STUDENTS FEEDBACK ANALYSIS ON CIRRICULUM (YEAR 2022-23)

Student's feedback play an important role in enrichment of learning and better teaching learning outcome. A questionnaire based on questions regarding the cirriculum aspect was designed by the University in a form of google forms and the link was shared to all the 1st and 2nd year BPTH students of Bharti Vidyapeeth (deemed to be university) School of Physiotherapy, Sangli. The data was extracted from the google sheet and excel format was used for the analysis.

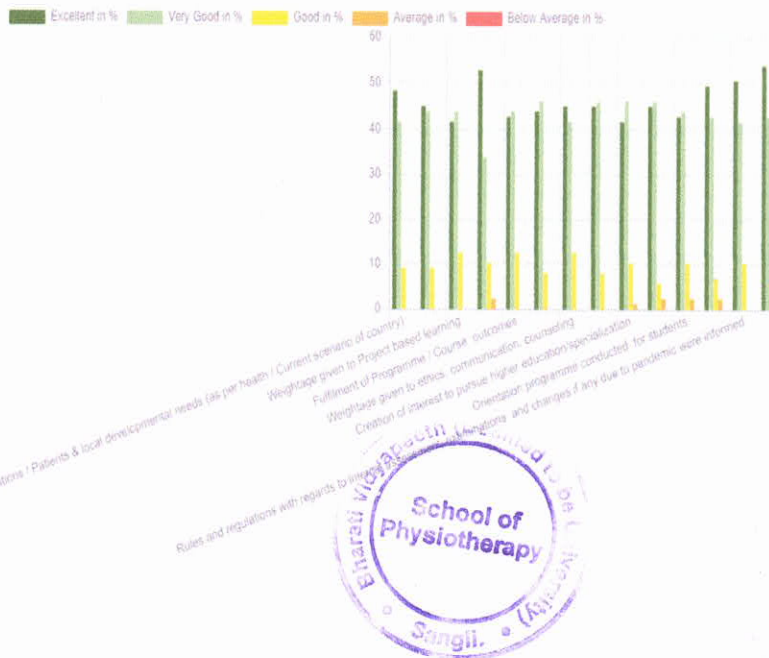

Total of 89 students participated in the survey. The questions covered all the aspect of the cirriculum that would assist in examining the current cirriculum and help in the improvisation in future if needed.

Total of 17 questions were formulated and a likert scale with options, excellent, very good, good, average and below average was used for the grading.

The commonest response given by the Physiotherapy students were 'excellent (4)' and 'very good (3)'

More than 85% of the student were overall satisfied with the current cirriculum.

The following is the graphical representation of the survey
