Interdisciplinary Case Presentation on “Rehabilitation of Partially Pneumatized Maxilla”

- **Name of Activity –:** Interdisciplinary Case Presentation on “Rehabilitation of Partially Pneumatized Maxilla”
- **Date –:** 09th July 2025
- **Time –:** 09:30 AM
- **Venue –:** Lecture Hall No-04
- **Name of Presenter –:** 1) Dr. Simran Dewani (PG) Department of Prosthodontics Crown & Bridge 2) Dr. Vishnu Menon (PG), Department of Oral & Maxillofacial Surgery
- **Faculty In-charge–:** Dr. Raghavendra Adaki, HOD Department of Prosthodontics Crown and Bridge.
- **Nature of Activity –:** Indoor
- **Number of Participants–:** 26

Objective of the Meet

The interdepartmental presentation was organized with the aim of fostering collaborative academic discussions between the Department of Prosthodontics (Crown & Bridge) and the Department of Oral and Maxillofacial Surgery. The session was intended to explore and formulate a comprehensive treatment plan for the **Rehabilitation of Partially Pneumatized Maxilla**.

Summary of the Presentation

The session highlighted a multidisciplinary approach to the rehabilitation of a partially pneumatized maxilla, a condition commonly seen post-extraction in the posterior maxillary region. The presenters collaboratively discussed anatomical, surgical, and prosthetic considerations essential for successful patient outcomes.

Key points included:

- Evaluation of the maxillary sinus through imaging
- Surgical intervention options such as sinus lift and bone grafting
- Prosthodontic planning post-surgical reconstruction
- Long-term prognosis and implant stability in compromised bone

Faculty Involvement

The session was chaired by:

Faculty members from both departments participated actively, offering insights, case experiences, and suggestions to enrich the treatment protocol.

Conclusion

The presentation concluded successfully with a fruitful exchange of knowledge and interdisciplinary collaboration. The event served as a platform for enhancing treatment planning skills and fostering cooperation between departments for improved patient care.
