- **Venue-:** Within the campus
- **Organiser-:** Department of Oral Medicine and Radiology
- **Faculty In-charge -:** Dr. Anirudha Shete
- **Nature of Activity-:** outdoor
- **Number of Participants-:** 43

World Environment Day is celebrated worldwide every year on **5th of June** at the international level in order to make people around the world aware of the environmental issues our planet is facing — such as **climate change, pollution, deforestation, biodiversity loss**, and more. In 2025, the theme for Environment Day was “**Land Restoration, Desertification, and Drought Resilience**”, which emphasizes the urgent need to heal and restore our planet’s ecosystems and prevent further degradation of our natural resources.

To mark this important occasion, tree plantation was organized under the guidance of Dr. Sharad Kamat, Principal, BV DU Dental College, Sangli. The celebration aimed to spread awareness about environmental issues and encourage students and staff to take active steps toward sustainability.

The event began with a tree plantation drive within the campus. Students, teachers, and staff participated enthusiastically, planting over 20 saplings of native species, symbolizing our commitment to a greener future.

The program concluded with a pledge to protect the environment and a vote of thanks to all participants and organizers. The event was not just a celebration but a meaningful step toward creating responsible global citizens who care for the planet. World Environment Day 2025 was celebrated with great zeal and sincerity. It reminded us that **every small step matters** when it comes to protecting our environment. Let us continue this journey of awareness and action, not just on one day, but every day.
