Remedial Teaching

All are well aware, the ongoing pandemic has significantly disrupted the education sector and has taken a toll on the physical and mental health of the student and teacher community. To address the issue, a wellness gesture of Remedial Teaching program was conducted for the University Exam going students about a fortnight before their exam.

As per published time table of Remedial Teaching for II, III, IV B.H.M.S. (Ac Yr 2020- 2021) remedial classes were conducted batch wise for University Exam appearing subjects.

II B.H.M.S. – From 30th June 2021 to 3rd July 2021 – 4 days.

III BHMS - From 5th June 2021 to 7th June 2021. – 3 days.

IV BHMS- From 29 June 2021 to 05th June 2021. – 5 days.

Time: 10.00 am to 1.00 pm

Work done during Remedial Teaching by each year as -

- Theoretical difficulties about the subject solving by discussion in class.
- Question bank Clarification
- Practical examination discussion
- Practical spotting, specimen demonstration.
- Revision of Comparison of drugs by HMM department.
- Guidance regarding writing of therapeutics.
- Guidance regarding writing theory paper and its time management
- Journal checking and Journal Certification.
- Acute and Chronic Case Taking revision
- All queries were resolved by one to one interaction with students.

Students given their Feedback about Remedial Teaching through feedback form as-

- It's totally worth as all need revision of subject, because of COVID pandemic scenario we tend to forget the imp topics of our subject. So such class increases our confidence and are very helpful before exams. Thank you. Should be continued to be taken before exams, as it's very helpful, and increases our confidence.

- They thanked specially Dr. (Mrs.) T. A. Khan Madam, I/C Principal for planning such Remedial Teaching activity as it was needed most because topics which were taught online, was better understood by actual interaction. This offline teaching was actually needed for revision purpose and very helpful too.
- Students felt it was good experience to meet offline. All the difficulties and doubts were cleared. It is a therapy which utilizes special teaching strategies for students with different types of learning difficulties.
- Remedial teaching is very helpful to improve our studies, portion is revised and difficulties are solved.
- Remedial teaching should be conducted every year. It really helps student's performance.
- It should be taken before every exam! It is helpful.
- We suggest it should be continued because in last minute we students get confused, so it is really helpful that we get to know again, how we must write our answer papers, and improve our learning.
