1.Preamble Foundation Course Report

The new competency Based Curriculum was implemented under MCI directives from August 2019. The objective of implementing the Foundation Course of one-month duration at the beginning of the MBBS course was to sensitise the fresh medical students with essential knowledge and skills necessary to lay a sound foundation for their pursuit of learning across the subjects in MBBS course and later on to succeed in their ‘career in medicine’

The new CBME curriculum emphasizes achievement of clinical competencies by the Indian Medical Graduate, rather than just knowledge. Towards this objective, it also purports to address, in addition to the medical knowledge, the so far ‘hidden’ curriculum components of ‘Attitude, Ethics and Communication skills’, all of which are essential for being an effective clinician. In view of coping up with stresses faced in medical practice creating awareness of the importance of healthy hobbies, be it sports or cultural activities is also included in foundation course.

To achieve this, various components to be addressed have been elaborated by NMC (MCI) in the Module 1 document of Foundation course. Due to COVID 19 pandemic, the entire Foundation Course across the month of January 2021 was planned online.

The online program was executed as per plan starting from 2nd January to 23rd January 2021. The online mode of course was completed by using Microsoft teams. Only few sessions were conducted on Zoom platform. (**Annexure 1** – Foundation Course Program.)

Due to online mode of the module, there were some restrictions while taking sessions. This year we could not plan hospital and field visits to get hands on experience in various activities such as basic life support (BLS), first aid and community orientation. The students enrolled before 1st January were given bharativedyapeeth.edu mail id to access Microsoft teams. Students who joined subsequently from 20th January onwards were given e mail id to attend various sessions. Sequence of sessions in the report does not necessarily follow the date wise program in Annexure I.

Credit for successful implementation of the Foundation Course goes to the faculty, coordinators across all the departments of the college and digital library experts. (**Annexure 2**), who enthusiastically contributed from planning through execution, to submission of the reports of the individual sessions they were responsible for.

2. Principal’s Address and Parents’ Meeting

The program began on 2nd January 2021 with the Principal (Brig) Dr N. S. Mani’s online address on Microsoft Teams. Parents were specially invited for the address and Parents meeting. Principal Dr. N. S. Mani briefly introduced the historical development of the institute, nurtured by the visionary Founder – Chancellor Late Dr. Patangraoji Kadam. He elaborated the vision and mission of the institute and the current expanse, state of the art facilities and learning opportunities available. He also focused on the institutes’ curriculum. This was followed by ‘Open House’ question answer session, satisfying the queries from the parents. Students were interested about reopening of college. Principal sir told that college will reopen and offline teaching-learning will begin from 1st February 2021.

3. Ice breaking – Student Introduction

Objective:

- a. To help the students get to know each other with their hobbies and accomplishments.
- b. Help identify student talent and extracurricular interests.

How implemented:

This session was conducted online on Thursday, 4th January 2021. Each student introduced himself/ herself by name, the place from which they came, and their hobbies and extracurricular achievements.

This session was conducted by the foundation course coordinator Dr Mrs Joshi Anuradha, and sports committee chairperson Dr Padalkar Pradnya with cultural and sports committee members and student representatives. Student representatives of the Sports and Cultural Committees noted down the interests and achievements, of students, as useful base for planning the sports and cultural components throughout the year as well as further development of hobby clubs which would be an ongoing activity.

Outcome:

Students were excited to see each other (on screen) and very happy to convey their achievements. Apart from academic excellence, many students already had many sports and cultural achievements under their belt, some students participated in various activities even in the academically crucial years of 11th and 12th standards.

The institute already has very active Sports and Cultural Committees which organize annual events like Freshers, 'Elixir' – the publication of college magazine amidst cultural performances, 'Lock-horns' – the intra-institute sports event for staff and students. They also encourage and organize the student participation in inter-collegiate and inter-university sports and cultural events. Various Hobby clubs exist in college and students were interested in participating in various extracurricular activities.

4. Motivational letter to self

Session conducted: Dr. Ranjana Sahasrabudhe

Objectives:

To help students to reflect and recollect the resolves with which they have opted for this course, concretize them by actually putting them into words in a format which makes it a personal treasure. Referring this letter from time to time would serve as a booster to keep up the motivation and resolve and help to keep them on track.

How implemented:

Venue: Online session from Digital library in the medical college

Assessment: Students were introduced to the concept of writing a letter to a very close friend, around six months after he / she has joined his / her cherished course. After students finished writing the letter, debriefing brought out what the activity meant to them.

A few answers which indicate that essence of the activity had been achieved:

“writing the letter clarified my own perceptions”

“putting it into words strengthened my motivation”

“it was like making a commitment to my self”

“writing this letter at this point reinforced my resolve”

Analysis of session:

a. Students satisfaction with the session: Yes, as it appears from the verbal feedback during debriefing. Structured feedback was not taken.

b. What was learnt, the take home message: As expressed above

- c. Relevance to curriculum: Yes, as expressed above
 d. Mode of teaching: Interactive session, no PowerPoint presentation.

This has been a component of Freshers' Orientation since many years and is appreciated by students. Students who do write to themselves usually do so when they feel down in the dumps. Writing at this point when they are virtually on 'Cloud 9' is always appreciated by them with reactions mentioned above.

Module 1. Foundation coarse

5.	1	Orientation Module
	1A	Introduction to institution / campus / facilities
		Introduction to Student Welfare Committees
	1B	Role of doctors in the society
	1C	History of Medicine and alternate systems
		History of alternate systems
	1D	Dr. Avinash Bhondwe IMG roles / overview MBBS curriculum various career pathways
	1E	Principles of family practice

A. Introduction to institution / campus / facilities

Session coordinated by :

Dr Anuradha Joshi-Professor and HOD Physiology department
 Dr Bhot- Professor and HOD Emergency medicine
 Dr. Aarati Pokale - Associate Professor, Dept. of Community Medicine

Objective:

To familiarize the newly joined students with the college campus, hostels and hospital.

How implemented:

Keeping in mind the mode of conduct we prepared in house videos in advance. The college building, libraries (main, digital, post graduate library) and the Institutional Museum were shown on 4th January, at the very beginning (on the first day) of the Foundation course. The videos were shown by Dr Arati Pokale.

Complete building of Bharat hospital with all departments was very well elaborated on video by Dr Bhot, Professor and HOD, Department of Emergency medicine.

The entire campus including the sport ground, the Physical Education College and Gymnasium and the indoor sport facility, Ayurveda, Dental, Homeopathy, Engineering colleges and hotels were very well captured by drone and was explained by Dr Anuradha Joshi.

Outcome:

The students were impressed by the videos which helped them to appreciate the vision and journey of our founder Dr. Patangraoji Kadam and were very happy to see beautiful campus, Medical college and the state of the art Bharati hospital and research centre of this Deemed to be University.

They were impressed by the spacious library building with large number of books and the quiet studious atmosphere of the reading halls. Getting to know the layout of the college building with the location of lecture halls and different departments.

Introduction of Student Welfare Committees

Session coordinated by :

Dr. Aarati Pokale - Associate Professor, Dept. of Community Medicine & MEU member

Objectives:

- a. To brief the students and their parents about various welfare committees in the college like anti ragging, grievance redressal, counselling, student health etc. keeping in mind their safety and wellbeing during the entire medical course.
- b. To introduce students to committees with student representation like cultural, sports, magazine, student council etc.

How implemented:

This session was conducted online on Thursday, 2nd January 2021. Since the session was online it was proposed by the faculty coordinator to give a brief overview of all 13 student welfare committees instead of getting all chairpersons and members to speak as is the usual mode of conduction. Objectives, functioning of committee and contact details of all members was sought from the respective chairpersons. Each committee was introduced to the students and their parents, its purpose explained and mobile numbers and email ids of all members shared with them. The parents were reassured of the welfare and safety of their wards when in campus and committees like anti ragging, anti-sexual harassment, counselling, Grievances redressal cell.

Outcome:

The student and their parents also felt reassured that adequate measures were in place for their wellbeing and safety. Students were enthused to know about the various extracurricular activities occurring in the collage.

B. Role of doctors in the society

The medical Profession & Physician's Role in the society – Student's reflections

Session conducted by Dr. Ranjana Sahasrabudhe

Objectives:

To help students to reflect on Physician's Role in the society from different perspectives based on their collective experiences and knowledge. The issue was addressed from different perspectives:

How implemented:

Venue: Online session from Digital library in the medical college

What was done:

The issue was addressed from different perspectives. The students were asked to reflect and share their own perceptions based on their own interaction with the physicians as 1. a Patient / patient's relative, 2. Physician's relative / friend, or 3. Interaction with eminent personalities in the field 4. Through any information what so ever. After they shared their perceptions based on these

inputs, they were given suggestion to read about stalwarts in the profession like Dr. Abhijit Vaidya, Dr. Abhay Bang & Dr. Himmatrao Bawaskar, who are contributing immensely to the society in many ways apart from their clinical expertise. The discussion helped them to identify the important desirable attributes of a competent physician.

Assessment:

Students are expected to write their reflections on this session in their log book after reporting to college. They have also been asked to write an elaborate essay collating the different aspects unveiled in the session as well throughout the foundation course and otherwise, and submit it as a manuscript, with the incentive of an opportunity to publish in the college magazine Elixir. Written structured feedback using google form was not taken.

Analysis of session:

- a. Students Satisfaction: Yes, as it appeared from the verbal feedback.
- b. What was learnt, the take home message: They realized the various roles and fields of contribution expected from a physician, the physician's image in the eyes of their patients and their families and the qualities they must imbibe in order to become an efficient compassionate physician.
- c. Relevance to curriculum: Yes, as expressed above.
- d. Mode of teaching: Interactive session with a brief PowerPoint presentation.

Feedback of faculty involved:

- a. This session does not need any elaborate planning and logistics.
- b. Faculty perception: It was interesting session as the students contributed enthusiastically, enabling collation of their collective inputs to help them appreciate as a whole the varied aspects of a Physician's roles in the society.
- c. Recommendations for improvement for subsequent batches: Ensuring participation of each and every student was the limitation of the online mode. Hopefully will be obviated next year.

C.History of Medicine-

Session was conducted by:

Dr. Dr. J. S. Gothankar. – Professor and HOD, Dept. of Community Medicine

Objectives:

- a. History of medicine world wide
- b. Medical specialist in history
- c. History of medicine, India
- d. Phases of evolution of medicine

How implemented:

Online platform on MS teams along with screening of three YouTube videos was conducted. First video was by John Snow showing transmission of cholera by polluted water, second video was on discovery of small pox vaccine by Edward Jenner and third video was on James Lind who conducted first human experiment for prevention of scurvy. All the videos were of about 7-8 minutes.

Outcome:

The students were enthused to know about the history of medicine.

C.Alternative Systems of Medicine (Ayurveda and Homoeopathy)

Session was conducted by:

Dr Asmita Wele- Professor Pharmacology department College of Ayurveda

Dr Anita Patil- Professor College of Homeopathy

Objectives:

- a. To create awareness about existence and principles of alternative systems of medicine
- b. To create an open mindset favorable for holistic patient care by Complementary Medicine
- c. To understand the difference between Modern Medicine and Complementary and Alternative Medicine (CAM)

How implemented:

Our institute has the advantage of having the Ayurveda and Homoeopathy colleges in the same campus as ours. Invited speakers from these colleges enlightened the students about their own sciences of medicine.

Dr. Asmita Wele , Professor, Department of Pharmacology, BV DU college of Ayurveda, elaborated on the principles of Ayurveda system of Medicine.

She elaborated how Ayurveda has effective treatments for chronic conditions and can also be used as supportive treatment to helps the healing process.

Dr. Anita Patil, Dean BV (DTBU) Homoeopathy medical colleges, enlightened the students about the principles of Homoeopathy, importantly the principle of “Similia Similibus Curantur” meaning “Like Cures Like”. That is, substances that cause symptoms in healthy people can be used in extreme dilution to treat illnesses that cause the same symptoms. She elaborated how Homoeopathy has effective cures for many chronic conditions and can also be used as supportive treatment to helps the healing process after surgery and avoid adverse effects of chemotherapy. Both speakers very nicely introduced the system of alternative medicine, which is need of an hour. Acceptance that each system of medicine has some strengths and some limitations and knowledge across the ‘pathies’ will help us to achieve holistic cure for our patients.

D.IMG roles, Overview MBBS curriculum various career pathways

Interaction with Physicians:

2 eminent clinicians, renowned in their own fields, interacted with the students.

1. Dr. Sameer Bhate

2. Dr Vishwas Yevale

They inspired the students with their own life stories. Which also brought out the various facets of what it meant to be a doctor.

Outcomes:

Discussions and reflections of these sessions primed the students to understand the various roles of an IMG as defined by MCI. Penning down their reflections also helped to clarify their concepts and helped to define how they would go about achieving their goals. Interaction with stalwarts widened their horizons as to what a Medical Graduate can do and become.

1.Dr. Sameer Bhate

Session coordinated by

Dr. Aarati Pokale - Associate Professor, Dept. of Community Medicine & MEU member

Objectives:

Interaction with Icon, a renowned medical professional – an alumnus.

How implemented:

Session:

Alumnus batch of 1989, renowned cardiac surgeon, Dr. Sameer Bhate interacted online with the students. He recounted memories of his undergraduate days, the academic ambience, the struggles as a postgraduate student, and his fellowship and specialisation experiences. He motivated students to set a definite goal in sight and work towards achieving it. Students freely interacted with asking advice on pursuing post-graduation courses, balancing work and hobbies, dealing with relatives, doctor patient communication and lots more. It was an excellent session – informative and inspiring, and we had to cut short students questions as we were overshooting our schedule. The Icon – Dr. Sameer Bhate too enjoyed interacting with the students and expressed his willingness for future sessions as well.

2. Dr Vishwas Yevale

Name of the lecture- Enrichment of life of a Medical professional with hobbies and contribution to society

Objectives

To know how the students can cultivate good habits and contribute to the society by some form.

How implemented?

Session was taken 'online' with the help of ppt

1. Co-ordinator- Dr Medha Puranik

2. Overview of session-

Dr Yevale explained his projects of Jaladindi, Jalakumbh. Shared his experiences and explained the need of Maintenance of clean and unpolluted water.

He also emphasis on maintenance of health by performing Yoga and Suryanamaskar.

Outcome-

This session was really a motivating session. From diverse experiences of Dr Yevale the students will be inspired to do the things for society and they will look the word beyond self.

E.Principals of family practice and holistic approach

Objectives

- Demonstrate understanding of the role of doctors in the society and their impact
- Discuss the principles of family practice

How implemented?

Session was taken 'online' with the help of ppt

Co-ordinator- Dr Medha Puranik

Points which were covered-

- keeping What is a General practice? Characteristics of General practice
- Role of family physician in GP -Competencies of family physician
- Concept of primary, secondary and tertiary care physician
- Roles and duties of physician in todays world
- Effective doctor-patient relationship
- Working principals and ethics
- Access and availability
- Record

Students feedback

All students were very much satisfied with the lecture

Time allotted was enough

Topic was absolutely relevant

Outcome

Students wear made aware that-

Communication is an extremely important aspect of a doctor patient relationship.

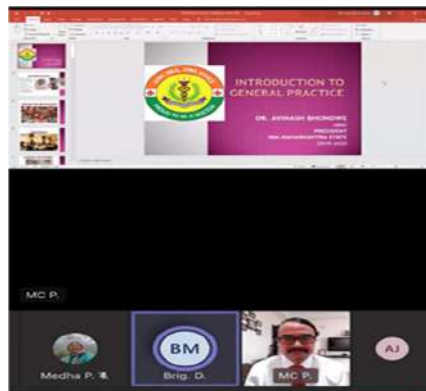

How to be A better doctor in future

The importance and duties of general physicians and their contributions to the society. Also, the ethics and rules to be followed by any medical practitioner and their advantages to the society.

The role of a General Physician/ Family Doctor is instrumental in primary care,

Role of a good practitioner and dos and don'ts to be a good doctor

Family physician becomes a family member of a family.

6.	2	Skills Module
	2A	First Aid
	2B	BLS
	2C	Universal precautions
	2D	Waste management
	2E	Immunization
	2F	Documentation

A. First Aid

Session was conducted by:

Dr. Kavita Srivastava, Prof. Dept of Pediatrics

Objectives:

- To educate the students regarding common medical and surgical emergencies
- To teach the first aid measures to be taken as first responders for the same

How implemented -

Didactic/ Interactive talks mixed with video demonstrations were included. Each session was of 45 minutes. All sessions were Meticulously planned and presented by faculty from different departments one after the other. Sessions were conducted by faculty from Pediatrics (Dr. Bhakti Sarangi), Medicine (Dr. Sukanya Das Gupta), Surgery (Dr. Suhas Tarlekar) and Orthopedics (Dr. Amit Mahajan). All faculty included 2-3 MCQ based on the topics covered, at the end of their talks.

Outcome-

Students learnt regarding common medical and surgical emergencies and the first aid measures- e.g. unconscious, convulsing, bleeding child/ adult etc.

Assessment-**Student feedback was taken:**

Students were asked to write Reflection on the session in their notebooks and given a task of teaching first aid for 5 common scenarios to 5 non medico people in their family/ neighbourhood. These was noted in their notebooks and will be analysed after joining.

Recommendation

Best to have a hands on demonstration of the topics covered, which will be done during early clinical exposure.

B.Basic life support (BLS)**Session was conducted by:**

Dr. Shiva Iyer, Prof.and HOD Critical care . Dr G. R. Godbole Associate Professor, Physiology

Objectives:

- a. To train the learner to provide basic life support
- b.To know Chain of survival & Updated BLS algorithm
- c.Immediate recognition of cardiac and respiratory arrest
- d.To demonstrate chest compressions and ventilation
- e.To know how to use of AED

How implemented -

Basic life support is an emergency management skill that every student must practice to save life The activity was well planned. Videos regarding CPR were prepared in advance. It was an interactive session.

Outcome-

Students learnt about cardiopulmonary resuscitation in unresponsive patient.

Assessment-

Pretest and post test conducted.

Recommendation

Hands on training is must.

To dedicate one day to BLS skills. Half day session is not sufficient.

C, D -Biosafety & HICC (universal precautions, waste management)

Session was conducted by:

Dr Anuradha Tolpadi, Dr Abhijeet Mane- Department of Microbiology

Objectives-

- To highlight the importance of Biosafety and HICC
- To understand the Essential components of universal safety precautions
- To understand and learn 6 steps and 5 moments of hand hygiene.
- To learn wearing of personal protective equipment
- To understand segregation of biomedical waste and know the flow of biomedical waste from segregation to final disposal
- To learn post exposure prophylaxis to needle stick injury.
- To understand how to prevent needle stick injury and importance of hepatitis B vaccination
- To know basics of isolation protocols
- To understand basic disinfection process

How implemented

The sessions were conducted Virtually, on MS Teams

The programme was as follows:

Pre-test, Introduction to Infection Control, Universal Safety Precautions – Lecture, Hand Hygiene awareness video, Hand Hygiene - Lecture, Hand Hygiene Demonstration video Personal Protective Equipment – Lecture Personal Protective Equipment – Demonstration video Biomedical Waste segregation and management Biomedical waste flow – video Needle stick injury educational video Post Exposure Prophylaxis – Lecture Post-test And Discussion Feedback

Outcome-

Basic concept of biosafety and HIC sessions were relevant for the curriculum. Standard precautions were learnt by students during the 2 days session. Students liked the initiative to introduce infection control early on in medical education. These practices will help them to prevent spread of infection. Become a good clinician.

They were attentive throughout and tried to gain maximum knowledge from faculty

Assessment-

a.Pre-test and Post-test were conducted (Google forms) for students to assess how much the students had understood the topic. Answers and scores of same were released at the end of the course.

b.Assessment results: Performance of all the students was better in post-test. An average score increase of 28% was noted in post-test.

Feedback of faculty involved

a. Planning and conducting the overall activity-

Experience of planning & conducting the activity

- It was pleasure to conduct such activity at this stage

- Students were receptive and showed lot of enthusiasm

a. Faculty perception:

Relevance & importance to new joiners:

- Ideal time to take these kinds of activities at the entry to medical profession.

How it was perceived by the new joiners:

- They enjoyed the training. They also understood the importance of the topic

Pre and post test was conducted

E. Immunisation

Session was conducted by:

Dr. Amruta Walimbe and Dr Disha Padalkar from Department of Pediatrics

Objectives:

To give an overview of Immunisation

How implemented -conducted online on Microsoft Teams from the Digital Library.

The Topics covered were as follows

1. Basics of Immunology & Types of Vaccines
2. History of Vaccination
3. Cold chain & Vaccine storage
4. National Immunisation Schedule
5. Adolescent Vaccination
6. Practical Aspects of Immunisation
7. Vaccination Myths & Facts

The session on Practical Aspects of Immunisation was very interactive.

Outcome-

students were convinced that immunisation is very important for disease control and were also convinced about the importance of cold chain. Students asked many questions and got all their misconceptions cleared. The session was well appreciated by 97% students. 80% of the students showed willingness to participate in conducting Immunisation Session in best possible ways.

Assessment-

Feedback was taken from the students in form of Google forms.

Majority of the students [99%] were happy with the content included.

F. Documentation in Medical Practice

Session was conducted by:

(Brig) Dr Verma , Mrs Kawade

Objectives:

Create awareness about the importance of documentation and records in medical practice.

How implemented:

The faculty from department of Quality Assurance of Bharati Hospital enlightened the students about the importance of maintaining proper Medical Records in patient care, to facilitate good patient care and also as a requirement of protocol and associate legalities. They explained how defined protocols exist for all documentation, and the need to adhere to these protocols, especially in view of the Accreditation processes for hospitals (NABH) in place today

Outcome:

Student appreciated the importance of methodical documentation with reference to Quality Assurance as well as legal aspect.

7.	3	Community Orientation Module
	3A	National Health goals and policies/ health Care systems community health
	3B	Interactions with patients and families, Communities

A., B. Community Health, Health Care systems & its delivery and Interactions with patients and families, Communities

Session was conducted by: Dr. Prasad Pore, Dr. APS Narula, Dr. Varsha Vaidya

Objectives-

- To describe the basic principles of community health and its impact on Health and disease
- To discuss the health care systems in India with reference to primary, secondary and tertiary level care
- To differentiate between primary, secondary and tertiary health care.
- Observe the structure and functioning of the Primary health Center, community health center along with UHTC & RHTC.
- Interactions with patients and families, Communities
- Reflect on the observation.

Competencies addressed

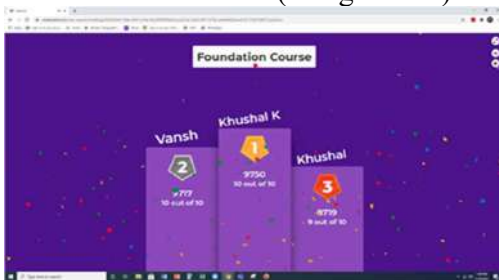

- FC 3.3 Demonstrate understanding of the health care systems in India with reference to primary, secondary and tertiary level care.
- FC 3.4 Discuss the basic principles of community health and its impact on health and disease.
- FC 3.5 Demonstrate understanding of the structure and functioning of the community health center.
- FC 3.6 Demonstrate ability to obtain patient experiences through patient and family interactions and relate these experiences to impact of environment and diseases.

How implemented

The session was conducted on MS teams. Faculty tried to overcome the limitation of online teaching by doing virtual tour by using photos and videos to PHC, UHTC and RHTC.

Assessment-

- Kahoot Quiz was conducted to revise the important points.
- Feedback form (Google form) was circulated to all students at the end of the module

Feedback of students:

Understanding of the topic
61 responses

Use of Kahoot quiz
61 responses

Outcome-

Importance of community health and the working of rural and public health centres
Functioning of primary health centres and urban health centres and also about Bharati medical college's urban and rural health centres
the various programmes conducted by the students from Bharati college were seen
The importance of community medicine
Suggestion- It would have been better offline

8.	4	Professional Development and Ethics Module (P&E)
	4A	Concept of Professionalism and Ethics
	4B	White coat Ceremony
	4C	Professional behaviour and altruistic behaviour
	4D	Working in a health care team
	4E	Disability competencies
	4F	Cultural competence
	4G	Stress management
	4H	Time management
	4I	Interpersonal relationship
	4J	Learning

A. Professionalism & Ethics

Session conducted by Brig. (Dr.) Ravi Rautji- Professor & Head, FMT

Objectives:

- To create awareness about ethical aspects associated with clinical practice
- To create awareness and help develop good values, attitudes, compassion and empathy
- Highlight importance of these attributes in interpersonal relations with the team members, peers, teachers and patients as a medical professional.
 - To orient the students to the new profession and professionalism.
 - To sensitize the students regarding medical ethics and attitude.

Implementation:

session was conducted online on Microsoft Teams. It was Interactive session with power-point presentation. Students got oriented to basic ethical principles, role of a doctor- in emergency, in society, etc. and various guidelines which will help them throughout their professional life.

Assessment of students:

- Feedback form
- It was a google form shared with them after the session.
- Attendance was good. 125/130.

Analysis of session based on feedback forms:

- Relevant to curriculum- Yes
- What was learnt and comments on take home message:
- Students enjoyed the interactive mode of teaching and expressed their interest to learn more on this topic.
- The detailed explanation given with equal enthusiasm by the teacher was well appreciated by the students.

Self-assessment:

- Well within the stipulated timing.
- Comprehensive, well-structured presentation.
- Conducted by an expert faculty member.
- There was continuous support from the organizing team before and during the session.
- Areas to improve for subsequent batches-

- i. Inclusion of videos / role play.
- ii. Number of hours can be increased.

B. White Coat ceremony

Objectives:

To understand that compassion, altruism, integrity, duty, responsibility and trust are the core values that define the nature of the physician's work.

The White Coat Ceremony is a rite of passage, welcoming the new medical students into the medical profession. As medical students, they are bound by the same professional commitments that bind all physicians. This ceremony will join the symbol of the white coat with the virtues of altruism, responsibility, duty, honour, respect, and compassion. Creating awareness of the solemn responsibility which comes with choosing the medical profession as the career.

How Implemented:

The session was organized for newly admitted students on 4th February 2021. The only session from foundation course was conducted offline in auditorium with proper social distancing.

It started with a brief introduction of the origins of the white coat ceremony and its purpose. The significance of the white coat in the life of a medical student and its lifelong association with the profession were touched upon. A motivational video was then shown, chronicling the journey from joining as a fresher to becoming a medical practitioner. The video depicting this journey was prepared in-house, incorporating photographs of our own students and alumni Dr Arati Pokale.

After this instruction to the concept and purpose of the white Coat Ceremony was given by Brig Dr N. S. Mani. Students had their own aprons in order to maintain social distancing and they were administered a pledge by Principal Brig..Dr. N.S. Mani. Principal and various heads of the departments were present for the ceremony.

