-art facilities. The UG B. Tech. programme of the department got accredited in 2004 and reaccredited in year 2011 by NBA. Students of the department have added value to the department by getting placed in reputed core and software companies and by excelling in competitive examinations.

## **About the FDP**

Energy is one of the basic needs of all living organisms to stay alive. Human being gets energy from various renewable and non-renewable resources. Most commonly, energy from resources is converted into thermal energy and it is converted into electric energy. Energy from some non-conventional resources is directly converted into electric energy.

Due to limited availability of the conventional energy resources, research is being carried out to reduce their consumption by developing new technologies or by modifying existing technologies.

Also, efforts are being made to develop new techniques of extraction of energy from conventional as well as non-conventional resources. In this FDP, the resource people from institutes of national importance and from industries will share their views on various energy technologies.

Dear Sir,

Greetings from Bharati Vidyapeeth (Deemed to Be University) College of Engineering, Pune. We, in the department of Mechanical Engineering are in process of organizing a six days FDP on "Research on Energy Technologies" for faculty members working in the area, researchers and the professionals on 6th to 11th July, 2020 at our campus in Pune, Maharashtra through online mode.

We request you to accept our invitation and give your valuable guidance in one or more of the following topics:

1. Renewable energy technologies
2. Biomass to Energy Conversion
3. Future of IC Engines
4. Recent Advancements in Steam Generators
5. Waste to energy conversion
6. Analysis of Energy Systems using CFD technique
7. Energy Storage Techniques
8. Energy Economics
9. Any topic related to applied thermodynamics

(Along with theory, discussion on case studies and related research work will be welcome)  
There will be total twelve sessions in all each session of two hrs. We are going to conduct the FDP only on online mode. **It will be a great opportunity for us if you make yourself available for all six days.**

Kindly reply the mail positively so that accordingly we shall plan the activities.

Thanks & Regards,

Dear Sir,

Greeting from Dr. D. G. Kumbhar!!!

First of all I would like to thank you for enlightening us during the Faculty Development program on "Research In Energy Technologies" by your excellent talk on "Sustainable cooling"  
You shared thoughts and experiences in the field of sustainable cooling with its historical bag round very nicely. And how the air conditioning systems are invented and how the modifications are done with some actual practical examples.

Also explored us with some theoretical and practical thermodynamic cycles, variable speed air conditioning, variable refrigerant flow systems, multi indoor air conditioners, and modern thermal system etc...

Overall the session was very informative and interactive.

With Thanks and Regards.....

Subject: RE: Thank you for being resource person for FDP on Research in Energy Technologies on " Sustainable cooling .."

Dear Dr. Kumbhar,

It was a pleasure to contribute. Thanks for the opportunity.

Best wishes,

**“Research in Energy Technologies”**

**Topic: Electric Vehicle Technology –trends, Research & Skill Development**

Speaker : Dr. K. C. Vora, Sr. Dy. Director & Head, ARAI Academy

Date: 06/07/2020 **Session-I** Time: 10:00 pm to 12:00 pm

Dr. K. C. Vora given excellent talk on “Sustainable Cooling” during the Faculty Development program on “Electric Vehicle Technology –trends, Research & Skill Development”.

HE shared thoughts and experiences in the field of Electric vehicles technology its trend and research in EV.

These vehicles are having fewer parts hence should be cheaper in comparison with IC engine vehicles but right now cost is high because production is less. Also explored different components of EV and their working. You focused on Government policies to increase the use of Electric vehicles. About standards and regulation of electric vehicles he told us during this session. At the end he discussed the current research trends in the field of electric vehicles

**Topic: Rural Energy System- Design and Analysis**

Speaker: Dr. M. R. Ravi, Professor, IIT, Delhi

Date: 06/07/2020 **Session-II** Time: 2:00 pm to 4:00 pm

Second session was delivered by Dr. M. R. Ravi. He enlightening us during the Faculty Development program on “*Research In Energy Technologies*” by your excellent talk on Energy efficient alternatives for rural industrial system.....

He shared thoughts and experiences in the field of efficient alternatives to Rural industrial systems. And explored us about conversion of biomass to biogas. He also explained about combustion technology and gasification technology as well. He showed the practical example of bangle making and how to improve the working environment in such a small industry. Then he focused on design of efficient furnace and design of efficient kiln. Overall the session was very informative and interactive.

## **Topic: Sustainable Cooling**

Speaker : Dr. Sanjiv Jain, Professor, IIT, Delhi

Date: 07/07/2020      **Session-III**      Time: 10:00 pm to 12:00 pm

Dr. Sanjiv Jain given excellent talk on “Sustainable Cooling” during the Faculty Development program on “Research In Energy Technologies”.

He shared thoughts and experiences in the field of sustainable cooling with some practical examples.

He also explored about cooling demand growth, key technology drivers, helix of sustainability and nature cycle. Then focused on sustainability of refrigerants, emerging refrigerants and how to select the refrigerant for particular application. He nicely explained about energy system analysis, sustainability paradigm, and NITY Ayog of Government of India.

At the end he told about solar cooling/heating, thermal storage, desiccant cooling systems with some practical examples it was really appreciable. He conclude the session with exploring areas of research in this field.

## **Topic: Waste Heat Recovery System**

Speaker: Dr. P. R. Dhamngaonkar, Associate Professor, COEP, Pune

Date: 07/07/2020      **Session-IV**      Time: 02:00 pm to 04:00 pm

Dr. P. R. Dhamngaonkar given excellent talk on “Sustainable Cooling” during the Faculty Development program on “Waste Heat Recovery System”.

He shared thoughts and experiences in the field of waste heat recovery systems with some practical examples. Also explored the benefits of waste heat recovery, factors affecting etc. He focused on low temperature heat recovery systems, thermoelectric generator, piezoelectric generators with construction and their working. He also focused Construction of Absorption chillers, regenerators, and thermo compressors during this session. At the end he discussed the current research trends in the field waste heat recovery and about different projects you did at COEP.

**Topic: Alternative fuels in and Recent Technology IC engines**

Speaker : Mr. S. S. Thipse, ARAI Pune, India

Date: 08/07/2020                      **Session-V**      Time: 10:00 pm to 12:00 pm

Mr. S. S. Thipse enlightening during the Faculty Development program on “Research In Energy Technologies” by excellent talk on “Alternative fuels and Recent Technology in IC engines”

He shared thoughts and experiences in the field of IC engines with some practical examples.

He also explored the types of alternative fuels their advantages, disadvantages, and utilization etc. He also focused on Bio CNG, Ethanol blend fuels, and about ethanol production. Then overview of Biodiesel technology, need of bio diesel liquification of natural gas and dual fuel combustion technology. In second session he explained us about compressed natural gas fuel kit systems and engine combustion.

