

BBA III Students Industrial Visit

The BBA III students successfully completed a three-day Industrial Visit organized from 20th to 22nd January 2026 as an integral part of their academic curriculum. The initiative was designed to provide students with first-hand exposure to industrial functioning and modern management practices.

During the visit, students explored prominent industries located in the Konkan region. A key highlight of the tour was the visit to KONBAC Bamboo Factory, Kudal, where students gained insights into bamboo-based manufacturing processes. They also learned about sustainable, eco-friendly production methods and the role of such industries in promoting rural economic development.

The industrial visit was effectively coordinated by Prof. Akhilesh Jadhav and Mrs. Anuja Jadhav, whose dedicated planning and guidance ensured the smooth conduct of the programme and enhanced its academic relevance.

Overall, the visit enabled students to bridge the gap between classroom learning and real-world industrial applications. It strengthened their understanding of operations management, sustainability practices, and managerial decision-making, reflecting the institute's commitment to experiential learning and industry-oriented education.