On the occasion of National youth day an essay writing and poster presentation competition was announced in foundation course. 25 students submitted write up and posters. Winners of these two competitions were announced and prizes were given to them in this session.

Outcome:

The white coat ceremony made the students aware of their professional duties, as prescribed by Hippocrates, to lead their lives and practice their art in uprightness and honour.

C. Professional behaviour and Altruism

Session conducted by:

Dr(Brig)N S Mani Principal and Dr Jyoti Shetty Prof & Head Dept. of Psychiatry

Objectives:

To understand that compassion, altruism, integrity duty, responsibility and trust are the core values that defines the nature of the Physician's work.

How Implemented

The concepts of Professionalism, accountability and integrity was discussed initially. Brig Dr N.S. Mani brought in some aspects of ethics and professionalism especial beneficence. He discussed development of Altruism, its implication in healthcare, need for and problems with altruism in healthcare.

Dr Jyoti Shetty then discussed some cases to illustrate principles of Professionalism and Altruism in Healthcare

Outcome: Students understood altruism as an important professional virtue of a physician.

D. Working in a Health care Team

Session conducted by:

Dr.Firdaus Bhot (Professor and Head , Dept of Critical care medicine) and Dr. Shubhada Aphale (Professor, Dept of Anaesthesiology)

Objectives:

- a.To make students aware about concept & dynamics of team.
- b.To create awareness about application of team work in health care setup.
- c.To know about benefits and short comings of team work

How implemented:

The session was conducted online so had limitations in explaining and demonstrating in groups. The students were given idea of functioning of the Multidisciplinary teams, such as the emergency OPD, or OT or labour room.

Outcomes: They understood important aspects of working in a team such as a. Shared goals b. Communication c. Leadership d. Role clarity e. Trust / respect

Assessment: Students' understanding was tested by informal interaction and Q&As during session

Analysis of Session:

- a) Students satisfied with the session: yes, positive interactions
- b) What was learnt and comments on take home message: learning objectives understood
- c) Relevant to curriculum: Yes.
- d) Mode of teaching TL method: online meet

1) Feedback of faculty involved:

- a) Planning and conducting the overall activity: coordinated efforts and team work involving 2 faculties along with foundation course coordinators help and support. IT support appreciated.

- b) Faculty perception: Interesting session for preparation and delivery
- c) Recommendations for improvement for subsequent batches:
Actually conducting the session in the class
Role plays.

Students understood the significance of working in a health care team and the role of honesty, respect and trust

E.Disability Competencies

Session conducted by: Dr Gururaj Joshi. Prof and Head Department of Orthopedics

Objectives:

To sensitize the students regarding

- a. Different types of disabilities, problems faced by patients with disabilities
- b. The need for empathy rather than sympathy while dealing with such patients.
- c.

How implemented:

This large group session focused on above objectives. The student were also told about the medical and social connotation of disability and conditions included in the revised RPwD Act2016. Students were informed about laws in existence for safeguarding interests of the disabled, like the Rights of persons with Disabilities Act (RPDA) 2016, which mandates inducting disability content in all professional courses including Medical Curriculum. The need to develop competency to provide quality medical care and avoid discrimination against these patients was emphasized.

Outcome: Students understood that how An Indian Medical Graduate is expected to have disability competence which is the skills and attributes essential to provide quality health care to patients with disabilities.

F. Cultural competence

Session conducted by:

Dr Jyoti Shetty Professor & Head Dept of Psychiatry.

Objectives: To demonstrate the Components of cultural competence

How implemented:

Initially the definition of Culture and Ethnicity was explained and the need to understand the same with respect to healthcare was elaborated. The importance of concept of Diversity and Inclusion and need to study the same in medical education was also discussed using examples

Outcome: Students understood the meaning of Cultural competence and need to include it in medical education.

G. Stress management

Session conducted by:

Dr. Manjiri Datar Professor Department of Psychiatry

Objectives:

- To discuss the significance and methods of stress management and risk taking behaviour.

How implemented:

An interactive lecture on stress management was conducted for students about symptoms of stress and how to acknowledge stress. She spoke on the psychological rationale of appraisal of stress with reflections from students. Students were taught and encouraged to adopt various adaptive and rational coping techniques. Encouragement of positive coping strategies was done through practical examples. Methods to reduce negative coping were informed.

The students were encouraged to take help from mental health professionals and student counselling committee members in Bharati medical college and hospital in case they were facing any psychological and stress related problems.

A short briefing and demonstration of Relaxation techniques was done.

Outcome-

Students understood how to deal in stressful situations such, academic stress, examination stress, peer pressure, family pressure, gender issues, discrimination, dealing with emotions.

H. Time management

Session coordinated by :

Dr. Neela vaidya - Associate Professor, Dept. of Biochemistry & MEU member

Session conducted by: **Guest speaker Dr Ajit Sonatakke** Professor and HOD, Biochemistry
Krishna Medical Institute Karad.

Objectives:

- To brief the students about importance of time management during the entire medical course.
- To enable students to manage the time, prioritise available time and utilise the extra time for developing hobbies sports and cultural activities to reduce the stress.

How implemented?

Online through Microsoft teams

Guest speaker Dr Ajit Sonatakke

Points elaborated by ppt presentation-

- Time to time completion of the job assigned or stipulated work must be finished off to get rid of stress.
- Prioritization of the work in to 4D formula of Eisenhower method is essential
- Do it, decide when, delegate the work, Drop the idea to do it

Assessment -Feedback form:

More than 90 percent Students were satisfied with the session

More than 93 percent think it very much relevant during their student life also.

Outcome-

Time management is important in professional life in planning of the day to activities.

Feedback of faculty involved

- Planning and conducting the overall activity- Well appreciated
- Recommendations for improvement for subsequent batches—More of offline sessions

I,J -Interpersonal relationship and Learning –

Group dynamics, Group learning Components of learning, Self-directed learning & Collaborative learning.

Session conducted by:

Dr. Asmita Phadke,(Professor, Dept of Physiology) Dr. Ranjana Sahasrabudhe (Associate professor Dept of Pharmacology & Mrs. Sulochana Jadhawar Associate Professor Dept of Microbiology.

Objectives –

- Demonstrates understanding of the process of interpersonal relationship, group learning & group dynamics.
- Comprehend the learning pedagogy & its role in learning skills.
- Demonstrates understanding of different methods of self-directed learning.
- Understanding collaborative learning.

How implemented -

Two online sessions were conducted.

- On 15th January 2021 first session was conducted from 1.30 pm to 3.45 pm.

It began with Mrs. Jadhawar elaborating on the Phenomenon of learning, how it occurs and what favours or hinders learning.

- Dr. Sahasrabuddhe then extended the thread to Study Skills, highlighting the importance of self discipline, using favourite past times as incentives for completing self defined tasks. She also emphasized the importance of gathering like minded friends in this new environment, who would help them to stay on track, and definitely not entice them into deviation from their primary goals.

- Second session was conducted on 18th January 2021 from 1.30 pm to 3.30pm. It had two sub-sessions. First session was taken by Dr. Phadke from 1.30 to 2.15 pm on self directed learning. During this session, she discussed the phenomenon of self-directed learning & its various modalities. She also enlightened the students about various free online avenues for self-directed learning.

- This was followed by a session on Collaborative Learning by Dr. Sahasrabudhe. She emphasized the importance of informal group discussions in mastering the vast content of the Medical Curriculum and the impact of group commitment to help adhere to the planned study schedule. She also reiterated the importance choice of 'right' friends and how teaching was the best way of learning and clarifying own concepts.

Assessment -

Students were asked to write Reflection at the end of the module. It will be assessed subsequently by phase I teachers.

Feedback of faculty involved

- Planning and conducting the overall activity - smooth
- Faculty perception – students were interested in the sessions & actively participated.
- Recommendations for improvement for subsequent batches— NIL

9.	5	Enhancement of Language and Computer Skills Module
	5A	Communication
	5B	Local Language training
	5C	English Language training
	5D	Computer Skills training

A. Enhancement skills : Communication

Session coordinated by : Dr.Neela Vaidya, Dept of Biochemistry& MEU member

Objectives: at the end of the session phase I student able to know how to

- a.Demonstrate ability to communicate with patient and families,
- b.be aware of barriers in communication and to know appropriate ways to respond patient and relatives

How implemented: Online by Microsoft teams

Session conducted by :Dr Jyoti Shetty Professor and HOD Dept of Psychiatry& MEU member
Dr.Neela VaidyaAsso Professor, Dept of Biochemistry& MEU member

Since the session was online it was conducted by using power point presentation and videos in interactive mode

Session Outcome:

- Assessment- Students Satisfied with the session – yes, more than 90 percent
- Take home message:
Communication is core component in professionalism while treating with patients.
-barriers of communications must be overcome to achieve effective communication.
-during course of IMG , communication with peers, teams, colleagues, higher authorities communication plays important role.
More than 93 percent think it very much relevant during their day to day life also.
- Dr Mrs Shetty conducted live online session with power point and one to one discussion
.Dr Mrs.Neela Vaidya conducted live online session with videos on patient doctor relation, empathy and conducted one to one discussion. Students were happy to discuss how to improve communication skill with empathetic behaviour.
- Feedback of faculty involved
Planning and conducting the overall activity- Well appreciated

B, C. Language module

Session coordinated by Dr Medha Purabnik Professor Dept of Anatomy

Objectives-

- a. To demonstrate ability to communicate with patient and families, be aware of barriers to communication and appropriate ways to respond
- b. To demonstrate use of local language in patient and peer interactions
- c. To demonstrate ability to communicate and learn in English

How implemented

Total 3 sessions were conducted by four teachers on 11th, 12th and 13th January online, on Microsoft teams

Session 1- Session was conducted by Dr Medha Puranik and Dr Aparna Joshi

Dr Medha Puranik introduced the objectives of sessions of language.

Dr Aparna Joshi conducted session by projecting PPT of all body parts of Head, Face, Neck regions and their Marathi names.

This session was made interesting by maximum interactivity

Students were taught construction of simple sentences in Marathi which included the body parts of Head, Face, Neck regions

Students who could understand Marathi were given Puzzle in Marathi and were asked to solve that simultaneously.

Session 2- Session was conducted by Dr Medha Puranik and Dr Lalna Takle

Dr Medha Puranik introduced the objectives of the second session of language.

Dr Lalna Takle conducted remaining session by projecting PPT of all body parts of Thorax, Abdomen, limbs and their Marathi names.

Session was made interesting by maximum interactivity

Students were taught construction of simple sentences in Marathi which included the body parts of Thorax, Abdomen, limbs

Students who could understand Marathi were given Puzzle in Marathi and were asked to solve that simultaneously. There was a very good response from the students. All could solve the puzzle fully or partially

Session 3-

Session was conducted by Dr Medha Puranik and Dr Madhuvanti Karandikar

Dr Medha Puranik introduced the objectives of the third session of language.

Dr Madhuvanti Karandikar conducted session by projecting PPT of different symptoms of all body parts and their Marathi names

Students were taught construction of simple sentences which included the symptoms of the body parts

Session was made interactive by asking them to repeat the symptoms in Marathi again and revising again and again

Assessment- Feedback was taken on last day

Outcome-

Students not knowing Marathi could name different parts of body. Students knowing Marathi, got to learn a few new words in Marathi, and also brushed up on the terminologies for various body parts and symptoms

Students understood the purpose of knowing local language and became confident about basic communication with the patients as well as with others.

D. Computer Skills

Sessions was conducted by :

Dr. Aarati Pokale - Associate Professor, Dept. of Community Medicine & MEU member

Objectives:

- a) Introduction to college social media accounts, student software and website
- b) Demonstration of Microsoft word, excel, PowerPoint, select designing tools.
- c) To orient students with online academic learning resources.

How implemented:

The entire course plan was divided into 3 modules of 1 hour session. Since the sessions were conducted online, demonstrations of preparing power point presentations, Microsoft excel workbooks, google forms, eposter etc. were conducted. Students were briefed on correlation of the modules for medical academic purpose eg. – powerpoint for preparing seminars, eposters, excel for data entry and analysis. Online academic resources and their subject specific relevance was explained.

Assessment : Online feedback was sought from the students at the end of the third session. Following was the response -

- a) 78% students rated all three sessions as excellent,
- b) Interaction with students : 93 % rated as excellent
- c) Ensuring understanding : 85 % rated as excellent
- d) Explanation on utility of the sessions: 66 % rated as excellent
- e) **Students provided following common positive feedback about the sessions –**
 - Highly Interactive
 - Good content
 - Perfect explanation
 - Knowledge of speaker
 - The teaching pattern was excellent
 - Nice ppt and enthusiasm
 - Many online academic resources were discussed which are surely going to be very helpful in the upcoming years
- f) **Some suggestions regarding sessions:**
 - Improved internet connectivity
 - Duration of sessions should be increased so that excel and google forms can be demonstrated in detail
 - Hands-on practice for google forms, powerpoint and excel
 - More time for use of online resources for literature search.

Analysis of the session: Overall students were extremely satisfied with the sessions.

Feedback of faculty involved:

- 1) Online survey taken and assignments can be given prior to session to judge expertise of students in computer skills so as to avoid basics orientation
- 2) Offline hands on training can be organized for interested students as when time permits once they join college.
- 3) More time to be allotted for computer sessions for hands on training

10	6	Sports and extracurricular activities
----	---	---------------------------------------

Sport sessions- sports committee members

Session coordinated by Dr Pradnya Padalkar Sports committee chairman, Associate Professor
Dept of Biochemistry

Objectives-

- To encourage students for their active participation for healthy physical activities according to their interest and abilities
- To enhance mindfulness and concentration through yoga.
- To increase positive thinking about exercises amongst student to reduce their stress

How implemented:

Venue: Online mode (Microsoft Team)

Sessions:

All students attended various sport activities planned by committee. We had total five activities for conduction of sport components during this pandemic through online mode, these were:

- 1) Hobby club/ Talent identification of student
- 2) Lecture on Importance of sport for medical students
- 3) Experimental learning
- 4) Sport Journey videos
- 5) Induction on Yoga from

Assessment of outcome:

Students were not assessed for sport activities by judging their skill this year as all activities conducted through online mode but feedback was taken and mentioned in report

Analysis of sessions by Student feedback:

Experience in brief:

Students feel all activities have been planned, implemented and executed well and in proper way, students found very enjoyable and energized after activity especially yoga.

- a) Students satisfied with the sessions- Yes thoroughly enjoyed
- b) What was learnt and comment on take home message- Enjoyed and learnt lot of things from every session especially from yoga
Take home message by students perception was Yoga session helped them to understand balance between academics and co-curricular activities.
- c) Relevant to curriculum- students found scheduled program was adequately relevant for them
- d) Mode of T_L methods- online mode through MS team

Student Responses

- Implementation was best, adequately time framed, well planned and executed

Students liked most was Yoga Induction and found them over enthusiastic for treks

Suggestions by students:

About Yoga- Yoga induction conducted by Art of Living foundation was more appreciated and enjoyed by students and were helped those for reducing stress

And their suggestions are:

- 1) Add more sessions
- 2) Include in curriculum
- 3) Should be on regular basis in campus

6. Feedback of faculty involved:

- a) Planning and conducting the overall activity:
It was new and good learning experience for planning conduction of sport activities for foundation program through online mode
- b) Faculty Perception:
 - Sport and fitness activities are more relevant for students if conducted by offline mode because fitness is a state of our mind.
 - Yoga sessions were found highly responded
- c) Recommendations for improvement for subsequent batches
 - Due to online mode all planned sport activities conducted properly but more faculties required for offline conduction to make more structured.
 - Need to sensitize students also for better attendance.

Cultural orientation event- Cultural committee members

Session coordinated by Dr Anuradha Joshi Cultural committee chairperson, Professor and Head Dept of Physiology

Objectives-

- To encourage students for their active participation in extracurricular activities according to their interest and abilities
- To identify individual students interests in various activities.
- Enable fostering these interests to help to reduce stress in professional life

How implemented:

Online mode (Microsoft Team)

Sessions:

A cultural event was conducted as a part of foundation course by the cultural committee members.

The event began with an introductory session of the cultural committee and various events conducted in the college by the cultural incharges. The faculty members of the cultural committee also joined in for a short duration to encourage the students to participate in various cultural events while balancing their academics. After this, the magazine incharges gave a brief presentation about Elixir magazine. This was followed by followed by a Q&A round. A quiz activity was conducted thereafter for 15 mins which received a decent response.

To give the students an opportunity to display their unique talents and skills, a talent show was then conducted in 2 sessions of 8 performances each. All the performances were voluntary and included some energetic dances, and melodious songs. Some performers also showcased their skills in playing instruments while others displayed their art work and photography skills.

A major highlight of the event was the debate where all the students participated. The entire batch was divided into 12 groups and topics were allocated to them, couple days prior to the event. The debates encased various topics of science, literature, culture and current affairs. The students participated in it with great zeal and enthusiasm and presented some great points.

A fun event of scavenger hunt was also conducted between the events to keep the students energised and the winners were declared. The event went off smoothly and received a great response from the students. A feedback form was circulated later. The feedback was also positive and the students are highly enthusiastic about the future events. Overall, the event was a success.

Student's feedback 112 students responded on the online form. 105 students rated that the activity was excellent. They thoroughly enjoyed the session. They replied that the sessions were very well organized and relevant. Topics selected for debate were very good and addressing the current situation and adequate time was given for presentation. The whole session was well planned and executed

Suggestions by students:

- 1) More time should have been given as all students couldn't get time to present
- 3) Should be conducted offline when all students join the college.

Feedback of faculty involved:

Planning and conducting the overall activity was very good

It was new and good learning experience for planning conduction of extracurricular activities for foundation program through online mode

The activities are more relevant for students if conducted by offline mode.

11.How to write Reflection and give feedback

Session was conducted by Dr. Mrunal Ketkar Professor and Head Dept of Surgery

Objectives-To familiarize the students with art of writing Reflections and giving Feedback

How implemented:

Venue- Online session from Digital library taken in the medical college

Session- Dr. Neela Vaidya helped in intricacies of setting up session and smooth conduct of session.

Assessment- Two days prior to the session, an activity was given to all students.

Write in 15- 20 times on "living with covid" All of the students.

student responded very enthusiastically and shared their experience. Some even wrote poetry.

Analysis of session-

Students were satisfied with the session.

The session was very relevant to curriculum as students are expected to write the reflection in log book.

Planning and conducting the overall activity: Very well organized by Dr. Joshi & Dr. Vaidya
Faculty perception : Very much essential as these concepts are new and the UG's there out expected to write reflections and are assessed on that basis

Recommendations for improvement for subsequent batches: Classification about the faculty is supposed to give any home ware at all

12.Orientation –Ward Teacher Programme (Student Mentorship Programme)

Objectives:

- To explain what is mentorship.
- To explain benefits of mentorship to students, faculty and organization.
- To explain responsibilities of Mentor and Mentee
- To explain out line of the Ward teacher program
- To distribute the wards to their teacher mentors
-

How implemented:

Online mode

Time frame and actual programme details.

- The session of orientation of **Ward Teacher Programme**. started at 9:00 am, by Dr.Varsha Vaidya in charge, Ward teacher Committee. (Student Mentorship committee)
- Principal Brig Dr. Mani sir introduced the concept of Ward- Teacher program to all the students and encouraged them to participate whole heartedly in this program. He told about mentor and mentee's relationship and asked them to open up about their issues related to academics personal and social life.
- Dr. Saloni (Intern) and Dr. Sunom Sada (Intern) shared their experiences as a medical student. They explained about the different activities that and programs take place in the college and encouraged them to participate in these events. They told the students about certain DO's and DONT'S in the college.
- Dr. Omkar Deshpande (Intern) highlighted the heritage of Pune city and the current developments occurring in the city, in the field of education and IT sector.
- Dr. Varsha Vaidya addressed the students about mentor and mentee relationship and how it is beneficial. She also introduced them to the Ward-Teacher program which will keep the track record of students. This will be confidential between mentor and mentee.
- At 11:00 am the session was handed over to Dr. Medha Puranik. Incharge, First year ward teacher Committee. All HODs of preclinical departments were introduced by Dr Anuradha Joshi madam. Dr Medha Puranik projected a ppt and told the students about distribution of the students. Each teacher (except HOD) was allotted 6 students as wards. Names of students and mobile no and name of the teacher was projected on the slide. Students were asked to message their roll nos and names to their respective teachers. Teachers were asked to make a whatsapp group and interact with them personally in the afternoon.
- All teachers interacted with their wards in the afternoon on the same day (22Jan 2021)

Number of students, student distribution amongst different sub components:

All students and all preclinical teachers participated in the meeting.

Student feedback: All the students liked the idea of this support system of TEACHERS AS MENTORS!

Feedback of faculty involved:

a. Good experience of meeting the wards online,

7. Name/s (with designation and Department) of faculty involved: Team lead, team members.

Sr. No.	Designation	Name	Role
1	Professor	Dr. V. M. Vaidya	Ward teacher Incharge, Coordinator.
2	Professor	Dr Medha Puranik	Ward teacher Incharge, Coordinator- Preclinical
3	All teachers of preclinical departments		

13.Interaction with Senior Students

Session was coordinated by :

Dr. Aarati Pokale - Associate Professor, Dept. of Community Medicine & MEU member

Objectives:

- Interact with selected senior students for informal guidance, academic or otherwise
- Establishing rapport with seniors

How implemented:

Keeping in mind primary objective of the session to enhance informal interaction with seniors the senior students had been selected by their academic, co- curricular, and extra-curricular achievements. Since the session perforce of the pandemic situation had to be online, only 04 senior students selected to interact with the freshers to keep the discussion controlled. A day prior the freshers were asked to discuss amongst themselves and enlist questions they would to put to their seniors. The coordinator sorted these questions into various categories like academics, co-curricular & extra-curricular activities, hostel, code of conduct in campus, to preparing for postgraduate entrance examinations etc. and briefed the selected senior students about them.

The session is completely informal and to give the students opportunity to interact with their seniors and openly air their queries and concerns no faculty attended this interaction. The coordinator explained the objective of the session and introduced the senior students and then left the meeting.

Outcome:

The fresher's reported having a wonderful icebreaking session with the seniors and declared it the best session of the foundation course. Most of the issues or queries, which they may not have had time or platform to resolve were sorted through this interaction. There was an instant rapport with the seniors and all felt at ease while interacting with them. Their only complaint was short duration for the session though we extended it by a good 15 minutes. The seniors were delighted and honoured to be selected to interact with and guide the juniors. Since 3 of the four were final year students it was nostalgic and poignant experience for them. They recalled their own moments of interaction with their seniors at the time of joining the college.

Faculty involved said that this type of informal interaction is very essential for newly admitted students and should be allotted at least 3 hours to give ample hours for ice breaking and query resolving for most students.

14.Sensitization to research- Research attitude in Medical practice

Session conducted by- Central Research Publication Unit

Objectives:

- a. Introduce the concept of research and its application in medical field.
- b. Provide overview of avenues for research available during UG curriculum
- c. Importance of research aptitude in current scenario for becoming a good physician

How implemented:

By online mode on MS teams. The group activity was done to facilitate the interactivity. Various avenues were told to UG students so that they can undertake research projects during UG curriculum

Outcome:

90% students showed the interest to do research in first year only. They had idea how to apply for ICMR projects.

Module 7. Pandemic management

15.Foundation course Module F.1

Handling a Pandemic

Session conducted by Dr. S. K. Lalwani, Medical director Bharati hospital and Professor, Department of Pediatrics

Objectives-

1. To make the students aware of the ground realities and practical aspects of handling the recent Covid Pandemic.
2. To educate the students regarding the challenges faced while implementing the various tasks related to the pandemic.

How implemented

- **Venue-** Virtual, On MS TEAMS, conducted from Lalwani Sir's chamber

Students were encouraged to write their reflections on the session, in their notebooks.

Analysis of session

Students Satisfied with the session – Very much

- b. What was learnt and comments on take home message: Challenges in handling the pandemic in terms of infrastructure, equipment, manpower and changing guidelines Extempore talk given by Prof. Sanjay Lalwani, Medical Director and Vice Principal. This was followed by a short documentary made by the students regarding the activities at ground zero.

Feedback of faculty involved

- a. Planning and conducting the overall activity- The activity was planned well in advance, and the points made by the speaker were re-iterated beautifully by the documentary.
- b. Faculty perception- Good session, well received by the students.
- c. Recommendations for improvement for subsequent batches— The students can be shown a virtual video of donning and doffing, to give them a real feel of the challenges faced by the duty doctors.

History of Pandemic**Session was conducted by:**

Dr. Dr. J. S. Gothankar. – Professor and HOD, Dept. of Community Medicine

Objectives:

- a. To explain key strategy that were adopted in prevention and control of pandemics
- b. To discuss the role of WHO and ICMR in handling Pandemic

How implemented -

It was important for the students to understand how modern day medicine evolved. How scientist in the past worked hard towards new discoveries. So lecture began with a video on various pandemics that occurred in the history

Outcome-

The students appreciated the difference between the role of WHO and ICMR, some responded that the Pandemics cannot be predicted but they can be controlled and monitored which is crucial in order to ensure minimum deaths etc.

Assessment-

Student feedback was taken:

They were very satisfied with the session. They reported that this was very informative in current pandemic situation. They understood the history and how pandemics occurred and they also came to know the role of WHO and ICMR

Some of the feedbacks about their perception are-

-The key message was the knowledge of origin of medicine and the specialist who helped it achieve since the historical times to the present. Some important discoveries which led to major evolution in medical sciences were also reminded.

16. Student Feedback Overall Foundation Course

The following are the student responses to online feedback for foundation course as a whole.

1) How satisfied were you with the foundation course as a whole ?

- 56 % rated extremely satisfied, and 36 % rated as satisfied

2) How relevant & useful do you think foundation course will be for your MBBS career?