**Topic: Boiler Efficiency Assessment- An Industrial perspective**

Speaker : Mr. Abhijeet Deshpande, Principal Lead (R & D) Forbes Marshall, Pune

Date: 08/07/2020                      **Session-VI**      Time: 2:00 pm to 4:00 pm

Mr. Abhijeet Deshpande enlightening us during the Faculty Development program on “Research In Energy Technologies” by excellent talk on “Boiler efficiency Assessment”

He explored about need of boiler efficiency monitoring and before that he started with basic of heat transfer i.e. pool boiling curve. Then he focused on boiler efficiency calculation methods and also about causes of poor boiler performance. Nicely he explained about boiler loading pattern and how loading is affecting performance of boiler. He showed actual calculations about how to calculate boiler performance which seems be very interactive.

At the end he told about role of excess air and how to recover losses in boiler plant. He conclude the session with exploring areas of research in this field.

**Topic: Sustainable approach to comfort**

Speaker :Dr. Bhupinder Godara, Professor of Practice, IIT Delhi

Date: 09/07/2020

**Session-VII**

Time: 10:00 pm to 12:00 pm

Dr. Bhupinder Godara shared thoughts and experiences in the field of sustainable cooling with its historical background very nicely. And how the air conditioning systems are invented and how the modifications are done with some actual practical examples.

He also explored some theoretical and practical thermodynamic cycles, variable speed air conditioning, variable refrigerant flow systems, multi indoor air conditioners, and modern thermal system etc.

**Topic: Energy storage Technology**

Speaker : Dr. Devanuri Jaya Krishna, Assistant Professor, NIT, Warangal

Date: 09/07/2020

**Session-VIII**

Time: 02:00 pm to 04:00 pm

Dr. Devanuri Jaya Krishna enlightening us during the Faculty Development program on “Research In Energy Technologies” by excellent talk on “Energy storage Technology”

He explored about need of solar energy storage, need of renewable energy storage and reviewed the installed capacities of renewable energy in India.

Then he focused on sensible heat storage, latent heat storage and phase change materials with their examples and applications. Very nicely focused on different applications of PHM and their production processes. He conclude the session with exploring areas of research in this field.

**Topic: Renewable Energy Application, Scope for Research and Entrepreneurship**

Speaker : Dr. G. N. Kulkarni, Principal (RD), Government College, Chandrapur

Date: 10/07/2020

**Session-IX**

Time: 10:00 pm to 12:00 pm

Dr. G. N. Kulkarni enlightening us during the Faculty Development program on "Research In Energy Technologies" by excellent talk on "Energy storage Technology"

He shared thoughts and experiences in the field of solar energy with some practical examples. Also explored the types of renewable energy sources and hybridizations of different energy sources. He also elaborate classification of wind machines. He also gives brief information about Solar photo voltaic its potential and challenges. Very nicely he explained various UG, PG and PhD projects during their presentation.

**Topic: Energy integration of thermal system: Pinch analysis approach**

Speaker : Dr. Bade Mukund H., Assistant Professor, SVNIT, Surat

Date: 10/07/2020

**Session-X**

Time: 02:00 pm to 04:00 pm

Dr. Bade Mukund enlightening us during the Faculty Development program on "*Research In Energy Technologies*" by excellent talk on "Energy analysis of thermal systems –Pinch analysis approach"

He explored about need of energy interaction of thermal systems. He also explains about thermal analysis using theoretical and analytical Pinch analysis approach with actual case studies. He have given actual practical examples of thermal oil based cooling systems very nicely. At the end of session he told mathematical model of such systems and concluded the session with exploring areas of research in this field.

**Topic: Wind energy Technologies**

Speaker :Mr. M. K. Boopati, Director, NIWE, Chennai

Date: 11/07/2020                      **Session- XI**      Time: 10:00 am to 12:00 pm

The eleventh session of the FDP was delivered by Mr. M. K. Boopati. He enlightening us during the Faculty Development program on "*Research In Energy Technologies*" by your excellent talk on "Wind energy Technologies"

He shared thoughts and experiences in the field of Wind energy with some practical examples. Also explored the types of different renewable energy sources and classification of wind machines. Then about wind resource, global wind system and wind potential in India. He also explained instruments used for measurement, all components of wind turbine and different types of turbines. At the end of session he told about different research areas in wind energy sector.

**Topic: Analysis of Natural convection based energy systems**

Speaker :Dr. Sanjeetkohli, Professor, IIT, Delhi

Date: 11/07/2020 **Session- XII**                      Time: 2:00 pm to 4:00 pm

Last Session of the FDP was delivered by Dr. Sanjeetkohli. She is enlighten US during the Faculty Development program on "Research In Energy Technologies" by her excellent talk on "Analysis of Natural convection based energy systems"

She shared thoughts and experiences in the field of natural convection with some practical examples. Then initially she told us the fundamental things of natural convection and how it is applied for small systems. She also enlightened us with chimney pattern in case of natural convection. Very nicely she explained Archimedes principle and how to apply it for small systems. Overall the session was very informative and interactive.

**Ground thermal storage**

The diagram shows a house with a well. Below the ground surface, there are two cross-sections labeled 'Summer' and 'Winter'. In the 'Summer' section, blue arrows indicate water being pumped down into the ground. In the 'Winter' section, red arrows indicate water being pumped up from the ground. The ground is shown with a color gradient from blue (cooler) to red (warmer).

**Steam accumulators**

- To accept steam when demand is low
- To release steam when the demand is greater than the ability
- To meet peak load demands

The diagram shows a vertical cylindrical tank. On the left, a pipe labeled 'Steam feed' enters the tank. On the right, a pipe labeled 'Steam Dis-charge' exits. The tank is partially filled with a dark liquid, and there is a small amount of steam at the top. The tank is shown in a cross-section with hatching to indicate depth.

**Sample Equations**

- ▶ Modified Bernoulli equation:
 
$$P_1 = P_{o1} - k_1 \rho_o V_1^2 / 2$$
- ▶ Pressure equation in CV 5:
 
$$P_6 = P_5 - k_6 \rho_5 V_5^2 / 2$$
- ▶ Energy Balance in CV 3:
 
$$\rho_3 V_4 A_4 C_p T_4 = \rho_2 V_3 A_3 C_p T_3 - h_{conv,ad} (T_3 - T_{pot})$$
- ▶ Mass conservation in CV 3:
 
$$\rho_{o3} V_4 A_4 = \rho_{o2} V_3 A_3$$
- ▶ These can be solved iteratively by using the following method:  
Assume  $V_1$ , solve to get  $P_7$ , match with known value of  $P_7$ ,

## **About AICTE's ATAL Programme :**

AICTE Training And Learning (ATAL) Programme is an initiative by AICTE which aims at empowering faculty to achieve goals of Higher Education such as access, equity and quality. This programme is designed to fulfil the need to train the young generation in skill sector and having faculty & technicians to be trained in their respective disciplines. It was felt that Training with latest tools and technologies is vital to keeping an institute competitive and more productive. Training is required for increasing the knowledge and skills of students to make them more employable to acquire global competencies. It also transforms them to harmonize with society and most importantly to make them a good citizen of the country.

