Day	Date	Total	Present	Intern
Wednesday	13/9/23	32	25	0
Thursday	15/9/23	33	28	2
Friday	16/9/23	30	30	2
	<b>Total beneficiaries</b>	95	71	5

**About visit-** Every student had a chance to handle the models to perform P/V, Breast Examination. Every candidate could use the Cusco’s speculum on the model. They also could get a 3D perception of how exactly is P/V examination done. The students could also get an idea about examination rules and medico legal aspect. They also perceived the importance of tissue colors, consistency and various manuvouers to be done for Breast examination. Up till now they did all was theory. These simulated models gave them a good experience of reality. They had many questions to ask and were happy to get their answers too.

Dr. A. P. Talathi explaining the topic

student practicing Cusco’s speculum examination

Students practicing Sims speculum

students practicing breast examination on model
