The conclave brought together respected industry professionals from sectors such as Human Resources, Marketing, Legal Affairs, and Corporate Strategy, all of whom shared their expertise and real-world experiences around the central theme, “Building Skills: Identify, Develop, Deploy Talent.”

The session aimed to provide students with a deeper understanding of how modern organizations identify individual potential, develop skills through structured learning frameworks, and deploy talent to drive organizational growth. Each speaker offered unique perspectives on workplace transformation, the importance of adaptability, the role of technology in HR functions, and the changing expectations from young professionals entering the corporate world.

Throughout the event, students from MBA, BBA, BCA, and Law programs actively participated, gaining direct exposure to industry expectations, leadership mindsets, and practical insights on building a strong career foundation. Discussions revolved around emerging HR trends, the future of skills, talent analytics, and the role of continuous learning in long-term professional success.
