Child Health (Pediatric) Nursing
BVPU College of Nursing, Pune

Dear Learners,

This course presents the importance of Infant & Young Child Feeding as growth rate in the life of human being is maximum during the first year of life. Optimal feeding practices ensures children the best possible start to life. It provides developmental growth, stimulates all five senses, fosters emotional security and enhances brain development. Breastfeeding is an unequalled way of providing ideal food for healthy growth & development of infants. Special fatty acids in breastmilk leads to increased intelligence quotient and increased visual acuity. Sound practice of breastfeeding should be initiated among student learners for increased acceptability of breastfeeding practices among mothers.

Objectives:

1. Advocate the cause of infant and young child nutrition and its improvement through optimal feeding practices.
2. Disseminate the correct norms of breastfeeding and complementary feeding.
3. Raise awareness and increase commitment of healthcare professionals to achieve optimal feeding practices.
4. To achieve national goals of Infant & Young Child Feeding Practices.
5. Raising awareness towards breastfeeding through Information Education & Communication of Antennal mothers.

VALUE ADDED COURSE ON INFANT AND YOUNG CHILD FEEDING

Course Description

This course presents the importance of Infant & Young Child Feeding as growth rate in the life of human being is maximum during the first year of life. Optimal feeding practices ensures children the best possible start to life. It provides developmental growth, stimulates all five senses, fosters emotional security and enhances brain development. Breastfeeding is an unequalled way of providing ideal food for healthy growth & development of infants. Special fatty acids in breastmilk leads to increased intelligence quotient and increased visual acuity. Sound practice of breastfeeding should be initiated among student learners for increased acceptability of breastfeeding practices among mothers. This course is offered to the UG students.

Objectives

1. Advocate the cause of infant and young child nutrition and its improvement through optimal feeding practices.
2. Disseminate the correct norms of breastfeeding and complementary feeding.
3. Raise awareness and increase commitment of healthcare professionals to achieve optimal feeding practices.
4. To achieve national goals of Infant & Young Child Feeding Practices.
5. Raising awareness towards breastfeeding through Information Education & Communication of Antennal mothers.

Course Outcome:

Students will learn

- a. Early initiation of breastfeeding; immediately after birth, preferably within one hour.
- b. Exclusive breastfeeding for the first six months of life i. e 180 days (no other foods or fluids, not even water; but allows infant to receive ORS, drops, syrups of vitamins, minerals and medicines when required)
- c. Timely introduction of complementary foods (solid, semisolid or soft foods) after the age of six months i. e 180 days.
- d. Continued breastfeeding for 2 years or beyond
- e. Age appropriate complementary feeding for children 6-23 months, while continuing breastfeeding. Children should receive food from 4 or more food groups [(1) Grains, roots and tubers, legumes and nuts; (2) dairy products ; (3) flesh foods (meat fish, poultry); (4) eggs, (5) vitamin A rich fruits and vegetables; (6) other fruits and vegetables] and fed for a minimum number of times (2 times for breastfed infants 6-8 months; 3 times for breastfed children 9-23 months; 4 times for non-breastfed children 6-23 months)
- f. Active feeding for Children during and after illness.
