Email from Students to all Class teachers :

A request to pause the ongoing semester for the mental and physical well being of the students.

The students of 8 arch have come together to request the principal and all the Faculty members of S.V.D.U. College of Architecture, Pune to postpone or pause the ongoing semester in lieu of the pandemic. Many of us are suffering from the covid-19 as are caregivers to our family members suffering from the same disease. The increasing death toll and the negativity around us is insurmountable, making it very difficult for us to concentrate on college assignments.

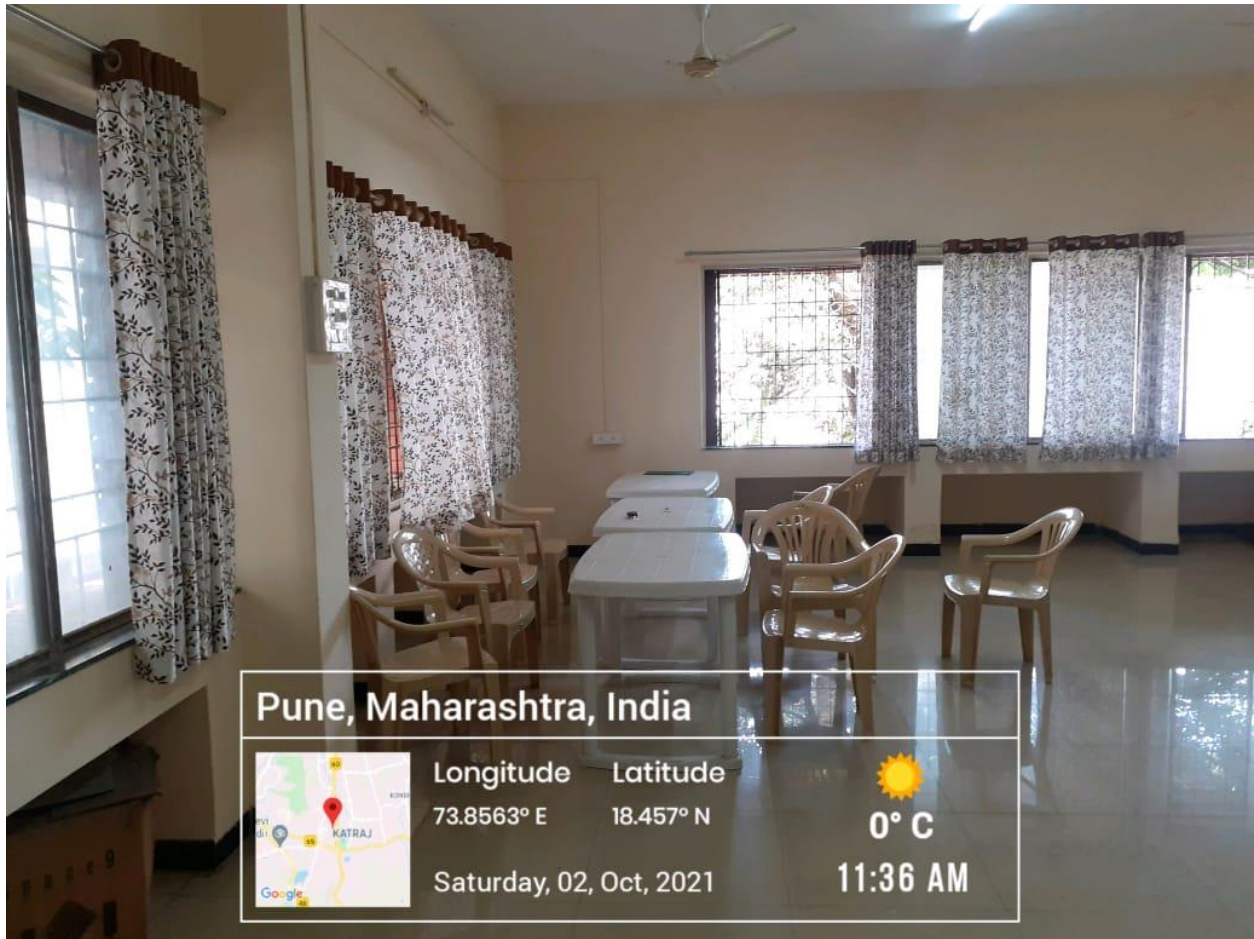

The pandemic has affected everyone in more ways than known. The constant pressure and stress added due to college work is overwhelming in the present scenario. The students are unable to complete the piling assignment after recovering from the disease and with the semester ending in a month, the workload is tremendous and severely impacting the mental health of the students.

The students who are caregivers to their ill parents or have volunteered to provide services to those in need in this natural war against the virus are finding it extremely difficult to juggle between college and their responsibilities towards their loved ones.

We do acknowledge that faculties must be going through the same hardships and we do understand that our education is important too but the pandemic has exhausted us physically as well as mentally. Therefore we collectively request you to pause the semester. We will be extremely grateful if the concerned authorities look into this matter and do the needful for the students well being.
