A Report on
National Level Hackathon
HACKNOVA 2026

Outcome of event

HACKNOVA 2026 was the Inspiring event to participants to create creative and practical solutions for real-world challenges, 'Build. Believe. Better India' to ensuring a healthy and thriving social environment for all Build teamwork and networking among innovators from across India, Provide a platform for learning and experimenting with cutting-edge technologies, Enable solutions that address social, industrial, and environmental problems, Connect with innovators from across India, build diverse teams, and exchange ideas, Hackathon is an intensely focused working event stakeholders to address a particular challenge or problem prevailing in society. The participants work together to meet project parameters quickly and efficiently. During the event support and guidance was also provided to the volunteers of this college to understand and identifying the problems and how to prepare Intent proposal for ideas. At the end of this activity **HACKNOVA-2026** was successful to motivate students for becoming job giver instead of job seeker. As a result of this Hackathon participation the college has received concept application for Starting "Egg Incubator" by student of this college and from participants. The college will soon call the interested students to present the Proposals for Start-ups and for Idea validation.
