VIVEK VAHINI 2026

Where Ideas Become Awareness, and Awareness Becomes Action

Date: 14 March 2026

Organised by: NSS Unit

Department of Management Studies, Bharati Vidyapeeth (Deemed to be University), Navi Mumbai

About the Event

On *14 March 2026*, the NSS Unit of the Department of Management Studies participated in *Vivek Vahini*, an initiative centred around awareness, thoughtful dialogue and the development of a socially conscious mindset.

The session brought together students, faculty and speakers on a common platform to *listen, reflect and engage with ideas that extend beyond academic learning*. The presence of multiple voices and perspectives made the programme an opportunity for students to look at social issues with greater awareness and responsibility.

What made the experience meaningful was that it was not simply about *hearing someone speak*. It was about creating a space where young minds could pause, question, understand and form their own perspectives.

Objectives

- To encourage social awareness and responsible citizenship among students.
- To develop critical thinking and thoughtful reflection.
- To provide students with exposure to meaningful discussions beyond academics.
- To encourage participation, communication and exchange of ideas.
- To inspire youth to become more *aware, responsible and socially engaged* individuals.

Outcomes: The programme encouraged students to look beyond routine academic learning and engage with broader social perspectives. It strengthened *communication, listening, critical thinking and awareness*, while encouraging students to reflect on their role in society.

The interaction also demonstrated the importance of creating platforms where young people can *listen to different perspectives, question thoughtfully and translate awareness into responsible action.*

“ Awareness begins when we listen.
Change begins when we choose to act.”

A Moment Beyond the Classroom

Vivek Vahini was more than an event on the calendar. It was a reminder that education is not limited to textbooks or classrooms—it also lies in conversations, questions, experiences and the courage to think differently.

One platform. Many voices.

One experience. A wider perspective.

Key Takeaway

Think consciously. Question thoughtfully. Act responsibly.
