(Deemed to be University), Pune

ABOUT US

Abhijit Kadam Institute of Management and Social Sciences is a premier leading institute of Western Maharashtra, located at Solapur. The institute is approved by AICTE, recognized by UGC and functions under the umbrella of Bharati Vidyapeeth (Deemed to be University), Pune. It has a well-established history and is proud of its academic reputation. Having been set up in 1981, AKIMSS has emerged as a citadel of learning and research with a symbiotic relationship with the world of business and industry. The institute creates an environment within which actionable learning takes place and thus it provides the breeding ground for managerial leadership of the future. The institute presently has Three post graduate programmes (MBA, MCA & MSW), two under graduate programmes (BBA and BCA), CDOE Programmes. The institute has excellent full time faculty members with proven track records and a group of visiting faculty members who bring the experience of real world to classroom discussion. Specialist scholars come and deliver lectures enabling the student to expand their horizons of gyan (knowledge), buddhi (intelligence) and vivek (the consciousness to discern)

PROGRAMME OBJECTIVES

The Online ATAL Faculty Development Programme (FDP) on "Artificial Intelligence in Education: Opportunities and Challenges" is designed to provide faculty members with an in-depth understanding of how AI can transform educational practices. The primary objective is to enable educators to effectively integrate AI technologies into curriculum design, teaching methodologies, learning processes, and student assessment systems. The programme will cover key areas such as AI-based personalized learning, intelligent tutoring systems, data-driven decision-making, automation in administrative tasks, and the ethical implications of AI in education. Through a balanced blend of theoretical knowledge and practical application, participants will gain hands-on experience with AI tools and platforms relevant to education. Over the six-day FDP, sessions will be delivered by academic scholars and industry professionals, offering insights into real-world applications of AI in both higher education and school settings. The programme will include live demonstrations, interactive discussions, case studies, and problem-solving workshops to promote active learning. By the end of the FDP, participants will be equipped with the skills to design and implement AI-driven educational solutions, adapt to emerging technologies, and contribute to institutional innovation. The programme also aims to foster critical thinking, innovation, and ethical awareness among faculty members in the context of AI adoption.