- 65 % rated as extremely useful & relevant and 28 % rated as very useful & relevant

3) Rate overall Interaction with faculty during Foundation Course

- 58 % rated faculty interaction as excellent and 34 % rated very good

4) Additional comments on faculty interaction –

- Students have acknowledged all faculty members individually

5) Rate the following sessions overall

(1 = Poor, 2- Average, 3- Satisfactory, 4-Good 5 = Excellent)

1. Interaction with senior students - 96 students rated it as excellent, 33 found it good.
2. Stress & Time Management - 82 students rated it as excellent, 37 found it good.
3. Language - 72 students rated it as excellent, 45 found it good.
4. Sensitisation to Research - 87 students rated it as excellent, 35 found it good.
5. AYUSH Orientation - 59 students rated it as excellent, 47 found it good.
6. Professionalism & Ethics - 83 students rated it as excellent, 41 found it good.
7. Computer Skills - 87 students rated it as excellent, 31 found it good.
8. Cultural Activities - 92 students rated it as excellent, 33 found it good.
9. Sports Activities - 91 students rated it as excellent, 33 found it good.
10. First Aid & BLS - 98 students rated it as excellent, 19 found it good.
11. Mentoring & ward teacher - 105 students rated it as excellent, 23 found it good

6) Additional comments/suggestions on any of the above sessions

- The sessions were good. All sessions were well planned and nicely presented. All of them were amazing sessions. The lecture and activity sessions could be mixed as in instead of having all activity sessions and lectures together it could have been alternate.
- More guest lectures would have been beneficial. The guest lectures should've been confined to 1 hour, because attention span is just 45 mins.
- Cultural - there could be some music activity like singing and instruments.
- The Aetcom sessions were extremely engaging and intriguing. The AETCOM, Professionalism and Ethics sessions were the most important sessions. the first session of AETCOM was amazing but the rest were okay.
- Should have added more hospital visits
- Sensitization to research was very early, it could have been better if we were introduced before 2nd year. Sensitization to research was done very effectively, but few more sessions would've been better dealing with in depth research methodologies. sensitization to research could be done in later years
- BLS sessions are very good. First aid and BLS proved very beneficial
- The RHTC and PHC visit very helpful in understanding the stratification in Indian Medical System. More time could've been allocated, taking up each section of the PHC on a separate day for better understanding and better student presentations.

- Documentation shouldn't be taught now wasn't able to understand properly and in rhtc there was no interaction with patients

7) Which sessions did you find most relevant as a fresher medical student ?

1. **Guest Lectures** – 85 students rated them as very relevant
2. **Interaction with Icons** - 89 students rated them as very relevant
3. **Computer** - 48 students rated it as very relevant
4. **Language** - 71 students rated as very relevant
5. **Professionalism & Ethics** - 89 students rated them as very relevant
6. **Stress & Time Management** - 55 students rated the sessions as very relevant
7. **AETCOM** - 73 rated as very relevant
8. **Sensitization to Research** - 78 students rated them as very relevant
9. **Interaction with seniors** - 101 students rated them as very relevant

8) Your suggestions for improving any of the sessions or Foundation course as a whole?

- Reduce overall duration & timings. Foundation course should be integrated with the whole curriculum and not just at the beginning. Particularly, some topics like hospital documentation, research, general practice, medical administration could be taken later instead of at the very beginning.
- Please reconsider whether Ayurved and Homoeopathy lectures should be included.
- AETCOM should be more interactive and a little more abridged.
- More Guest lectures from stalwarts would be inspiring, but some should have been shorter & to the point
- More hospital oriented activities would be interesting.
- Sports could be optional.
- The language session was very difficult for Non Marathi students. Basic grammar and day to day interaction should be taught before going into medical terms.
- The computer classes were too easy, we could have been taught things in a bit more detailed manner.

17. Faculty feedback overall Foundation Course

Due to Pandemic all the sessions were conducted online on Microsoft teams. All the faculty had to plan the activity well in advance. Preparing videos, arranging virtual tours preparing pre-tests and post tests for few topics was a big task.

100 percent dedication was given by all the faculty members and they were satisfied by their preparation done for online mode of conducting foundation module. Students were active and sessions were enthusiastic and interactive.

Support by IT department was incredible.

Limitations-

Participation of each and every student was the imitation of the online mode.

For few sessions like visit to PHC, UHTC ,RHTC and Basic life support which needs hands on training will be arranged when students will report to college.

- Documentation shouldn't be taught now wasn't able to understand properly and in rhte there was no interaction with patients

7) Which sessions did you find most relevant as a fresher medical student ?

1. **Guest Lectures** – 85 students rated them as very relevant
2. **Interaction with Icons** - 89 students rated them as very relevant
3. **Computer** - 48 students rated it as very relevant
4. **Language** - 71 students rated as very relevant
5. **Professionalism & Ethics** - 89 students rated them as very relevant
6. **Stress & Time Management** - 55 students rated the sessions as very relevant
7. **AETCOM** - 73 rated as very relevant
8. **Sensitization to Research** - 78 students rated them as very relevant
9. **Interaction with seniors** - 101 students rated them as very relevant

8) Your suggestions for improving any of the sessions or Foundation course as a whole?

- Reduce overall duration & timings. Foundation course should be integrated with the whole curriculum and not just at the beginning. Particularly, some topics like hospital documentation, research, general practice, medical administration could be taken later instead of at the very beginning.
- Please reconsider whether Ayurved and Homoeopathy lectures should be included.
- AETCOM should be more interactive and a little more abridged.
- More Guest lectures from stalwarts would be inspiring, but some should have been shorter & to the point
- More hospital oriented activities would be interesting.
- Sports could be optional.
- The language session was very difficult for Non Marathi students. Basic grammar and day to day interaction should be taught before going into medical terms.
- The computer classes were too easy, we could have been taught things in a bit more detailed manner.

17. Faculty feedback overall Foundation Course

Due to Pandemic all the sessions were conducted online on Microsoft teams. All the faculty had to plan the activity well in advance. Preparing videos, arranging virtual tours preparing pre-tests and post tests for few topics was a big task.

100 percent dedication was given by all the faculty members and they were satisfied by their preparation done for online mode of conducting foundation module. Students were active and sessions were enthusiastic and interactive.

Support by IT department was incredible.

Limitations-

Participation of each and every student was the imitation of the online mode.

For few sessions like visit to PHC, UHTC ,RHTC and Basic life support which needs hands on training will be arranged when students will report to college.

FOUNDATION COURSE
REPORT

MBBS | PHASE 1 | 2020-21

Introduction

The foundation course has been prepared as per revised Competency based Medical Curriculum given by MCI for MBBS Phase I. The Foundation course has been devised to sensitize the learners with essential knowledge and skills which will lay a sound foundation for MBBS course. The Learning Resource material (LRM) provided by Curriculum Implementation Support Program (CISP) booklet has been used as the guideline for preparation of various modules of foundation course. A logbook is also prepared for record keeping, reflection writing and certification of completion of the foundation course.

Planning

Planning of the Foundation Course was done through various brainstorming sessions and meetings of coordinators and subcurriculum committee members under the guidance of MEU and curriculum committee. The Time-table was drafted so as to cover all the modules and approval was taken from the concerned authorities. In view of Covid pandemic the foundation course had to be carried out in a shorter time frame so that it would also cover important topics. The course was conducted from 2nd January to 3rd February 2021. Few topics were covered later during the routine Phase 1 teaching program as per time availability and convenience, also during after hours.

Execution

Department of Anatomy was responsible for the smooth execution of the foundation course. Dr.Nitin Mudiraj, Dr.Priya Patil and Dr.Yogita Kamble were incharge of this task. The time table of the foundation course was circulated to all the concerned faculty and resource persons. The time table was uploaded on the website as well as on whatsapp group of students and parents. The venue was conveyed to the students a day prior to the schedule.

Faculty

1. In house Faculty: Total 42 Faculties from pre, para & clinical subjects were involved in this program. They were sensitized appropriately for conducting their sessions by conducting meetings. During these meetings faculties were made aware of the requirements of session, use of appropriate TL methods & use of media. Resources were provided whenever they were in need or whenever we received from Nodal centre or MCI.
2. External Faculty: Four external faculties were invited for conducting the sessions as given below
 - a. Dr.Pooja Narwadkar talked on Sexual harassment at Workplace & Prevention of Sexual Harassment Law.
 - b. Yoga & Meditation was conducted by a team comprising of 2 trainers from Harshad Gadgil, B.E. Civil, Yog Shikshak and Pranav Kulkarni M.Sc. Biotech., Yog Shikshak from Vishwa Yoga Darshan Kendra, Sangli.
 - c. Mr. Y.P. Kulkarni, resource person for language sessions.

Report on Orientation Program

The orientation program was conducted on the first day of the foundation course. It included various topics like the Academic ambience, Overview of MBBS Programme, University rules regarding examinations & attendance, Introduction to Foster –parent system Interaction with parents (Question-answers), Information regarding Anti- Ragging campaign and Ragging-free campus which gave a brief idea to the students and parents about the MBBS course. Dean's address to students and parents also highlighted the duties and responsibilities of the students when they are in this campus. Dean sir also interacted with the parents and solved any query that they had in mind.

Report on Skill Module

A. Practical demonstration of Proper Hand wash, gloving and degloving-

- i. Interactive sessions were taken by the department of Community Medicine initially emphasising proper hand washing and types of hand washing. Importance of hand washing for healthcare givers & risk associated with improper hand washing and transmission of infections.
- ii. Steps of hand washing and gloving and de-gloving video was shown followed by actual demonstration of proper techniques.
- iii. A batch of 50 students was divided in a group of 10 each and hands on training with provision of separate basin with running tap water and soap was given and asked individually to demonstrate Hand wash followed by gloving and de-gloving.
- iv. Prepared Checklist was used for step by step observation till satisfactory result.

B. Report on First Aid Session:

Power point presentation was given to explain the topic. Students were divided in small groups for DOAP sessions. The sessions were conducted by Department of Surgery and co-ordinated by department of Anatomy.

C. Report on Basic Life Support:

The sessions were conducted by department of Physiology. The students were sensitised to the topic through power point presentations. Later the practical aspect was explained through DOAP.

D. Report on Bio- Medical waste:

Concept of Biomedical waste was explained with the help of power point presentation.

Different types of waste, colour coding for segregation, various types of final disposal techniques were explained. Students were allowed to use their logic for categorising waste.

Lecture was followed by DOAP session. Workstation consisting of colour coded charts were placed. Bio-medical waste items were placed in a tray. Each student was called upon and asked to place the BMW on right colour coded charts. The competency was assessed by observing and using a check list.

- E. **Report on Cultural Competency:** Session began with taking the pledge of India. Then 16 symbols related to different cultures were focused on the screen and the students were asked to identify them.

Differences between cultures and religions were described giving examples. What includes culture, benefits of culture, how to understand cultures? What is the importance of cultural differences? Why is cultural identity Important? What shapes cultures?

The meaning of cultural competence was later derived from the students. The elements and benefits of cultural competence were discussed.

- F. **Report on Disability Competency:**

With the help of PPT presentation on Disability, definition, rights of the disabled person - UN and WHO guidelines as well as the vision of the disability was discussed with the students.

Social environmental hurdles in day-to-day life of the disabled person were discussed. Role of rehabilitation team and different rehabilitation modes were explained.

Report on Professional development & Ethics

To enhance the importance of values such as Professionalism, attitude & ethical behavior, the students were sensitized initially through power point presentation followed by role play by faculty and students. Following topics were covered during the sessions:

- a) Concept of professionalism & ethics
- b) Value of integrity, honesty & respect during interaction with peers, seniors & faculty other health care workers & patients

The students enthusiastically participated in the sessions. They were told to do reflection writing after the sessions.

Report on Pandemic Module

In view of the COVID 19 Pandemic, this module was introduced in the foundation course. The students were made aware of the prevailing pandemic, signs and symptoms, treatment protocols, safety measures etc through power point presentation.

Report on Computer Skills Sessions

All the students were divided into two batches. One batch 'A' was for learning Language while other batch 'B' was for Computer skill learning. Objectives: 1. To learn basic skills in Microsoft Office, power point presentation & its Applications 2. To apply the skills of Microsoft Office & power point Applications for preparing reports/presentations. 3. To learn reference searching 4. To learn digital applications like Google classroom, Whatsapp, Email. The students were made aware of different features of Microsoft word, power point and excel. They were given tasks individually as well as in groups. Assignments were given to students.

Report on Language Skill Session

All the students were divided into two batches. One batch 'A' was for learning Language while other batch 'B' was for Computer skill learning. We identified the students who wanted to learn Marathi & those who wanted to learn English. The non Marathi students were more in number for Marathi learning, while very few students wanted to learn English.

All the sessions were organized as per different modules developed by faculty and two assessments were conducted.

Feedback on Foundation Course

All the students were instructed to give feedback on every session. The feedback was collected online through Google forms and analysed.

The feedback was taken at the end of each day's session. The questions were based on following points:

1. Content of the session
2. Delivery of the session
3. Usefulness of the session
4. Technical aspects
5. What did you like most and what needs to be changed?

The feedback was taken as per grading on a scale of 0 to 3 (0=needs improvement , 1=average, 2=good, 3=excellent)

The feedback was analysed as per different modules of Foundation course as follows:

	Modules	0= Needs improvement	1=Average	2=Good	3=Excellent
1.	Orientation Programme	0.6%	2.4%	27%	70%
2.	Skill modules	0.5%	1.0%	18.5%	80%

3.	Professional development including Ethics	0.2%	1.3%	22.3%	76.2%
4.	Enhancement of language	0.8%	1.8%	21.4%	74%
5.	Computer skills	0.3%	2%	18.3%	79.4%

Some of the suggestions and remarks by the students were as follows:

- Helpful and informative
- Hope and aspiration to become good doctors
- Most useful for future
- Enhanced our knowledge
- Methods of interaction with teachers and students
- Understood importance of self-directed learning

ACADEMIC PLANNING COMMITTEE

Report of Program conducted for interns on 01/02/21

titled "RENDEZVOUS WITH FUTURE"

As a part of Intern's Value Added Teaching, a webinar for interns and students on career counselling and practice management was conducted by the academic planning committee where Dr. Subodh Phadke, a clinician with multichair practice, with 28 years of experience, past secretary and president of Thane IDA & Founder of "Dentalogics", 'School of logical dentistry' for practice enhancement was the speaker.

The seminar was held 01/02/21 at 10am on Zoom Platform (online). It was hosted by Dr. Prakash Talreja, Reader from Department of Periodontics and Academic Committee Member.

The program started by introduction of the speaker and was followed by address by our very own Principal, Dr. V. Sreenivasan. This was followed by an informative talk by Dr. Subodh Phadke and question & answer session.

The program ended with Vote of Thanks by Dr. Prakash Talreja

The shared information was very well received by all the 59 participants consisting of interns and the teaching faculty.

An E-Certificate was presented to Dr. Subodh Phadke after his presentation as a token of appreciation by Dr. Prajakta Rao, Academic coordinator.

Coordinator

BHARATI VIDYAPEETH DEEMED TO BE UNIVERSITY

DENTAL COLLEGE AND HOSPITAL

SECTOR 7, C.B.D BELAPUR , NAVI MUMBAI

ACADEMIC PLANNING COMMITTEE

*Report of Program conducted for interns on 01/02/21
titled "RENDEZVOUS WITH FUTURE"*

As a part of Intern's Value Added Teaching, a webinar for interns and students on career counselling and practice management was conducted by the academic planning committee where Dr. Subodh Phadke, a clinician with multichair practice, with 28 years of experience, past secretary and president of Thane IDA & Founder of "Dentalogics", 'School of logical dentistry' for practice enhancement was the speaker.

The seminar was held 01/02/21 at 10am on Zoom Platform (online). It was hosted by Dr. Prakash Talreja, Reader from Department of Periodontics and Academic Committee Member.

The program started by introduction of the speaker and was followed by address by our very own Principal, Dr. V. Sreenivasan. This was followed by an informative talk by Dr. Subodh Phadke and question & answer session.

The program ended with Vote of Thanks by Dr. Prakash Talreja

The shared information was very well received by all the 59 participants consisting of interns and the teaching faculty.

An E-Certificate was presented to Dr. Subodh Phadke after his presentation as a token of appreciation by Dr. Prajakta Rao, Academic coordinator.

Coordinator

Dr. Prajakta Rao

5.1.3: Following Capacity development and skills enhancement initiatives are taken by the institution

Life skills (Yoga)

PROGRAMME REPORT

N.S.S. unit of Bharati Vidyapeeth Deemed to be University, Dental College and Hospital, Sangli celebrated the International day of Yoga on 21/06/2021 in the Dental College Auditorium.

The chief dignitary for the program was respected Dr. Vidya Dodwad, Principal, BVDU Dental College and Hospital, Sangli. Other dignitaries who attended the program were the Faculty Members and Interns of BVDU Dental College and Hospital, Sangli with maintainance of social distancing.

The theme for the year 2021 was “Yoga for well being”. The chief guest of honour was Dr.Ruchika Patil, who is an ayurvedic doctor along with being a certified yoga instructor. She is currently teaching at J.J magdum college of Ayurveda, Jaysingpur.

Dr. Samruddhi Metha, NSS Programme Officer and Dr. Swapnil Metha, Assistant Programme officer organised the event and the host for the event was Ms.Keerthi Nair, Intern.

The chief guest delivered a speech on Scientific Benefits of Various Yoga Asanas proceeded with her demonstration of various asana that is various body postures while standing, sitting, and in supine positions. They were explained the importance of yoga along with its benefits followed by a small video construing the same.

The program was concluded by Dr.Samruddhi Metha proposing the vote of thanks followed by handing over the Certificate as token of appreciation to the chief guest by the auspicious hands of Dr.Vidya Dodwad, Principal, Bharati Vidyapeeth Deemed to be University, Dental College and Hospital, Sangli.

The program was very well received and active participation by all faculty members and students was perceived.

To

The Principal & Dean

BVDU College of Ayurved, Pune

Subject: The permission regarding organizing lecture series on Soft Skill / Life skill / Language communication / Awareness of trends.

Respected Sir,

The Student Support cell & Internship in-charge are planning to organize a series of lectures for the undergraduate students and interns.

These lectures will be based on Soft Skill / Life skill / Language communication / Awareness of trends.

All these lectures will be conducted by expert people of respective fields. So, these will be definitely useful for overall development of students. Students will certainly implement information and knowledge perceived by them in their own career field.

Considering all this please permit us for conduction of such fruitful program.

We will organize this series in March 2021 as per the availability of eminent personalities

Yours Faithfully

FDP report on “Advancements and Research opportunity in Electronics and Telecommunications”

Department of Electronics and Telecommunications of Bharati Vidyapeeth(Deemed to be University) College of Engineering-Pune had organized 1 Week faculty development program on “Advancements and Research opportunity in Electronics and Telecommunications” in association with Shahajirao Patil Vikas Pratishthan's S.B. Patil College of Engineering-Indapur during 4th August 2020 to 8th August 2020. Keeping in mind the ongoing pandemic and large number of registered participants (More than 800) from all across India, mode of conduction of this FDP was online through Microsoft Teams.

Following are details of day-wise sessions conducted by experts in the field.

Day And Date	Time	Speaker & Topic
DAY 1 : 04/08/2020	10:30-11:15	Inauguration Function
DAY 1: 04/08/2020	11:15-12:30	Dr. Sukanta Kumar Tripathy Sensitivity Enhancement In Optical Sensors With Nanomaterial Coatings.
DAY 2 : 05/08/2020	10:30-12:00	Dr. Vishal Moyal VLSI Technology And Its Applications In Covid 19
DAY 3: 06/08/2020	10:30-11:30	Dr. Ketan J. Raut SPICE Programming as a Tool in Research
	11:30-12:30	Dr. Neeta Anilkumar Doshi Role of ENTC in Fight Against COVID - 19
DAY 4: 07/08/2020	10:30-12:00	Dr. R M Potdar Scope Of AI And Embedded System Post COVID 19
DAY 5: 08/08/2020	10:30-11:30	Dr. Kiran Parmar Future of 5G/6G Mobile Communications in India
	11:30-12:30	Dr. Sanjay V. Dudul Recent Trends In Electronics And Telecommunication Engineering: Deep Learning
	12.30 onwards	Valedictory Function

PATRONS

Hon. Dr. Patangrao Kadam,
Founder Chancellor,
Bharati Vidyapeeth

Hon. Dr. Shivajirao Kadam,
Director,
Bharati Vidyapeeth (Deemed to be University)

Hon. Dr. Manjira Salunke,
Vice-Chancellor,
Bharati Vidyapeeth (Deemed to be University)

Hon. Dr. Maheshji Kadam,
Vice-Chancellor,
Bharati Vidyapeeth (Deemed to be University)

Hon. Harshwardhan Patil,
President,
SBPCOE, Indapur

Hon. Smt. Bhagyashree H. Patil,
Secretary,
SBPCOE, Indapur

Hon. Mr. Rajeshwarbhai Patil,
Member,
SBPCOE, Indapur

Hon. Mrs. Anshikata H. Patil,
Vice president,
SBPCOE, Indapur

TOPICS TO BE COVERED

1. Dr. Neeta Anilkumar Doshi : Role of E&Tc in COVID-19
2. Dr. Sukanta Kumar Tripathy : Sensitivity enhancement in optical sensors with nanomaterial coatings.
3. Dr. Sanjay V. Dudul : Recent Trends in Electronics and Telecommunication Engineering: Deep Learning
4. Dr. Vishal Moyal : VLSI technology and its applications in COVID 19
5. Dr. Ketan J. Raut : SPICE Programming
6. Prof. R M Potdar : Scope of AI and embedded system post COVID 19
7. Dr. Kiran Parmar : 5G/6G mobile communications.

CHAIRMAN

Dr. Pravin D. Nemade,
Principal, SBPCOE, Indapur

Dr. Anand Bhalerao,
Dean & Principal, BV(DU), COE, Pune

CONVENOR

Dr. Shruti Oza,
Head of Department,
E&Tc Engineering, BV(DU)COE, Pune

Prof. Yogesh S Bahendwar,
Head of Department,
E&Tc Engineering, SBPCOE, Indapur

FDP COORDINATOR

Prof. Swapnil Thorat,
Assistant Professor,
Dept. of E&Tc Engineering, BV(DU)COE, Pune

Prof. Ashwini Zadbuke,
Assistant Professor
Dept. of E&Tc Engineering, SBPCOE, Indapur

No Registration Fee

Expert Lecture on CAE – Computer Aided Engineering By ELEATION

❖ What is CAE – Computer Aided Engineering

❖ Difference between CAD and CAE

❖ Why to learn CAE software?

What is CAE – Computer Aided Engineering

What is CAE ?

Computer-aided engineering (CAE) is the broad usage of computer software to aid in engineering analysis tasks. It includes Finite Element Analysis (FEA), Computational Fluid Dynamics (CFD), Multibody dynamics (MBD), Optimization, etc.

Difference Between CAD and CAE

Difference Between CAD and CAE

CAD is about creating or generating 3D model (Design).

CAE is about testing its characteristics (Material, Strength, Life...) using engineering methods.

Why to Learn CAE Software

Why to Learn CAE Software?

All these products / parts / assemblies are upgrading as per market requirements.
Maximum parts / assemblies / components / products come with guarantee or warrantee

For any part / component / product manufacturer to give guarantee or warrantee, first the company should know:

- What loads this part can take
- For how much duration this component will survive
- If in case it fails then failure location
- What material is best suitable for this component
- And many more...

To Answer these questions companies have 3 ways:

- ❖ Analytical
- ❖ Numerical
- ❖ Experimental

This is also called as design validation

There are 3 Methods to Validate any Design:

Analytical

$$\delta_{\max} = \frac{Pl^3}{48EI}$$

$$\sigma = \frac{My}{I_x}$$

Numerical

Experimental

There are 3 Methods to Validate any Design:

Analytical

Advantages:

1. It gives 100% accurate results

Disadvantages:

1. Only find the results if you have formulas
2. Time Consuming
3. Accuracy can't be believed blindly
4. Calculations can be done only on single point.

Numerical

Advantages:

1. We can solve real life complicated problems
2. Results can be achieved faster.
3. Results can be achieved on Entire Geometry.
4. Applicable even if a physical prototype is not available.

Experimental

Advantages:

1. Physical / Manufacturing errors can be considered in Results.
2. Actual Measurements

Disadvantages:

1. Time Consuming and need expensive set up
2. Applicable only if Physical Prototype is available.
3. Minimum of 3 to 5 prototypes must be tested

Numerical Methods

There are total 4 Numerical Methods:

1. Finite Element Method (**FEM**) / Finite Element Analysis (**FEA**)
2. Boundary Element Method (**BEM**)
3. Finite Volume Method (**FVM**)
4. Finite Difference Method (**FDM**)

1. Finite Element Method (FEM) :

The **finite element method (FEM)** is a numerical technique for finding approximate solutions to boundary value problems for partial differential equations. It is also referred to as **finite element** analysis (FEA).

Inputs:

1. Loads (loads can be forces, pressures, velocity, acceleration, temperature etc.)
2. Temperatures
3. Constraints etc.

Outputs:

1. Forces
2. Displacements
3. Stresses
4. Strains etc.

Note: Inputs & outputs can vary w.r.t time.

2. Boundary Element Method (BEM) :

Boundary element method (BEM) is most often used as an engineering design aid - similar to the more common finite element method - but the **BEM** has the distinction and advantage that only the surfaces of the domain need to be meshed.

Inputs:

1. Loads (loads can be forces, pressures, velocity, acceleration etc.)
2. Vibrational parameters
3. Supports and constraints

Outputs:

1. Vibrational Effects
2. Stresses
3. Deformation

Note: Inputs & outputs can vary w.r.t frequency.

3. Finite Volume Method (FVM) :

Most **Computational Fluid Dynamics (CFD)** software is based on FVM. The unit volume is considered in Finite Volume Method (similar to element in finite element analysis). Variable properties at the nodes include pressure, velocity, area, mass, etc. It is based on the Navier - Stokes equations (Mass, Momentum, and Energy conservation equilibrium equations).

Inputs:

1. Velocity
2. Pressure
3. Mass flow rate
4. Temperature etc.

Outputs:

1. Same as inputs like velocity, pressure, temperature etc.
2. Liquid/Mass/Volume Fractions
3. Lift and drag coefficients

4. Finite Difference Method (FDM) :

Finite Element and **Finite Difference Methods** share many common things. In general the Finite Difference Method is described as a way to solve differential equation. It is used in combination with BEM or FVM to solve Thermal and CFD coupled problems.

4. Finite Difference Method (FDM) :

We need to find out how much stresses are generated on the airplane wing due to fluid (air).

In FVM we cannot find stresses but we can find the load (pressure) exerted by air. After getting loads from FVM, we use FEM to get stress results.

This coupling of multiple methods is known as **Finite Difference Method (FDM)**.

Air flow over an
airplane wing:

Pressure due to
air flow (FVM):

Stress due to
pressure (FEM):

What is FEA/FEM?

Finite – Any continuous object has infinite degrees of freedom and it is not possible to solve the problem in this format. The Finite Element Method reduces the degrees of freedom from infinite to finite with the help of discretization or meshing (nodes and elements).

Element – All of the calculations are made at a limited number of points known as nodes. The entity joining nodes and forming a specific shape such as quadrilateral or triangular is known as an Element. To get the value of a variable (say displacement) anywhere in between the calculation points, an interpolation function (as per the shape of the element) is used.

Method - There are 3 methods to solve any engineering problem. Finite element analysis belongs to numerical method category.

What is FEA/FEM?

Example:

What is FEA/FEM?

Actual Part

Infinite number of points, it means infinite calculations.

Meshed

Finite number of points called as **nodes**.

The shape they create is known as **Elements**.

Results

Results are calculated at nodes and **interpolated** for the elements.

