

2022-2023

Report for Industry Institute Interaction, Green Conclave: SUSTAINABILITY IN HIGHRISE, signature program by ISHRAE Pune Chapter

(GREEN CONCLAVE)

Day/Date: Saturday, 4th February 2023
Timing: 9:30 am to 8:00 pm
Activity Organized By: ISHRAE Pune Chapter in association with
 GBCI, ISLE, ASHRAE, FSAI, AESA, CTBUH-INDIA

Activity Organised For: Faculty Members and Students
Under the Portfolio of: Industry Institute Interaction and part of Design Studio
Venue: Suzlon One Earth, Pune
Invited Guests If any:
 Ar. Christopher Benninger: Principal Architect CCBA
 Ar. Mili Mujumdar: Director GBCI-India
 Ar. Anuja Sawant: Director of CTBUH-India
 Dr. Hariharan: Environmental Economist
 Pankaj Dharkar: Chairman of Assocham
 Mr. Prashant Girbani: Director General MCCA
 Anand Chordia : Director Suhana Spices and many more

Introduction to the Activity:

Green Conclave is envisioned a similar goal and we look forward to walking the path with stalwarts like you for maximum impact amongst the other stakeholders. **Green Conclave - 'Sustainability in High Rise'** aims to intervene with the sky-touching structures that Pune is moving towards with the UDCPR offer. **Residential, Commercial, and mix use typologies** form the NEW Pune skyline ranging from **G + 30 up to G + 55 floors** ranging in major parts of the **Smart city belt**.

Further, resource efficiency will be the next challenge along with Traffic management. If any of the **respective stakeholders** decide to find an excuse and not do their part of the

sustainable contribution, the entire system will stand affected. Hence, we integrate Architects (AESA), MEP consultants (ISHRAE, IPA, ASSOCHAM, FSAI, TRW), designers, product manufacturers, development authorities (CTBUH), Green Authorities (IGBC, GBCI), and many Developers to come on a common platform and brainstorm the ideas for Sustainability in High Rise.

While the process of formulating the program, it was realized that the speakers had too much to share on their part and time stands as a constraint, hence the idea of **GreenPODS** emerged and we have a **podcast team** formulated who will be taking charge of the details of every speaker and making it freely available for anyone and everyone.

As a final step, the program has initiated - **FIVE ELEMENT AWARDS** wherein to recognize the nomination who can be a source of motivation to the specific community and association.

Objective Of The Activity:

1. to promote awareness and understanding of Highrise in sustainability among university students, the leaders of tomorrow, and enable them to design resource-efficient architecture.
2. to interact with various eminent speakers in Sustainability and visit Suzlon One Earth a certified Green Building
3. to interact with various associations like AESA, GBCI, FSAI, CTBUH, IGBC, IPA, MEDA, and ASSOCHAM GEM , ISLE, MEPA, for building industry professionals.

Any other Information to be furnished about the activity:
