- **Faculty In-charge**—: Dr. Shrivardhan Kalghatgi, HOD, Department of Public Health Dentistry, BV (DU) DCH, Sangli
- **Nature of Activity**—: Indoor
- **Number of Participants**—: 30

The Department of Public Health Dentistry at BV(DU) Dental College and Hospital, Sangli, successfully hosted a Faculty Clinical Meet on March 31st 2025, focusing on the theme, 'Decoding of Bias in Research.' This session aimed to critically examine different types of biases affecting academic research and methodologies to mitigate them.

Dr. Priyanka Paul, the keynote speaker, provided an in-depth exploration of research biases, elaborating on their impact on study outcomes, data interpretation, and scientific integrity. She highlighted various strategies to identify, minimize, and address bias in research, emphasizing the importance of maintaining objectivity and ethical rigor in academic studies. Additionally, she discussed the role of critical appraisal in ensuring the credibility of scientific work.

The event was organized by the Department of Public Health Dentistry and was held at the Dental College Auditorium at 10:30 a.m. The session witnessed active participation from faculty members, PhD scholars, and researchers from diverse disciplines, fostering a thought-provoking discussion on research transparency and validity. Attendees engaged in insightful conversations on bias reduction techniques, the ethical responsibilities of researchers, and the importance of methodological rigor. The session provided faculty and scholars with valuable insights into strengthening research reliability and fostering a culture of academic excellence. Participants appreciated the relevance of the topic and the practical guidance offered, contributing to a more informed and conscientious research community.