## **Objective of ATAL Academy:**

- To set up an Academy which will plan and help in imparting quality technical education in the country
- To support technical institutions in fostering research, innovation and entrepreneurship through training
- To stress upon empowering technical teachers & technicians using Information & Communication Technology
- To utilize SWAYAM platform and other resource for the delivery of trainings.
- To provide a variety of opportunities for training and exchange of experiences. Such as workshops, Orientations, learning communities, peer mentoring and other faculty development programs.
- To support policy makers for incorporating training as per requirements

## **Bharati Vidyapeeth(Deemed to be University), Pune**

Bharati Vidyapeeth (Deemed to be University) Pune , the parent body of Bharati Vidyapeeth was established by Dr. Patangrao Kadam on 10<sup>th</sup> May 1964 with the mission of 'Social transformation through dynamic education'. The University started functioning on 26<sup>th</sup> April 1996 and has earned reputation of being one of the top universities in India. 'A+' Accreditation (Third Cycle) by 'NAAC' in 2017, Category-I Deemed to be University Grade by UGC. 63<sup>rd</sup> Rank among Universities by NIRF-2020, 'A' Grade by Ministry of HRD, Government of India, Accredited & Re-Accredited With 'A' Grade by 'NAAC' in 2004 & 2011, Among Top 10 Universities preferred by Overseas Students, Member of Association of Indian Universities (AIU) & Association of Commonwealth Universities (ACU), All professional programmes are approved by respective Statutory Councils, 29 Constituent Units spread over 8 Campuses, 12 Faculties offering 324 Programmes, 23000+ Students & 1600+ Teachers and Students from almost all the states in India & from 48 countries.

## **BV(DU) College of Engineering, Pune**

The college is a constituent unit of Bharati Vidyapeeth (Deemed to be University) Pune and was established in the year 1983. It is one of the oldest colleges having highest intake capacity in the state of Maharashtra. The college has made all round progress and has now acclaimed as one of the best engineering colleges in India. The National Board of Accreditation (NBA) has accredited programmes of BVUCOEP in 2018, 2012 and 2005. In the survey conducted by National Institute of Ranking Framework (NIRF), MHRD, GOI, the college has ranked among top 100 Engineering Institutes of India continuously for five years. The college has ranked to 99<sup>th</sup> position at National Level by NIRF in 2020. Ranked 46<sup>th</sup> at National level and 8<sup>th</sup> in West Zone by AICTE -Internshala. In survey conducted by DataQuest and CMR on India's leading Technical Schools and colleges, the college has received 3<sup>rd</sup> Ranking among all Private T- schools of India. Further, the college has been ranked to the 17<sup>th</sup> position by Times of India & 46<sup>th</sup> position by Outlook. The college has also selected under Technical Education Quality Improvement Program, Phase II (TEQIP II) by Ministry of Human Resources Development (MHRD), Government of India, supported by World Bank for the grant of Rs. 6 crores

## **Department of Mechanical Engineering**

Department of Mechanical Engineering was established in the year 1987 and now runs courses at B. Tech (Mechanical), M. Tech (CAD/CAM) and Ph.D. levels. The department was accredited in 2004 and reaccredited in 2011 by NBA. The spacious infrastructure, well equipped laboratories, meritorious students and academically qualified and enthusiastic faculty members being the salient features of the Department.

### **Technical Field of Proposal**

Robotics technology influences every aspect of work and home. Robotics has the potential to positively transform lives and work practices, raise efficiency and safety levels and provide enhanced levels of service. Even more, robotics is set to become the driving technology underpinning a whole new generation of autonomous devices and cognitive artefacts that, through their learning capabilities, interact seamlessly with the world around them, and hence, provide the missing link between the digital and physical world. The FDP is aimed to provide the necessary background for robotics through theoretical and practical sessions. It also allows to carry out experiments, thereby providing the ability to understand the contents in totality.

### **Abstract**

This FDP is ideal for beginners, intermediate and enthusiast to provide a technical platform to the young eager minds so as to smoothen their technical journey in the field of robotics. This FDP will intensively cover Robotics which has gained much attention over the last decade and has now been identified by all major Medical, Defense, Consumer Products and Electronics, Aerospace and Automobile Agencies as a key enabling technology. Keeping the above facts in mind, the Mechanical Engineering Faculty at BV(DU) COE Pune thought of organizing a Faculty Development Programme (FDP) on “Robotics” that will help the faculty, research scholars and UG/PG students to have practical experience on Robotics technology.

### **Objectives and Outcomes of the FDP**

The FDP will provide a forum for participants to exchange ideas on the state of art research and latest developments in the field of robotics and automation. The course will also help to identify future research needs in the interdisciplinary research fields. The research scholars will also get wider exposure and interaction opportunities with industrial experts and eminent academicians in the field of Robotics.

### **Course Contents**

- Introduction to Robotics
- Sensors, Actuators and Instrumentation for Robotics
- Kinematics, Dynamics and Control Schemes and Robot Intelligence
- Robot Modelling & Simulation, exposure to softwares like ADAMS, ORIGIN, COMSOL
- MATLAB Robotics Toolbox
- Artificial Intelligence and Robotics
- Hands-on session Training
- Robot Vision and Navigation
- Humanoid Robotics, Pick and Place application, Line Follower applications
- Medical Applications & Research Opportunities
- Robot Design and development, CAE Driven Robotics, IPR
- Applications, Research Directions and Case Studies

### Registration Details

No registration fee will be charged from the participants. Registration in the program is on **First Come First Serve** basis.

Link for Registration: <https://www.aicte-india.org/atal>

### Resource Persons:

Subject experts will be drawn from premier industries and other reputed research institutes

**One Week Faculty development programme on**  
**“Research in Energy Technologies”**

**Topic: Electric Vehicle Technology –trends, Research & Skill Development**

Speaker : Dr. K. C. Vora, Sr. Dy. Director & Head, ARAI Academy

Date: 06/07/2020

**Session-I**

Time: 10:00 pm to 12:00 pm

Dr. K. C. Vora given excellent talk on “Sustainable Cooling” during the Faculty Development program on “Electric Vehicle Technology –trends, Research & Skill Development”.

HE shared thoughts and experiences in the field of Electric vehicles technology its trend and research in EV.

These vehicles are having fewer parts hence should be cheaper in comparison with IC engine vehicles but right now cost is high because production is less. Also explored different components of EV and their working. You focused on Government policies to increase the use of Electric vehicles. About standards and regulation of electric vehicles he told us during this session. At the end he discussed the current research trends in the field of electric vehicles

**Topic: Rural Energy System- Design and Analysis**

Speaker: Dr. M. R. Ravi, Professor, IIT, Delhi

Date: 06/07/2020

**Session-II**

Time: 2:00 pm to 4:00 pm

Second session was delivered by Dr. M. R. Ravi. He enlightening us during the Faculty Development program on “*Research In Energy Technologies*” by your excellent talk on Energy efficient alternatives for rural industrial system.....

He shared thoughts and experiences in the field of efficient alternatives to Rural industrial systems. And explored us about conversion of biomass to biogas. He also explained about combustion technology and gasification technology as well. He showed the practical example of bangle making and how to improve the working environment in such a small industry. Then he focused on design of efficient furnace and design of efficient kiln. Overall the session was very informative and interactive.