Are FEA and FEM different?

Finite Element Method (FEM) and Finite Element Analysis (FEA) both are one and the same. The term “FEA” is more popular in industries while “FEM” is more popular at universities.

Advantages of FEA / FEM

1. Better **Visualization** of Failure Location
2. Lower down the **Design cycle time**
3. Decrease the **Number of prototypes**
4. Cut the **Testing** cost
5. **Optimum design** can be achieved faster

Discretization of problem:

All real life objects are continuous. This means there is no physical gap between any two consecutive particles. As per material science, any object is made up of small particles, particles of molecules, molecules of atoms, and so on and they are bonded together by the force of attraction. Solving a real life problem with the continuous material approach is difficult. **The basis of all numerical methods is to simplify the problem by discretizing (discontinuation) it. In other words, nodes work like atoms and with gap in between is filled by an entity called an element.** Calculations are made at the nodes and results are interpolated for the elements.

From a mechanical engineering point of view, any component or system can be represented by three basic elements:

All the numerical methods including the Finite Element Method follow the discrete approach. Meshing (nodes and elements) is nothing but the discretization of a continuous system with infinite degree of freedoms to a finite degree of freedoms.

Why do We Carry Out Meshing?

The basic idea of FEA is to make calculations at only limited (Finite) number of points and then interpolate the results for the entire domain (surface or volume). Any continuous object has infinite degrees of freedom and it's just not possible to solve the problem in this format. Finite Element Method reduces the degrees of freedom from infinite to finite with the help of discretization or meshing (nodes and elements).

The Finite Element Method only makes calculations at a limited (Finite) number of points and then interpolates the results for the entire domain (surface or volume).

What is DOF (Degree Of Freedom)

The minimum number of parameters (motion, coordinates, temp. etc.) required to define the position of any entity completely in the space is known as a degree of freedom (dof).

Translational Movement in
Three Perpendicular Axes

+

Rotational Movement about
Three Perpendicular Axes

=

Six Degrees of Freedom

Example:

Displacement on x-axis = 0

All of the elements do not always have 6 dofs per node:

- The number of dofs depends on the type of element (1-D, 2-D, 3-D).
- The family of element (thin shell, plane stress, plane strain, membrane, etc.).
- The type of analysis. For example, for a structural analysis, a thin shell element has 6 dof/ node (displacement unknown, 3 translations and 3 rotations) while the same element when used for thermal analysis has single dof /node (temperature unknown)

For a new user it is a bit confusing but there is lot of logical, engineering, and mathematical thinking behind assigning the specific number of DOFs to different element types and families.

General Procedure of Simulation in CAE software

Lets assume we need to find axial Stress on any component

Once we have inertia on Element, and then we apply load on element then

If we have original length and
change in length,
Then we can calculate Strain
If we have strain and Young's
modulus then we can calculate
stress.

Element Shapes and its characteristics

In general, four shapes are possible: point, line, area, or volume. :

1. A point element is typically defined by one node, such as a mass element.
2. A line element is typically represented by a line connecting two or three nodes.
Examples are beams, spars, pipes, etc.
 - **We Use 1D Elements when One of the Dimensions of the object / component is very very large as compared to other two dimensions.**
3. An area element has a triangular or quadrilateral shape. Example Quad and Tria
 - **We Use 2D Elements when Two of the Dimensions of the object / component is very very large as compared to the Third Dimension (Generally Thickness)**
4. A volume element has a tetrahedral or brick shape and is usually a 3-D solid element.
 - **We Use 3D Element when all the three dimensions of the object / component are comparable.**

Type	Actual Model	Element Shape (Geometric properties defined by Nodes)	Additional Requirement (Actual Volume Calculation)
1D Element	Steel Rod 	Beam element with 2 nodes (Length Only) 	Cross – Sectional Parameters (Area) $V = L \times A$
2D Element	Sheet Metal Component 	Quad Element with 4 nodes (Area Only) 	Thickness (T) $V = A \times T$
3D Element	Metal Cube 	Hexa Element with 8 Nodes (Volume) 	None Element itself has volume.

The 10 questions you should be able to answer...

The following is a list of the 10 questions you should be able to answer about any given FE simulation. It is also a good checklist to bring along to presentations by others as a guide to assure all your questions are answered. If you have not or cannot answer these questions you need to go back and understand why.

- 1. What is the problem you are trying to solve?**
- 2. What geometry are you using?**
- 3. What solution type are you using?**
- 4. What is your material model?**
- 5. What are your element selections?**
- 6. What are your constraints?**
- 7. What are your loads?**
- 8. How are you combining the loads and the constraints?**
- 9. What are the results?**
- 10. What are your recommendations?**

Thank You...!!!!

 SELECTIONTM

Questions and Answers

Questions and Answers

Question 1 : Students/college needs to pay any amount / fees for training and internship?

Answer : No, after the online test, Top 5 students selected from your college will get 100% free life time access to training and internship program.

If and only if other students wants to do training and internship with ELEATION, then and only then they need to pay the course fees of INR 1000/-. Otherwise neither college nor students have to pay any amount / fees to ELEATION for Training and internship.

Question 2 : Will students get any stipend during internship?

Answer : No, There is no stipend during internship program.

Question 3 : For Training or internship does student needs to travel?

Answer : No, this is virtual training and internship program, student can complete the training and internship from there own location.

Question 4 : For Training and internship does student require laptop/desktop?

Answer : Yes, we will provide a link though which student can download free licensed version of ANSYS software on his/her laptop/desktop.

Questions and Answers

Question 5 : Why ELEATION is charging INR 1000/- for the Internship?

Answer : INR 1000/- is not for the Internship, all the other students, those who are not selected for free online training and Internship program, if and only if they want to learn CAE and ANSYS software from ELEATION, then only then they have to pay INR 1000/- which is the course fees for ELEATION's ANSYS Basic To Professional Training Program.

Question 6 : Why ELEATION is not selecting more students for Free online training?

Answer : last year we have selected more students for free online training, but most of the students didn't even started the training. Per student ELEATION has to bear a training cost of INR 1000/-, so based on our last year experience, this year we are selecting only top 5 students for free online training.

Question 7 : Is there any placement opportunity for students after Training and Internship?

Answer : Yes, ELEATION conducts On and Off Campus placement process, students can attend the Placement process and if they clear the placement process they can join ELEATION company as CAE engineer with CTC of 3.8 Lakhs per annum.

Thank You...!!!!

How to Start Virtual (online) Training and Internship Program

After 48 Hours i.e. after 2 Days, from the test date and time, Team ELEATION will send a mail from hr@eleation.com to all the students and College TPO/HOD/Faculty, containing the results of ELEATION's Training and internship Online Test.

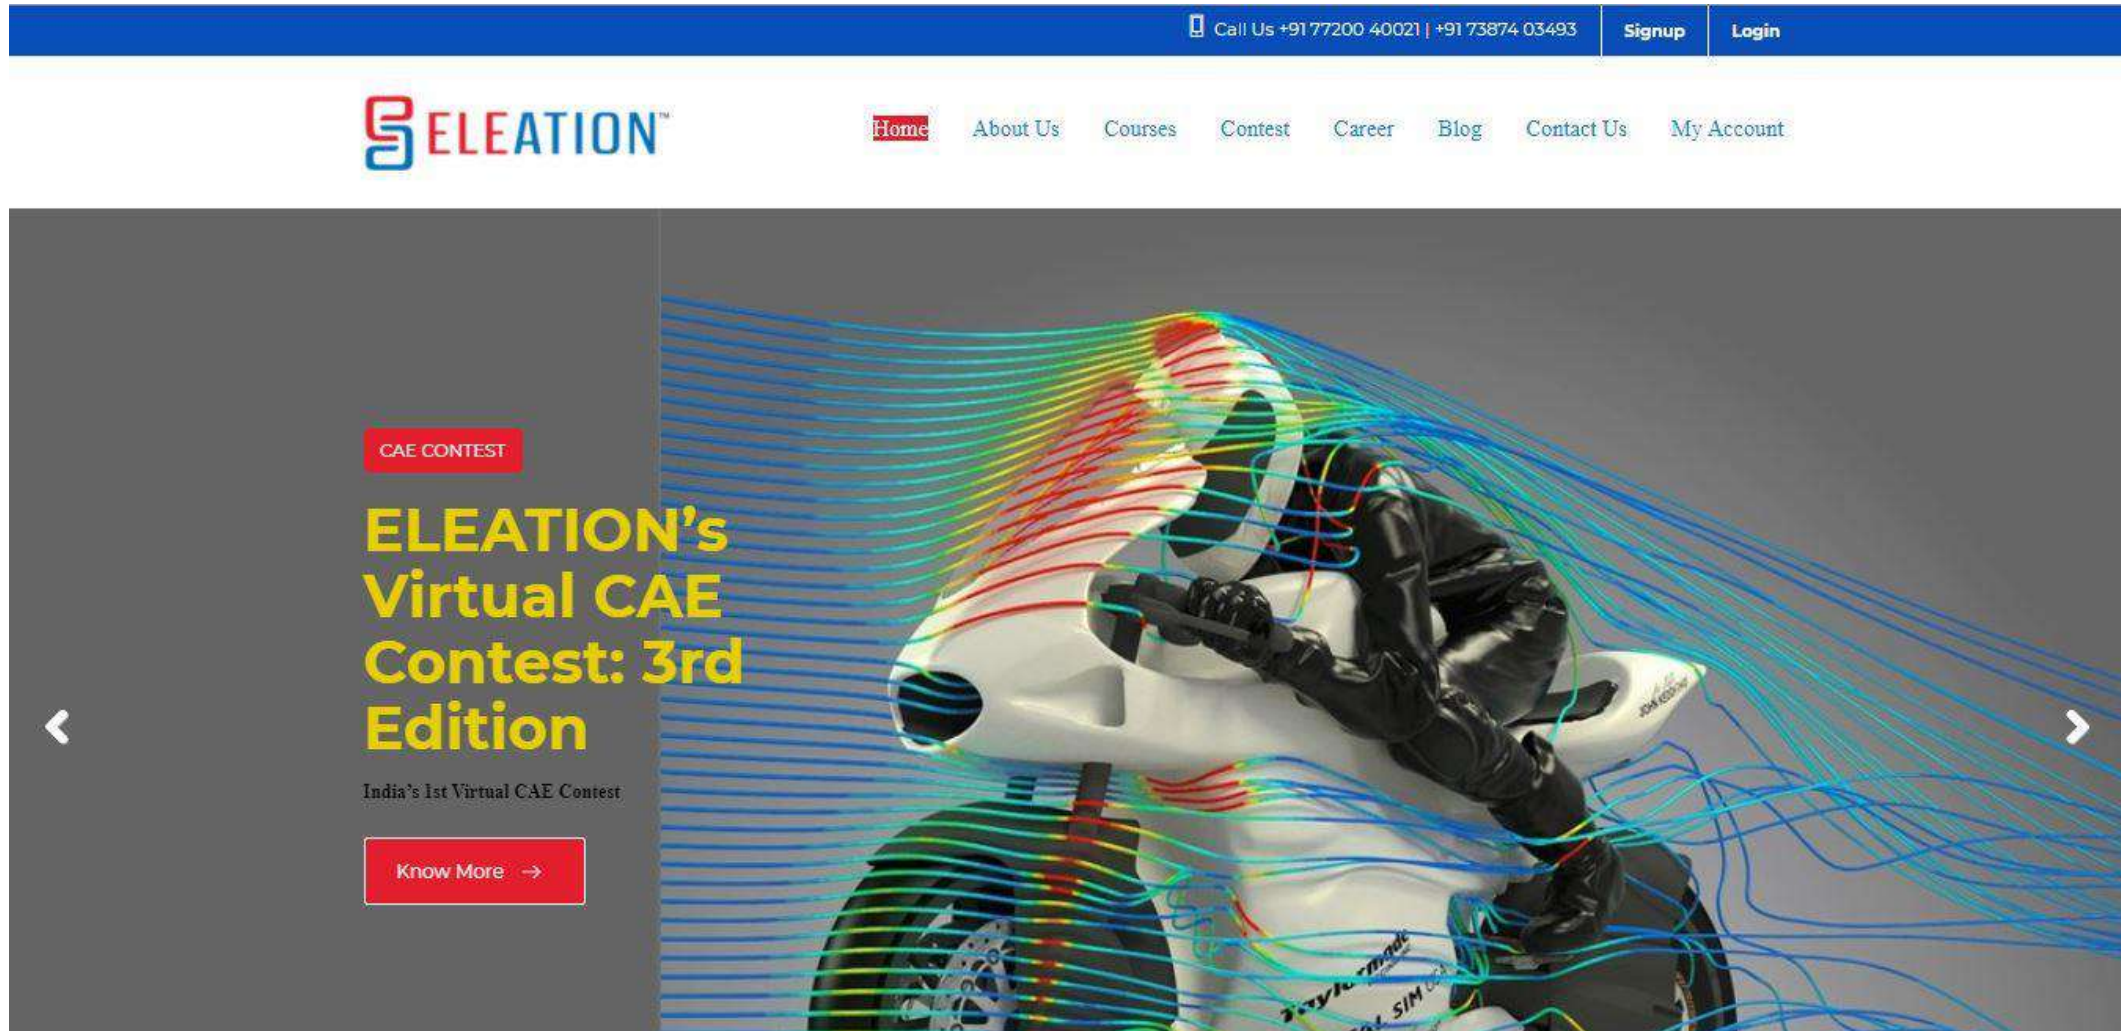

Team ELEATION is conducting the ELEATION's Training and Internship online test, to select the students who will get 100% free lifetime access to ELEATION's ANSYS Basic To Professional Training Program.

Online (Virtual) internship is part of ELEATION's ANSYS Basic To Professional Training Program.

- ❖ We have covered the complete Course content in 65 sessions.
- ❖ This is Video based (self-learning) Training Program. In which students will get videos covering all the topics, theory PDF's, practice models, homework and assignments with lifetime access.
- ❖ Students can complete 1 session per day and complete the training in 65 days or students can complete 10 sessions per day and complete the training in 7 days. There is no deadline to complete the training, students can complete the training as per their convenience.
- ❖ Once students submits all 65 session tests, then the student can download the training certificate from ELEATION's Website. Training duration mentioned in the training certificate is 60 Days (2 Months)
- ❖ After Complete the Training, students can download Internship Project, solve the internship project using ANSYS Software, create the solution report, submit the solution report on ELEATION's Website, then the students can download Internship Letter, Letter of recommendation and experience letter.

After 48 Hours i.e. after 2 Days, from the test date and time, Team ELEATION will send a mail from hr@eleation.com to all the students and College TPO/HOD/Faculty, containing the results of ELEATION's Training and internship Online Test.

NEWS & ANNOUNCEMENT

Greetings from ELEATION.....!!!!

- ELEATION conduct Global Contest on CAE and CAD. For More details please click on "ELEATION's Contest" button.
- ELEATION Offers Online, Offline and Self Learning Courses on ANSYS and HyperWorks CAE(Simulation / Analysis) Software. for More details please click on "ELEATION's Courses" Button.
- ELEATION conducts off campus placement drives (Direct Placement), for More details please click on "Placement & Hiring" Button.
- ELEATION conducts on campus placement drive (Through Colleges),for more details please click on "College Test" Button.
- As Training and placement officer of any Indian Engineering college, if you want ELEATION to organise on campus placement drive, then please visit "TPO registration" Button
- ELEATION provide Free Online(Virtual) Faculty Development Program. To Know more Please visit " Faculty Development Program" Button

Test Date :- 2021-06-10

Test Time :- 8:00:00 to 18:00:00

College Name :- ELEATION

ELEATION is pleased to announce ELEATION's CAE(ANSYS) Training & Internship Program.

Key Features of ELEATION's CAE(ANSYS) Training & Internship Program is :

1. Complete Training on ELEATION's CAS(ANSYS) Basic To Professional Training Program.
2. ELEATION's CAE(ANSYS) Basic To Professional Training Certificate.
3. Industrial Internship Project.
4. Internship letter, letter of recommendation and experience letter.
5. Lifetime access to training videos, theory PDF, Homework and assignments.

After Online Test:

Within 48 Hours we will update the database and Top 5 students will see the updated dashboard with Start Learning Option as They go 100% scholarship on registration fees, they can Start ELEATION's Training and Internship Program without paying any registration (Course) fees

All the other Students, If they also want to join ELEATION's Training and Internship Program, then they need to click on Pay Now Button and Pay the registration (Course) fees of INR 1000/- as They have received INR 500/- off on Registration fees.

All the other students, if and only if they want to join ELEATION's ANSYS Basic To Professional Training Program, then and only then they have to pay INR 1000/- as the course fees for ELEATION's ANSYS Basic To Professional Training Program

To pay the course fees and join the training program click on pay now button

Dear Apoorv Bapat

Greetings from ELEATION's...!!!

Thanks for showing interest in ELEATION's ANSYS BASICS TO PROFESSIONAL TRAINING PROGRAM.

Team ELEATION's welcomes you on ELEATION's TRAINING PROGRAM CLASSROOM which contains :-

1. 65 videos containing complete course content
2. Theory PDF's, Homework & Assignment Models
3. Session Test
4. Industrial internship project download option
5. Training certificate download option
6. Internship letter, letter of recommendation & experience letter download option.

On ELEATION's ANSYS Basic To Professional Training Program Classroom page, click on Training Session Button to access all 65 sessions.

Online webinar on “Electrical switchgear & its applications”

Online webinar on “Electrical switchgear & its applications” was conducted on webex platform. The program was conducted on 19 August 2020. Programme was conducted by universal power controls. The programme was attended by faculties and students of electrical Engineering department. Total 80 students attended the online program. The students from B Tech Electrical Sem-V and B Tech electrical Sem-VII attended the programme.

The Lecture was conducted by Eminent Industry Experts Mr. Shivanand D.V., CEO, Universal Power Controls, Tumkur, Karnataka 572104. Total 80 Students attended the webinar.

Time: 11.00 am to 1.00 pm

Day: Wednesday

Time: 11.00 am to 1.00 pm

Online Platform WebEx

Speaker Mr. Shivanand D V, CEO Universal Power Controls, Tumkur, Karnataka 572104

Bharati Vidyapeeth

(Deemed to be University)

College of Engineering, Pune-43

Department of Electronics & Telecommunication Engineering

Date :- 24/05/2021

FDP report on “Internet of Things for Futuristic Smart Systems”

Department of Electronics and Telecommunications of Bharati Vidyapeeth(Deemed to be University) College of Engineering-Pune had organized 1 Week faculty development program on“Internet of Things for Futuristic Smart Systems” during 17th May 2021 to 21st May 2021. Keeping in mind the ongoing pandemic and large number of registered participants (1328) from all across India, mode of conduction of this FDP was online through Microsoft Teams.

The Internet of Things (IoT) has evolved from the convergence of wireless technologies, and the Internet, by connecting “things” in the real world such as home appliances, industrial equipment, surveillance cameras, monitoring sensors, and actuators. This FDP aims to make the participants realize the importance of IoT and its applications in various fields as well as to demonstrate some demo projects on specific applications. This course also gave an introduction to IoT, so that participants can learn to build their own IoT products for various applications, and it also enabled them to convert their product ideas into a working prototype. The IoT will foster the development of a number of applications that make use of the potentially enormous amount and variety of data generated by such objects to provide new services to citizens, companies, and public administration. As this FDP targets any enthusiast the essential data however in deep like “what is IoT?”, the scope, benefits, and effects of IoT on numerous digital technology and devices. Many of our participants confirmed through their feedback that lectures in the areas created interest among the faculty members to pursue research which will lead to new market opportunities for communication, healthcare, energy, lighting and agriculture.

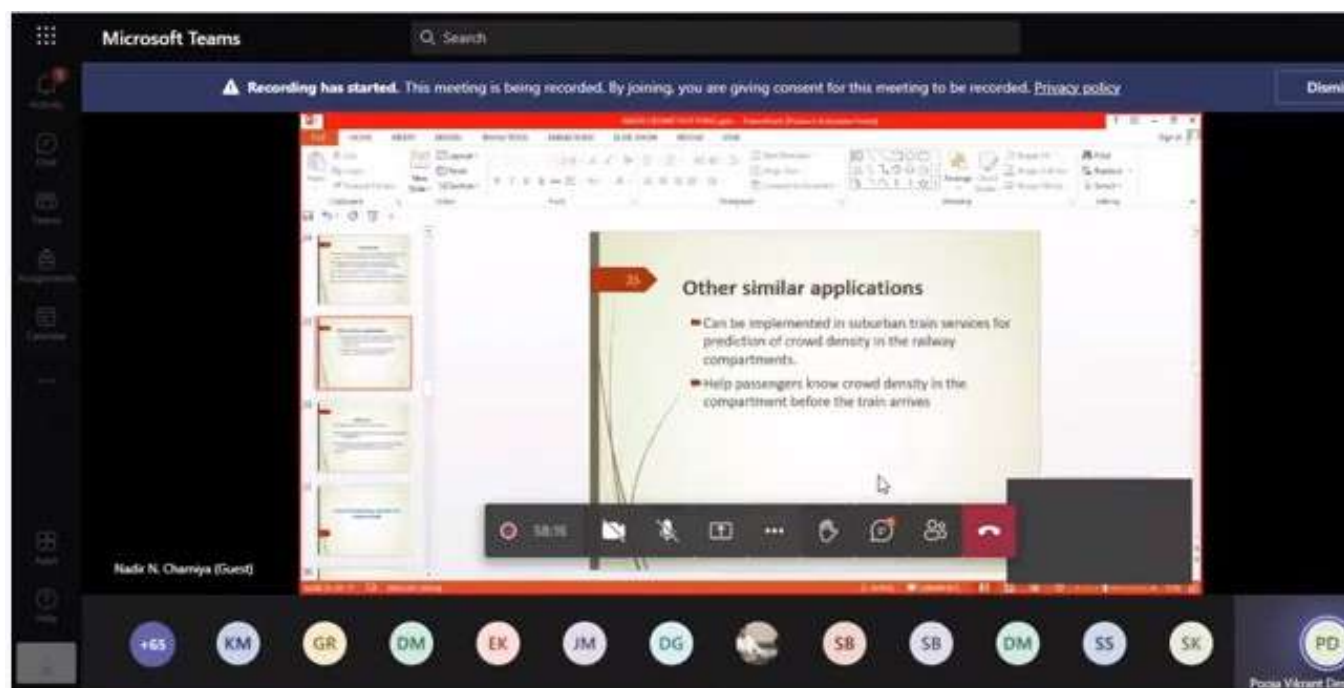

Following are details of day-wise sessions conducted by experts in the field.

Day And Date	Time	Speaker & Topic
DAY 1 : 17/05/2021	10:30-11:15	Inauguration Function
DAY 1: 17/05/2021	11:15-01:00	Mr. Abhijeet Deogirikar: “IoT and Enabling Technologies: How IoT solutions are build” Founder, COE & Director (Technology) CopperCloud IOtech Pvt. Ltd. Pune
DAY 2: 18/05/2021	10:30-12:30	Mr. Abhijeet Deogirikar: “IoT and Enabling Technologies: How IoT solutions are build” Founder, COE & Director (Technology) CopperCloud IOtech Pvt. Ltd. Pune

DAY 3: 19/05/2021	10:30-12:30	Dr. Naadir Charniya: “Societal Innovations of IOT using Fusion of ML and DL” Professor, Department of E&TC, Vivekanand Education Societies Institute of Technology Mumba
DAY 4: 20/05/2021	10:30-12:30	Dr. Rajesh Ghongade: “Fundamental Building Blocks of IOT” Professor, Department of E&TC, Bharati Vidyapeeth (Deemed to be) University, College of Engineering ,Pune
DAY 5: 21/05/2021	10:30-12:30	Mr. Nitin Solanke: “Industry 4.0 & IoT” Gizmo Techno Solutions Pvt.Ltd.- Pune.
	12.30 onwards	Valedictory Function

BHARATI VIDYAPEETH

(DEEMED TO BE UNIVERSITY)

COLLEGE OF ENGINEERING ,PUNE

BHARATI VIDYAPEETH (DEEMED TO BE UNIVERSITY) **COLLEGE OF ENGINEERING ,PUNE**

Bharati Vidyapeeth (Deemed to be University)

Bharati Vidyapeeth University is one of the largest multi disciplinary university in India having 29 Constituent INstitutions located in eight sprawling campuses which offer 278 plus academic programs. The university started functioning on 26 April 19% and has earned reputation of being one of the top Universities in India. University has been accredited to 'A+' Grade by NAAC in 2004 and in 2011. It has reaccredited to 'A+' Grade by NAAC in 2017

Bharat Vidyapeeth (Deemed to be University), College of Engineering, Pune

Bharati Vidyapeeth (Demed to be University) College of Engineering, Pune(BVDUCOEP) is one of the well-known and well appreciated institutes imparting technical education since 1983. The institute has been ranked amoong top 100 engineering colleges of India (93* in 2019) by National Institutional Ranking Framework (NIRF) OF MHRD, GOI, AICTE-Internshala ranked this Institute to 46 at National level and 8h in West zone for best internship record. The sucessful interaction with industry has resulted in getting this institute to 46h a Platinum Category status by AICTE - CII. Many other ranking agencies such as DATAQUEST-CMR (359)Times of India (13"), & Outlok(46") have ranked this institute among top 100 Engineering Colleges of India.

Department of Electronics and Telecommunication

Department of E&TC has been on a high growth path. The department has experienced and dedicated faculty members who work with zeal and enthusiasm along with strong commitment to engineering education. The department boasts of state-of-the-art laboratories, such as Mobile and Satellite Communication, Computer Network Mana-gement, Digital Signal Communication etc. The Department provides access to high end softwares and tools to students for study and research and also give them the necessary and sufficient backing of practical knowledge.

