INTRODUCTION:

“EXPLORING THE HORIZON OF DISASTER PREVENTION AND MANAGEMENT”

A major problem in disaster prevention and management is not lack of technology or the existence of relevant information, but, the lack of information about the existing information.

Anticipating the obvious and growing importance of disaster prevention and management, the burden on hospitals as well as the rising costs of global disaster management, it is time we as healthcare providers, rise up to this need of the hour.

“QUASAR” offers a platform for students and health care professionals to exchange their knowledge and apprise themselves on the issues of disaster prevention and management.

REGISTRATION:

FOR PROFESSIONAL DELEGATES: ₹ 500/-

FOR STUDENTS: ₹ 250/-