## **Topic: Sustainable Cooling**

Speaker : Dr. Sanjiv Jain, Professor, IIT, Delhi

Date: 07/07/2020

**Session-III**

Time: 10:00 pm to 12:00 pm

Dr. Sanjiv Jain given excellent talk on “Sustainable Cooling” during the Faculty Development program on “Research In Energy Technologies”.

He shared thoughts and experiences in the field of sustainable cooling with some practical examples.

He also explored about cooling demand growth, key technology drivers, helix of sustainability and nature cycle. Then focused on sustainability of refrigerants, emerging refrigerants and how to select the refrigerant for particular application. He nicely explained about energy system analysis, sustainability paradigm, and NITY Ayog of Government of India.

At the end he told about solar cooling/heating, thermal storage, desiccant cooling systems with some practical examples it was really appreciable. He conclude the session with exploring areas of research in this field.

## **Topic: Waste Heat Recovery System**

Speaker: Dr. P. R. Dhamngaonkar, Associate Professor, COEP, Pune

Date: 07/07/2020

**Session-IV**

Time: 02:00 pm to 04:00 pm

Dr. P. R. Dhamngaonkar given excellent talk on “Sustainable Cooling” during the Faculty Development program on “Waste Heat Recovery System”.

He shared thoughts and experiences in the field of waste heat recovery systems with some practical examples. Also explored the benefits of waste heat recovery, factors affecting etc. He focused on low temperature heat recovery systems, thermoelectric generator, piezoelectric generators with construction and their working. He also focused Construction of Absorption chillers, regenerators, and thermo compressors during this session. At the end he discussed the current research trends in the field waste heat recovery and about different projects you did at COEP.

**Topic: Alternative fuels in and Recent Technology IC engines**

Speaker : Mr. S. S. Thipse, ARAI Pune, India

Date: 08/07/2020

**Session-V**

Time: 10:00 pm to 12:00 pm

Mr. S. S. Thipse enlightening during the Faculty Development program on “Research In Energy Technologies” by excellent talk on “Alternative fuels and Recent Technology in IC engines”

He shared thoughts and experiences in the field of IC engines with some practical examples.

He also explored the types of alternative fuels their advantages, disadvantages, and utilization etc. He also focused on Bio CNG, Ethanol blend fuels, and about ethanol production. Then overview of Biodiesel technology, need of bio diesel liquification of natural gas and dual fuel combustion technology. In second session he explained us about compressed natural gas fuel kit systems and engine combustion.

**Topic: Boiler Efficiency Assessment- An Industrial perspective**

Speaker : Mr. Abhijeet Deshpande, Principal Lead (R & D) Forbes Marshall, Pune

Date: 08/07/2020

**Session-VI**

Time: 2:00 pm to 4:00 pm

Mr. Abhijeet Deshpande enlightening us during the Faculty Development program on “*Research In Energy Technologies*” by excellent talk on “Boiler efficiency Assessment”

He explored about need of boiler efficiency monitoring and before that he started with basic of heat transfer i.e. pool boiling curve. Then he focused on boiler efficiency calculation methods and also about causes of poor boiler performance. Nicely he explained about boiler loading pattern and how loading is affecting performance of boiler. He showed actual calculations about how to calculate boiler performance which seems be very interactive.

At the end he told about role of excess air and how to recover losses in boiler plant. He conclude the session with exploring areas of research in this field.

**Topic: Sustainable approach to comfort**

Speaker : Dr. Bhupinder Godara, Professor of Practice, IIT Delhi

Date: 09/07/2020

**Session-VII**

Time: 10:00 pm to 12:00 pm

Dr. Bhupinder Godara shared thoughts and experiences in the field of sustainable cooling with its historical bag round very nicely. And how the air conditioning systems are invented and how the modifications are done with some actual practical examples.

He also explored some theoretical and practical thermodynamic cycles, variable speed air conditioning, variable refrigerant flow systems, multi indoor air conditioners, and modern thermal system etc.

**Topic: Energy storage Technology**

Speaker : Dr. Devanuri Jaya Krishna, Assistant Professor, NIT, Warangal

Date: 09/07/2020

**Session-VIII**

Time: 02:00 pm to 04:00 pm

Dr. Devanuri Jaya Krishna enlightening us during the Faculty Development program on “Research In Energy Technologies” by excellent talk on “Energy storage Technology”

He explored about need of solar energy storage, need of renewable energy storage and reviewed the installed capacities of renewable energy in India.

Then he focused on sensible heat storage, latent heat storage and phase change materials with their examples and applications. Very nicely focused on different applications of PHM and their production processes. He conclude the session with exploring areas of research in this field.

**Topic: Renewable Energy Application, Scope for Research and Entrepreneurship**

Speaker : Dr. G. N. Kulkarni, Principal (RD), Government College, Chandrapur

Date: 10/07/2020

**Session-IX**

Time: 10:00 pm to 12:00 pm

Dr. G. N. Kulkarni enlightening us during the Faculty Development program on “Research In Energy Technologies” by excellent talk on “Energy storage Technology”

He shared thoughts and experiences in the field of solar energy with some practical examples. Also explored the types of renewable energy sources and hybridizations of different energy sources. He also elaborate classification of wind machines. He also gives brief information about Solar photo voltaic its potential and challenges. Very nicely he explained various UG, PG and PhD projects during their presentation.

**Topic: Energy integration of thermal system: Pinch analysis approach**

Speaker : Dr. Bade Mukund H., Assistant Professor, SVNIT, Surat

Date: 10/07/2020

**Session- X**

Time: 02:00 pm to 04:00 pm

Dr. Bade Mukund enlightening us during the Faculty Development program on “*Research In Energy Technologies*” by excellent talk on “Energy analysis of thermal systems –Pinch analysis approach”

He explored about need of energy interaction of thermal systems. He also explains about thermal analysis using theoretical and analytical Pinch analysis approach with actual case studies. He have given actual practical examples of thermal oil based cooling systems very nicely. At the end of session he told mathematical model of such systems and concluded the session with exploring areas of research in this field.

**Topic: Wind energy Technologies**

Speaker : Mr. M. K. Boopati, Director, NIWE, Chennai

Date: 11/07/2020                      **Session- XI**                      Time: 10:00 am to 12:00 pm

The eleventh session of the FDP was delivered by Mr. M. K. Boopati. He enlightening us during the Faculty Development program on “*Research In Energy Technologies*” by your excellent talk on “Wind energy Technologies”

He shared thoughts and experiences in the field of Wind energy with some practical examples. Also explored the types of different renewable energy sources and classification of wind machines. Then about wind resource, global wind system and wind potential in India. He also explained instruments used for measurement, all components of wind turbine and different types of turbines. At the end of session he told about different research areas in wind energy sector.