Report on
Webinar on MATLAB for Deep Learning

Date: 07/07/2020

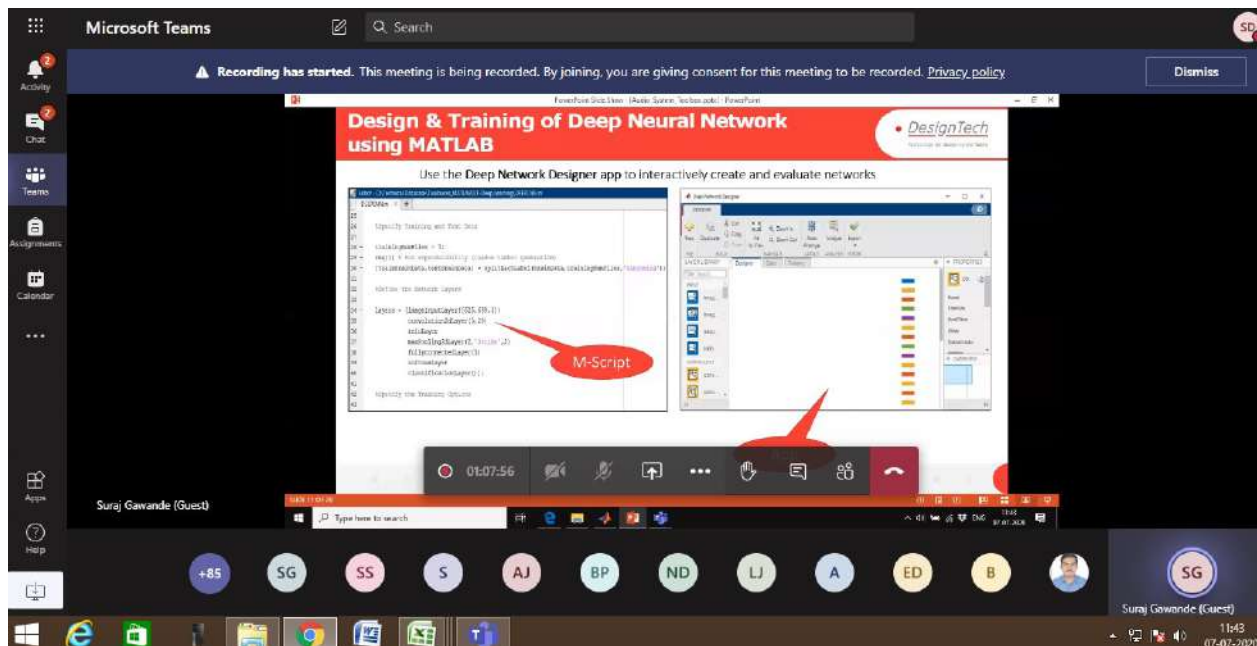

The webinar conducted by Suraj Gawande, Sr. Engineer of MATLAB Technical Team at DesignTech Systems Pvt. Ltd in college of MATLAB for Deep Learning on 07th July2020 was basically to give brief idea about technology of Machine Learning with MATLAB, Machine Learning Algorithms, Deep Learning using MATLAB. 181 members are participated in this webinar.

The points covered in workshop were –

- What is machine Learning?
- Classification of Machine Learning.
- Algorithm selection for Machine Learning.
- Selecting right algorithm for given data analysis.
- What are hyperparameters?
- What is Deployment?
- About Deep Learning as advancement of Machine Learning.
- Deep Learning using MATLAB.
- About Convolutional Neural Network(CNN) model.
- About Long Short Term Memory Network(LSTM) model.
- Analysis using different data sets.
- Basic Demonstration.

With advancement of technology there is a lot of work need to be done in these fields. This webinar would definitely inculcate skill in students which would be highly useful for building basic to complicated projects in future.

So the information given in webinar was very useful to develop further projects and also to analyse data for various data sets.

Date: 15/06/2020

Notice regarding Student Training Program

This is to inform to all B.Tech Mechanical Students that The Department of Mechanical Engineering, BV(DU)COE, Pune is organizing **Student Training Program on UG NX CAD** from, 25th June 2020 to 20th July 2020 in association with Prestine TechSystem. Interested students contact to Prof. D.B. Jadhav and Prof. D.D. Mohite to enroll to the STP.

HOD

Day 1 to Day 2

Duration: 2 Hrs. each day

1. Introduction to CAD/CAM and NX:

Concept Parametric/Un-parametric Modeling, UG CAD User Interface and setting Preferences, Pull Down Menus, Resource Bar/Part Navigator, Cue/Status Bar, Toolbars, Icons, Pop-up Menu, Visualization Commands Zoom, Rotate, Pan etc, Access Methods, Using Snap Options.

2. Preferences & Customer Defaults

Setting up the Preferences & Customer Defaults,

3. UI Customization

Setting commands on diff.menu bars & tool bars, short cut keys, Roles creation, working on full screen.

4. Sketcher:

Datum, Point, Coordinate System, Curves, Projection curve, Intersection curve, Intersection Point, Fillet, Chamfer, Offset, Pattern, Mirror, Constraining (Dimensional, & geometrical), Trim, extend, Corner.

5. Exercises and evaluation

Day 3 to Day 4

Duration: 2 Hrs. each day

1. Solid Modeling

Extrude

Revolve

Boolean operation (Add, Remove Subtract, Intersect)

Edge, Blend, Face Blend, Chamfer

Draft, Shell

Design Feature- Block, Cylinder, Cone, Sphere

Copy -Pattern Feature, Mirror Feature

2. Exercises and evaluation

Day 5 to Day 7:

Duration: 2 Hrs. each day

1. Solid Modeling (Conti.)

Sweep along Guide, Hole (General, Treaded), Boss, Pocket, Pad, Slot, Grove, Emboss, Rib, Thread, User Defined Feature, Bounding Body

2. Exercises and evaluation

Day 8 to Day 9:

Duration: 2 Hrs. each day

1. Solid Modeling (Conti.)

Detail Feature

Edge Blend, Face blend, chamfer, Draft, draft Body,

Associative Copy

Extract Body, Pattern features, Mirror Body, Mirror geometry, Combine

Unite, Subtract, Intersect, Emboss, Patch, Assembly cut, join face, sew (solid & Sheet)

2. Exercises and evaluation

Day 10 to Day 12:

Duration: 2 Hrs. each day

1. Assembly

Bottom up concept

Top down concept

Assembly constrains

Wave geometry linker

Model compare

2. Synchronous Modeling

Move face, Pull face, Delete face, Replace face, Resize face, Resize blend, delete face ,cross-section edit etc.

3. Exercises and evaluation

Day 13 to Day 15:

Duration: 2 Hrs. each day

1. Drafting

- Drawing sheet
- Drawing views
- Section views
- Centre line
- GD&T
- Surface finish & welding symbol
- Dimensioning
- BOM
- Annotation

2. Exercises and evaluation

3. Questions & Answers

Bharati Vidyapeeth (Deemed to be University)
College of Engineering, Pune
Department of Mechanical Engineering

15 days Online Student Training Programme on "NX CAD Software Training"

Date: 26.6.2020 to 10.7.2020

Prof. D. B. Jadhav

Time: 04:00 pm to 06:00 pm

Prof. D. D. Mohite

Report on Technical Training Program

Date: 05/04/2021

Department of Electronics & Telecommunication organized a technical training program cum workshop for students on "Simulation on Nano-Photonic Devices and Phenomenon using Ansys Lumerical". Two days workshop was conducted by Mr. Ankush Sharma, with Masters in photonic, and designation Application Engineer, at CADFEM & ANSYS. Workshop was held on 2nd & 3rd of April, 2021. 48 students attended workshop.

Day 01:

- **Introduction to Photonic:**

Photonics come from photon which is the smallest unit of light as electron for electricity.

It is generation, process and manipulation of photons to achieve certain functions.

In this field you will come up with terms like Optics, Electro-optics, Opto-electronics etc., all these fields are a part of photonics.

- **The FDTD Method:**

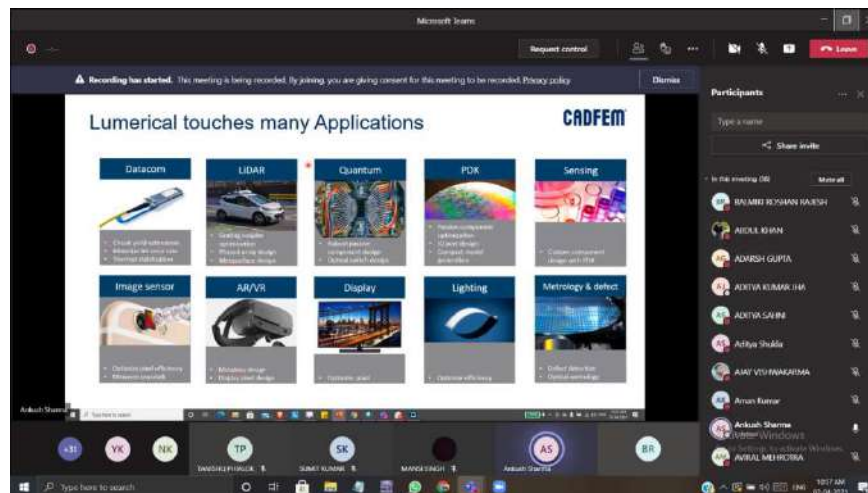

Finite-difference time-domain or Yee's method is a numerical analysis technique used for modelling computational electrodynamics. Since it is a time-domain method, FDTD solutions can cover a wide frequency range with a single simulation run, and treat nonlinear material properties in a natural way.

FDTD is a versatile modelling technique used to solve **Maxwell's equations**. It is intuitive, so users can easily understand how to use it and know what to expect from a given model.

- **Advantages of FDTD Method:**

1. General and versatile, no assumption about geometry or direction of light propagation.
2. Accurate, only approximation is the finite-sized mesh and finite-sized time step.
3. Broadband, as a time domain method, one stimulation gives broadband result.
4. Fast, the FDTD algorithm scales well with parallelization, so it is well suited to modern, multi-core and multi-processor computers
5. High performance computing clusters.

- **Application of FDTD:**

- **THE Spatial Mesh:**
The stimulation geometry is divided up into cells, the fundamental unit cell of FDTD method.
- **The YEE Cell:**
The E and H component are staggered in space over Yee cell. The particular location of E and H are ideal for calculating the spatial derivative at the correct location. This allows us to prevent second order accuracy in space on a uniform mesh.
- **Interface between media:**

Interfaces between media:

CADFEM

How can we handle complicated interface on a discrete FDTD mesh?

- ϵ is discrete
 - We need one ϵ for each component of E field.
- There are many challenges
 - Position of interface is not well defined.
 - Normal E field components are discontinuous at boundaries.
 - Staircasing effects
 - Plasmonic hotspots
- Conformal mesh technology allows us to handle interfaces in a special ways to reduce the effects.

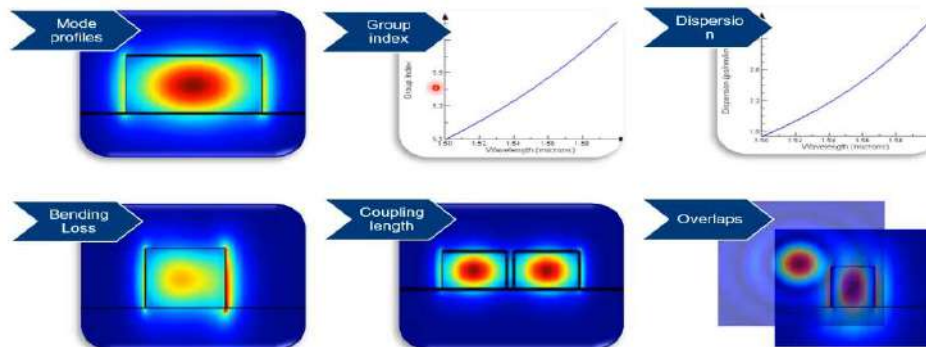

Day 02:

- **AnsysLumerical mode:**
Whether you are working on fibre optics or integrated photonics, MODE solution has everything you need to get the most out of your waveguide and coupler designs. The bidirectional eigenmode expansion and varFDTD easily handle both large planar structure and long propagation length, providing accurate spatial field model frequency and overlap analysis.

- **Key applications:**

- **Finite difference Eigenmode solver: waveguides**

- **Non-linear stimulation methodology:**

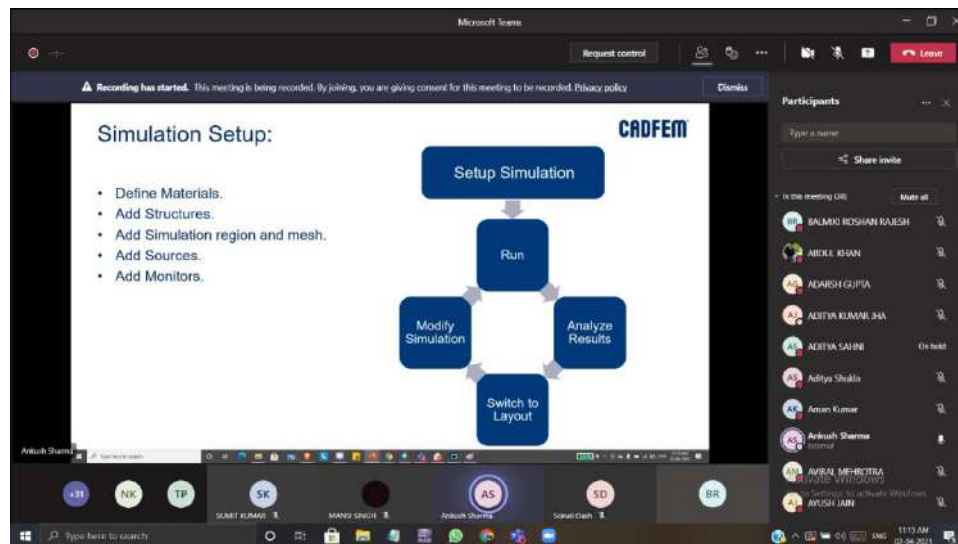

Source	Monitors	Simulations
<ul style="list-style-type: none"> • Precise pulse shape is very important. • Often necessary to adjust source amplitude to required values to create non linear effects. 	<ul style="list-style-type: none"> • Recording data outside the spectrum. • Necessary to adjust the sampling rate of time or frequency monitor. 	<ul style="list-style-type: none"> • Simulation bandwidth override. • Careful while using Bloch boundary conditions. • Convergence and stability.

DETAIL ABOUT THE STIMULATOR USED:

- **Why stimulate?**

Motivation for stimulation is it is faster and cheaper than prototyping a large number of design verify experimental results.

- **Steps for stimulation:**

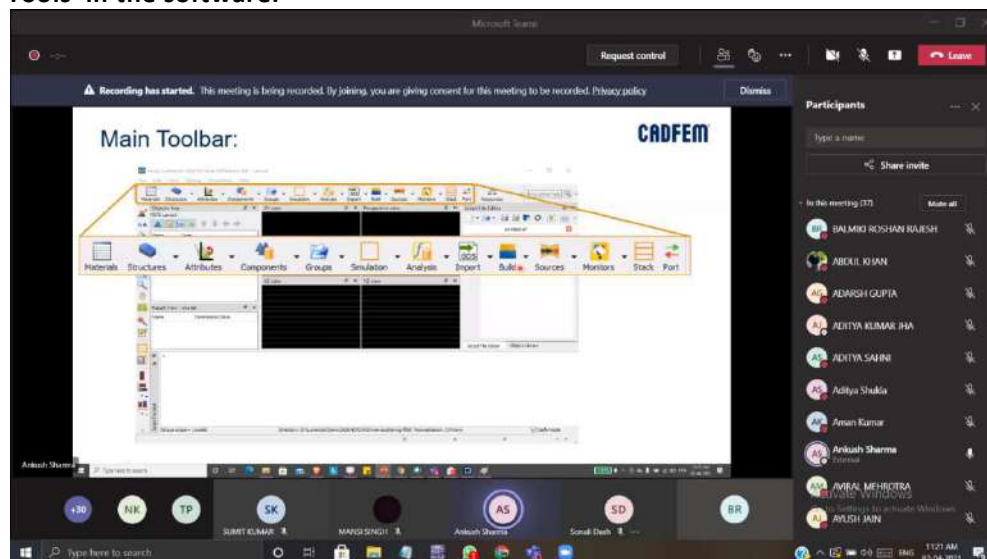

- **About the software:**

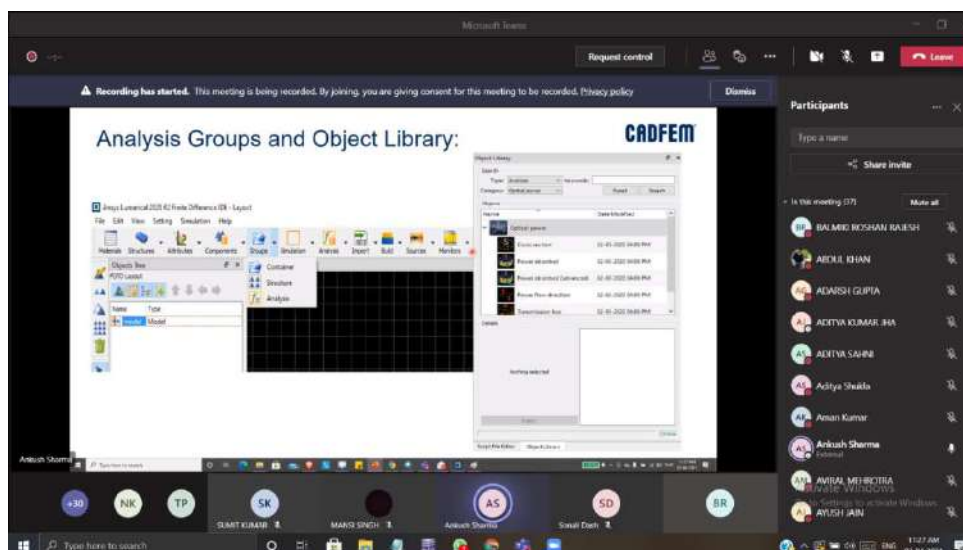

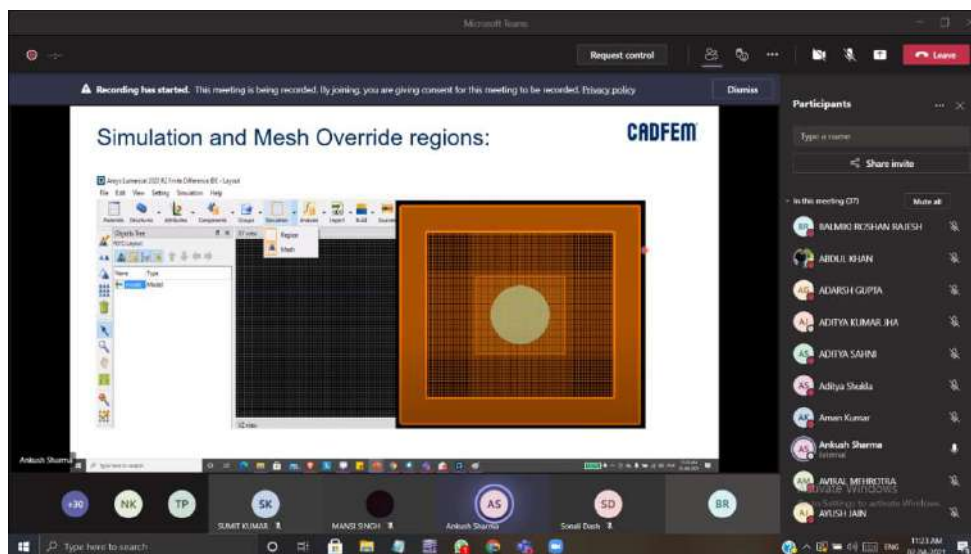

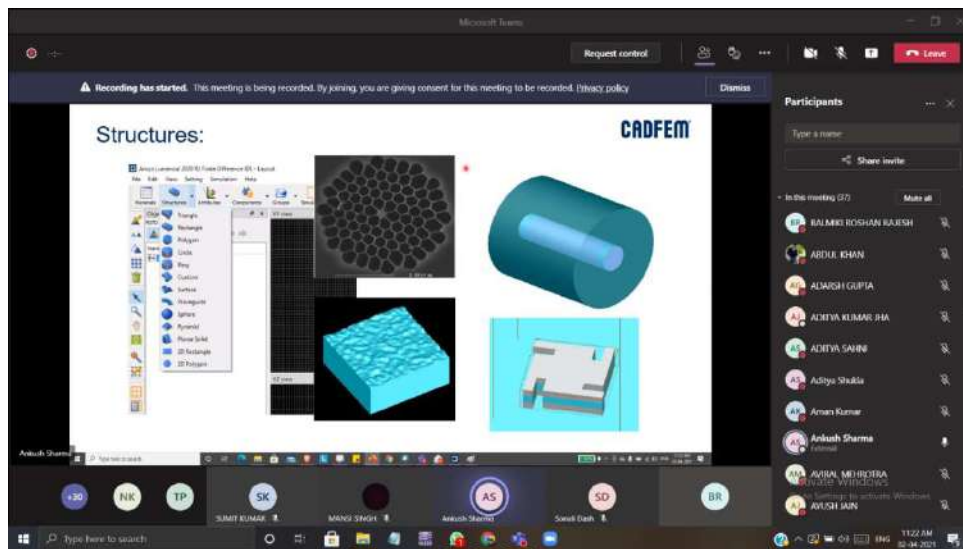

Ansyslumerical

Lumerical's tools enable the design of photonic components, circuits, and systems

Lumerical's DEVICE Suite of component-level simulation products use multiphysics-style simulation workflows to model optical, electrical and thermal effects at the physical level. Lumerical's SYSTEM Suite of system-level simulation products offer a rich set of analysis capabilities to design and optimize the performance of photonic integrated circuits

- **Tools in the software:**

OBJECTIVE OF THE WORKSHOP:

- The main objective of this workshop was to learn a research-based topic called as photonic and gaining more knowledge about such an unexplored subject.
- To practice practical based on stimulator.
- Exploring wonderful opportunities for learning and internships.

CONCLUSION:

- The workshop gave us a brief information about various aspects of photonics, as well as about the operation of the stimulator numerical.
- In a book we only acquire theoretical knowledge but in actual the parametric implementation of the same can be grasped by using the stimulator.

1	NSS volunteers	19	31
2	Other students	35	30
3	Teaching staff	02	02
	Beneficiary Total via social media etc	120 students and staff of college	

The NSS Unit of the college of Architecture has 50 no.s Volunteers.

The Orientation programmes for the students are conducted in months as stated above.

.The orientation is about the role of the NSS volunteers in the society and in the college,the positive virtues of the NSS volunteers,the benefit for NSS volunteers in personality building,teamwork and nation building.The NSS Program officer,Professors and Principal of the college are ever willing to participate and contribute for this orientation programs.Several Queries raised by the NSS volunteers right from student elections,enrolment,NSS student groups,NSS work in the year are answered during these orientation sessions.As mandated total 20 hours have been spent for these activities.

EXTENSION ACTIVITIES :- NSS UNIVERSITY/COLLEGE LEVEL EVENT:-

ACTIVITY NO.2 – ACTIVITIES FOR PREVENTION OF SPREAD OF COVID-19 VIRUS

Day and Date:- various events april 2020 to may2020

Time :- Total hours spent 20 hours

Venue :- Students have participated from their homes posted results via online reports and photographs

- Introduction:- The NSS unit of Bharati Vidyapeeth Deemed to be University and its constituent units have actively conducted activities for the prevention of spread of corona and covid 19 virus. This is as per the guidelines by the State Government . is.The NSS Program officer has undergone online training through various training programs conducted on zoom and utube and facebook .NSS volunteers are encouraged to attend the training sessions. Activities to support the motto "Prevention is better than cure".
- NSS Volunteers have prepared posters and shared these posters to social media via videos and photos on the college facebook pages
- Nss volunteers have prepared facemasks their homes which they can use for themselves

ACTIVITY NO. 20 – Fitness Activities in December 2020

Day and Date:- Various days in December 2020

Time :- total 20 hours

Venue :- Online

Ministry of Youth Affairs has planned a series of activities and campaigns in December, 2020 under the aegis of Fit India Movement to promote Fitness across the Country.

The plan includes

- 1) Fit India Thematic Campaign-Virtual (Fitness ka Doz- Aadha Ghanta Roz)- Promotion of campaign on digital platforms by NSS through all volunteers with their 10 Sec video on their social media (1st

December,2020 onwards)

2) Fitness Assessment through Fit India App - All NSS Volunteers to take their fitness assessment and encourage others to do so (Date of launch of Fit India App will be communicated later)

3) Fit India Prabhatpheri - All NSS volunteers to organize Prabhatpheri advocating the message of fitness on the theme - " Fitness Ka Dose- Aadha Ghanta Roz" in their respective area (1st to 6th December,2020)

4) Fit India Cyclothon - Volunteers to organize cycling events (following the guidelines that will be published on website <https://fitindia.gov.in/>) and encourage people to participate (7th to 31st December,2020)

The fitness during the lockdown has received a good response from the NSS volunteers. The NSS volunteers both boys and girls have enthusiastically undertaken fitness related activities/sports such as skipping, meditation, cycling, running and have understood the importance of developing habit of including these activities in their daily routine.

The importance of the fit india Movement has been conveyed to the students. During December month the NSS volunteers have posted some photographs of events as stated above.

ACTIVITY REPORT

Name of Activity: Connoisseur 2.0 'Innovative Technologies to Transform Economy'

Date / Period: August 27, 2020

No. of Participants: 123

Class: Institution's Innovation Council (B. Pharmacy, M. Pharmacy, Pharm. D.)

Short Summary: The webinar was conducted on 27th August presided over by Institution's Innovation Council of Poona College of Pharmacy. The event was graced by the prestigious presence of Dr. R. B Shrivastava who is a retired director of Defense Institute of High Altitude Research (DIHAR). He elaborated and enlightened on his exemplary work in field of research and his and the institute's noted contribution to the defense personnel.

The webinar was attended by members of IIC and fellow students belonging to different colleges as well as the staff of Poona College of Pharmacy associated with IIC.

Dr. R. B radiated with enthusiasm, knowledge and modesty throughout the whole webinar. He narrated how Ladakh is close to him and he has carried out most of his efficient work there. He has implemented user friendly technologies for uplifting the locals and helping out the army. He and his team has been working dedicatedly to make them self-independent in terms of food and health security. In case of soldiers, it is important to ensure their mental and physical well-being. There are nine labs working under life sciences addressing these problems. Challenges and concerns in the Ladakh region are various including undulating terrain, low soil fertility, low oxygen, sub-zero temperature etc.

In spite of innumerable problems, Dr Shrivastava has innovated challenges into opportunities. They have made the soil conducive for quality seed production. Trench Greenhouse are employed for winter cultivation where the plantation is covered with black and white polythene to trap solar energy. Polycarbonate Greenhouses were constructed to resist high velocity winds. Water management was accompanied by digging up storage beneath green-house. The Institute has successfully grown 101 types of vegetables which has been acknowledged by Limca Book of World Records and listed in Guinness World Records for their laudable efforts to use innovation to send food to the armed forces. This has affected as a collaborative effort for uplifting the locals, farmers and scientists.

The vegetables were preserved and stored using technology for it's sustainability. CPIC tech helps in effective storage of potatoes. Water crisis has been dealt aptly by employing the techniques of mulching and monohydragels. Fruit baskets has boosted the local market as well as aided the soldiers. Drying of pulp a common problem was resolved using Solar Polyhouse D which has proved to be both time and cost effective. Hybrid Goat of Black Bengal and Changthangi has been a source of nutritious meat for the army men.

