My college is the place where I used to spend most of my time. I love that place a lot and I have lots of friends there, whenever we get leisure time in the college period, we hang out on the campus. All the teachers are qualified and experienced They teach us with great care and love. There is a friendly environment in the campus, and anyone can go to any building, there is not much of restrictions. I am glad to be in such a beautiful and amazing place.

Hamad Medical Corporation, Qatar

BVDU College of nursing has provided me with a unique and wonderful learning environment. The faculty adopts different teaching styles to enhance the critical thinking of nursing students and is adaptive to current evidence-based nursing practices in nursing.

Probing further, the transition to concept-based learning is one of the most difficult parts of nursing college. We were provided with a valuable, huge clinical platform for remembering facts.

The dedication of the Principal and teachers of BVDU College of Nursing, to high standards, resourcefulness, and individualized patient care to serve communities throughout, has made them unique. However, without the help of the principal and teachers, I would not be where I am now. and I am grateful for all the efforts that they invest to make professional nurses.