**Topic: Analysis of Natural convection based energy systems**

Speaker : Dr. Sanjeeta kohli, Professor, IIT, Delhi

Date: 11/07/2020                      **Session- XII**                      Time: 2:00 pm to 4:00 pm

Last Session of the FDP was delivered by Dr. Sanjeeta kohli. She is enlighten US during the Faculty Development program on “*Research In Energy Technologies*” by her excellent talk on “Analysis of Natural convection based energy systems”

She shared thoughts and experiences in the field of natural convection with some practical examples. Then initially she told us the fundamental things of natural convection and how it is applied for small systems. She also enlightened us with chimney pattern in case of natural convection. Very nicely she explained Archimedes principle and how to apply it for small systems. Overall the session was very informative and interactive.

Report on  
Webinar on MATLAB for Deep Learning

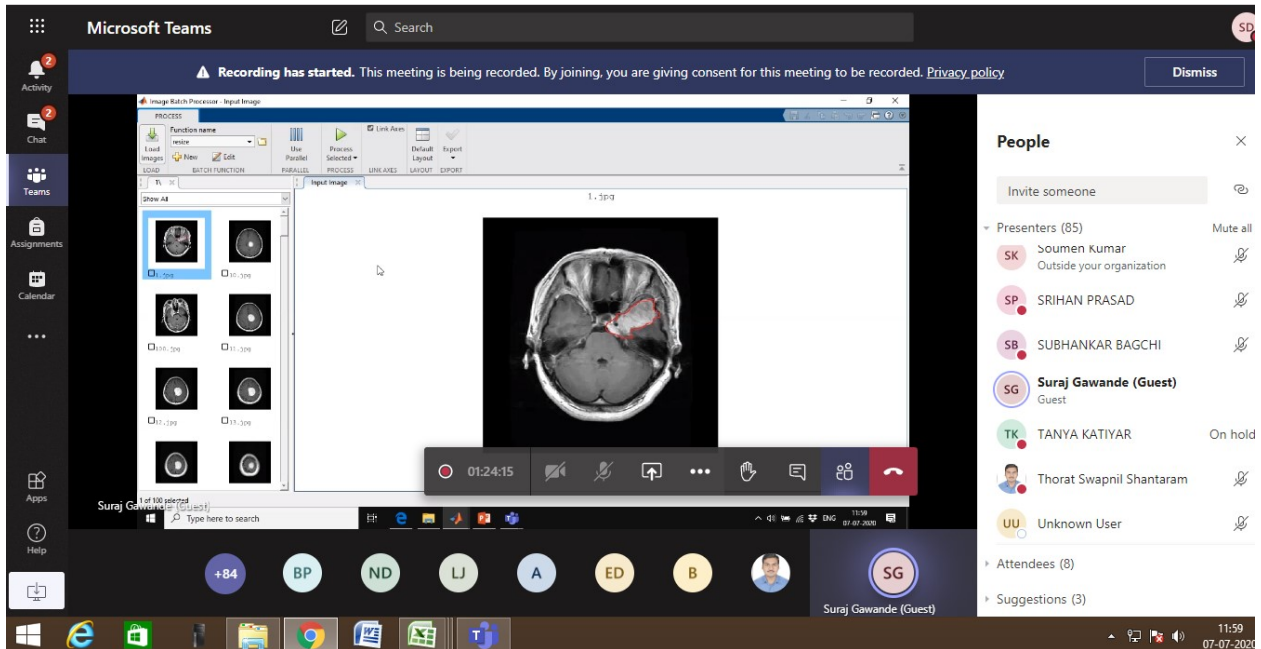

Date: 07/07/2020

The webinar conducted by Suraj Gawande, Sr. Engineer of MATLAB Technical Team at DesignTech Systems Pvt. Ltd in college of MATLAB for Deep Learning on 07<sup>th</sup> July2020 was basically to give brief idea about technology of Machine Learning with MATLAB, Machine Learning Algorithms, Deep Learning using MATLAB. 181 members are participated in this webinar.

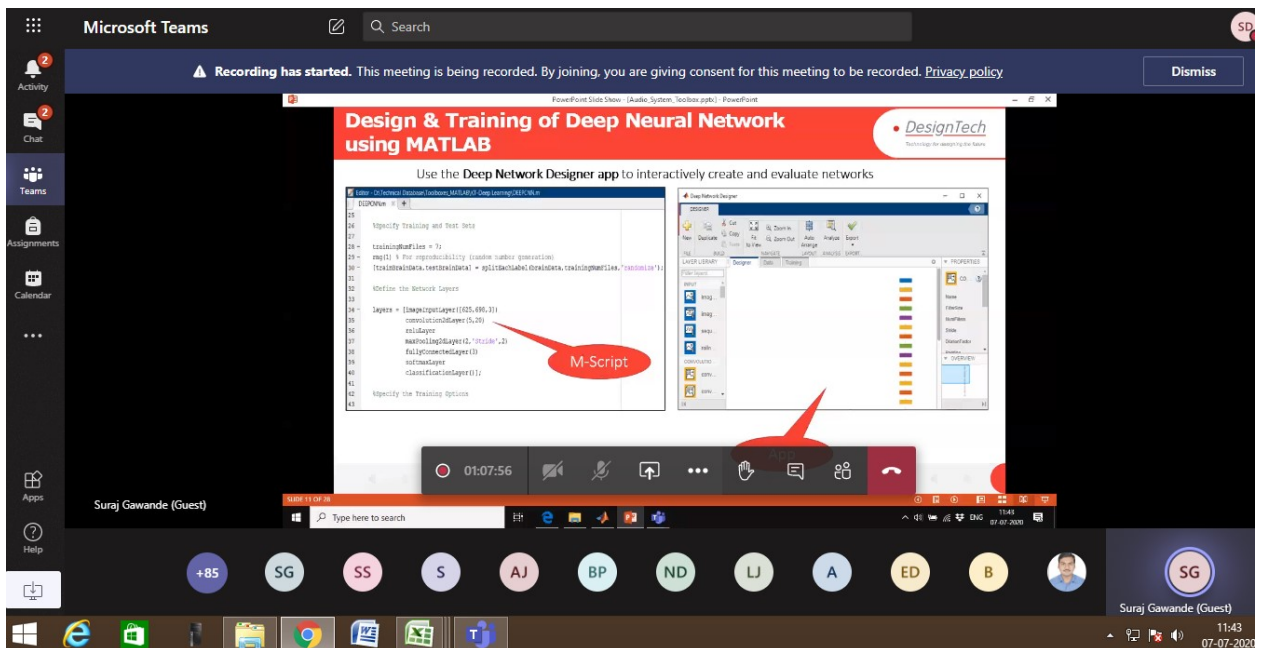

The points covered in workshop were –

- What is machine Learning?
- Classification of Machine Learning.
- Algorithm selection for Machine Learning.
- Selecting right algorithm for given data analysis.
- What are hyperparameters?
- What is Deployment?
- About Deep Learning as advancement of Machine Learning.
- Deep Learning using MATLAB.
- About Convolutional Neural Network(CNN) model.
- About Long Short Term Memory Network(LSTM) model.
- Analysis using different data sets.
- Basic Demonstration.

With advancement of technology there is a lot of work need to be done in these fields. This webinar would definitely inculcate skill in students which would be highly useful for building basic to complicated projects in future.

