

Builders Build 2026, hosted by BVIMR's NEXEL Incubation Cell in collaboration with 23 Ventures, challenged **11 teams** to excel in a high-pressure "Solve–Pitch–Build" format. Participants moved from problem analysis to live execution, culminating in a Build Sprint where the top five finalist teams—The Deal Diva, Agam Jatin, Bitkratos, Business Holicks, and Vision Vault—deployed functional MVPs and websites on the auditorium floor.

The event was guided by industry mentors **Mr. Akshay Mathur**, a seasoned Investor and GTM strategist, and **Mr. Amanpreet Singh**, Founder & CEO of Felix Corporation. While Mr. Mathur provided strategic scalability insights, Mr. Amanpreet Singh focused on technical logic and financial viability. **The Deal Diva** secured first place, followed by **Agam Jatin** and **Bitkratos**, successfully demonstrating the power of rapid execution in the startup ecosystem.
