Report on (“Vertex Technical Seminar”)

Event Name: Recent Advancements in Industry

Guest Speaker: Mr. Kishor Chaturani, Chief Product Architect, TCS

Date: January 17th, 2026

Time: 10:00 AM – 12:00 PM

Venue: Bharati Vidyapeeth (Deemed to be University), Department of Engineering & Technology, Navi Mumbai

Organized by: Vertex Group (CSBS Department)

Name of Faculty Coordinators:

- Dr. Gayatri Hegde
- Prof. Shweta Patil

On 17th January 2026, from 10:00 AM to 12:00 PM, the Computer Science and Business Systems (CSBS) Department organized a technical seminar titled “Recent Advancements in Industry.” The session was primarily aimed at third-year and final-year CSBS students to bridge the gap between academic learning and real-world industry practices.

The seminar was delivered by Mr. Kishor Chaturani, Chief Product Architect at Tata Consultancy Services (TCS), who shared valuable insights into current and emerging industry trends. The event witnessed enthusiastic participation from students keen to understand modern technologies, industry expectations, and evolving roles in the IT and product development sectors.

Event Objectives:

- To provide insights into recent advancements and emerging trends in the IT and technology industry
- To bridge the gap between academic curriculum and real-world industry practices.
- To help third-year and final-year students understand industry expectations and skill requirements.
- To expose students to product architecture, innovation, and enterprise-level solutions.
- To guide students on career paths, industry readiness, and professional growth.
- To encourage students to align academic projects with current industry needs.

Event Highlights:

- Expert talk by an industry professional from TCS with extensive experience in product architecture.
- Discussion on recent technological advancements, tools, and frameworks used in the industry.
- Insights into product development life cycles and real-world industrial challenges.
- Emphasis on the importance of industry-oriented skills, innovation, and adaptability.
- Guidance on career opportunities, internships, and future trends for CSBS students.
- Interactive Q&A session addressing students' queries related to careers and technology.
- Active participation from third-year and final-year CSBS students.
- Well-coordinated event with support from faculty members and student volunteers.

Impact of the Event:

- Enhanced understanding of current industry trends and technological advancements.
- Improved awareness among students about real-world applications of CSBS concepts.
- Helped students align their academic projects with industry expectations.
- Motivated students to develop industry-relevant technical and professional skills.
- Provided clarity on career opportunities, roles, and growth paths in the IT industry.
- Strengthened industry exposure and practical knowledge among final-year and third-year students.
- Encouraged students to prepare proactively for placements and higher studies.