So the information given in webinar was very useful to develop further projects and also to analyse data for various data sets.

*Narcotics*, (2011) 11 SCC 347 : (2011) 3 SCC (Cri) 181.

► **First time offenders.**—Appellants who were convicted under and sentenced to 15 yrs' RI with fine of Rs 1.5 lakhs for carrying commercial quantity of brown sugar from one State to another as were first-time offenders, having no past antecedents of involvement in offence of like nature sentence deserves to be reduced to minimum prescribed period of 10 yrs' RI, *Shahejadhkan Maheubkhan Pathan v. State of Gujarat*, (2013) 1 SCC 570.

► **Substances to which prohibition under Section 8(c), applicable.**—Prohibition under Section 8(c) would be attracted to prohibited substances which are not mentioned in Schedule to NDPS Rules but are mentioned in Schedule to NDPS Act, and substances intended for medicinal and scientific purposes because they are prohibited under NDPS Act. NDPS Act does not contemplate framing of rules for prohibiting various activities dealing with narcotic drugs and psychotropic substances. It only contemplates framing of rules permitting and regulating any activity of dealing with such substances. Section 8(c) prohibits in absolute terms certain activities (like the present case involving import into and export out of India of any narcotic drug and psychotropic substances). Rules created under the NDPS Act cannot be understood to create rights and obligations contrary to those contained in the parent Act. Further held, mere fact that the dealing in narcotic drugs and psychotropic substances is for a medicinal or scientific purpose does not by itself lift the embargo created under Section 8(c). Such dealing (in present case import and export of prohibited substances for medicinal and scientific purposes) must be in the manner and extent provided in the NDPS Act, Rules or Orders. But the rules like Rule 53 or Rule 64, NDPS Rules cannot be the source of authority for prohibiting or dealing with narcotic drugs or psychotropic substances, *Union of India v. Sanjeev V. Deshpande*, (2014) 1 SCC 1.

First Session was by Dr. V. R. Shirgurkar, Senior Academic Consultant presenting his thoughts on Quality in Higher Education -in the context of NAAC Metrics. He highlighted on the concepts of quality in higher education in the context of the NAAC metrics. Unless quality can be measured, it cannot be improved. NAAC has accepted this by introducing quantitative metrics. He covered how fitness for the purpose, value for money and quest for excellence can be introduced while integrating quality in teaching learning and evaluation.

Second Session was Dr.C. N. Rawal, Ex Principal-BMCC, Pune explained the Documentation Process for NAAC. In order to process for accreditation and assessment evidence in various forms are significant and university must establish SOP to maintain all such documents /evidence /proofs in a manner to access, extract required data with the help of most modern technology to suit requirement of time and technology. Due to online assessment such evidence became backbone of grading system. Document refers to material that provides official information, evidence or record. The list of documents required and the files to be prepared before applying for the NAAC Accreditation must be in the right PDF format.

