## **Intention & Inspiration behind 'Principal's Diary',**

**Dear readers,**

During my career spanning more than 32 years, as the Editor of the College Magazines, as Principal, as Dean & while recording the history of Bharati Vidyapeeth as a member of the Golden Jubilee issue of 'Suvarn-Bharati', for several times I felt the need of proper & precisely maintained RECORD which is the backbone of any institution or the mirror image of their contribution. Many times, I needed photographs, details, met people who witnessed the events, newspapers cuttings & what not? Moreover, while pursuing Ph. D under the able guidance of my mentor Late Professor (Dr) P. A. Attar, he made me to go through the ways the Anglo-Indian writers, British historians & warriors, kept and maintained the diaries. Since then I have developed a profound fascination for the black-and-white pages of history. These pages bear the footprints of the past, gradually turning yellowish with time. The smell of old books, the year-old on them, the pages folded for years, and the fonts used by the press of that era all captivate me deeply. The zero error proof & printing culture when no sources were available to the people & scholars engaged in such noble profession. These diaries have recorded several important days in the history of British India with all minute details & meticulous observations not only of a particular day but even recording the development of each hour while recording the happenings of Wars, pandemics-diseases, rains, famine, disasters, floods & environmental changes as well as Socio-political events of great significance.

The generations of British fought the wars during the day & after returning to their camps recorded their performances at night by narrating the stories of war & the way they fought it. It was not only the stories of bravery but also the stories of their mistakes & failures. This art of keeping the records helped future generations of the British soldiers to learn & unlearn from their past mistakes & which eventually made the British conqueror of the lands. Dear friends, we all also work & work all time but do we keep the record of it? The answer is no or seldom do we do so. So let's do it.

Keeping such a record is extremely important & it needs someone to spend hours on the same. However, for any institution these photographic records have their own significance in the history of any institution. These issues have to be published in the form of diary record everyday events in the life of an institution & it has its own importance when future generations need the data; which is properly recorded. Such data, available through the employees, has its own limitations such as memory, interpretation skill & their ability of understanding.

Following the conventional University manual prepared by the NAAC, the BVDU has gone through the events of Accreditations & reaccreditations for three times respectively in 2004, 2011, 2017 & now ready for the IVth Cycle of Accreditation any time around Sept / Oct 2024. (The final NAAC visit dates are yet to be confirmed). All the units submitted the IQARs properly in the given time, however, Dr. Vivek Saoji, Hon'ble Vice Chancellor decided to go for the IV Cycle by using NAAC's 'Health University Manual'. The data needed to be rearranged but at many places the staff had retired, many were newly recruited & did not have the precise information available to complete the task. The issues of Principal's Diary are just to serve the same purpose. However, it needs some serious attention, understanding & cooperation of all.

**Care to be taken regarding YMC Activities Report: Action to be taken:**

- Spare a few minutes to record your own / dept contribution & send it to ymc@bharatvidyapeeth.edu & ymc.data@bharatvidyapeeth.edu without fail & on the same day.
- Kindly go through the May to July issue at first
- We are keeping up everyday event photographic record of events, participation & achievements of both teaching & non-teaching staff
- It should be treated as "Database" for further re-accreditations covering all essential details & to be used by anyone who needs the same.
- For quality issue of the Activity Report, please provide: Quality images, photos, properly scanned docs, logos, group activity, action photos.
- For every activity, take both "Geo-tag & Regular Photos too" (Geo-tag photos are of no use for presentation & printing as the information hides almost 35% of the original images.
- Rename the photo files properly
- Write self-explanatory 'Subject line for email': for example, (Date of the Activity, Dept of / Committee Name) Activity Name
- Do it on the same day

While working with Bharati Vidyapeeth, it's possible to undertake such innovative things where Honourable Secretary Dr. Vishwajit Kadam stands firmly behind the Principal & supports such ideas & innovations. I am personally grateful to him for granting such permissions to have such endeavors. While working with Prin. Dr. K. D. Jadhav Sir, he always urged for such an issue where events can be recorded at the regular interval of time. I am also indebted to him for giving me an opportunity to work on some unconventional & uncommon projects. We propose to publish these issues quarterly.

Let me also thank Dr. G. V. Mali, who has been the Vice Principal; NEP Nodal Officer & Coordinator for IQAC, as well as Vice Principal Dr. S. S. Patil, Mr. V. V. Adsul & the Heads of various departments, who contributed as the foundations because of which the maiden issue has come out without any planning & within the record time of three days. I am also grateful to Mr. Khalil Shaikh, Mr. Manik Kale & BV Press people for giving priority to the making of the maiden issue of Activities Report.

The Committee Members of BV & BVDU Activity report will add their own ideas to have better versions of the reports with all innovations & will certainly add glory of the past to the future years. I hope the initiative will have its own importance for the generations of tomorrow!