He divulged into the R&D medications which have benefited the army personnel a lot. Seabuckthorn is a accidentally discovered of extreme medicinal value. Aamchi medicine has been effective in wound healing, lung complaints, blood purification and cough and cold symptoms. Plantation of Seabuckthorn has empowered the women in Ladakh immensely leading to establishment of Seabuckthorn Co-Op Soc. Normobaric Pressurised hatchery is used for preservation of eggs using air pressure and ventilation. Herbal supplements have played an important role in securing soldiers' health. The Institute has safely duplicated genes back with zero energy atmosphere to avail.

While his contribution and outstanding work has no bounds, he was awarded in area of Innovation in Rural Development by Manmohan Singh. He has drastically improved the socio-economic conditions of Ladakh. Encouraging the pharmacy students to research in this arena, he ended his presentation on a positive note.

The Q&A session saw the active participation of students as well as teachers. Key highlights were how pharmacy students can create formulations from medicinal plants and research on herbal formulations which are of utmost need because of low oxygen levels. Dabur and Patanjali have shown interests in their medical products.

Dr. C. Bothiraja delivered the vote of thanks.

ACTIVITY REPORT

Name of Activity: Connoisseur 2.0 "Pharmacy and Finance"

Date / Period: Aug 28, 2020

No. of Participants: 102

Class: Institution's Innovation Council (B. Pharmacy, M. Pharmacy, Pharm. D.)

Short Summary: The webinar took place on 28th August organised by the Institute's Innovation Council elaborating on one of the most innovative interesting topic: finance in pharmacy. Mr. Aswini Bajaj who is a qualified Chartered Accountant, CFA, FRM and CS elucidated the simple finance concepts and its application in pharma industry. He is a very qualified and experienced finance professional who is the director at Learn Train and Leverage Pvt. Ltd. Having delivered lectures in IITs and IIMs.

Eventually everything comes down to finance, business and numbers. For any business to result into fruition, profitability and project evaluation are important. Mr. Bajaj demonstrated an example of a company splitting into two independent enterprise which results in profit gain. Sun Pharma has two companies which include Sun Pharma and Sun Pharma Advance Research (SPARK). Initially when a new drug is discovered and receives patent, it is sold at a high price with high margin. But when introduced in generic market the price lowers down. Price Earning Ratio (PER) where earnings are considered per annum and price depict the future earning capacity. If Sun Pharma had incurred some amount of loss in the R&D sector, this can be compensated by branching out the company and reap better profits. As a result the valuation of Sun Pharma increased and accordingly there was a rise in the share price.

The main objective of any company is to maximize value and profit which is attained by three affecting factors in:- Economy, Industry and Company Analysis.

In terms of economy it is important to understand the industry size of pharmaceutical sector. Medical expenditure in rural areas is less than Rs.500 whereas in urban sector it is around Rs.4,500. He demonstrated using a pictorial representation of analysis of age and India demographic mix and how it varies with medical expenditure. He explained how the Ayushman Bharat Scheme of GOI focusses on diagnostic and hospital industry.

Mr. Aswini Bajaj explained how evaluation by the Food and Drug Administration (FDA) plays an important role in international market and company future prospects. Most revenue of Indian pharma companies is generated from international markets. FDA evaluates the track record, group of scientists and type of drug research. In case the drug receives rejection by FDA there is a swift decrease in shares. Manufacturing sector in Pharmaceutical and drugs depends on R&D expenditure and the number of people using the drugs. If the quantity of people using it are less, price increases and vice versa. The finance can also be affected by efficient competitors. In terms of renewing licence from FDA, it takes 2 years and there is a good chance of competitive companies taking over.

Mr. Bajaj gave example of Thyrocare which effectively dealt with the expensive thyroid testing by collecting samples from entire Mumbai. As a result the price per unit went down. He elaborated on the role of a pharma fund manager who has depth knowledge of the regulations of FDA and mutual funds in equity share. Accordingly he evaluates the company. While there are few shortcomings in the pharma industry like we still rely heavily on China for import of raw materials, it is important to understand the business properly and make financial decisions. He explained how a pharma graduate if heading into management can become a fund manager or research analyst.

Mr Aswini Bajaj elaborated on how the Indian Pharma Industry has been increasing and the dependence of China might reduce from 65%- 35%. He highlighted certain issues like compliance, inadequate infrastructure, prize sensitive market and low GDP spend on pharma companies.

While reaching to the last segment of his talk, he talked in length about valuation and analysis. He demonstrated giving example of SunPharma which focusses on cost leadership and capitalization in terms of recurring sales of already present medicines. Valuations is affected by earnings growth, market size growth, Govt. support and compliance. With insurance company the valuation for diagnostic and hospital industry increases. Finance is omnipresent and it's knowledge is one key components for survival in the corporate pharma world

After the presentation by Mr. Bajaj ended, he was received immensely well by Dr. Rao ma'am.

The Q&A session saw many questions pouring in from both the teachers and students. Key highlights and answers by Mr Bajaj include his pearls of advice to the budding entrepreneurs. He advocated to have good and genuine idea and the social miscommunications should not be the binding reason to start a business. In terms of finance investment in pharma industry, the economy is uncertain for 2020-21 and even the pharma sector might develop to its max extent. Interested investors can invest in PharmFund by DSP and consult a fund manager. Lastly he gave a important message to be open minded, read a lot and use a combination of skill set to fit into the larger picture.

The vote of thanks was presented by Dr. Janhavi Rao ma'am.

8th November, 2020

**EVENT REPORT 2: WEBINAR ON PLATELET ACTIVATION INDUCED
INFLAMMATION AND HEPATIC FIBROSIS**

ISPOR-BVDU Students' Chapter in collaboration with STE- Save the environment organized a webinar by Dr. Jaswinder Singh Maras on the topic – "Platelet activation induced inflammation and hepatic fibrosis."

EVENT DETAILS:

Event Coordinator: Ritika Danole, Samrudhi Joshi, Karan Gupta, Angelina Titus and Dr. Anuja Bharadwaj

Editorial Management: Narayani Mahule and Digant Mirikar

Faculty Advisor: Dr. Prasanna Deshpande

About the speaker: Dr. Jaswinder Singh Maras holds a PhD in Medical sciences with specialization in Proteomics and Metabolomics. He was awarded the prestigious faculty award from Department of Science and Technologies Government of India (2015) working as assistant professor (Inspire Faculty) at ILBS. He is also the author of many publications in esteemed international journals.

No. of attendees: 57- 60

SUMMARY OF THE EVENT:

A collaborative webinar was organized on 8th November, 2020 with the speaker – Dr. Jaswinder Singh Maras on the online virtual platform of zoom. The event started at 4pm IST. Not only students but also people from various fields related to environment and health care field attended this lecture. The lecture began with a brief introduction of ISPOR BVDU Students' Chapter and STE followed by introduction of the speaker. Dr. Jaswinder Singh Maras then began his talk with the basic overview of platelet activation induced ryanodine-receptor-2 mediated inflammation, stellate cell activation and hepatic fibrosis and continued his talk with respect to role of aspirin as anti-platelet, anti-fibrotic agent and its pathway. He also discussed regarding proteomics and metabolomics in regard to his research study carried

STUDENTS' CHAPTER (2020-21)

29th November, 2020

**EVENT REPORT 4: WEBINAR AND POSTER PRESENTATION COMPETITION
ON ANTIMICROBIAL STEWARDSHIP PRACTICE IN HOSPITALS**

ISPOR-BVDU Students' Chapter 2020-21 organized a webinar and poster presentation competition by Dr. Sayali Gore on the topic- "Antimicrobial Stewardship practice in hospitals."

EVENT DETAILS:

Event Coordinator: Ritika Danole, Samrudhi Joshi, Karan Gupta and Sania Gore.

Editorial Management: Narayani Mahule and Digant Mirikar

Faculty Advisor: Dr. Prasanna Deshpande

About the speaker and judge: Dr. Sayali Gore is currently working as Clinical Pharmacist-Research Associate-III, appointed by Indian Council of Medical Research (ICMR). She has worked as an active part of health care teams, having obtained specialty in Neonatal and Pediatric units and also introduced Clinical Pharmacy Services in Deenanath Mangeshkar Hospital.

Part 1: Webinar (12pm – 1.30pm IST):

Number of attendees: 50-55

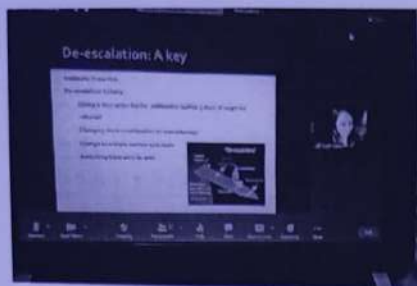

SUMMARY OF THE EVENT:

A webinar was conducted on 29th November, 2020 with the speaker- Dr. Sayali Gore in order to spread awareness regarding antimicrobial usage and its stewardship in hospitals. This event took place on the online platform of zoom at 12pm IST. Pharmacy students from various colleges all over India attended this webinar. Dr. Sayali Gore began her talk with understanding the basics of antibiotics and talked regarding antibiotic resistance. She also shed light on ICMR initiative on antimicrobial stewardship (ASMP). Dr. Sayali Gore discussed about the goals of ASMP program, Stewardship crew in hospitals, elements of stewardship antibiogram, antibiotic policy, antibiotic consumption, audit, de-escalation and systemic approach to carry out ASMP. She also talked about her experience as a clinical pharmacist at ICMR. The session ended with a question and answer interactive session between the speaker and the attendees.

GLIMPSES OF THE WEBINAR:

Part 2: Poster Presentation Competition (3pm – 4.30pm IST):

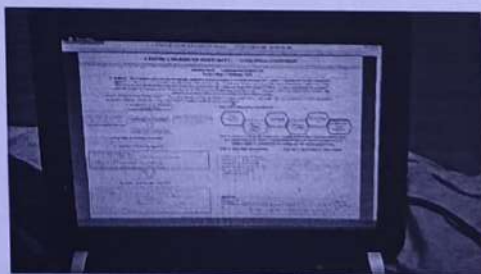

Number of participants: 10

SUMMARY OF THE EVENT:

A poster presentation competition was organized on 29th November at 3pm IST with the judge Dr. Sayali Gore. This competition took place on the online platform of zoom. The participants included pharmacy students from various colleges all over India. In this competition, the students were asked to present an E-poster for 5+1 min based on the theme- "Antimicrobial Drugs: The spotlight in Patient Safety." The judgement was based on creativity, presentation and relevance to the theme. The participants presented on topics- Antibiotic Resistance: A growing threat, Doxycycline: Antibiotic drug for patient safety, Azithromycin: Antibiotic drug for patient safety, Antimicrobial Stewardship: Antibiotic use in outpatient settings and A strategic decision for patient safety: Antimicrobial Stewardship. The workshop ended with the overall review from the judge followed by declaration of results.

The winner- Ms. Karishma Kedari (A strategic decision for patient safety: Antimicrobial Stewardship) was chosen based on the given criteria and awarded a sum of Rs. 500/-. Certificates were provided to all the participants of the workshop.

STUDENTS' CHAPTER (2020-21)

21st February, 2021

EVENT REPORT 6: AN INTERACTIVE SESSION ON GENDER SENSITIVITY

ISPOR-BVDU Students' Chapter 2020-21 organized an interactive session with Harish Iyer on gender sensitization- "Genero: Discover Sensitivity."

EVENT DETAILS:

Event Coordinator: Ritika Danole, Samrudhi Joshi, Karan Gupta and Angelina Titus.

Editorial Management: Sharon Jacob and Gaurav Sahoo

Faculty Advisor: Dr. Prasanna Deshpande

About the speaker and judge: Harish Iyer is an Indian equal rights activist and has been engaged in several such awareness campaigns. He has written articles and letters on the subject and has appeared on top national television news shows to highlight the plight of the LGBT community in India in wake of the decision. He has featured on Amir Khan's talk show 'Satyamev Jayate' and was seen in the panel of NDTV's popular talk show 'We the People' and in talk show 'Zindagi Live'

Number of attendees: 30-35

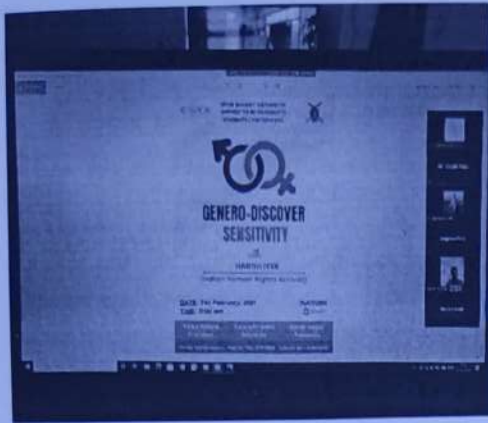

SUMMARY OF THE EVENT:

An interactive session was organized on 21st February, 2021 with the speaker – Harish Iyer on the online virtual platform of zoom. The event started at 11am IST. Students from various backgrounds attended this lecture. The session began with a brief introduction of ISPOR BVDU Students' Chapter followed by introduction about the speaker.

Harish Iyer began his talk with a brief introduction about gender, its sensitivity and need for gender sensitization. He involved the attendees with different case studies and real-life situations on gender sensitivity. He also discussed about the need of equity and equality in human social and corporate life. The lecture ended with an individualized question- Answer session between the audience and the speaker followed by vote of thanks.

ACTIVITY REPORT

Name of Activity: Three Days National E-Workshop On 'Advanced Pharmaceutical Instrumentation' Organized By Poona College Of Pharmacy, Pune
Date / Period: 1-3 Sep 2020
No. of Participants: 750 PG and PhD students, Faculty and Industry participants from Pharmacy, Biotechnology and Science Field all over India.
Class: M Pharm & PhD, Faculty

SUMMARY: (1 para of brief summary with 2 screenshots)

3 Days National E-Workshop on 'ADVANCED PHARMACEUTICAL INSTRUMENTATION' was organized by POONA COLLEGE OF PHARMACY, PUNE during 1st to 3rd September 2020 in association with Sotax India, Anton Paar India Pvt. Ltd. and Mettler Toledo India. The workshop was inaugurated virtually by Dr. L. Ramaswamy (Managing Director, Sotax India) in august presence of Dr. Atmaram Pawar, I/C Principal, BV DU Poona College of Pharmacy. Suhas Yewale (Associate Director - Techno Commercial, Sotax India) delivered a valuable session on 'USP 4 Flow-Through Cell Dissolution Systems' with special emphasis on case studies. He also shared video clips of different USP 4 apparatus that helped the delegates to understand its working and applications. The second day session talk by Ranju Nair (National Product Line Manager, Petroleum Properties, Anton Paar India Pvt. Ltd.) highlighted the different uses of Raman Spectrometers in unfolding various aspects of pharmaceutical research. The third session by Ankit Joshi and Vinod Vishwakarma (Application and Technical Consultant, Material Characterization, Mettler Toledo, India Pvt. Ltd.) on 'Material characterization of pharmaceutical products by Differential Scanning Calorimetry (DSC)' with examples of various pharmaceutical products, rheology, polymers and DSC curves opened more avenues for research. All the three scientific deliberations followed by question and answers session provided better understanding of the three advanced instruments which are inherently used in pharmaceutical research. This national E-workshop was coordinated by Dr. C. Bothiraja (Chief Coordinator) and Dr. Vividha Dhapte (Coordinator). The workshop received an overwhelming response of 750 post graduate participants and faculty delegates from various pharmacy, science, biotechnology colleges, universities and industries all over India. The valedictory event was graced by Dr. Varsha Pokharkar and Dr. J. R. Rao (Vice Principal, BV DU Poona College of Pharmacy). These sessions were organized on Webinarjam, Cisco Webex and Microsoft Teams platforms.

REPORT OF Women's Day Program

8th March 2021

The PCP Sakhee group of Poona College of Pharmacy organized an online Women's Day on the occasion of "International Women's Day" on 8th March 2021. The program coordinator Dr. Asavari Raut gave the opening remark and welcome address and informed about two important talks "mental health" and "nutrition for optimal health" by two eminent personalities who have made mark in their respective fields. The head of institution Dr. Atmaram Pawar addressed the gathering by introducing college and giving significance of acknowledging women on this day. Dr. Varsha Pokhrakar, Vice Principal and Incharge, Prevention of sexual harassment of women and gender sensitization-PCP Sakhee gave the opening remark and narrated about the concept, objectives and functioning of PCP Sakhee. A video was displayed which depicts the contribution of PCP Sakhee to improve health outcomes of vulnerable urban and rural women.

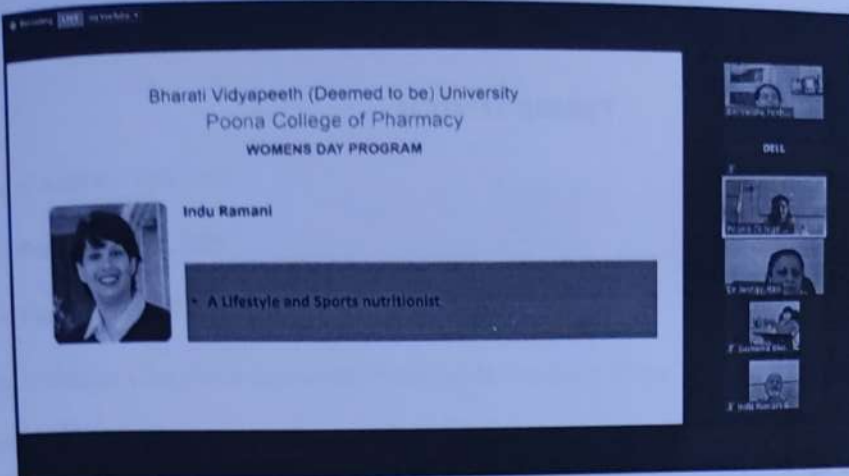

Guest Speaker Dr. Sushma Bhosale spoke about mental health and how it affects in routine life. She highlighted on the three basic concepts of physical, social and workplace wellbeing and simple ways to work on it. She urged every woman to prioritize on self care that can improve mental health care.

It was followed by the second talk given by Mrs. Indu Ramani, who enlightened and entertained on the right way about simple living and proper lifestyle leading to optimal health. She highlighted on four basic components – water, sleep cycle, body movement and food, emphasizing on natural resources of nutrition. Program ended with vote of thanks given by Dr. Manjusha Sajith. Around 150 participants including women faculty and students of MPharm, Pharm D and PhD at Poona College of Pharmacy attended the live program.

ACTIVITY REPORT

Name of Activity: Data Heist

Date / Period: Aug 10, 2020

No. of Participants: 98

Class: Institution's Innovation Council (B. Pharmacy, M. Pharmacy, Pharm. D.)

Short Summary: In the wake of enhancing awareness and empowering the community about challenges of cyberbullying, an interactive webinar was conducted by the Institution's Innovation Council of Poona College of Pharmacy, on the evening of 10th August. The event was graced by the presence of Mr. Rakshit Tandon, Director of Hack Dev technologies private limited and the co-founder of Hackershal. He was welcomed warmly and introduced by the student coordinator, regarding his alma-mater, Agra College from where he completed his BSc. And Master's in Computer Science. He has also influenced over 25 million students about cyber bullying and thus played a crucial role to make the student community less vulnerable and more aware about the issue. Mr. Rakshit Tandon was also awarded the Cyberguru of the Year title by the Maharashtra government in 2015. He commenced the session and effectively explained the current scenario of bullying, how it has existed throughout the ages, and how it has its grip on the cyberworld today. He skillfully made the session even more interesting and captured the attention of students as he exemplified cyberbullying with current scenario. Be it creating anonymous pages/memes, or posting pictures of ex-girlfriends/boyfriends for humiliation all come under cyber bullying. He went on explaining that this is a grave issue and it can affect the mental health of the victims. He went on to suggest the ways to fightback cyberbullying and to not be reduced by it. Utilization of block platform and report the abuser with the aid of community guidelines is one of the effective solution to overcome cyberbullying. He proudly mentioned the case when Maharashtra government via DCT Mumbai was contacted by Facebook and the timely interference helped them able to save a life of a victim of cyberbullying who was about to commit suicide. This case alone highlights the intensity with which cyberbullying may affect people and how effective communication and right legal interference helps to overcome it.

He also made the audience aware about the National Cybercrime Reporting Portal, and how the victims can use it to protect themselves from cyberbullying, including sexual Child Abuse, rape and gangrape, etc. He also highlighted that the people who are new to internet are the most vulnerable people who might face cyberbullying, and hence should be made aware about this challenge. He explained about how cyberbullying has been a major cause of mental stress that can go as far as causing depression and anxiety especially in teenagers. He provided with valuable insights regarding cybercrimes and how we as individuals and as communities protect ourselves against it and prevent it if possible. The session went on for over an hour and was full of knowledge about the cyberworld providing a new perspective to students and teachers alike. Mr. Rakshit Tandon humbly concluded the session by urging the audience to prevent cybercrimes, ingrain ethics in everyday life and thus reduce its grave consequences in our community. The webinar concluded with a vote of thanks and it was inarguably a great success owing to the combined efforts of the IIC students committee under the guidance of their learned teachers.

ACTIVITY REPORT

Name of Activity: Round Table 1.0: Group Discussion: Online Vs Offline Marketing

Date / Period: 13th of September 2020

No. of Participants: +25

Class: B Pharm, Pharm D and M pharm

Short Summary: (With Maximum 2 Photos)

The Entrepreneurship Development Cell of Poona College of Pharmacy organized **Round Table 1.0: Group Discussion** with the sole intent of helping students become more eloquent and articulate while expressing their opinions. This was the first time an online Group Discussion was being conducted by us and we got a great response by having 25 enthusiastic participants for the same.

We invited **Mr. Jasmeet Singh** to be the Judge for our first chapter of the Round Table to evaluate the participants. Jasmeet Sir is currently working as a Sales and Marketing Strategist and he's a Club President of one of the Clubs of Toastmasters International. Also, he has his very own startup named Closer Singh. The topic for discussion i.e. **Online Vs Offline Marketing** was given 1 hr prior to the competition. All the participants were given a time of 1 minute and 30 seconds to share and conclude their opinion. In the end, 10 minutes were given to all the participants to have an open discussion on the agenda.

Also, to offer fair participation we kept a lottery system, where we picked up a chit with a code written in it and hence the following participant with respective code was called upon to share his/her views.

ACTIVITY REPORT

Name of Activity: Connoisseur 1.0 'A Cruise through Life'

Date / Period: July 16, 2020/First Quarter

No. of Participants: 1k views

Class: Institution's Innovation Council (B. Pharmacy, M. Pharmacy, Pharm. D.)

Short Summary: The Institution Innovation Council of Poona College of Pharmacy had organized an interactive session with our Honorable Guest Dr. Prabhakaran Paleri, PTM, TM and Director General (Indian Coast Guard) who is presently an Academician. He shared his career experiences and lessons that he learnt while being at Marines. This program was held live on YouTube on our channel MHRD IIC-PCP.

This session helped our audience to open new horizons towards different life situations. This program was full of exuberance and excitement. Sir put forward all his life experiences being a student, being in armed forces and being a teacher. It was a great opportunity to learn from such a great person. The way he put forward his perspectives of viewing life difficulties and overcoming those, building the right personality, was truly remarkable. He talked about his days as a student and how he used to look and observe things with a holistic approach. He said "Never ever have a role model" which was surprising for many at first but then his outlook onto this turned it all. He said instead of having a role model be a role model for yourself. Inspire yourself and try to achieve things competing with yourself. Be better than yourself also he said having a role model does nothing but limits your efforts to his or her level only. This was itself very inspiring for us. He also mentioned that all soldiers across the world are actually identical but they have different personalities being from different countries having different ideologies. He said how we all humans are identical but our perspectives our personalities makes us different from one another.

The IIC-PCP was privileged to witness the presence of an eminent personality Dr. Prabhakaran Paleri at the session. We were highly obliged to interact and learn from him. Due to time limitations we had to conclude the session otherwise it was really overwhelming to know more and more from him. It was indeed an informative and enlightening session to conclude. With all the notorious efforts of all the members of IIC-PCP this session turned into a great one.

Activity Photos:

ACTIVITY REPORT

Name of Activity: Alum-Net 2.0 with Mr. Manas Y. Agarwal

Date / Period: Tuesday, 21st July, 2020

No. of Participants: 1400

Class: B. Pharm and Pharm. D

Short Summary:

The Alumni Connect Committee of BVDU, Poona College of Pharmacy organised a live talk with Mr. Manas Y. Agarwal, the Alumnus of the batch-2017 on YouTube live on 21st July, 2020 at 10:00 A.M. The webinar was organised to build a bridge between college life and career life, so as to introduce the present students to the professional world and to make them proactive to face the challenges that may emerge in their career path.

The live talk started with the warm welcome of the guest for the event, Mr. Manas Y. Agarwal by one of the dynamic member of the alumni connects committee. Completing his graduation from Poona College of Pharmacy, he opted for PhD in Pharmaceutical Sciences, and working on cancer metabolism and ubiquitination defect in diabetes insulin signalling. He gained his research experience in lung biology, respiratory microbiome, asthma, COPD and lung physiology. He has also published various articles on Systemic Immunometabolic Alterations in COPD and different types of pathogens associated with community acquired respiratory infections. Adding on with his skills he also has knowledge on various experimental skills.

The organised symposium was found to be very interesting, illuminating and relevant. He discussed exhaustively about starting your career as researchers and its future prospects for pharmacy graduates with in depth explanation about research at undergraduate level. He started the session by effectively introducing the most awaited as well as an interesting topic, research at undergraduate level. He explained it with power point presentation to keep it simple which will aid in visualizing the same. He also included some of his self-made quotes which he had learnt from his professors. He being an experienced researcher conversed in a simple and concise manner so as not to make it complicated.

Throughout the session he gave many examples about the different aspects of being a researcher and working as a researcher, as examples help in understanding the concept more clearly. He even easily explained the concept of a very simple thing of writing a journal and all the reasons why we do write it and what importance it has in the life of a researcher.

Upon being asked about the profile one should build in order to become a researcher right from the undergraduate level, he responded that you should be well versed with the course you study

and you should be fairly excellent in your studies as well because the field requires bundles of knowledge loaded in one's mind. Apart from being an academician, one must also take part in several co-curricular activities to build your profile a stronger one.

He focused more on the short and small things that hold very much importance rather than focusing on the bigger themes. Because everything has its own importance and we can't neglect even a single part of it, as the field demands from you the power of observation and understanding.

Talking about the research at the undergraduate level, he said that one can start from questions the things that concern him and finding the answers of the same with the help of the professors and books. This habit of questioning will increase the interest in the topic along with development of various skill sets.

Acknowledging the question of universities that can be opted for Masters and of PhD abroad, he told that there are many universities abroad that take in the students who have successfully completed their masters and also there are universities that directly allow graduate students to pursue their PhD degrees. For which he suggested some universities from Canada, Germany, etc.