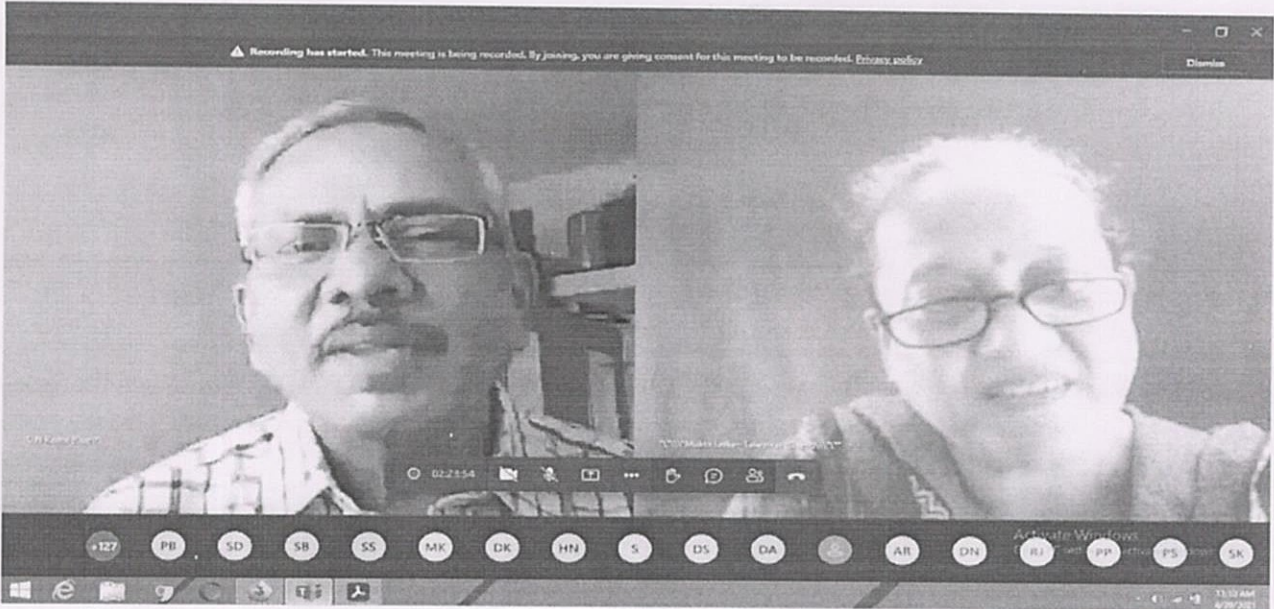

**Day 2- 20th APRIL 2021 Tuesday: 9:30 am to 2:30 pm**

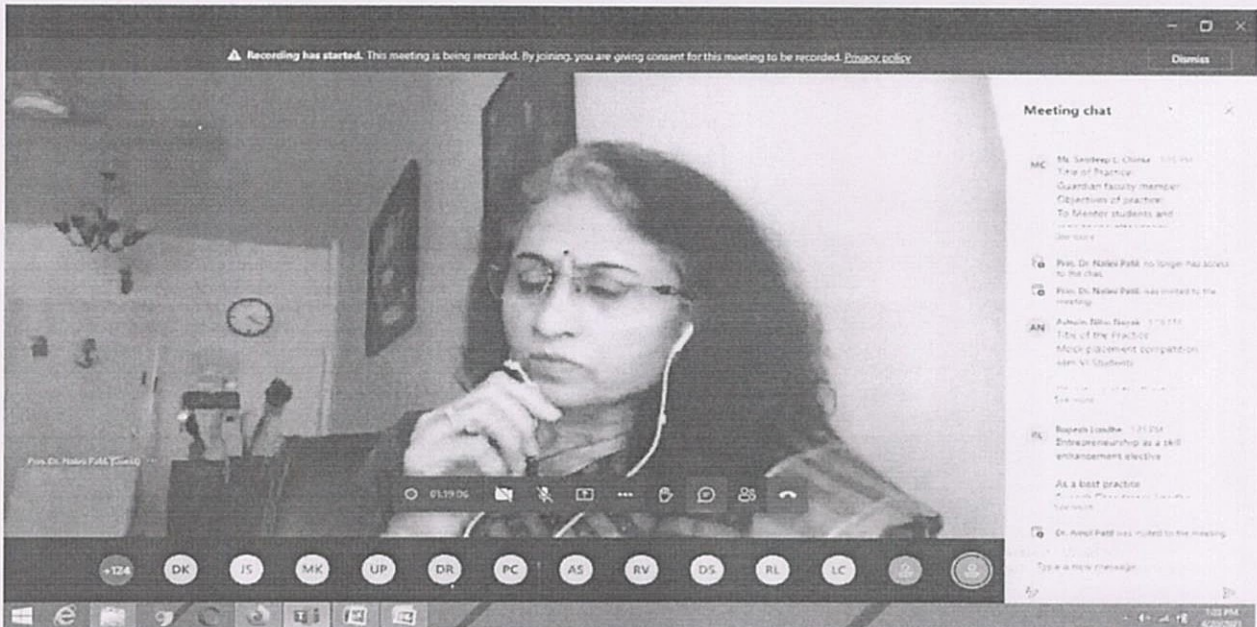

First Session was by Dr.C. N. Rawal, Ex Principal-BMCC, Pune explained the Documentation Process for NAAC Whereas documentation refers to the process of classifying, annotating texts, photos etc. It also consists of description of event between 200 to 500 words, templates, Tabular Formats, Percentage / Average, Video, Scanned Documents, Web Link and PDF uploads. There is need to develop institutional SOPs to collect, classify, analyze, store and retrieve necessary evidence.

**Guest lecture on topics:****Literature Review****Writing Research Paper and Research Proposal****Objective of the Faculty Development Program:**

There is great relevance to research in education. Apart from ensuring an in-depth knowledge over a topic, scientific and historical research papers also contribute to the world of knowledge. These journals or papers become the helping hands for the students in future guiding and helping them in research. Students need to understand the role of scientific research in society and the importance of scientific research in education as it will ultimately reward them in return.

A Virtual Faculty Development Programme on 'Stress Management' was organized by BVDU Institute of Hotel Management and catering technology on 3rd Oct 2020.

The Guest speaker was Ms. Bhakti Ghate from Explore – I. She is working in the mental health profession as a certified Counselling Psychologist and Life skill trainer for the past 17 years. she is also working successfully in the field of education and development on related projects for various schools, colleges, NGO's, corporates, and government institutes.

The FDP was aimed to reduce the stress levels of faculty and to help them perform better by challenging their own potential.

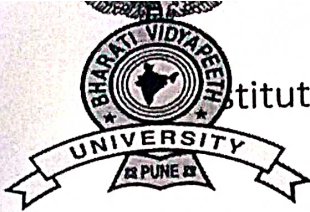

In the beginning of the session, Principal Mrs. L.S. Chirmulay introduced and welcomed the Guest speaker. Ms. Bhakti Ghate started the FDP Session with What is stress, its types and how it affects health. She also described various symptoms of stress. She explained the yerkes-dodson law of performance in detail. The FDP included hands-on activities and techniques like Stretching which were very useful and effective to reduce and overcome stress.

She gave some tips on how to maintain a healthier lifestyle and to prepare you to cope with the stress of everyday living.

- Get at least 7 hours of sleep.
- Spend time each day with at least one relaxation technique – imagery, daydreaming, prayer, yoga or meditation
- Structure each day to include a minimum of 20 minutes of aerobic exercise.
- Eat well-balanced meals, more whole grains, nuts, fruits, and vegetables.
- Substitute fruits for desserts.
- Avoid caffeine.
- Set aside relaxation time
- Connect with others
- Do something you enjoy every day

All of the above tips given in the session seemed very useful and efficient to reduce stress. The participants of the workshop had a wonderful experience during various

- Building leaders within our team
- Strengthening the knowledge & strategy on hunting new accounts

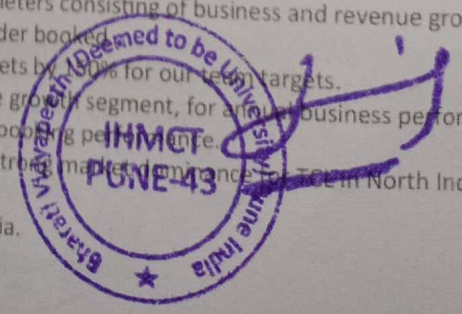

In Global Enterprise Business as Head Sales (Growth Vertical-North Region) our team was focused on new business acquisition from the set of focused accounts.

We developed and executed sales strategies to generate incremental business, engaging the marketing and product functions to penetrate an account by positioning TCL as a global organization which would assist our enterprise customers in enhancing their reach and leadership in their market segment.

It involves developing short term and long term sales & marketing campaigns through which we can enter into a business relationship with a global enterprise account through multi-engagement model.

Achievements

- Achieved 165 new account acquisitions/new enterprise accounts on board in the last two years which had not experienced the global standards of service from Tata Communications.
- Brought in maximum high value service contracts (out of overall sales) with a 3-5 year fixed contract value ensuring consistent revenue from an account and reducing the threat of annual price erosion.
- Rated Best Sales Leader (Sept 2012) across India, on team management and business parameters consisting of business and revenue growth, new account acquisition, competition churn, focus on large deals, new funnel generation, net order booked.
- Awarded "Blue Ribbon" for business excellence in Q3 FY-14 by achieving order booking targets by 100% for our team targets.
- Rated "Best In Class" in annual performance rating in current year, across India in enterprise growth segment, for annual business performance in FY-14.
- Awarded "Certificate of Excellence" for business contribution in Q4 FY-14 with 170% order booking performance.
- Grew revenues to Rs.24Cr from a new region with revenues below Rs.2Cr and developed a strong market presence for TCL in North India for enterprise growth accounts.
- Ensured two team members achieved Best In Class performance ratings for FY-14 across India.
- Promoted to DGM Enterprise Sales within 11 months of joining in.

Event – On line Faculty Development Programme

Date: 1<sup>st</sup> – 7<sup>th</sup> April 2021

Participants – 34

Organized by - IIC -BVDU IHMCT and Entrepreneurship Cell in collaboration with Prowisdom Growth.

Business Model Canvas is a highly effective strategic management tool. The objective of the Faculty Development Programme was to enable the participants to give an insight towards Entrepreneurship and practicing the same.

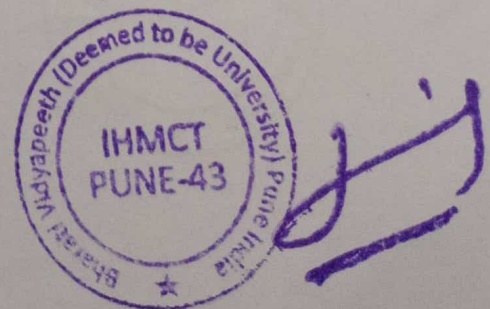

The resource person was Mr. Puneet Raman who is an Entrepreneur – Founder & Director of Prowisdom Growth and an avid Public Speaker with 22 years of experience in the field of Marketing and Entrepreneurship development.

Mr. Puneet Raman is the founder of a start-up in education management, through a unique global digital platform to build economic value for its subscribers and their family.

