Activity Report

COMMUNICATION ENHANCEMENT PROGRAMME FOR THE STUDENTS

Objectives of the Practice:

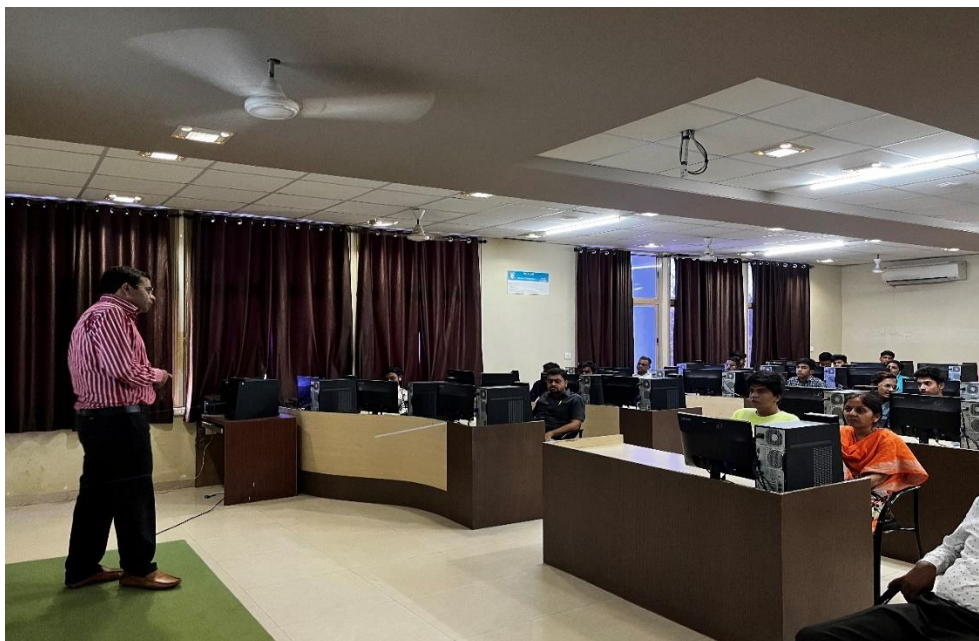

- To enhance the communication skills amongst the new entrants at the beginning of academic session.
- To boost the confidence amongst the students to be effective during their tenure

Students who are admitted in our institute for all courses are found very weak in English language. It is becoming very difficult to explain managerial and computer applications in local language. so we thought of that to conduct Communication enhancement program for all students.

So every year we conduct English Commination program for students.

In this practice, we take all the basics of English language. We train them English language with the help of regional language. The students find it easy to learn communication in English. Few of the students find it very difficult initially but after few days of learning they become fearless and attempt to speak in English.

After successful completion of the program ,We found students gets satisfied and get motivated .