In the last part of the session he encouraged the students to go in for research at undergraduate level and if they wanted to pursue their further studies in research, they should start finding more information about it right from the beginning to avoid any further confusion.

The talk culminated with Dr. Sharvil Patil, the Secretary of the Alumni Connect Committee thanking the alumni, Mr. Manas Y. Agarwal for taking out time and connecting with students. It was an insightful talk. All in all, it was an informative session with a lot to take home as far as students are concerned.

Name of Activity: Master class episode 1.0: Artificial Intelligence and its Future in Pharmaceutical science

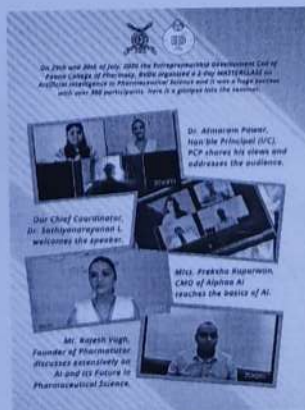

Date / Period: 29TH & 30TH July, 2020

No. of Participants: Over 500+ registrations, 300+ live participants, 1400+ views and 2000+ online impressions

Class: Doctor of pharmacy, B Pharmacy, M Pharma, B pharm and M Pharm

SUMMARY: (1 para of brief summary with 2 screenshots)

MASTERCLASS EPISODE 1.0: Artificial Intelligence and its Future in Pharmaceutical Science was organized by Bharati Vidyapeeth (Deemed to be) University's Poona College of Pharmacy Entrepreneurship Development Cell on 29th & 30th July, 2020. The speaker for the first day was **Ms. Preksha Kaparwan**, the co-founder and evangelizing marketer of Alpha AI. The webinar started with the brief introduction of the speaker followed with the blessings of Dr. A.P Pawar, Principal I/C of Poona College of Pharmacy, Dr. Sathiyarayanan L., Chief Coordinator EDC and Dr. A. J. Mali, Teacher Coordinator, EDC. Ms. Preksha enlightened the students about various topics like Machine Learning, Artificial Intelligence versus business, types of Artificial Intelligence and the differences along with its examples. Towards the end of the interactive session a QnA session was organized for the audience in which 25+ questions were answered. The day was drawn to an end by Ms. Shruti Patwal by giving vote of thanks our speaker. The first day saw an amazing 300+ live participants. The second day started off with the brief introduction of the speaker **Mr. Rajesh Vagh**, Chief and Founder of Pharmatutor who educated the students about application of Artificial Intelligence in Pharmaceutical Sciences. He talked about the history of Artificial Intelligence, what exactly is Artificial Intelligence and its global market, the application of Artificial Intelligence in health-care sector. The role of Artificial Intelligence in drug discovery was discussed along with the development of bioelectronic medicine. He talked about emerging job profiles in the field starting from block chain developer, artificial intelligence specialist, JavaScript developer, and many more. This webinar, arranged by the Entrepreneurship Development Cell of Poona College of Pharmacy recorded over 500+ registrations, 300+ live participants, 1400+ views and 2000+ online impressions and more than 50+ questions were answered during the webinar over the two days.

Report on the Student Induction Programme

Name of the Event: Guest lecture on **“Grooming and fitness in the industry”**

Date of the event: 5th November, 2020

Location of the event: Online means (MS TEAMS)

“Cleanliness is next to Godliness”

A guest lecture by Ms. Aparna Passi was conducted on the topic **“Grooming and fitness in industry”**. It was held on 5th of November, 2020, the fourth day of the SIP that is the student induction programme.

The aim of this session was to develop soft skills within the students that need to be acquired by a professional. She gave important tips on grooming for men as well as for women. She also gave tips related to seating, hand movement and body language. She mentioned many examples from her own experience too. She also shared valuable tips on grooming before interviews or business meetings.

She insisted students to remain positive and confident and look at fine details of non-verbal communication. She emphasized students to be active and full of observation. In this session, students learned about importance of self-image. They were able to pick appropriate information for their self-grooming. She then explained the colour of shirts, trousers, shoes, suite, watch, ties and so on for men. Differentiated the corporate and casual wear both for men and women. She discussed on how to work on communication skills and prepare for interview. The way we look and dress, contributes our confidence. Hence dressing well and more importantly dressing appropriate is a very important key to self-confidence.

She emphasized on the importance of fitness in this industry. The various types of diseases are occurring because of the type of activities we do, environmental factors, the food intake, exercise activities and stress. The types of diseases are obesity, underweight, diabetes, hypertension, depression, cardiovascular, cancer. Obesity, one of the most prevalent lifestyle diseases in today's youth occurs because of the long-term sedentary lifestyle. The speaker suggested that in order to lead a healthy lifestyle, individuals need to keep track of their weight, measure obesity, and all bad habits such as smoking and drinking must be avoided. The session turned out to be a very informative session which encouraged the students to take up the healthy lifestyle. It came to an end with the professor expressing her gratitude on behalf of each staff and student.

Report on the Student Induction Programme

Name of the Event: Guest lecture on "Yoga"

Date of the event: 5th November, 2020

Location of the event: Online means (MS TEAMS)

"Go healthy and happy!"

A guest lecture by Mr. Sai Gaurav Prabhu was conducted on the topic "yoga". It was held on 5th of November, 2020, the fourth day of the SIP that is the student induction programme.

The freshers were introduced to the concept and benefits of yoga. The impact of it on us, not just physically but mentally also. He briefly introduced the ancient science of Yoga and enlightened on common myths regarding it. He emphasized that, practicing Yoga helps us improve flexibility, balance, endurance and physical strength while Meditation helps us to keep the mind sharp and clear, it relieves stress and improves overall well-being. He demonstrated various Yoga Asana useful for day-to-day life and gave excellent tips on how to incorporate their use in daily routine even if it was not possible to dedicate special time for the same.

Asanas in standing and sitting posture were performed through virtual means which emphasised on balance and muscle stretchability. Breathing techniques like Anulom Vilom, Bhramari Pranayam and Omkar were performed. He advised various types of patients having Chronic Disorders that benefits from Yoga would be tangible only after regular practice under the supervision of an expert to guide them.

Yoga is a way to connect with the higher Self and integrate all aspect of life so as to live in balance and harmony. It brings us closer to nature and helps us move towards oneness. The primary objective in yoga is the regulation of the restless mind. He also explained the art of meditation and elaborated the meaning of spirituality and its related misconception.

Lastly, he made us aware that the college promotes health benefits among the faculty and students through Yoga and Meditation. This wellness platform hugely contributes in creating stress free positive environment and healthy way of thinking and living. The guest lecture came to an end with the professor in charge expressing her gratitude towards the orator on behalf of all students and staff.

WEBINAR: PRACTICE TO PROFESSIONAL DURING COVID TIMES

Date: **06th Aug 2020**

Zoom Online platform Meeting id: 8083901755

Password: 003679

No. of Participants: **95 (SY, TYBSc (H&HA) and TY, Final CT + faculty**

The Training & Placement Cell of the institute organized a webinar **PRACTICE TO PROFESSIONAL DURING COVID TIMES** on **06th August 2020** using **Zoom Online platform** to provide guidance to the students on how to prepare themselves for the hospitality profession.

The resource person for the webinar was **Ms. Aparna Passi**, an OCLD graduate with 15 + years of experience in building new talent with various hotels of Oberoi in Mumbai, Kolkatta, Dubai as well as J.W Marriott.

Dr. Sangle welcomed and introduced the speaker to the audience and requested her to carry forward the session.

Ms.Passi started the session by briefly discussing how corona virus has led to worldwide crisis and the impact has reached every industry including travel and tourism. Since life in general has been disrupted she urged the students to utilize this time to focus on themselves.

The key points of the session:

- Think backwards (Vision)
- Understand your Approach : Define, Develop and Deliver
- Make the most of every situation – Say Yes to learning
- Work on Yourself – Grooming, Communication Skills & Body Language
- Importance of General awareness, Exercise and meditation.
- You will fail but keep TRYING

Ms.Passi also shared the Formula of Perfect 5 for Job interview

- Grooming
- Body language
- Communication
- Knowledge
- Attitude

Finally she covered Commonly Asked Questions and guided the students on how to answer them as well as handle behavioral questions to help succeed in the interviews.

Inspite of being an online session it turned out to be a highly engaging and interactive session.

Vote of thanks was proposed by Ms.Nandini Pardesi, student of TYBHMCT for a truly informative and valuable session.

59	KOLAGE PRATHAMESH	74	NANDINI AGRAWAL

Shuchi

Course structure of three- year B.Sc. Degree Course in Biotechnology
Under Choice Based Credit System

SEMESTER I

Course No. & Description	Title	Credits	IA	Univ. Exam	Total Credits
BBT 101 Core Course-Theory	Animal Science	3	40	60	28
BBT 102 Core Course –Theory	Plant Science	3	40	60	
BBT 103 Core Course –Theory	Foundations of Chemistry & Biochemistry	3	40	60	
BBT 104 Core Course –Theory	Basics of Computer	3	40	60	
BBT 105 Core Course –Practical	Animal Science Lab	3	40	60	
BBT 106 Core Course –Practical	Plant Science Lab	3	40	60	
BBT 107 Core Course –Practical	Foundations of Chemistry & Biochemistry Lab	3	40	60	
BBT 108 Core Course –Practical	Computer Fundamentals & C-Programming Lab	3	40	60	
BBT 109 Open Course I	Elective	2	Continuous Assessment		
BBT 110 General Course I	Elective	2	Continuous Assessment		

Elective Courses in Sem I: 1) BBT 109: Elective Open Course I; Option I: General English. **Option II:** Basic Programming for Bioinformatics. **Option III.** Open course offered in other constituent units of BVDU.

2) BBT 110: Elective General Course; Option I. Yoga & Meditation, Option II. An appropriate General course offered in other constituent units of BVDU.

5.1.3 Capacity development programmes

1. List of students attended soft skills programme soft skills

Roll. No.	Name of the Student
1	Ashwini Suresh Shegokar
2	Shital Ramanand Rasakar
3	Dhanshri Gopinath Dhaktode
4	Kalyani Sudhir Choudhari
5	Nayan Salunke
6	Neelam Amit Kore
7	Nishtha Singh
8	Parinita Sonkamle
9	Pradhyumna Kulkarni
10	Pradnya Shrikrushna Damodar
11	Prerna Pandit
12	Sachin Sadashivrao Shinde
13	Shweta Hemant Chorge
14	Snehal Bhagwat Waghmare
15	Sonali Rohidas Pawale

2. List of students attended language and communication skill

Sr. No.	Name of the students
01	Leenakshi Shilawat
02	Nikita Pharate
03	Diksha Wankhade
04	Rajashree Tayade
05	Trupti Jagtap
06	Maheshwari Mhaisgar
07	Dakshata Parab
08	Bhavna Mavchi
09	Kundan Shedge
10	Kajal Nikumb
11	Shraddha Bhagwat
12	Shrawani Deshpande
13	Yashashree Pawar
14	Anuja Pharate
15	Anamika Utekar
16	Priyanaka Pawar
17	Rekha Deore
18	Aarti Dubey
19	Vidya Pungati
20	Suraj Sangvikar
21	Ashish Thombre

22	Prasanjeet Marode
23	Akshay Deshmukh
24	Mithun Kadam
25	Sandip Kukar
26	Devanand Koli
27	Rohit Jagtap
28	Vyankatesh Borade
29	Ganesh Gite
30	Vikrant Sonawane
31	Dipak Naik
32	Parag Kamble
33	Ram Wagh
34	Dattatray Pandge
35	Chandrakant Gojgave
36	Akash Khot
37	Prashant Sonar
38	Pradeep Chavan
39	Suraj Thombare
40	Pradeep Bhise

3. Life skills (yoga) physical fitness and awareness of technology through PRA techniques

Sr. No.	Name of the students
01	Leenakshi Shilawat
02	Nikita Pharate
03	Diksha Wankhade
04	Rajashree Tayade
05	Trupti Jagtap
06	Maheshwari Mhaisgar
07	Dakshata Parab
08	Bhavna Mavchi
09	Kundan Shedge
10	Kajal Nikumb
11	Shraddha Bhagwat
12	Shrawani Deshpande
13	Yashashree Pawar
14	Anuja Pharate
15	Anamika Utekar
16	Priyanaka Pawar
17	Rekha Deore
18	Aarti Dubey

19	Vidya Pungati
20	Suraj Sangvikar
21	Ashish Thombre
22	Prasanjeet Marode
23	Akshay Deshmukh
24	Mithun Kadam
25	Sandip Kukar
26	Devanand Koli
27	Rohit Jagtap
28	Vyankatesh Borade
29	Ganesh Gite
30	Vikrant Sonawane
31	Dipak Naik
32	Parag Kamble
33	Ram Wagh
34	Dattatray Pandge
35	Chandrakant Gojgave
36	Akash Khot
37	Prashant Sonar
38	Pradeep Chavan
39	Suraj Thombare
40	Pradeep Bhise
41	Nawandar Hanuman
43	Chandraprakash Suryatal
44	Vaibhav Gadkari
45	Kunal Wasu
46	Sanjay Waghmare
47	Sourabh Tidake
48	Prasad Javdekar
49	Sayali Funde
50	Neham sharm

Bharati Vidyapeeth Deemed to be University, Pune

Dear Dr. Bhalerao,

I am writing this letter to thank you specially for giving me an opportunity to conduct workshop on 'Effective Team Building' and 'Language & communication skills'. Both the workshops were interactive and were a learning experience for me too. It was great interacting with your entire team.

Looking forward to having many such workshops in future.

With regards,

Yours sincerely,

Respected Ma'am/Sir,

Greetings from Rubicon!

It is my pleasure to introduce **Rubicon**; **Rubicon** was incepted with a dream of a world where every youth has the power to transform lives for themselves and others around them. We strongly believe that every youth has the potential to make a difference in their personal lives as well as the community around them. We build competencies, which would help youth seek careers and prosper in their career of choice. We bring excitement into learning by developing and harnessing their curiosity and intrinsic motivation for learning.

Rubicon's "LifeSkills" Program, supported by Barclays aims at improving the employability skills of the youth. This initiative is supported by Barclays. Under this program, students will be trained by Corporate Trainers to enhance their Life skills which would help them significantly to increase their chance of succeeding in a job interview. This program is being launched with limited no of colleges in India.

We are looking forward to partner with your institute and plan to run the below initiatives:

1. **24 hrs. classroom training on Interview Skills (Details mentioned below).** Due to lockdown this is divided into two parts – 18 hours virtual and 6 hours classroom training. 18 hours of virtual training will be delivered by a Corporate Trainer using Zoom/Webex as a platform – training will be conducted 2 hours per day for 9 days. 6 hours of face to face training will be done once the lockdown is lifted and before the campus placement starts.
2. **Industry visit of students to various organizations.**
3. **Post Placement Mentoring and Career Counselling support to placed students for one year.**

In Life Skills training, we will be covering the below topics:

1. Organizational Structure
2. Public Speaking
3. Presentation Skills
4. E-mail Etiquette
5. Grooming
6. Group Discussion
7. Personal Interview
8. Assessment will be conducted on Group Discussion and Personal Interview.

Note: We would like to clarify that neither the student nor the college is required to pay anything for this program.

Hello Sir
Good Afternoon,

As discussed, we can conduct the training from 24th May 2021 for 9 days with 100 students

Please Ask students to be ready 15 min before the time with the setup,
Please ensure that the attendance remains the same for all the 9 Days i.e. from 24th May 2021 to 2nd June 2021.

Dates of training :- 24th, 25th May, 26th, 27th, 28th, 29th, 31st, 1st June, 2nd June

Note :- As on 30th May there is a sunday, there is a holiday.

Please let me know your preferable time slot for the training

Note :-

1. Ask students to follow all the instructions given in WhatsApp groups given by the Coordinator.
2. The Link will share on the same day and remain the same for all the 9 days.
3. College coordinators ensure that WhatsApp groups are created one day before the training date as per attached batch wise data.

4. **Attendance is mandatory in each batch for all 9 days**
5. **Need to Sign MoU**
6. **College coordinators have to share trainer's feedback on the 2nd day of training.**

Acknowledge the same.

Regards,

Swati Khilare

Teacher Coordinator: Dr Bharati Jadhav

Brief Synopsis:

The Industrial visit was of Barclays, Pune where the main mentor was Mr. Pratik Kumar along with his five team members.

He has been working with Barclays for 2^{1/2} years as a Senior Business Analyst.

The purpose of Industrial visit was to provide the career guidance to the students.

The session has three modules:

1. Resume Writing
2. Communication Skills
3. Interview Skills (Wherein mock Interviews were conducted).

Mr. Pratik Kumar along with his five team members taught the students how resume should be written and what is the difference between career objective and summary. Later On, communication skills were discussed wherein, the session was taken by Priya Agarwal which told students about **KYC (KNOW YOUR CONFIDENCE)**.

And at the end, Mock Interview was taken by his team members of all the students and feedback was given.

Takeaways:

1. The Talk by Mr. Pratik Kumar and his team members helped in the understanding how the resume should be written and how students should improve their interpersonal skills.
2. The team members gave a very befitting answer to less thought of questions.
3. The team members had a brief discussion on KYC which is KNOW YOUR CONFIDENCE.
4. Discussion on frequently asked questions in an interview were been discussed.
5. The overall outcome of this industrial visit was all students came to know about the resume writing, communication skills and interview skills.

Aptitude Training by PROTON

- Simple Interest and Compound Interest.
- Age Problems.

Practice session as well as mock test were conducted.

Confidential Personal Counseling Centre (CPCC)

A very unique feature of IMED is a Confidential Personal Counselling Centre (CPCC). Counselling has a very important role in our lives. When we are confused, not able to prioritize our responsibilities, tensed due to exams, feeling little home seek, depressed due to a death of loved one or feeling very bad as a girlfriend got somebody else ; in all these tough mental situations we generally try to approach someone may be a friend, parents for counselling who can help us to deal with the current situation.

In IMED we generally ask our students, **‘Do you need some guidance..?? direction? to get rid of fear, low confidence, loneliness, anxiety..???’**.

It is not the case with everyone but some of the students may feel low because of various reasons and life situations. In this context appropriate and timely guidance help the students to deal with these issues.

Counseling with the scientific methods provided by trained professionals can make a profound impact on the lives of individuals. This service helps people navigate difficult life situations. It provides the tools and insights to manage mental health issues and ultimately empowers people to lead healthy and fulfilling lives.

The five most common goals of counseling include :

1. Facilitating behavioral change.
2. Helping improve the client's ability to both establish and maintain relationships.
3. Helping enhance the client's effectiveness and their ability to cope.
4. Helping promote the decision-making process while facilitating client potential.
5. Development.

Mrs.Vrunda Walimbe a Personal Counsellor of IMED has done M.A. (Sociology), M.Sc. in Counseling and Psychotherapy. She has also done Advance Training in Cognitive Behavior Therapy , Rational Emotive Behavior Therapy and completed BTA (Bernian Transactional Analyst) training programme. There is no charge for counseling sessions from the student's side.

The Online Procedure to be followed to get an appointment is -

Step 1: Contact IMED - Counseling Coordinator [(Dr. Sonia Sorte (9822975536) or you can directly contact Mrs.Vrunda Walimbe as well. (9822558972)]

Step 2: Register your name and phone number.

Step3: Your appointment with Mrs.Walimbe will be given.

Step 4: Counseling is carried out over the voice call/ video call at the scheduled time.

It is a privilege for us to help and students .There is no charge for counselling sessions from the student's side.

Course of action for Mentor-Mentee

This Mentor Mentee process is initiated to make sure mentees and mentors develop a mutual understanding and communication so that mentee can be guided in right direction to achieve the careers and life goals. Additionally, it assist in resolving the mentee issues and problems by providing the platform for discussion and guidance that facilitate mentee to work for success and achievements.

Objectives of mentor mentee

- Meet regularly with the mentor and maintain frequent communication.
- To understand mentee and make them adjust in new environment.
- To resolve the issues and discuss the problems faced by mentee.
- Guide for multiple opportunities and share experiences to enhance the learning.
- Review the progress and guide towards achieving goals.

International Webinar on Cross Cultural Management

Day and Date: Saturday, 19th June, 2021

Key Speaker : Mr. Deep Goldie And Mrs. Rebecca Goldie (Alumni-MBA-2004-05)

Profile : Corporate Credit Controller-Waste Management –Auckland –Newzealand

Participants – MBA- I & II year Class

Total Attendees- 95

Description of the Programme;

The programme was inaugurated by Welcome Address of Prof. Shivganga Maindargi (Alumni Cell co-ordinator). This webinar was in terms of students interaction with various issues on Cross cultural management in the corporate., where students have asked and discussed the questions on that way the guest of honour interacted one by one with their query.

Sr.No	Name	Question
1	Snehal Bharwati	What were the biggest cultural differences you encountered in the countries you've worked?
2		What do you see as the biggest advantages and disadvantages of cross culture management?
3		In your opinion, what are the biggest challenges of managing across cultures?
4		How is your work experience while working with other countries ?
5	Niharika Randive	What skills do you have that would help you adopt to working abroad
6	Prachi kore	As a MBA student, I would like to ask you that what preparation I

		have to do to get a job in abroad?
		Indian diaspora plays key role into abroad when it comes to the election , for example we see recently in the US. There is trend going into the world that right wing or ultra right wing leaders come into the power & they adopted the policy of giving employment opportunities to there citizens first for ex Trump adopted the policy of America first. So what are potential threats we may face if we want to do carrier in abroad & how to overcome if such kind of situations r happen
		What complexities you faced while working remotely?
		My specialization is finance, so what are my options for working in abroad?
		How is your work experience while working with other countries?
		How you manage cross cultural team on remote ?
	Snehal Lahoti	What parts of your job do you find most challenging?
	Sandesh Bura	Considering the current situation where many of the companies preferring for work from home and here employees rarely meet each other so how companies are trying to overcome the cross cultural barrier ?
	Awaz sgari	New Zealand was the first country across the world who was covid 19 free , what strategies did they make and how they overcome their market recession
	Pratiksha Mhetre	1)What are the communication styles that are influenced by the culture of the nation?

The session was conclude by Vote of Thanks – Miss.Antara Yele (MBA-I)

Title of the Event	Model View Controller (MVC)
Type of Event	Webinar
Day, Date	Tuesday, 25.05.2021
Time	02:30 PM to 04:00 PM
Guest/Expert	Mr. Rajesh Vhadlure Zensar Technologies, Pune
Guest/Expert Profile	Mr. Rajesh Vhadlure has more than six years of experience in Software Development. Currently he is working in Zensar Technologies, Pune. He worked on different projects which are based on MVC, Angular, C#, Asp.Net, jQuery Technologies.
Participants	MCA III, MCA I and BCA III
No. of Participants Attended	62
No. of Teaching Staff Attended	03
Department	Computer Applications
Convener	Dr. M. K. Patil

Description:

The welcome address of the webinar on “Model View Controller (MVC)” given by respected Dr. S. B. Sawant Sir, Director AKIMSS. The webinar session inaugurated by Dr. A. B. Nadaf sir HOD, AKIMSS. The preamble given by Dr. M. K. Patil, MCA Coordinator, AKIMSS.

Dr. M. K. Patil started the session by giving the basic overview of MVC architecture and its applications.

The expert Mr. Rajesh Vhadlure explained the concept of Model View Controller (MVC) in detail. In his session he highlighted following points:

1) Concept of MVC

ASP.NET MVC is a new web application framework from Microsoft. MVC stands for Model-View-Controller. ASP.NET MVC is an open source web development framework from Microsoft that provides a **Model View Controller architecture**. ASP.net MVC offers an alternative to ASP.net web forms for building web applications. It is a part of the .Net platform for building, deploying and running web apps. You can develop web apps and website with the help of HTML, CSS, jQuery, Javascript, etc

2) Architecture of MVC

Model - The Model represents a set of classes that describe the business logic i.e. business model as well as data access operations i.e. data model. It also defines business rules for data means how the data can be changed and manipulated.

View - The View represents the UI components like CSS, jQuery, html etc. It is only responsible for displaying the data that is received from the controller as the result. This also transforms the model(s) into UI.

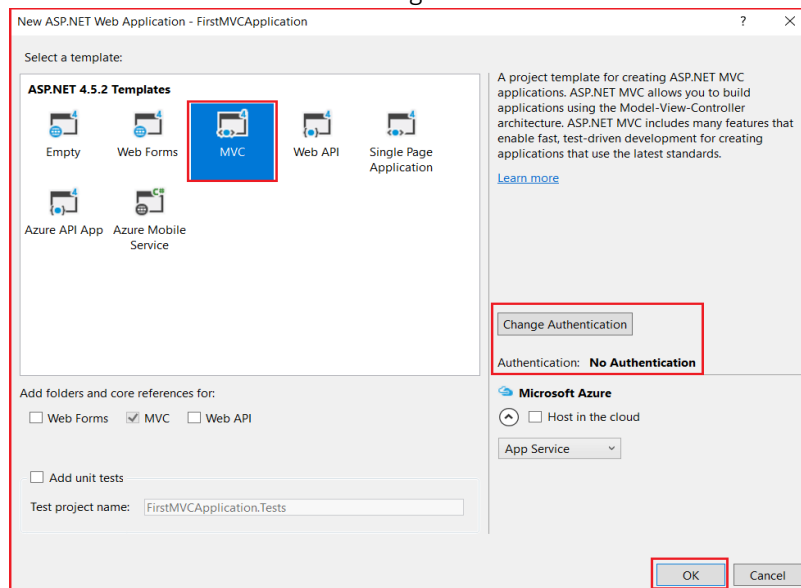

Controller - The Controller is responsible to process incoming requests. It receives input from users via the View, then processes the user's data with the help of Model and passes the results back to the View. Typically, it acts as the coordinator between the View and the Model.

3) Applications of MVC

- Faster development process: MVC supports rapid and parallel development. If an MVC model is used to develop any particular web application then it ...
- Ability to provide multiple views:
- Support for asynchronous technique:
- The modification does not affect the entire model:
- MVC model returns the data without formatting:

4) Practical Demonstration – use of MVC

ASP.NET Web Application for selecting the **Project Templates**. From this window select the **MVC** project template. Then Change the Authentication type to **No Authentication**. Finally, click on the **OK** button as shown in the below image.

5) Drawbacks of MVC

- Sometimes it becomes complex architecture to debug and understand as compared to the ASP.NET.
- If you are developing parallel MVC application, then sometimes it becomes difficult to coordination between other developers. Because all developers have to in the same page.

6) Question Answer Session

In Q & A session, most of the students clarified their doubts and satisfied with the given solutions. The expert told about recent developments in MVC based architecture compared with Java Developments.

Dr. M. K. Patil proposed vote of thanks.

Model View Controller

What is ASP.NET MVC?

ASP.NET MVC is a new web application framework from Microsoft. MVC stands for Model-View-Controller. ASP.NET MVC is an open source web development framework from Microsoft that provides **Model-View-Controller** architecture. ASP.NET MVC offers an alternative to ASP.NET web forms for building web applications. It is a part of the .NET platform for building, deploying and running web applications. You can develop web applications with the help of HTML, CSS, JavaScript, etc. Basically, MVC is a framework methodology that divides an application's implementation into three components: model, views, and controllers.

ASP.NET Web Forms	ASP.NET MVC
ASP.NET Web Forms follows a traditional MVC (Model, View, Controller) pattern.	ASP.NET MVC is lightweight and follows MVC (Model, View, Controller) pattern.
ASP.NET Web Forms is a traditional MVC (Model, View, Controller) pattern.	ASP.NET MVC is a lightweight MVC (Model, View, Controller) pattern.

Difference between ASP.NET MVC and WebForms.

Rajesh Vhadlure is presenting

Model View Controller

Let's see some important features of views:

- Views provide a clean way to separate presentation concerns from the logic in the application.
- A view shows model data on the page.

Creating Views

One of the easiest ways to create a view for an action method is to right-click anywhere inside the action method and select the option "Add View" as shown in figure.

```

public ActionResult Details()
{
    return View();
}

```

Doing this opens the Add View dialog, shown in figure.

समुपदेशनातून रुग्णांना मानसिक आधार

राष्ट्रीय स्वयंसेवक संघाचा ऑनलाइन उपक्रम

सकाळ वृत्तसेवा

सोलापूर, ता. २४ : कोरोना महामारीने सर्वत्र ठरू पावले आहे. अशा स्थितीत रुग्णांच्या कुटुंबातील सदस्यांचे मानसिक स्वास्थ्य खालखू नये व रोगाचे प्रमाण घटायचे, यासाठी प्रतिबंधात्मक उपपद्धतींमधील मानसिक आधारची गरज आहे. त्यासाठी राष्ट्रीय स्वयंसेवक संघाने सोलापूरमध्ये 'चला समजून घेऊन या' हा ऑनलाइन व फोनवरील समुपदेशनाचा उपक्रम हाती घेतला आहे.

रिपोर्ट फॉल्लोअप आल्यावर रुग्णांच्या मनात धोती निर्माण होते. आपले कसे होईल, आपल्यावर बरे वाटेल का नाही? पुढे काय होईल, घरातील इतर सदस्यांचे कसे होणार? याची चिंता त्यांना वाटू लागते. मला जर काही झाले, माझे बर्न वाईट झाले तर कुटुंबाचे कसे होईल अशी नकारात्मकता देखील काहींमध्ये आढळते. मला बरे वाटत नाही, कोणाशी बोलावे वाटत नाही, काही काळासाठी वाटत नाही या विचाराने निराश येते. औषधे, अभिसरून येत

न मिळणे, उरवारांना तशीच पाहणे, व्यस्ततेमुळे सोलापूर येतो, रुग्णांच्या अशा मानसिक अवस्थेत त्यांना व त्यांच्या कुटुंबांना धीर देण्यासाठी राष्ट्रीय स्वयंसेवक संघाने 'चला समजून घेऊन या' हा समुपदेशनाचा उपक्रम सुरू केला. दररोज दहा ते बारा कुटुंबातील सदस्यांना सोनवर संपर्क साधून समुपदेशन केले जाते. या उपक्रमासाठी भारती विद्यापीठाच्या डॉ. जयश्री मेहता, प्रा. रोहिणी पावडरोड, बालचंद कलिंगे प्रा. डॉ. अमय जाधव परीक्षित आहेत.

रुग्णांना औषधे, उपचाराबरोबरच मानसिक आधार देण्याची गरज आहे. यासाठीच 'चला समजून घेऊन या' हा उपक्रम सुरू करण्यात आला आहे. रुग्ण व रुग्णांच्या कुटुंबातील सदस्यांसोबत संवाद साधताना चालले अनुभव घेत आहेत.

- डॉ. जयश्री मेहता, संचालक, समाज कार्य विभाग, भारती विद्यापीठ, सोलापूर

कोविड रुग्णांना मानसिक आधार मिळणे आवश्यक आहे. आम्ही रुग्णांना फोन करून दिलासा देण्याचे काम करतो. या उपक्रमात विविध क्षेत्रातील मान्यवर, डॉक्टर, प्राध्यापक, व्यवसायिक, नोकरदार, गृहिणी आणि समाज कार्य विभागाचे विद्यार्थी, विद्यार्थिनी असे ७५ जण स्वयंसेवकाने सहभागी आहेत.

- डॉ. अमय जाधव, सामाजिक कार्य विभाग, बालचंद कलिंगे, सोलापूर

आम्हाला डॉ. अंका जोशी यांनी ऑनलाइन प्रशिक्षण दिले. यानंतर सुहास जोशी, प्रा. डॉ. अमय जाधव

आणि प्रा. डॉ. नरेंद्र कटीकर यांनी सोलापूरमध्ये हा उपक्रम राबविण्यासाठी योजना तयार केली. खुप चांगला प्रतिसाद मिळतो आहे.

- चबिता काळे, सनुदेशक, भारती विद्यापीठ, सोलापूर

“The Secrets of Most Successful Companies: Insiders’ Insights”

Topics

*Session 1: Application of Market Research as an integral part of business
decisions*

*Session 2: Role of Talent Management in keeping the organization afloat
and sailing*

- ***Location: Online (Google Meet)***
- ***Date: Saturday, May 15th 2021***
- ***Time: 12.30 pm to 3.30 pm IST***
- ***Attendees: MBA & MCA Students and all the faculty members.***

Session 1: Applications Of Market Research In Marketing & Business Decision Making Summary.

- On May 15th 2021, at 12.30 pm IST (Moscow Time: 10.00 am to 11.00 pm) Mr. Abhijit Matkar (Technology & Telecom Head, Europe) Nielsen, Moscow, RUSSIA had delivered an excellent webinar on the subject for the students of AKIMSS.
- It started with Dr. Pritam Kothari (HOD MBA) giving the Welcome Speech
- Dr. Prabhat Kumar (Secretary, IQAC) gave a brief introduction and some personal insights about the honourable guest.
- Mr. Abhijit Matkar completed his Mechanical Engineering and worked in as an engineer in chemical industry for few years and then he discovered that he can do something better and joined MBA where he fell in love with Market Research. He completed a project for Elctrolux Kelvinators in which he surveyed 400 retailers and 100 customers to get the insights and then presented the results to Elctrolux Kelvinators.
- This project in MBA was the beginning of the Market research journey that he began and never looked back.
- After the introduction, Mr. Abhijit Matkar started with his presentation

Fig1.1

- In short, he gave content that would be covered in the presentation and told how the MR can be used to help customers and companies to get what they want and fulfill each of their needs.

Fig.1.2

- In Case Study – 1 he stated how Airtel Payments Bank mitigated the ongoing market pain points to come through.
- In this case they devised a sample plan and then used computer aided telephonic interview method to get the MR data as it was the most cost effective method.
- This MR addressed the key issues faced in banking sector as shown in Fig.1.2.
- This researched data was then used by Airtel to come with the commercials and successfully launched their Payments Bank.

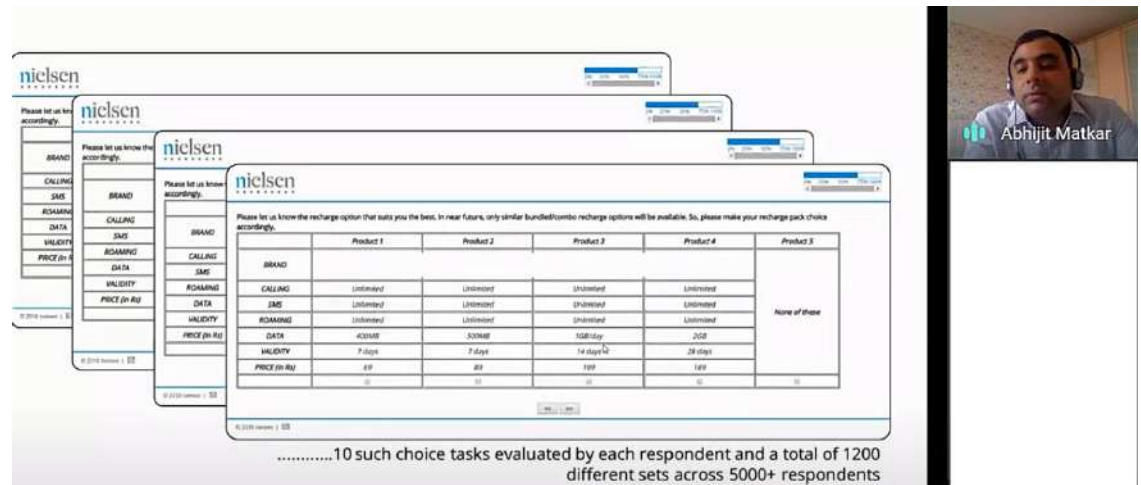

Fig.1.3

- Case Study – 2 was regarding to ascertain the market attractiveness for a range of bundle offers amongst client, competitors, consumers and resulting impact on the future revenue pools. In the past, the customers had to pay money/recharge for voice, data and SMS services separately. But this telecom operator wanted to get market insights about the impact it would have if bundle offers were launched and how would customer react to it.
- As shown in Fig.1.3 were the set of questions were asked across 5000+ respondents to the MR data.
- Through these questions following key points were to be accessed :-
 1. Proportion of Client consumers across ARPU (Average Revenue Per User) bands likely to shift to bundle options.
 2. Preference to different bundled options amongst those willing to move to a bundled only world.
 3. Ascertaining potential revenue gain/loss to client in bundled only scenario.
 4. Additionally, assessing openness among current competition users to shift to client bundled options.
- Fig.1.4 was the impact on the business which stated that 34% of existing customers would change to other operators, 18% increase in revenue due to the bundle offers, 31% others client customers will be willing to move to the plans launched because of which there would be 10% revenue increase and 16% of other operators customers will shift to this telecom operator.
- This MR data predicted future revenue pools which will generate when the telecom operator will launch the bundle options and also predicted the consumer and competition reactions to these as well.

Fig.1.4

- Case Study – 3 was regarding the brand health of an undisclosed company which had to keep track of the branding in more than 174 cities of India including rural and urban areas.

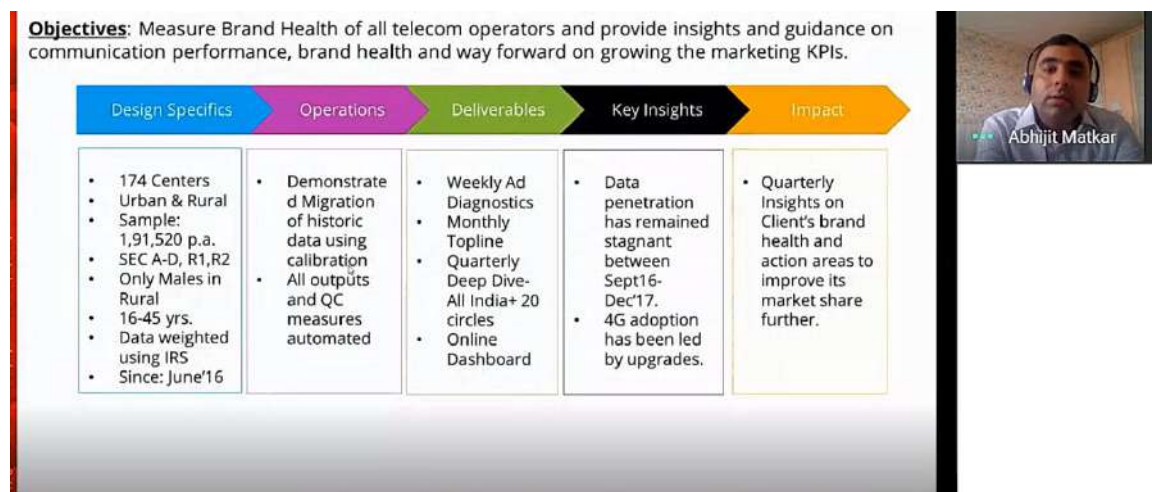

Fig.1.5

- Sample size of 200,000/annum was to be covered all the types of demographic quotas, regions and so on and so forth. It based on the factors shown in Fig.1.5.

- Fig.1.7 shows the actual business impact that is had by the MR data analysis provided to the brands and the increase/decrease in the revenue in the years.

Fig.1.7

- With these intriguing Case Studies the presentation was concluded and Q&A session began.
- Different questions like cultural differences, insights on the new and upcoming technologies and many other such questions, from number of students were addressed by the honorable guest and explained them in the most engaging manner.
- Vote of Thanks was given by Dr.Prabhat concluding and thanking Mr. Abhijit Matkar for the quality and quantity of knowledge that was dispersed during the webinar and also for the enthusiasm that he showed to respond to all the questions which were asked to him.

Session 2: Role of Talent Management in keeping the organization afloat & sailing.

- On May 15th 2021, at 14.30 IST by M. Amit Kumar (Head, Talent Acquisition) Harbinger Group, Pune, INDIA had delivered a very in-depth webinar on the mentioned subject for the students of AKIMSS.
- The session was open and was completely Q&A based where all the students and faculty members were asking the questions.
- Mr. Amit started with his brief introduction and stated his interest in the field of HR and gave the insights into how HR is important and its role during the pandemic situation and the changes that have taken place during the pandemic situation.
- He went on to add that every organization has its own culture and the culture developing and curating it can be only done by the HR department and also stated the importance of the culture to any organization.
- Questions like – interview judgement, customer centric, inclusivity, cultural differentiations, talent vs experience, roles and responsibilities of HR, different departments of HR and so on and so forth were asked not only by the students but also the faculty members. The answer to each of such doubts and queries were given in an amicable manner and explained with appropriate examples whenever necessary.
- This session gave all the attendees a lot to take away and also gave the information regarding the direction of HR and where it is heading as well.
- After the conclusion of the interactive session, Vote of Thanks was given by Dr. Prabhat Kumar. He thanked him for sharing his ideas, knowledge, and valuable time with the students of AKIMSS. With that the session was wrapped up.

Session 1:

Online Sales: Opportunities and Challenges in the Pandemic Era by Dr. Sachin Warade

Executive Summary

On May 22nd 2021, at 5.00 pm IST Dr. Sachin Warade (Ex Business Head and Zonal Manager) HDB Financial Services and HDFC Bank, Pune, INDIA disclosed some of the most interesting facts about "Online Sales: Opportunities and Challenges in the Pandemic Era". He was a sales professional for more than 15 years; he had the perfect bird's eye view about the topic.

He started with his brief introduction about how he became a sales enthusiast from an engineer and his experiences during his tenure at different positions in different companies with varying responsibilities.

As pandemic has made everything and everyone to go online it had an impact how the sales is done as well. Dr. Sachin gave us some intriguing insights about the same and explained how the sale have changed and gone from paper to paper, hand to hand to hands free and online with digital money.

Dr. Sachin emphasized the paramount importance about the online existence of a business and how it's a game changer. If a business has to spread its wings, explore new horizons, to have competitive advantage or to generate profit online existence is crucial. He explained it by giving different examples from local to international observations of business around him.

He then stated the legitimate meaning of an "MBA" and also later answered a query from a student who asked regarding "how a person with no capital can start his own business?" with a beautiful example and description about the same.

As the session came to the end many students had many such interesting questions like relations between sales and marketing, how can a bank recover NPA online and so on and so forth, all the questions were answered in a very detailed and easy understandable manner.

Welcome note by Dr. Pritam Kothari (HOD, Management)

Vote of Thanks by Dr. Prabhat Kumar (Secretary, IQAC)

Session 2: A Blueprint to make a Winning Proposition by Mr Satish Sinha

Executive Summary

On May 22nd 2021, at 6.30 pm IST (Princeton Time: 9.00 am to 10.00 am), Mr Satish Sinha, Associate Vice President, Zensar Technologies, Princeton, NJ, USA, proposed a practical way of forming "A Blueprint to make a Winning Proposition". His services and propositions are recognized by Gartner, ISG, Everest Group and other market leading analyst company. He being a person who rose from the ashes like a phoenix to the glory that very people have in this world with his complete dedication, passion and on top off all hard work, he is the ideal person to explain about the above mentioned topic.

Modern loyalty and rewards programs are abundant and varied. But to differentiate not only a business but also as an individual in today's crowded market, one has to develop a unique and compelling value proposition to attract new customers and increase sales. "The ideal winning proposition is a mix of a company's strengths, customer needs and competitive differentiation. It combines the uniqueness of the brand with the top priorities of its customers."

Mr. Sinha stated about the rule which rules the world i.e. 80/20 rule, 80% of the people are the follower of the 20% innovators and creative thinkers. He emphasized us to be in 20% and become a creator instead of executioner. He was distinctive with his opinion that there are no short cut to success and it can be only achieved by hard work, persistence and patience.

Agenda and take away from the session:-

1. Understand what really is a Winning Proposition?
2. Understand how and why this is so relevant to each one of you during your education?
3. Understand why a winning proposition is so critical for a successful business?
4. Understand schematic of how to develop a winning proposition?
5. Understand how does your MBA program helps you prepare for future to make / contribute in a winning proposition.

After the compelling presentation, Mr. Sinha answered queries such as GTM, data scaling, COE, value addition, AR and VR and some career advice. He cleared not only the queries of the students also the faculty members who were actively participating during the session.

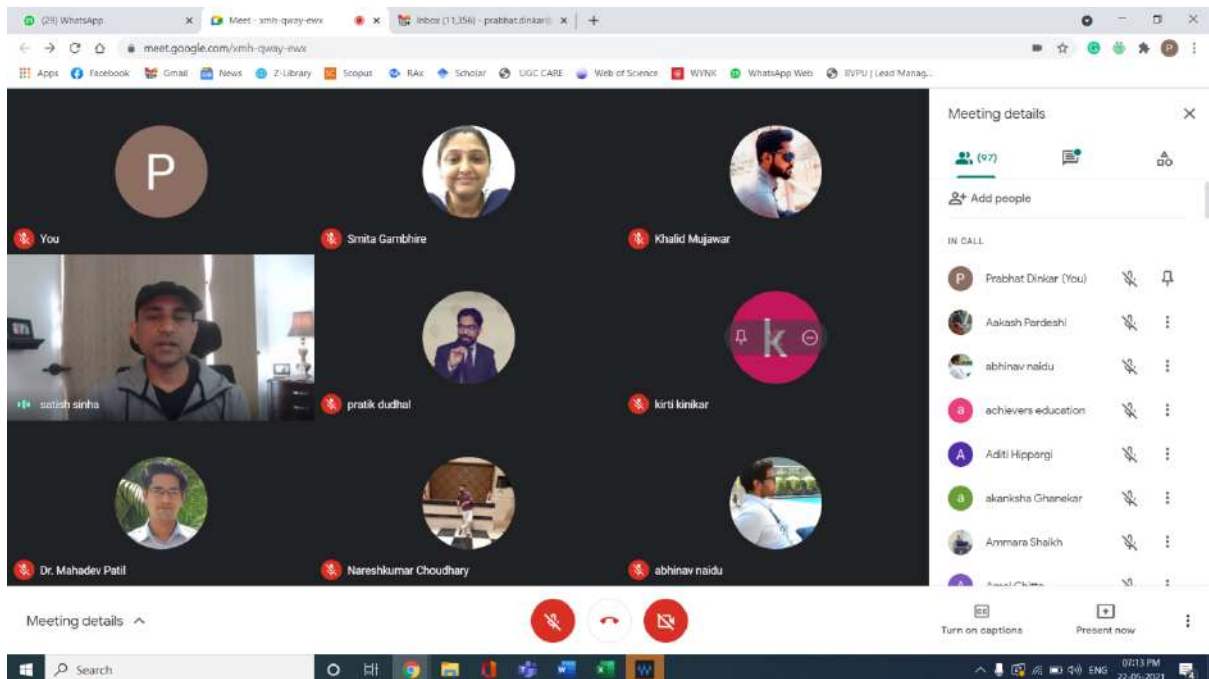

Welcome Address by Dr. Prabhat Kumar (Secretary, IQAC)

Vote of Thanks by Mr. Abhinav Naidu (Student, MBA-I)

समुपदेशनातून रुग्णांना मानसिक आधार

राष्ट्रीय स्वयंसेवक संघाचा ऑनलाइन उपक्रम

सकाळ वृत्तसेवा

सोलापूर, २४ : कोरोना महामारीने सर्वत्र उग्र रूप धारण केले आहे. अशा स्थितीत रुग्णांच्या कुटुंबातील सदस्यांचे मानसिक स्वास्थ्य खालवू नये व रोगाचे प्रमाण बळवू नये, यासाठी प्रतिबंधात्मक उपयोक्त्यांबरोबरच मानसिक आधारची गरज आहे. त्यासाठी राष्ट्रीय स्वयंसेवक संघाने सोलापूरमध्ये 'बला समजून घेऊन या' हा ऑनलाइन व फोनबारे समुपदेशना उपक्रम हाती घेतला आहे.

रिपोर्ट : पॉझिटिव्ह आल्यावर रुग्णांच्या मनात भीती निर्माण होते. आपले कसे होईल, आपल्याला बरे वाटेल का नाही? पुढे काय होईल, घरातील इतर सदस्यांचे कसे होणार? याची चिंता त्यांना वाटू लागते. मला जर काही झाले, माझे बरं वाईट झाले तर कुटुंबाचे कसे होईल अशी नकारात्मकता देखील काहींमध्ये आढळते. मला बरे वाटत नाही, कोणाला बोलवे वाटत नाही, काही काळावे वाटत नाही या विचाराने तैराव्य येते. औषधे, आक्मिजन बेट

त मिळणे, उपचारांना उत्तार पावणे व्यवस्थेबद्दल संतव्य येतो. रुग्णांच्या अशा मानसिक अवस्थेत त्यांना व त्यांच्या कुटुंबियांना बरे देण्यासाठी राष्ट्रीय स्वयंसेवक संघाने 'बला समजून घेऊन या' हा समुपदेशन उपक्रम सुरू केला. दररोज दहा ते बारा कुटुंबातील सदस्यांना फोनवर संपर्क साधून समुपदेशन केले जाते. या उपक्रमासाठी भारतीय विद्यार्थीछात्रा डॉ. जयश्री मेहता, प्रा. रोहिणी पावडरीची, चालचंद कॉलेजचे प्रा. डॉ. अमय जाधव पौरुष फौज आहेत.

रुग्णांना औषधे, उपचारांबरोबरच मानसिक आधार देण्याची गरज आहे. यासाठीच 'बला समजून घेऊन या' हा उपक्रम सुरू करण्यात आला आहे. रुग्ण व रुग्णांच्या कुटुंबातील सदस्यांसोबत संवाद साधताना चांगले अनुभव येत आहेत.
- डॉ. जयश्री मेहता, संचालक, समाज कार्य विभाग, भारतीय विद्यार्थी, सोलापूर

कोविड रुग्णांना मानसिक आधार मिळणे आवश्यक आहे. आम्ही रुग्णांना फोन करून दिलास देण्याचे काम करतो. या उपक्रमात विविध क्षेत्रातील मान्यवर, डॉक्टर, प्राध्यापक, व्यवसायिक, नोकरदार, गृहिणी आणि समाज कार्य विभागाचे विद्यार्थी, विद्यार्थिनी असे ७५ जण स्वयंस्फूर्तीन सहभागी आहेत.
- डॉ. अमय जाधव, सामाजिक कार्य विभाग, चालचंद कॉलेज, सोलापूर

आम्हाला डॉ. ओंकार जोशी यांनी ऑनलाइन प्रशिक्षण दिले. घातून सुद्धास जोशी, प्रा. डॉ. अमय जाधव आणि प्रा. डॉ. नरेंद्र कटीकर यांनी सोलापूरमध्ये हा उपक्रम राबविण्यासाठी योजना तयार केली. खूप चांगला प्रतिसाद मिळतो आहे.
- चविता काळे, समुपदेशक, भारतीय विद्यार्थी, सोलापूर

Collaboration with IIT Bombay for Student Development Program

Letter of Appreciation

To,
Prof. Sunil P. Paul,
Bharati Vidyapeeth Deemed to be University, Institute of Management and Rural Development
Administration, Sangli

Date: 01/04/2014

This is to express thanks and appreciation to Prof. Sunil P. Paul for spreading awareness and holding Software Training workshops on Student Development Program at Bharati Vidyapeeth Deemed to be University, Institute of Management and Rural Development Administration, Sangli on 28/03/2014 and trained 28 students.

You are making an outstanding contribution of using ICT based teaching and learning methodology for students of your college. Your contribution to the implementation of Spoken Tutorial Project is significant and have played a pivotal role in becoming fastest growing NERACT Project. Your skillful skills and courteous personality are highly appreciated in spreading awareness of Spoken Tutorial, IIT Bombay.

I would like to personally thank you for contributing to the software training and awareness spread in your Institute.

This work was done in association with the Spoken Tutorial IIT Bombay. As part of the National Mission on Education through ICT, funded by MOE, Govt. Of India.

I am sure that we will continue to get your continued support for making India IT literate and spreading project entrance in state of Maharashtra.

Yours Sincerely,

Dr. Anand V. Gokhale

3. Differential learning by students after Covid Pandemic and its effects on World Economy By Mr.C.S.Pant on 04/11/2020

<u>Flyer</u>	<u>Attendance Report</u>
	

Activity Report

In the webinar on Differential learning by students after Covid Pandemic and its effects on World Economy By Mr.C.S.Pant he said that the worldwide school closures in early 2020 led to losses in learning that will not easily be made up for even if schools quickly return to their prior performance levels. These losses will have lasting economic impacts both on the affected students and on each nation unless they are effectively remediated. While the precise learning losses are not yet known, existing research suggests that the students in grades 1-12 affected by the closures might expect some 3 percent lower income over their entire lifetimes. For nations, the lower long-term growth related to such losses might yield an average of 1.5 percent lower annual GDP for the remainder of the century. These economic losses would grow if schools are unable to re-start quickly.

A session on Financial Literacy delivered by Chaitanya Kittur he said Financial literacy is the ability to understand and effectively use various financial skills, including personal financial management, budgeting, and investing. Financial literacy is the foundation of your relationship with money, and it is a lifelong journey of learning. The earlier you start, the better off you will be, because education is the key to success when it comes to money.

Activity Report

Upgrade Yourself-Campus to Corporate By Mr. Mr.Vasant Pattar , he said that you must know how to market yourself well. College to corporate is a life-changing transformation, and while it is possible that you may go back to studying for a while, it marks the beginning of your adulthood. It is a life transition that is exciting because you get to work in your dream job, earn money and enjoy spending it as you wish! Yet, it also marks all the responsibilities and duties that come with a job. From the carefree world of college to corporate routine; a lot of changes. But, we have some tips for you that will make this easy. Nowadays, that's all that seems to count.