He has 20+ years of professional experience in (telecom & logistics) service industry having worked in large corporates as Tata Communications Ltd, Bharti Airtel Ltd, Mahindra & Mahindra Ltd, Reliance Communications and Procall.

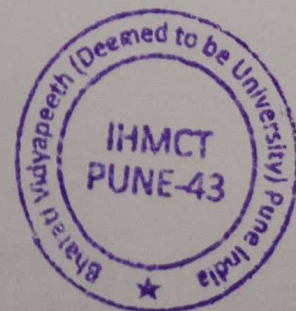

He is passionate about sharing his professional experience's, learning's with the student community and believes in collaborative success, where the working professionals share their knowledge, skills and most crucial WISDOM with the youth of the country in a structured manner, thus enabling building the talent pipeline of the country. His network comprises of professionals, business leaders and subject experts across multiple industries and business functions.

The FDP included hands-on activities and planning for a business which an individual or a team of personnel may wish to start. The participants were given a sheet which was a tool to be used to sketch out the business plan in detail. Mr. Raman explained all the aspects which are important for a business with examples of the business models designed by the faculty members.

Curriculum Implementation Support Program – CISP-II  
22<sup>nd</sup>, 23<sup>rd</sup> September 2020

**Report**

28<sup>th</sup> Sept 2020

The Curriculum Implementation Support Program – II (CISP-II) was organized at Bharati Vidyapeeth Deemed to be University Medical College, Pune, on 22<sup>nd</sup>, 23<sup>rd</sup> September 2020. In view of COVID 2019 pandemic, it was conducted as 'ONLINE' workshop, ie, our participants and resource persons were present in the WS hall, but the MCI Observer attended online.

Elaborate arrangements were made to enable continuous online interactive audiovisual access to the MCI observer throughout the 2 day workshop proceedings. To maintain physical distance between participants in view of the COVID Pandemic, the venue was shifted to the 1<sup>st</sup> floor Examination hall, with just 2 participants seated at each table.

It was organized under the aegis of MCI Regional Centre, Armed Forces Medical College, Pune, with online attendance of the MCI Observer Dr. Kalpana Kulkarni, Associate Professor, Pathology, BJ Medical College, Pune. Since we are in the same town, we would have loved to have her with us at the workshop venue, as the 'online' presence did put a little constraint to her contributions.

Although 30 faculty members across the departments had enrolled for the program, there had to be some changes due to the current volatile situation, including 3 replacements and 1 last minute dropout due to health reasons. Out of the 29 faculty members who could actually participate, 5 were from Preclinical, 11 from Para clinical, 7 from Medicine & allied and 6 from Surgery & allied. Representation across hierarchy of seniority was 8 Professors, 11 Associate Professors, 9 Assistant Professors and 1 Tutor (Post PG). All participants actively participated in the workshop, making the sessions fruitful and lively.

Workshop resources created by MCI and shared with us by the MCI Nodal center, GSMC, Mumbai and the MCI Regional Center, AFMC, Pune, helped us to convincingly get across to the participants the essence of various aspects of the new CBME Curriculum, generating confidence about the need and the feasibility of implementation of these changes.

As far as prior knowledge is concerned, the participants were a mixed batch, because 7 participants had not attended the Revised Basic Workshops conducted earlier. The pace and the focus of the WS sessions had to be adjusted to accommodate all.

Participants were greatly impressed by the tremendous work put in by the MCI committees and subcommittees to bring out such a well-defined Competency Based Curriculum, as evidenced in the 3 volumes of the revised

UG Curriculum giving subject wise details and rest of the modules, including the GMER 2019 and CISP-LRM documents to guide us in its implementation.

The logical sequence of sessions starting from Goal, roles and associated competencies expected of a graduate, through appropriate choice of T-L methods, assessment methods helped achieve these workshop objectives. The participants got 'hands on' experience through group / individual tasks linked with the sessions, taking them towards actual implementation of these concepts.

Fourteen members of the Curriculum Sub Committees (CSCs) formulated by the college for implementation of the new curriculum as per MCI directives were participants in this workshop. Walking them through the CISP including the Curricular Governance made them aware of the magnitude of work which lay ahead. During the last session, however, most participants expressed their belief that though huge, the task was definitely doable. They appreciated the opportunity of electives being offered to the students and came out with wonderful ideas for the electives to be offered. They have been provided a format for submitting more structured plans after thrashing it out in their own departments and arriving at a departmental consensus.

Participant Feedback about the entire workshop was very positive, although it was a little revision for the participants who had recently attended the revised basic WS. Good pretest score of these RBCW literates confirmed the effectiveness of the RBCWs conducted an year ago. Along with the quality of the interactive sessions and knowledgeable inputs from the resource persons to refine the hands on activities allocated to them, the participants also appreciated the elaborate arrangements made to conduct the workshop, ensuring all the necessary precautions mandated by the COVID Pandemic situation.

Many expressed the need to sensitize the entire faculty of the college about the curricular innovations to be brought in, in order to enable effective implementation.

ME faculty is all geared up to undertake more of these workshops and many faculty members are waiting to participate. All are awaiting signal from the MCI to schedule further sessions of the 'revised Basic WS and AETCOM'.

**Report – 4<sup>th</sup> Revised Basic Workshop in Medical Education Technologies**

Fourth Revised Basic Course Workshop in Medical Education Technologies, was conducted at Bharati Vidyapeeth Deemed to be University Medical College, Pune, on 15<sup>th</sup> to 17<sup>th</sup> March 2021, as per the NMC guidelines, under the aegis of NMC-RC, Armed Forces Medical College, Pune. Dr. Kalpana Kulkarni, Associate Professor, Department of Pathology, BJ Govt Medical College, Pune, attended as the NMC Observer for this workshop and enriched the sessions with her valuable contribution.

Twenty nine faculty members participated in this workshop, comprising of 11 Professors, 7 Associate Professors, 9 Assistant Professors and 2 Tutors, of which 4 participants were from Preclinical departments, 5 from Para-clinical Departments and 20 from Clinical departments. Two participants had to be replaced at the last minute because of health reasons of the earlier enrolled members, while one participant could not attend the workshop because of urgent administrative commitments due to resurgence of COVID.

Considering the need for ‘distancing’ in view of prevalent COVID situation, the workshop venue was shifted to a larger Hall instead of the ME Unit premises. The arrangement and observance of all the COVID precautions were appreciated by the participants and the NMC Observer. Despite care taken by all resource persons to ensure adequate font size in view of the shift to this deep hall, readability from the furthest table was a little problematic for some slides.

Over all feedback about the workshop given by the participants both verbally and in the semi structured proforma was good, with appreciation of interactive sessions, incorporation of ‘hands on’ activities in most sessions, as well as the logistic arrangements.

Participants also appreciated the in depth guidelines given by NMC for implementation of the CBME curriculum, in terms of the phase wise curriculum documents and various modules addressing the specific components of the curriculum.

Since many more faculty members are waiting to undergo this training, permission from NMC to organize further workshops is earnestly awaited.
